Bill:

I received your voice mail message. Thank you so much. **Since the substantive change in .0502 is not critical or time-sensitive I am going to request to extend the period of review.** I do, however, want to proceed with the amendment to .0202 and the repeal of .0208.

Regarding your Request as to .0202, line 11, like most classes on technical, mechanical issues, this course is in segments. Would it satisfy the objection to add the sentence: "Equivalency shall be determined by comparing each segment of the training to ensure that the alternative course encompasses all segments of the ESA course." ?

Jeff

Subject: Alarm Systems Licensing Board (ASLB)

Good afternoon,

Attached please find the request for changes for the rules adopted by the ASLB which will be on the January Rules Review Commission agenda.

As I am sure you are aware, merely answering the questions in response without a corresponding change in the rule rarely fixes the problem.

Also, please note that while the RRC received the Submission for Permanent Rule form, it did not receive rule 14B NCAC 17 .0208. I understand this is a repeal. Nevertheless a properly formatted timely submitted rule draft is required.

As always if you have any questions please feel free to contact me.
