

REQUEST FOR CHANGES PURSUANT TO G.S. 150B-21.10

AGENCY: N.C. Board of Examiners for Engineers and Surveyors

RULE CITATION: 21 NCAC 56 .0501

DEADLINE FOR RECEIPT: January 13, 2026

PLEASE NOTE: *This request may extend to several pages. Please be sure you have reached the end of the document.*

The Rules Review Commission staff has completed its review of this Rule prior to the Commission's next meeting. The Commission has not yet reviewed this Rule and therefore there has not been a determination as to whether the Rule will be approved. You may email the reviewing attorney to inquire concerning the staff recommendation.

In reviewing this Rule, the staff recommends the following changes be made:

In (a), line 5, why is “Certain” capitalized? Is it defined elsewhere?

Line 6, consider replacing “concerning” with “describing” if appropriate.

Lines 18-19, Is there a necessary threshold or standard applied to “technical courses that contain(s) engineering or scientific principles? What is considered a “technical course”? How many courses or hours must “contain engineering or scientific principles” to qualify?

Line 19, consider replacing “This” with “The curriculum”.

Line 27, spell out “NCEES” the first time used. Just move it from line 30 to 27.

Lines 27-28, please incorporate the standard by reference if your agency intends to enforce it. If not, I’m satisfied with how it’s currently cited.

Page 2, lines 20-21, “of a professional grade and character, and shall be performed” was published in the Register but is stricken here. Also, lines 23-24, “The Board” through “experience” was not published but is now in the Rule. How does this not constitute a substantial change under 150B-21.2(g)?

Line 35, consider replacing “show” with “demonstrate” and “assumption” with “progression”.

Page 3, lines 6 and 9, please clarify what “one year” and “two years” means in this context.

Line 24, consider adding “the” prior to “for” and adding “qualification” after “practice”.

Travis C. Wiggs

Commission Counsel

Submitted to agency: December 29, 2025

Please retype the rule accordingly and resubmit it to our office at 1711 New Hope Church Road, Raleigh, North Carolina 27609.

Travis C. Wiggs
Commission Counsel
Submitted to agency: December 29, 2025

1 21 NCAC 56 .0501 is amended with changes as published in 40:04 NCR 441-43 as follows:

2

3 **21 NCAC 56 .0501 REQUIREMENTS FOR LICENSING**

4 (a) Education. Pursuant to G.S. 89C-13, The the Board shall consider the education of an applicant in determining
5 eligibility for licensing certification as an Engineer Intern or licensure as a Professional Engineer. The Certain terms
6 used by the Board for concerning the educational requirements found in G.S. 89C-13(a) G.S. 89C-13 to be eligible
7 to be licensed as a Professional Engineer are defined as follows:

8 (1) "Engineering curriculum of four or more years approved by the Board" is defined as "An
9 EAC/ABET accredited program" is a program that has been accredited by the Engineering
10 Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology
11 (ABET). This program is incorporated by reference including subsequent amendments and editions.
12 This material is available at www.abet.org/accreditation criteria policies documents/ at no cost, or
13 for inspection at the office of the North Carolina Board of Examiners for Engineers and Surveyors.
14 Copies may be obtained at the Board office at a cost of five dollars (\$5.00) per copy. A list of
15 accredited programs can be found on ABET's website at https://www.abet.org.

16 (2) "Engineering or related science curriculum of four or more years other than ones approved by the
17 Board" is defined as "An engineering curriculum or related science curriculum of four years or
18 more" is a curriculum, although not accredited by ABET, of technical courses that contains
19 engineering or scientific principles. This also includes a bachelor's degree in engineering
20 technology, whether or not accredited by the Engineering Technology Accreditation Commission
21 (ETAC) of ABET.

22 (3) "A master's degree in engineering from an institution that offers EAC/ABET accredited programs"
23 and "an earned doctoral degree in engineering from an institution that offers EAC/ABET accredited
24 programs" are graduate degrees in engineering from an institution which offers EAC/ABET
25 accredited undergraduate programs.

26 (4) Educational programs "approved by the Board as being of satisfactory standing" include foreign
27 degrees equivalent to the NCEES Engineering Education Standard. A copy of the applicable
28 standard is available at https://nkees.org/nkees-services/credentials-evaluations/. Foreign degrees
29 shall be considered substantially equivalent only after the Board obtains an evaluation report from
30 the Credentials Evaluations Service of the National Council of Examiners for Engineering and
31 Surveying (NCEES) evaluating the foreign degree.

32 (3) "Equivalent education satisfactory to the board" is defined as:

33 (A) A graduate degree in Engineering from an institution where the same discipline
34 undergraduate engineering program has been accredited by ABET (EAC) shall be
35 considered equivalent to an engineering curriculum of four or more years approved by the
36 Board.

(B) A bachelor's degree in Engineering Technology, whether or not accredited by the Technology Accreditation Commission (TAC) of ABET, shall be considered equivalent to an engineering or related science curriculum of four or more years other than one approved by the Board.

(C) Foreign degrees shall be considered equivalent only after receipt of an evaluation report that the degree is substantially equivalent to an EAC/ABET accredited engineering curriculum from the Center for Professional Engineering Education Services, an affiliate of the National Council of Examiners for Engineering and Surveying (NCEES), or from the American Association of Collegiate Registrars and Admissions Officers (AACRAO). The Board shall equate the degree to an EAC/ABET accredited engineering curriculum of four or more years approved by the Board in Subparagraph (a)(1) of this Rule if it receives a substantially equivalent evaluation.

(b) Experience. Pursuant to G.S. 89C-13, The the Board shall consider the experience of an applicant shall be considered in determining eligibility for certification as an Engineer Intern or licensure whether an applicant is eligible to be licensed as a Professional Engineer.

(1) Required Experience. In evaluating ~~the work experience required, experience~~, the Board shall consider ~~the~~ an applicant's total experience record and ~~the~~ its progressive ~~nature of the record~~ nature. Experience shall be of a progressive engineering nature obtained after graduation from a program that meets the criteria set forth in G.S. 89C-13 and defined in Paragraph (a) of this Rule. Not less than half of required engineering experience shall be ~~of a professional grade and character, and shall be performed~~ gained under the responsible charge of a licensed Professional Engineer, or if not, the applicant shall submit a written explanation to the Board explaining why the experience should be considered acceptable. The Board shall approve the experience on a case by case basis if it is satisfied of the grade and character of the progressive experience. Experience gained under the technical supervision of an unlicensed individual shall be considered based upon the engineering education and experience credentials of the unlicensed supervisor. Experience gained in the armed services, typically while serving in an engineering or engineering related group, shall be accepted only if substantially equivalent to civilian work.

(2) Definition. The word "progressive" in the terms "progressive nature of the record," "progressive engineering experience," "progressive land surveying," "progressive engineering nature," or "progressive experience on engineering projects" "Progressive experience" means requires that during the period of time provided as experience, that an applicant made a practical utilization of acquired knowledge and demonstrated continuous improvement, growth, and development have been shown in the utilization of that knowledge as revealed in the complexity and technical detail of the work product or work record. The applicant shall show continuous assumption of greater individual responsibility for the work product over that period of time. The progressive experience

1 on engineering projects shall ~~be of a grade and a character~~ demonstrate an increasing quality and
2 responsibility that shows the Board that the applicant is competent to practice engineering.

3 (3) Credit for Experience. In evaluating progressive engineering experience, the Board shall give credit
4 for experience in the following areas of work:

5 (A) Graduate schooling or research in an engineering program resulting in award of a master's
6 degree from an institution that offers EAC/ABET-accredited programs – one year;
7 (B) Graduate schooling or research in an engineering program resulting in award of an earned
8 doctoral degree in engineering from an institution that offers EAC/ABET-accredited
9 programs – two years, with or without a master's degree, but this includes the one year for
10 the master's degree, if obtained;
11 (C) Progressive land surveying - maximum two years; and
12 (D) Teaching of engineering subjects at the university level in an engineering program offering
13 a four-year or more degree approved by the Board.

14 The Board shall not accept combinations of the categories in this Subparagraph as fulfilling all the necessary statutory
15 experience requirements. ~~Every applicant for licensure as a Professional Engineer, as part of the total experience~~
16 ~~requirement, shall show a minimum of one year experience of a progressive engineering nature in industry,~~
17 ~~government, or under a licensed Professional Engineer offering service to the public.~~

18 ~~Full time engineering faculty members who teach in an engineering program offering a four year or more degree~~
19 ~~approved by the Board may request and shall be granted waiver of the minimum one year experience in industry,~~
20 ~~government, or private practice if they demonstrate consulting or research work of at least one year's duration, which~~
21 ~~was pursued to completion of the project, and that is of a progressive engineering nature. The faculty applicant shall~~
22 ~~document the work to evidence that the work meets the Board's requirement.~~

23 (4) An exception to the requirement in Subparagraph (b)(1) of this Rule that experience be obtained
24 after graduation is for long-established practice of 20 years or more, as provided for in G.S. 89C-
25 13(a3).

26 (5) Other experience is considered if it is:

27 (A) Experience obtained prior to graduation as part of an ABET accredited engineering
28 program shown on the transcript, with a maximum credit of one year; or
29 (B) Experience obtained in a foreign country that is performed under direct supervision of a
30 Professional Engineer licensed with a member Board of the National Council of Examiners
31 for Engineering and Surveying (NCEES).
