02 NCAC 09L .0503 is amended as published in 38:23 NCR 1483-1486 as follows:

3	02 NCAC 09L .0503 PESTICIDE APPLICATORS
4	(a) The Commissioner shall require the licensing of at least one person at each business location who shall be
5	responsible for the application of pesticides for routine pest control situations.
6	(b) The person licensed as the pesticide applicator shall supervise and guide the activities of all personnel applying
7	pesticides from the business location of the licensee.
8	(c) ADOPTION BY REFERENCE: The North Carolina Pesticide Board hereby adopts by reference for all Pesticide
9	Applicators, Part 171.201 "Supervision of Noncertified Applicators", of Title 40: Protection of Environment of the
10	Code of Federal Regulations, titled "Certification of Pesticide Applicators Subpart B - Certification Requirements for
11	Applicators of Restricted Use Pesticides.", including subsequent amendments. Copies of this material may be obtained
12	at no cost from the U.S. Government Printing Office website, www.gpoaccess.gov/cfr/index.html.
13	(d) The requirements for direct supervision of noncertified applicators by pesticide applicators are as follows:
14	(1) The requirements for the supervising pesticide applicator:
15	(A) the supervising pesticide applicator must have a practical knowledge of applicable federal
16	state and tribal supervisory requirements, including any requirements on the product labe
17	and labeling, regarding the use of said pesticide by noncertified applicators; and
18	(B) the supervising pesticide applicator must be certified in each category as set forth in 02
19	NCAC 09L .0505 applicable to the supervised pesticide use.
20	(2) Requirements for the noncertified applicator include that the supervising pesticide applicator mus
21	ensure that each noncertified applicator using any pesticide under his or her direct supervision meet
22	all of the following requirements before using any pesticide.
23	(A) The non-certified applicator has satisfied the qualification requirements under Paragraph
24	(e) of this Rule, including the following: the noncertified applicator has been instructed
25	within the last 12 months in the safe operation of any equipment he or she will use for
26	mixing, loading, transferring, or applying pesticides; and the noncertified applicator has
27	met the minimum age required to use pesticides under the supervision of a pesticide
28	applicator, as well as that a noncertified applicator must be at least 18 years old.
29	(3) Use-specific conditions that must be met for a noncertified applicator to use any pesticide. The
30	supervising pesticide applicator must ensure that all the following requirements are met before
31	allowing a noncertified applicator to use any pesticide under his or her direct supervision.
32	(A) The supervising pesticide applicator must ensure that the noncertified applicator has access
33	to the applicable product labeling at all times during its use.
34	(B) Where the labeling of a pesticide product requires that personal protective equipment be
35	worn for mixing, loading, application, or any other use activities, the supervising pesticide
36	applicator must ensure that any noncertified applicator has clean, labeling-required

1		personal protective equipment in proper operating condition and that the personal
2		protective equipment is worn and used correctly for its intended purpose.
3	(C)	The supervising pesticide applicator must provide to each noncertified applicator
4		instructions specific to the site and pesticide used, and these instructions must include
5		labeling directions, precautions, and requirements applicable to the specific use and site,
6		and how the characteristics of the use site (e.g., surface and ground water, endangered
7		species, local population) and the conditions of application (e.g., equipment, method of
8		application, formulation) might increase or decrease the risk of adverse effects, as well as
9		that the supervising pesticide applicator must provide this information in a manner that the
10		noncertified applicator can understand.
11	<u>(D)</u>	The supervising pesticide applicator must ensure that before each day of use, equipment
12		used for mixing, loading, transferring, or applying pesticides is in proper operating
13		condition as intended by the manufacturer and can be used without risk of reasonably
14		foreseeable adverse effects to the noncertified applicator, other persons, or the
15		environment.
16	<u>(E)</u>	The supervising pesticide applicator must ensure that a means to immediately communicate
17		with the supervising pesticide applicator is available to each noncertified applicator using
18		any pesticide under his or her direct supervision.
19	<u>(F)</u>	The supervising pesticide applicator must be physically present at the site of the use being
20		supervised when required by the product labeling.
21	<u>(G)</u>	The supervising pesticide applicator must create and verify the existence of the records
22		required by Paragraph (g) of this Rule of the qualification method being
23		completed/verified.
24	(e) Before any noncert	tified applicator uses any pesticide under the direct supervision of a pesticide applicator, the
25	supervising pesticide a	applicator must ensure that the noncertified applicator has met at least one of the following
26	qualifications:	
27	<u>(1) the n</u>	oncertified applicator has been trained in accordance with Paragraph (f) of this Rule within the
28	<u>last 1</u>	2 months:
29	<u>(2) the n</u>	oncertified applicator has met training requirements for an agricultural handler under 40 CFR
30	<u>170.</u>	501 within the last 12 months;
31	<u>(3) the n</u>	oncertified applicator has met the requirements established by a certifying authority that meet
32	<u>or ex</u>	ceed the standards in Subparagraph (f)(3) of this Rule; or
33	<u>(4) the n</u>	oncertified applicator is currently a certified applicator but is not certified to perform the type
34	<u>of ap</u>	plication being conducted or is not certified in North Carolina.
35	(f) Guidelines for the n	oncertified applicator training program and their subsections shall be detailed as follows.
36	<u>(1)</u> Gene	eral noncertified applicator training must be presented to noncertified applicators orally from
37	writt	en materials or audio visually. The information must be presented in a manner that the

1		noncertified applicators can understand. The person conducting the training must be present during
2		the entire training program and must respond to the noncertified applicators' questions.
3	(2)	The person who conducts the training must meet one of the following criteria:
4		(A) be currently certified as a pesticide applicator;
5		(B) be currently designated as a trainer of certified applicators or pesticide handlers by EPA.
6		the certifying authority, or a state, tribal, or federal agency having jurisdiction; or
7		(C) have completed an EPA-approved pesticide safety train-the-trainer program for trainers of
8		handlers under 40 CFR part 170.
9	(3)	The noncertified applicator training materials must include information on how the noncertified
10		applicators can protect themselves, other people, and the environment before, during and after
11		making a pesticide application. The noncertified applicator training materials must include, at a
12		minimum, the following:
13		(A) potential hazards from toxicity and exposure that pesticides present to noncertified
14		applicators and their families, including acute and chronic effects, delayed effects, and
15		sensitization;
16		(B) routes through which pesticides can enter the body;
17		(C) signs and symptoms of common types of pesticide poisonings;
18		(D) emergency first aid for pesticide injuries or poisonings;
19		(E) routine and emergency decontamination procedures, including emergency eye flushing
20		techniques, including that noncertified applicators must be instructed that if pesticides are
21		spilled or sprayed on the body, to immediately wash or to rinse off in the nearest
22		appropriate location with clean water, and that noncertified applicators must also be
23		instructed to wash or shower with soap and water, shampoo hair, and change into clean
24		clothes as soon as possible;
25		(F) how and when to obtain emergency medical care;
26		(G) after working with pesticides, to wash hands before eating, drinking, using chewing gum
27		or tobacco, or using the toilet;
28		(H) wash or shower with soap and water, shampoo hair and change into clean clothes as soon
29		as possible after working with pesticides;
30		(I) potential hazards from pesticide residues on clothing:
31		(J) wash clothes worn while working with pesticides before wearing them again and wash
32		them separately from other clothes;
33		(K) do not take pesticides or pesticide containers used at work to your home;
34		(L) potential hazards to children and pregnant women from pesticide exposure;
35		(M) remove work boots or shoes worn during a pesticide application before entering your home,
36		and remove work clothes worn during a pesticide application and wash or shower before
37		physical contact with children or family members;

1	(N)	how to report suspected pesticide use violations to the appropriate state or tribal agency
2	<u>()</u>	responsible for pesticide enforcement;
3	<u>(O)</u>	format and meaning of information contained on pesticide labels and in labeling applicable
4	<u>(0)</u>	to the safe use of the pesticide, including the location and meaning of the restricted use
5		product statement, how to identify when the labeling requires the licensed applicator to be
6		physically present during the use of the pesticide and information on personal protective
7		equipment:
8	(P)	need for, and appropriate use and removal of, personal protective equipment;
9	<u>(Q)</u>	how to recognize, prevent, and provide first aid treatment for heat-related illness;
10	<u>(R)</u>	safety requirements for handling, transporting, storing, and disposing of pesticides,
11	<u>(IC)</u>	including general procedures for spill cleanup;
12	(S)	environmental concerns such as drift, runoff, and wildlife hazards;
12	(T)	restricted use pesticides may be used only by a pesticide applicator or by a noncertified
14	<u>(1)</u>	applicator working under the direct supervision of a pesticide applicator;
15	(U)	the supervising pesticide applicator must be present at the site only when required by the
16	<u>(0)</u>	product labeling;
17	(V)	the supervising pesticide applicator's responsibility to provide to each noncertified
18	<u>( • )</u>	applicator instructions specific to the site and pesticide used, and that these instructions
19		must include labeling directions, precautions, and requirements applicable to the specific
20		use and site and how the characteristics of the use site (e.g., surface and ground water,
20		endangered species, local population, and risks) and the conditions of application (e.g.,
22		equipment, method of application, formulation, and risk of adverse effects), and these
23		instructions must be provided by the supervising pesticide applicator in a manner the
24		noncertified applicator can understand;
25	(W)	the supervising pesticide applicator's responsibility to ensure that each noncertified
26	<u>(</u> )	applicator has access to the applicable product labeling at all times during its use;
27	<u>(X)</u>	the supervising pesticide applicator's responsibility to ensure that where the labeling of a
28	×/	pesticide product requires that personal protective equipment be worn for mixing, loading,
29		application, or any other use activities, each noncertified applicator has clean, labeling
30		required personal protective equipment in proper operating condition and that the personal
31		protective equipment is worn and used correctly for its intended purpose;
32	<u>(Y)</u>	the supervising pesticide applicator's responsibility to ensure that before each day of use,
33	· ·	equipment used for mixing, loading, transferring, or applying pesticides is in proper
34		operating condition as intended by the manufacturer, and can be used without risk of
35		reasonably foreseeable adverse effects to the noncertified applicator, other persons or the
36		environment; and

1		(Z) the supervising pesticide applicator's responsibility to ensure that a means to immediately
2		communicate with the supervising pesticide applicator is available to each noncertified
3		applicator using any pesticide under his or her direct supervision.
4	(g) All applicato	ors must adhere to the provisions of recordkeeping as outlined in the following section and
5	subsection.	
6	(1)	Before allowing a noncertified applicator to make any pesticide application under their direct
7		supervision, the supervising pesticide applicator must create or verify the existence of records
8		documenting that each noncertified applicator has the qualifications required in paragraph (e) of
9		this section. For each noncertified applicator, the records must contain the information
10		appropriate to the method of qualification.
11		(A) If the noncertified applicator was trained in accordance with Paragraph (e) (1) of
12		this Rule, the record must contain all of the following information: the
13		noncertified applicator's printed name and signature; the date the training
14		requirement in Paragraph (d) of this Rule was met; the name of the person who
15		provided the training; and the title or a description of the training provided.
16		(B) If the noncertified applicator was trained as an agricultural handler under 40 CFR
17		170.501 in accordance with Subparagraph (e)(2) of this Rule, the record must
18		contain all of the information required at 40 CFR 170.501 (d)(1).
19		(C) If the noncertified applicator qualified by satisfying the requirements established
20		by the certifying authority, as described in Subparagraph (e)(3) of this Rule, the
21		record must contain the information required by the certifying authority.
22		(D) If the noncertified applicator is an otherwise certified applicator who is not
23		certified to perform the type of application being conducted or not certified in the
24		jurisdiction where the use will take place, as described in Subparagraph (e)(4) of
25		this Rule, the record must include all of the following information: the
26		noncertified applicator's name; the noncertified applicator's certification number;
27		the expiration date of the noncertified applicator's certification; and the certifying
28		authority that issued the certification.
29	(2)	The supervising pesticide applicator must create or verify the existence of the record containing the
30		information in Subparagraph (g)(1) of this Rule before allowing the noncertified applicator to use
31		any pesticides under his or her direct supervision.
32	(h) The pesticid	le applicator supervising any noncertified applicator must have access to records documenting the
33	information requ	uired in Subparagraph (g)(1) of this Rule at the supervising pesticide applicator's principal place of
34	business for thre	ee years from the date the noncertified applicator uses the pesticide.
35

3	02 NCAC 09L .050	4 DEFINITIONS
4	The following defin	itions apply to Rules .0505, .0506, and .0507 of this Section:pesticide applicators:
5	(1) "4	Agricultural pest control":"Agricultural pest control" and it's subcategories shall apply to the
6	<u>fo</u>	llowing:
7	(a	) Plant. Includescrop pest control is the category applied to pesticide applicators using or
8		supervising the use of pesticides in production of agricultural crops, including tobacco,
9		peanuts, cotton, feed grains, soybeans and forage; vegetables; small fruits; tree fruits and nuts;
10		as well as on grasslands and non-crop agricultural lands; and
11	(b	Animal.livestock pest control is the category applied to Includes pesticide applicators using
12		or supervising the use of pesticides on animals, including, but not limited to, the foregoing,
13		beef cattle, dairy cattle, swine, sheep, horses, goats, poultry, and livestock, and to places
14		where animals are confined. Doctors of veterinary medicine engaged in the business of
15		applying pesticides for hire, publicly holding themselves out as pesticide applicators, or
16		engaged in large-scale use of pesticides are included in this category. The following
17		subcategories are defined as follows:
18		(i) livestock: this subcategory applies to the application of pesticides to domesticated
19		animals being raised as an agricultural commodity or for the purpose of producing
20		an ag commodity;
21		(ii) poultry: this subcategory applies to the application of pesticides to poultry or
22		poultry operations; and
23		(iii) small animal: this subcategory applies to the application of pesticides to pets or the
24		areas where they are confined.
25	(2) "H	Forest pest control" includesmeans the category of pesticide applicators using or supervising the use
26	of	f pesticides in forests, forest nurseries, and forest seed-producings areas.seed production.
27	(3) "O	Drnamental and turf pest control" includesmeans the category of pesticide applicators using or
28	su	pervising the use of pesticides to control pests in the maintenance and production of ornamental
29	tre	ees, shrubs, flowers, and turf.plants and turf.
30	(4) "5	Seed treatment" includes pesticide applicators using or supervising the use of pesticides on seeds.
31	<u>''</u> /	Aquatic pest control" means the category of pesticide applicators using or supervising the use of any
32	pe	esticide purposefully applied to standing or running water, excluding applicators engaged in public
33	he	ealth related activities included in Items (6) and (7) of this Rule.
34	(5) "4	Aquatic pest control" includes pesticide applicators using or supervising the use of any pesticide
35	in	tended to be applied to standing or running water, excluding applicators engaged in public health
36	re	lated activities included in Item (7) of this Rule. "Right-of-way pest control" means the
37	<u>ca</u>	ategory of pesticide applicators using or supervising the use of pesticides in the maintenance of
38	рі	ublic roads, electric powerlines, pipelines, railway rights-of-way, or other similar areas.
39		Right-of-way pest control" includes pesticide applicators using or supervising the use of pesticides
40		the maintenance of public roads, electric powerlines, pipelines, railway rights of way, or other
41		milar areas. "Public health pest control" means the category of state, tribal, federal, or other

02 NCAC 091 .0504 is amended as published in 38:23 NCR 1486-1488 as follows:

42		governmental employees and contractors using or supervising the use of pesticides in government
43		sponsored public health programs for the management and control of pests having medical and
44		public health importance.
45	(7)	"Public health pest control" includes primarily, but is not limited to, state, federal, or other
46		governmental employees using or supervising the use of pesticides in public health programs for the
47		management and control of pests having medical and public health importance. "Commercial Public
48		Health pest control" means the category of persons using or supervising the use of pesticides
49		commercially for the management and control of pests having medical and public health importance.
50	(8)	"Regulatory pest control" includesmeans the category of state, tribal, federal, or other governmental
51		employees who use or supervise the use of pesticides in government-sponsored programs forin the
52		control of regulated pests.
53	(9)	"Demonstration and research pest control" includes means the category of the following:
54		(a) persons who demonstrate to the public the use and techniques of application of pesticides or
55		supervise such demonstration, including extension specialists and county agents; commercial
56		representatives demonstrating pesticide products, and those persons demonstrating methods
57		used in public programs; and
58		(b) persons who use or supervise the use of pesticides while conducting field research with
59		pesticides. This includes state, federal, commercial, and other persons conducting field
60		research on or utilizing pesticides.
61	(10)	"Wood treatment" includes pesticide applicators using or supervising the use of restricted use
62		pesticides in wood preservation and wood products treatment. "Seed treatment" means the category
63		of pesticide applicators using or supervising the use of pesticides on seeds in seed treatment facilities.
64	(11)	"Soil and growing media fumigation pest control" includes individuals using or supervising the use of
65		any fumigant pesticide injected or applied to soils or growing media. This category excludes
66		fumigation of raw agricultural commodities and all structural fumigation such as:
67		<del>(a) boxears;</del>
68		(b) warehouses;
69		(c) tractor trailers; and
70		(d) grain bins.
71		"Wood treatment" means the category of individuals applying pesticides to wood products such as
72		crossties, poles, logs, shingles, posts or other wood products that are not part of a structure when
73		treated and are or will be exposed to insects, fungi, marine pests, or weather. This category does not
74		include treatment for the control of termites and other wood destroying organisms in houses or in an
75		area as pretreatment prior to the construction of a structure.
76	(12)	"Growing media" includes a substance or substances through which roots grow and extract water and
77		nutrients. "Soil and growing media fumigation pest control" means individuals using or supervising
78		the use of any fumigant pesticide injected or applied to soils or growing media. This category
79		excludes fumigation of raw agricultural commodities and all structural fumigation such as:
80		(a) boxcars;
81		(b) warehouses;
82		(c) tractor trailers; and

83		(d) grain bins.
84	(13)	"Aerial pest control" means the category of commercial applicators who use or supervise the use of
85		pesticides applied by fixed or rotary wing aircraft.
86	(14)	"Growing media" means a substance or substances through which roots grow and extract water and
87		nutrients.
88	(15)	"Noncertified applicator" means any person who does not meet the requirements set forth in 02
89		NCAC 9L .0503 to be a pesticide applicator, but who has met the requirements set forth in 02
90		NCAC 09L .0503(d)(2), and who is using a pesticide under the direct supervision of a pesticide
91		applicator in accordance with 02 NCAC 9L .0503(c).
92		
93	History Note:	Authority G.S. 143-452(d); 143-460(29); 40 C.F.R. 171.3;
94		Eff. February 1, 1976;
95		Amended Eff. June 1, 2016; November 1, 1984; August 1, 1982; October 27, 1979;
96		Readopted Eff. August 1, 2020

02 NCAC 09L .0505 is amended as published in 38:23 NCR 1488-1489 as follows:

## 3 02 NCAC 09L .0505 CLASSIFICATIONS

4 (a) ADOPTION BY REFERENCE: The North Carolina Pesticide Board hereby adopts by reference for all Pesticide

5 Applicators, Part 171.101 "Commercial applicator certification categories" of Title 40: Protection of Environment of

6 the Code of Federal Regulations, titled "Certification of Pesticide Applicators Subpart B-Certification Requirements

- 7 for Applicators of Restricted Use Pesticides," including subsequent amendments. Copies of this material may be
- 8 obtained at no cost from the U.S. Government Printing Office website, www.gpoaccess.gov/cfr/index.html. The
- 9 <u>following classifications shall apply in North Carolina:</u>
- 10
   (1)
   neither the sodium cyanide predator control nor the sodium fluoroacetate predator control categories

   11
   shall be created in North Carolina;
- 12 (2) additional classifications and their respective subclassifications not established by the federal 13 guidelines referenced in Paragraph (a) of this Rule that shall be created in North Carolina are as 14 follows:
- 15 (A) commercial public health pest control;

(B) wood treatment;

(C) livestock pest control, which shall include the subsections of livestock; poultry; and small animals.

## 19 (b) The following classifications and subclassifications shall apply to the licensing of pesticide applicators:

- 20 (1) pesticide applicators and public operators utilizing ground equipment:
- 21
   (A)(a)
   agricultural pest control:agricultural pest control, including the subsections of crop pest

   22
   control and livestock pest control (including further subcategories of livestock, poultry,

   23
   and small animals);
- $(\underline{B})(\underline{b}) \quad \text{forest pest control};$
- 25 (C)(c) ornamental and turf pest control;
- 26 (D)<del>(d)</del> aquatic pest control;
- 27 (E)(e) right-of-way pest control;
- 28 (F)(f) public health pest control;
- 29 (g) regulatory pest control;
- 30 (G) commercial public health pest control;
- 31 (h) demonstration and research pest control:
- 32 (i) agricultural pest control:
  - (A) plant; and
- 34 (B) animal;
- 35 (ii) forest pest control;
- 36 (iii) ornamental and turf pest control;
- 37 (iv) aquatic pest control;

1			(v) right of way pest control;
2			(vi) public health pest control;
3			(vii) regulatory pest control;
4			(viii) seed treatment;
5			(ix) wood treatment; and
6			(x) soil and growing media fumigation pest control;
7		<u>(H)</u>	regulatory pest control;
8		<del>(i)</del>	-seed treatment;
9		<u>(I)</u>	demonstration and research pest control, with the subsections of agricultural crop pest
10			control; agricultural livestock pest control (including further subcategories of livestock,
11			poultry, and small animals); forest pest control; ornamental and turf pest control; aquatic
12			pest control; right-of-way pest control; commercial public health pest control; public health
13			pest control; regulatory pest control; wood treatment; spoil and growing media fumigation
14			pest control; aerial pest control;
15		<del>(j)</del>	wood treatment; and
16		<u>(J)</u>	seed treatment;
17		<del>(k)</del>	-soil and growing media fumigation pest control;
18		<u>(K)</u>	wood treatment;
19		<u>(L)</u>	soil and growing media fumigation pest control;
20		<u>(M)</u>	aerial pest control;
21	(2)	pesticid	e applicators and public operators utilizing aerial equipment:
22		<u>(A)(a)</u>	agricultural pest control: plant;crop pest control;
23		<u>(B)</u> (b)	forest pest control;
24		<u>(C)(c)</u>	ornamental and turf pest control;
25		<u>(D)(d)</u>	aquatic pest control;
26		<u>(E)(e)</u>	right-of-way pest control;
27		<u>(F)(f)</u>	public health pest control;
28		<del>(g)</del>	regulatory pest control; and
29		<u>(G)</u>	commercial public health pest control;
30		<del>(h)</del>	demonstration and research pest control:
31			(i) agricultural pest control: plant;
32			(ii) forest pest control;
33			(iii) ornamental and turf pest control;
34			(iv) aquatic pest control;
35			(v) right of way pest control;
36			(vi) public health pest control; and
37			(vii) regulatory pest control.

1		(H) regulatory pest control;
2		(I) demonstration and research pest control, which shall include the subsections of agricultural
3		pest control; crop pest control; forest pest control; ornamental and turf pest control; aquatic
4		pest control; right-of-way pest control; regulatory pest control; public health pest control;
5		and aerial pest control;
6		(J) aerial pest control.

02 NCAC 09L .0506 is amended as published in 38:23 NCR 1489-1490 as follows:

3	02 NCAC 09L .0506		GOVERNMENTAL WORKERS
4	Persons in job classificat		tions in the government unit or agencies listed below are required to be licensed as public
5	operators:		
6	(1)	North	Carolina Department of Transportation, division of highway (14 divisions);
7	(2)	United	States Department of Agriculture, Animal and Plant Health Inspection Service:
8		(a)	staff specialist for witchweed control,
9		(b)	assistant district director,
10		(c)	work unit supervisors,
11		(d)	designated inspectors who supervise pesticide applications,
12		(e)	witchweed methods development laboratory supervisor,
13		(f)	witchweed methods development assistant laboratory supervisor;
14	(3)	North	Carolina Department of Agriculture and Consumer Services plant industry division:
15		(a)	plant pest administrator,
16		(b)	entomological program specialist,
17		(c)	plant pathologist,
18		(d)	greenhouse manager,
19		(e)	area supervisors,
20		(f)	pest control specialists,
21		(g)	all plant pest inspectors who have supervision of pesticide applications as part of their job
22			assignments;
23	(4)	North	Carolina Department of Environment, Health, and Natural Resources, Forest Resources
24		Divisio	on, Agriculture and Consumer Services, North Carolina Forest service staff, as outlined in
25		<u>their jo</u>	ob descriptions: pest control unit:
26		(a)	pest control foresters, foresters and forest technicians tasked with forest management duties
27			such as writing, reviewing and approving herbicide application recommendations,
28		(b)	pest control staff forester, forest health program head and staff;
29		(c)	nursery unit superintendents, nursery program managers, technicians, and equipment
30			operators; and
31		<u>(d)</u>	tree improvement unit technicians, tree improvement program supervisors, technicians, and
32			equipment operators.
33		<del>(e)</del>	- forestation unit rangers;
34	(5)	North	Carolina Department of Environment, Health, and Natural Resources, Public Health Pest
35		Manag	gement Section, Division of Environmental Health one medical entomologist;
36	(5)	Count	boards of health and municipal governments:

1		(a) in counties where the health department employees apply all the pesticides or supervise,
2		on a weekly or more frequent basis, the activities of all municipal employees applying
3		pesticides, at least one county environmental health specialist must be licensed;
4		(b) one county environmental health specialist and one municipal employee for each
5		municipality must be licensed in counties where the health department personnel apply
6		pesticides but have no direct control over municipal employees who apply pesticides; and
7		(c) one licensed supervisor for each municipality, sanitary district or mosquito control district
8		must be licensed in counties where only municipal, sanitary district or mosquito control
9		district personnel apply pesticides.
10	(6)	County boards of health and municipal governments:
11		(a) In counties where the health department employees apply all the pesticides or supervise,
12		on a weekly or more frequent basis, the activities of all municipal employees applying
13		pesticides, at least one county sanitarian must be licensed.
14		(b) One county sanitarian and one municipal employee for each municipality must be licensed
15		in counties where the health department personnel apply pesticides but have no direct
16		control over municipal employees who apply pesticides.
17		(c) One licensed supervisor for each municipality, sanitary district or mosquito control district
18		must be licensed in counties where only municipal, sanitary district or mosquito control
19		district personnel apply pesticides.

# 3 02 NCAC 09L .0522

### 02 NCAC 09L .0522 RECERTIFICATION OPTIONS

4 (a) Pesticide applicators, public operators, and pest control consultants may be recertified by completion of approved 5 continuing certification credit requirements in the pest control category in which the individual is certified and desires 6 to retain certification. A "continuing certification credit" is defined as one hour of approved continuing certification 7 training. Continuing certification training shall be approved by the Board based upon the US Environmental Protection 8 Agency "Standards for certification of commercial applicators," as contained in 40 CFR 171.103, and "Standards for 9 recertification of certified applicators," as contained in 40 CFR 171.107. Such training may consist of grower 10 meetings, seminars, short courses, or other presentations taught by extension pesticide personnel, or other privately or 11 publicly sponsored training organizations approved by the Board. Continuing certification requirements for each pest 12 control category are as follows:

13	(1) aquatic 6 credits per 5 yea	<del>ar period</del>
14	(1) agricultural pest control – crop pest control	10 credits per 5-year period;
15	(2) public health 6 credits per 5 yea	ar period
16	(2) agricultural pest control – livestock pest control	6 credits per 5-year period;
17	(3) forest 6 credits per 5 yea	ar period
18	(3) forest pest control	6 credits per 5-year period;
19	(4) right of way 4 credits per 5 yea	<del>ar period</del>
20	(4) ornamental and turf pest control	10 credits per 5-year period;
21	(5) regulatory 6 credits per 5 yea	ar period
22	(5) aquatic pest control	6 credits per 5-year period;
23	(6) ag pest animal 6 credits per 5 yea	<del>ar period</del>
24	(6) right of way pest control	4 credits per 5-year period;
25	(7) ornamental and turf 10 credits per 5 ye	ear period
26	(7) public health pest control	6 credits per 5-year period;
27	(8) seed treatment 3 credits per 5 yea	ar period
28	(8) commercial public health pest control	6 credits per 5-year period;
29	(9) ag pest plant 10 credits per 5 y	ear period
30	(9) regulatory pest control	6 credits per 5-year period;
31	(10) demonstration and research 10 credits per 5 year period	<del>od</del>
32	(10) demonstration and research pest control	10 credits per 5-year period;
33	The continuing certification credits required for demonstration	and research may consist of any combination
34	of credits divided between training in the primary categories se	et forth in Subparagraph (a)(1) through (a)(9)
35	and (a)(11) through (a)(14) of this Rule and training in demons	stration and research.
36	(11) aerial 4 credits per 2 yea	<del>ar period</del>

1	The Continuing Certification Credits required for aerial applicators shall include one credit obtair	red through
2	training in aerial methods.	
3	(11) seed treatment 3 credits per 5-year period;	
4	(12) wood treatment 4 credits per 5 year period	
5	(12) wood treatment 4 credits per 5-year period;	
6	(13) soil and growing media fumigation 3 credits per 5 year period	
7	(13) soil and growing media fumigation 3 credits per 5-year period; and	
8	(14) aerial 4 credits per 5-year period.	
9	The Continuing Certification Credits required for aerial applicators shall include one credit obtained through	<u>igh training</u>
10	aerial methods. The Continuing Certification Credits established for each ground application pest contra	ol category
11	shall be obtained in at least two years of the five-year period.	
12	(b) Pesticide applicators, public operators, and pest control consultants may be recertified by passing	g a written
13	comprehensive examination administered by North Carolina Department of Agriculture and Consume	er Services
14	personnel and based on training materials that have been approved by the Board.	
15		
16	History Note: Authority G.S. 143-437(1); 143-440(b); 143-453(c)(2); 143-455(d);	
17	Eff. September 10, 1980;	
18	Amended Eff. June 1, 2016; November 1, 1984;	
19	Readopted Eff. August 1, 2020.

02 NCAC 09L	.0531 is add	pted as publish	hed in 38:23 NCI	R 1491-1492 as follows:

2 3

02 NCAC 09L .0531 PESTICIDE LICENSE EXAMINATION REQUIREMENT
---

- 4 (a) ADOPTION BY REFERENCE: The North Carolina Pesticide Board, hereby adopts by reference for all Pesticide
- 5 Applicators, Part 171.103 (a) through (e) "Standards for certification of commercial applicators" of Title 40:
- 6 Protection of Environment of the Code of Federal Regulations, titled "Certification of Pesticide Applicators Subpart
- 7 <u>B-Certification Requirements for Applicators of Restricted Use Pesticides" including subsequent amendments.</u>
- 8 Copies of this material may be obtained at no cost from the U.S. Government Printing Office website,
- 9 <u>www.gpoaccess.gov/cfr/index.html.</u>

10 (b) Core requirements as described in 40 CFR 171.103 must be met for all categories and subcategories.

- 11 (c) The competency standards for additional categories established in North Carolina are as follows:
- (1) commercial public health pest control: applicators must demonstrate practical knowledge of pests
   that are important vectors of disease, including recognizing the pests and signs of their presence,
   their habitats, their life cycles, biology and behavior as it may be relevant to problem identification
   and control, as well as the required knowledge on how to minimize damage to and contamination
  - of areas treated, acute and chronic exposure of people and pets, and non-target exposures;
- 17(2)wood treatment: applicators must demonstrate a practical knowledge of the different types of18wood, tree anatomy and physiology and be able to identify what treatment factors are specific to19each, as well as common disease and insect problems and factors, such as moisture, that must be20considered prior to beginning a treatment, and knowledge of the different types of wood21preservatives, as well as the specific PPE requirements and cautions associated with each, proper
- 22 <u>disposal of treated and unused wood;</u>
- 23 (3) livestock pest control and it's subcategories are established as follows:
- 24 livestock: applicators must demonstrate practical knowledge of the various types of (A) 25 livestock, the area where they're housed and their associated pests, as well as the required 26 knowledge which shall include specific pesticide toxicity and residue potential, and the 27 hazards associated with such factors as formulation, application techniques, age of 28 animals, stress, and extent of treatment; 29 (B) poultry: applicators must demonstrate practical knowledge of poultry, typical poultry 30 operations and their associated pests, as well as the required knowledge of specific 31 pesticide toxicity and residue potential, and the hazards associated with such factors as 32 formulation, application techniques, age of animals, stress, and extent of treatment; and 33 small animal: applicators must demonstrate practical knowledge of small companion (C) 34
  - animals and their associated pests, as well as the required knowledge of specific pesticide toxicity and residue potential, and the hazards associated with such factors as formulation, application techniques, age of animals, stress, and extent of treatment.

#### 02 NCAC 09L .1002 is amended as published in 38:23 NCR 1492 as follows:

# 3 02 NCAC 09L .1002 GENERAL REQUIREMENTS

- 4 (a) All agricultural aircraft operations in North Carolina shall comply with the Federal Occupational Safety and Health
- 5 Act of 1971 (OSHA), Title 29 U.S.C. Chapter 15, the North Carolina Occupational Safety and Health Law, G.S.
- 6 Chapter 95 Article 16, all rules and regulations promulgated thereunder and the Federal Aviation Regulations Part
- 7 137. In any case of conflict, a provision of the aforenamed authorities takes precedence over any of these Rules.
- 8 (b) Each aerial application business shall have a licensed contractor. The contractor shall be responsible for the
- 9 compliance of the business with the North Carolina Pesticide Law of 1971 and all rules promulgated thereunder except
- 10 where the responsibility is designated to another person(s) this Section.
- 11 (c) All agricultural aircraft operations (pilot or contractor) shall keep a written record to be completed within 72 hours
- 12 after each application, unless requested sooner by an employee of the Pesticide Section for the purposes of a pesticide
- 13 incident investigation. The record shall show the following:
- 14 (1) name of contractor;
- 15 (2) name and address of the person for whom the pesticide was applied;
- 16 (3) identification of farm or land sites treated with pesticide(s);
- 17 (4) name of crop which was treated;
- 18 (5) total number of acres treated;
- 19 (6) the year, month, date, and the specific time of day when each pesticide application was completed;
- 20 (7) the brand name of the pesticide(s) and EPA registration number;
- 21 (8) amount of formulated product or active material applied per acre shall be specified;
- 22 (9) total gallons or pounds per acre of the final tank mix applied per acre;
- 23 (10) name of pilot; and
- 24 (11) signature of <u>the person completing this record</u>.
- 25 (d) Each day of application shall be recorded as a separate record.
- 26 (e) The pilot shall, prior to application, learn and confirm:
- 27

(1) the boundaries and exact location of the target area(s); and

28 (2) the identity of nontarget areas and safety hazards located on or adjacent to the target areas.

29 (f) Spray and spreading equipment shall be rinsed after each agricultural aircraft operation except when the next

30 agricultural aircraft operation will be made using the same pesticide, or if another pesticide, compatible with the

- 31 previous pesticide according to the manufacturer's recommendations was previously in the equipment, and will not
- 32 result in any adverse effects or created by the drainage or disposal of waste materials and conducted with methods
- 33 which will not create an adverse effect as defined in this Section.
- 34 (g) During application, the flow and mixture of the pesticide(s) shall be uniform. Pilots and contractors shall utilize
- 35 equipment which will maintain a uniform mixture and flow during application.
- 36 (h) Pilots and contractors shall use and operate, in any agricultural aircraft operation, aircraft equipped with spray or
- 37 spreading equipment suited, according to its manufacturer's recommendations for the pesticide(s) to be applied. All

1	aerial spray or spreading equipment shall be free of leaks and shall have a positive shutoff system to prevent leaking			
2	and dissemination of pesticides on any nontarget areas over which the flight is made. Such equipment shall not allow			
3	spillage, dripping and backflow or create a hazard from vapors or drift.			
4	(i) The loading a	area shall be kept free of pesticide contamination.		
5	(j) No pesticide	e(s) shall be applied by an aerial applicator while any persons other than those assisting in the		
6	application are in	n the target area.		
7	(k) The shape of	f the tank or hopper of the spray or spreading equipment shall be such as to allow complete drainage		
8	during flight and	on ground.		
9	(l) The contractor	or or pilot shall notify the Secretary of the Board of any emergency or accidental release of pesticide(s)		
10	from the applicat	tion or auxiliary equipment. They shall provide the following information:		
11	(1)	the name of the pilot;		
12	(2)	the contractor involved;		
13	(3)	the name of the property owner or operator;		
14	(4)	the location of the incident;		
15	(5)	the name of the pesticide;		
16	(6)	the estimated amount of pesticide involved;		
17	(7)	the estimated size of the area that received the spill;		
18	(8)	the description of what is located within 300 feet from the edge of the spill in all directions;		
19	(9)	the number of humans or animals known to have been contaminated; and		
20	(10)	the weather conditions at the site of the emergency or accidental release of pesticide(s).		
21				
22	History Note:	Authority G.S. 143-458; 143-463; 143-466;		
23		Eff. July 2, 1976;		
24		Amended Eff. May 1, 2009; February 1, 1989; January 1, 1985; August 1, 1982;		
25		Readopted Eff. August 1, 2020.		

## 02 NCAC 09L .1003 is amended as published in 38:23 NCR 1492-1493 as follows:

3	02 NCAC 09L .	1003 DRIFT CONTROL
4	No person sha	ll apply a pesticide(s)pesticide or pesticides aerially under such conditions that drift from
5	pesticide(s)pesti	cide particles or vapors results in adverse effect. As a minimum, the following precautions shall be
6	taken:	
7	(1)	Fixed nozzles shall be spaced on the boom to afford a uniform spray pattern at the height the aircraft
8		will be flown.
9	(2)	All pesticides applied aerially as liquids, in liquid carriers, or as dusts shall be released within 15
10		feet above the canopy of the target, except where obstructions in or adjacent to the target would
11		endanger the safety of the pilot while applying pesticides at that altitude.
12	(3)	All pesticides applied aerially as dry granules or pellets shall be released within 40 feet above the
13		canopy of the target, except where obstructions in or adjacent to the target would endanger the safety
14		of the pilot while applying pesticides at that altitude.
15	(4)	All applications of the following liquid pesticide formulations shall be made using a D4 or larger
16		disk with a 46 whirlplate with the discharge directed with the airstream or not more than 10 degrees
17		below the horizontal, and operated at a maximum pressure of 40 pounds per square inch, or a system
18		producing a droplet size range not smaller than the above system, except for rotary wing aircraft
19		flying at speeds of 60 mph or less, in which case the nozzles may be directed downward:
20		(a) phenoxy herbicides,
21		(b) paraquat,
22		(c) picloram (Tordon), and
23		(d) dicamba.
24	(5)	Restricted use pesticides other than those specified in (4) of this Rule shall be applied as follows:
25		(a) use a D4 or larger disk with a 45 whirlplate with the discharge directed with the airstream
26		or not more than 10 degrees below the horizontal, and operated at a maximum pressure of
27		40 pounds per square inch; or
28		(b) a system producing a droplet size range not smaller than the above system, except for
29		rotary wing aircraft flying at speeds of 60 mph or less, in which case the nozzles may be
30		directed downward; or
31		(c) use a boom with outside nozzles placed no closer to the wingtips than 12-1/2 percent of the
32		total wingspan distance. If the length of the boom of the spraying equipment exceeds the
33		nozzle span, a bleeder line shall be provided from the end of the boom to the last nozzle on
34		the boom.
35		
36	History Note:	Authority G.S. 143-458; 143-463;
37		Eff. July 2, 1976;

1	Amended Eff. January 1, 1985;
2	Readopted Eff. August 1, 2020.

02 NCAC 09L .1102 is amended as published in 38:23 NCR 1493-1494 as follows:

3	02 NCAC 09L .1102	DEFINITIONS
4	The following definiti	ons apply in this Section.
5	(1) "Cer	rtified applicator" means any individual who is certified to use or supervise the use of any
6	restr	ricted use pesticide.
7	<del>(2) "Pri</del>	vate pesticide applicator" means a person who uses or supervises the use of any restricted use
8	pest	icide under the following conditions:
9	<u>(2)</u> "No	ncertified applicator" means any person who is not certified in accordance with G.S. 143-440(b)
10	to us	se or supervise the use of restricted use pesticides, but who has met the requirements set forth
11	<u>in 40</u>	0 CFR 171.201(c), and who is using a restricted use pesticide under the direct supervision of a
12	certi	ified applicator in accordance with 40 CFR 171.201.
13	<del>(a)</del> -	for the purpose of producing any agricultural commodity on property owned or rented by
14		the person or the person's employer; or
15	<del>(b)</del> -	if the pesticide is applied without compensation other than the trading of personal services
16		between producers of agricultural commodities on the property of another person.
17	<del>(3) "Pri</del>	vate pesticide applicator certification standards review" means a training session designed by
18	the	North Carolina State University Pesticide Safety Extension Specialist to advance a private
19	pest	icide applicator's practical knowledge in areas such as:
20	<del>(a)</del> -	the pest problems and pest control practices associated with agricultural operations;
21	<del>(b)</del> -	storage, use, handling, and disposal of pesticides and their containers;
22	<del>(c)</del> -	labels and labeling information;
23	<del>(d)</del> -	local environmental situations to consider during application to avoid contamination;
24	<del>(e)</del> -	recognition of poisoning symptoms and procedures to follow in case of a pesticide
25		accident;
26	<del>(f)</del>	protective clothing, equipment, and other worker protection standards;
27	<del>(g)</del>	federal and State pesticide laws, rules, and regulations and the applicator's related legal
28		responsibility;
29	<del>(h)</del> -	current agricultural production related pesticide technology; and
30	<del>(i)</del>	sources of advice and guidance necessary for the safe and proper use of each pesticide
31		related to his or her certification including EPA guidance, extension publications and court
32		decisions.
33	<u>(3)</u> "Pri	vate pesticide applicator" means a person who uses or supervises the use of any restricted use
34	pest	icide under the following conditions:
35	<u>(a)</u>	for the purpose of producing any agricultural commodity on property owned or rented by
36		the person or the person's employer; or

1	(b) if the pesticide is applied without compensation other than the trading of personal
2	services between producers of agricultural commodities on the property of another
3	person.
4	These training sessions shall be taught by Cooperative Extension Service pesticide training agents or other
5	individuals approved by the Board on a case-by-case basis, based upon the individual's education, experience,
6	and knowledge of Subparagraph (c)(1) through (9) of this Rule.
7	(4) "Continuing certification credit" means one hour of continuing certification training. Such training
8	may be offered during grower meetings, seminars, short courses, or other presentations taught by
9	Cooperative Extension Service pesticide training agents, or other privately or publicly sponsored
10	training organizations. Private applicators may also earn continuing certification credits by attending
11	training sessions for which credit has been assigned in the following commercial categories as set
12	forth in Rule .0505(1)(a) through (1)(k):
13	<del>(a) aquatic;</del>
14	(b) agricultural pest animal;
15	(c) agricultural pest plant;
16	(d) ornamental and turf;
17	(e) forest;
18	(f) seed treatment; and
19	(g) soil and growing media fumigation.
20	(4) "Private pesticide applicator certification standards review" means a training session designed by
21	the North Carolina State University Pesticide Safety Extension Specialist to advance a private
22	pesticide applicator's practical knowledge in areas such as:
23	(a) the pest problems and pest control practices associated with agricultural operations;
24	(b) storage, use, handling, and disposal of pesticides and their containers;
25	(c) labels and labeling information:
26	(d) local environmental situations to consider during application to avoid contamination;
27	(e) recognition of poisoning symptoms and procedures to follow in case of a pesticide
28	accident;
29	(f) protective clothing, equipment, and other worker protection standards;
30	(g) federal and state pesticide laws, rules, and regulations and the applicator's related legal
31	responsibility;
32	(h) current agricultural production-related pesticide technology; and
33	(i) sources of advice and guidance necessary for the safe and proper use of each pesticide
34	related to his or her certification including EPA guidance, extension publications and court
35	decisions.
36	These training sessions shall be taught by Cooperative Extension Service pesticide training agents or other
37	individuals approved by the Pesticide Board on a case-by-case basis, based upon the individual's education,

1	experie	ence, and knowledge of Sub-items (4)(a) through (i) of this Rule.
2	<u>(5)</u>	"Continuing certification credit" means one hour of continuing certification training. Such training
3		may be offered during grower meetings, seminars, short courses, or other presentations taught by
4		Cooperative Extension Service pesticide training agents, or other privately or publicly sponsored
5		training organizations. Private applicators may also earn continuing certification credits by
6		attending training sessions for which credit has been assigned in the following commercial
7		categories and subcategories as set forth in Rule .0505(b):
8		(a) agricultural pest control;
9		(i) crop pest control;
10		(ii) livestock pest control;
11		(b) forest pest control;
12		(c) ornamental and turf pest control;
13		(d) aquatic pest control;
14		(e) seed treatment;
15		(f) soil and growing media fumigation pest control; and
16		(g) aerial pest control.
17		
18	History Note:	Authority G.S. 143-440; 143-453;

02 NCAC 09L .1	105 is amended a	s published in	38:23 NCR	1495 as follows:
----------------	------------------	----------------	-----------	------------------

•	
2 3	02 NCAC 09L .1105 APPLICATIONS UNDER SUPERVISION OF CERTIFIED APPLICATOR
4	(a) The certified applicator acting in a supervisory role shall be available to the non-certified applicator in the event
5	he is needed. It shall be the responsibility of the certified applicator to keep the non-certified applicator aware of all
6	directions for use and cautions for safe use and application of any restricted use pesticide he or she may be directed to
7	apply.
8	(a) ADOPTION BY REFERENCE: The North Carolina Pesticide Board hereby adopts by reference, including
9	subsequent amendments, Part 171.201 (a) through (d) of Title 40: Protection of Environment of the Code of Federal
10	Regulations, titled "Certification of Pesticide Applicators Subpart C–Supervision of Noncertified Applicators." Copies
11	of this material may be obtained at no cost from the U.S. Government Printing Office website,
11	www.gpoaccess.gov/cfr/index.html.
12	(b) All non certified applicators applying any restricted use pesticide under the direct supervision of a certified
13	applicator shall have available at the application site or at the loading and mixing site, if different from the application
14	site, the following:
15	(1) written or printed directions for applying the restricted use pesticide, which may include pesticide
10	(1) written of printed directions for apprying the restricted use pesticide, which may include pesticide product labeling;
17	
	(2) written or printed instructions describing procedures to be followed in order to prevent injury to the
19 20	applicator, other persons and unreasonable adverse effects on the environment which may include
20	pesticide product labeling; and
21	(3) instructions for direct communication with the certified applicator under whose supervision the
22	non-certified applicator is working (i.e., name, location, telephone number, radio contact, etc.); Such
23	instructions, when followed, shall be considered direct communication with the certified applicator.
24	(b) All certified applicators must adhere to the provisions of recordkeeping as outlined in the following chapter and
25	subchapters of this section.
26	(1) Before allowing a noncertified applicator to make a restricted use pesticide application under their
27	direct supervision, the supervising certified applicator must create or verify the existence of records
28	documenting that each noncertified applicator has the qualifications required in 40 CFR 171.201(c).
29	For each noncertified applicator, the records must contain the information appropriate to the method
30	of qualification as follows. For each noncertified applicator, the records must contain the
31	information appropriate to the method of qualification as provided in Parts (b)(1)(A) through
32	(b)(1)(D) of this Rule.
33	(A) If the noncertified applicator was trained in accordance with 171.201(c)(1), the record must
34	contain all of the following information: the noncertified applicator's printed name and
35	signature; the date the training requirement in 171.201(c) was met; the name of the person
36	who provided the training; and the title or a description of the training provided.

1		(B) If the noncertified applicator was trained as an agricultural handler under 40 CFR 170.501
2		in accordance with 171.201(c)(2), the record must contain all of the information required
3		in 40 CFR 170.501 (d)(1).
4		(C) If the noncertified applicator qualified by satisfying the requirements established by the
5		certifying authority, as described in 171.201(c)(3), the record must contain the information
6		required by the certifying authority.
7		(D) If the noncertified applicator is a certified applicator who is not certified to perform the
8		type of application being conducted, or not certified in the jurisdiction where the use will
9		take place, as described in 171.201(c)(4), the record must include all of the following
10		information: the noncertified applicator's name; the noncertified applicator's certification
11		number; the expiration date of the noncertified applicator's certification; and the certifying
12		authority that issued the certification.
13	(2)	The certified applicator must create or verify the existence of the record containing the information
14		in Subparagraph (b)(1) of this Rule before allowing the noncertified applicator to use any restricted
15		use pesticides under his or her direct supervision.
16	(3)	The certified applicator supervising any noncertified applicator must have access to records
17		documenting the information required in Subparagraph (b)(1) of this Rule for three years from the
18		date the noncertified applicator use the pesticide.
19	(c) The certified	applicator acting in a supervisory role shall be available to the non-certified applicator in the event
20	he is needed. It	shall be the responsibility of the certified applicator to keep the non-certified applicator fully aware
21	of all directions	for use and cautions necessary for safe use and application of any restricted use pesticide they may be
22	directed to apply	<u>y.</u>
23	(d) All non-cer	tified applicators applying any restricted use pesticide under the direct supervision of a certified
24	applicator shall	have available at the application site or at the loading and mixing site, if different from the application
25	site, the following	ng:
26	(1)	detailed written or printed directions for applying the restricted use pesticide (pesticide product label
27		may suffice);
28	(2)	detailed written or printed instructions describing procedures to be followed in order to prevent
29		injury to the applicator, other persons and/or unreasonable adverse effects on the environment
30		(pesticide product label may suffice); and
31	(3)	detailed instructions for contacting the certified applicator under whose supervision the
32		non-certified applicator is working (i.e., name, location, telephone number, radio contact, etc.), and
33		such instructions, when followed, shall result in direct communication with the certified applicator.
34		
35	History Note:	Authority G.S. 143-440;
36		Eff. December 1, 1976;
37		Amended Eff. February 5, 1978;

Readopted Eff. August 1, 2020.

#### 02 NCAC 09L .1107 is amended as published in 38:23 NCR 1496 as follows:

## 3 02 NCAC 09L .1107 AGE LIMITATIONS

4 Individuals who wish to be certified as private pesticide applicators shall be 16at least 18 years old prior to 5 participating in a certification option or being issued a single purchase permit under the emergency certification 6 procedure; however, in hardship cases individuals below the age of 16 may be licensed by the Board on an individual 7 basis when they demonstrate to the Board by written, or written and oral examination their qualifications as a private 8 pesticide applicator.procedure. 9 10 *History Note:* Authority G.S. 143-440; 11 *Eff. December 1, 1976;* 12 Readopted Eff. August 1, 2020. 13

### 02 NCAC 09L .1108 is amended as published in 38:23 NCR 1496 as follows:

### 3 02 NCAC 09L .1108 TERM OF CERTIFICATION; RECERTIFICATION

- 4 (a) The term of certification shall be for a period of three years.
- 5 (b) In order to be recertified as a private pesticide applicator without a written examination, a person shall complete
- 6 two hours of private pesticide applicator certification standards review, plus two continuing certification credit hours,
- 7 as defined in Rule <u>.1102(d).1102(5)</u> of this Section.

8 (c) A private pesticide applicator certified in the subclass of soil and growing media fumigation or agricultural

9 commodity fumigation <u>or aerial</u> shall earn one hour of continuing certification credit specific to each applicable 10 subclass to retain the subclass certification.

12	History Note:	Authority G.S. 143-440; 143-453;
13		Eff. July 1, 1987;
14		Amended Eff. June 1, 2016; October 1, 2002;
15		Readopted Eff. August 1, 2020.
16		

## 02 NCAC 09L .1109 is amended as published in 38:23 NCR 1496 as follows:

## 3 02 NCAC 09L .1109 CERTIFICATION OF PRIVATE APPLICATORS

4 The following subclassifications are established for the certification of private pesticide applicators:

5	(1)	"Soil and growing media fumigation" means private pesticide applicators utilizing ground
6		equipment applying restricted use fumigants to property they own or lease, their employer's
7		property, or applied without compensation other than the trading of personal services between
8		producers of agricultural commodities on the property of another person.
9	(2)	"Agricultural commodity fumigation" means private pesticide applicators applying restricted use
10		fumigants to agricultural commodities on property they own or lease, their employer's property, or
11		applied without compensation other than the trading of personal services between producers of
12		agricultural commodities on the property of another person.
13	(3)	"Aerial" means private pesticide applicators applying restricted use pesticides from an aircraft onto
14		agricultural commodities on property they own or lease, their employer's property, or applied
15		without compensation other than the trading of personal services between producers of agricultural
16		commodities on the property of another person.
17		
18	History Note:	Authority G.S. 143-440;
19		Eff. August 1, 2015;
20		Readopted Eff. August 1, 2020.
21		

### 02 NCAC 09L .1303 is amended as published in 38:23 NCR 1496 as follows:

#### 3 02 NCAC 09L .1303 EXEMPTIONS

4 (a) Restricted use pesticides may be made available to ana noncertified employee under the supervision of a certified

5 private or licensed pesticide applicator, certified structural pest control applicator, or structural pest control licensee

6 provided the <u>noncertified</u> employee is acting under the direction and supervision of said applicators or licensees and

7 provided further that said <u>noncertified</u> employee is <del>16 years of age or older.at least 18 years old.</del>

8 (b) This exemption applies to restricted use pesticides in channels of trade prior to making them available for end use.

9 (c) Prior to making available restricted use pesticides to ana noncertified employee under the supervision of a certified

10 private applicator, licensed pesticide applicator, certified structural pest control applicator, or structural pest control

11 licensee, all persons shall require the <u>noncertified</u> employee to sign his or her name and list the certification number

12 of employer under whose direction and supervision the <u>noncertified</u> employee is acting. Such information shall be

13 available for routine inspection by the North Carolina Pesticide Board or its agent.

1 02 NCAC 09L .01305 is amended as published in 38:23 NCR 1496-1497 as follows:

2		•
3	02 NCAC 09L .	.1305 RECORD KEEPING REQUIREMENTS
4	All licensed pes	ticide dealers, as defined in G.S. 143-460, shall keep records of all sales of restricted use pesticides
5	showing the foll	lowing:
6	(1)	date of sale;
7	(2)	initials of sales clerk;
8	(3)	name of certified or licensed applicator as set out in Rule .1302 of this Section or noncertified
9		employees as set out in Rule .1303 of this Section;
10	(4)	certification or license number of certified or licensed applicator as set out in Rule .1302 of this
11		Section;
12	(5)	certification or license expiration date as shown on the certified or licensed applicator's certification
13		card;
14	(6)	
15	<u>(6)</u>	categories held by certified or licensed applicator;
16	(7)	EPA registration number;
17	<u>(7)</u>	product brand name;
18	(8)	
19	(8)	EPA registration number;
20	(9)	
21	(9)	number of individual containers;
22	(10)	- total quantity sold.
23	(10)	size of individual containers; and
24	<u>(11)</u>	total quantity sold.
25		
26	History Note:	Authority G.S. 143-437; 143-440; 143-466;
27		Temporary Adoption Eff. November 1, 2001;
28		Eff. August 1, 2002;
29		Readopted Eff. August 1, 2020.

02 NCAC 09L .1402 is amended as published in 38:23 NCR 1497 as follows:

-		
3	02 NCAC 09L	.1402 RECORD KEEPING REQUIREMENTS
4	All pesticide ap	plicators, as defined in G.S. 143-460 utilizing ground equipment shall keep for three years records
5	created within 7	<u>2 hours after each application</u> of all applications of restricted use pesticides. The records shall show
6	the following:	
7	(1)	name of licensed pesticide applicator or licensed public operator;
8	(2)	name and address of the person for whom the pesticide was applied;
9	(3)	identification of farm or site(s) treated with pesticide(s);
10	(4)	name of crop, commodity, or object(s) that was treated with pesticide(s);
11	(5)	approximate acres, size, or number of other object(s) treated;
12	(6)	the year, month, date, and the specific time of day when each pesticide application was completed
13		and each day of application shall be recorded as a separate record;
14	(7)	the brand name of the pesticide(s) and EPA registration number(s);
15	(8)	amount (volume or weight) of pesticide formulation(s) or active ingredient(s) applied per unit of
16		measure; and
17	(9)	name(s) of person(s) applying pesticide(s).
18		
19	History Note:	Authority G.S. 143-458; 143-463; 143-466(a);
20		<i>Eff. October 21, 1977;</i>
21		Amended Eff. April 1, 2009;
22		Readopted Eff. August 1, 2020.
