This is that 3rd item for existing rules review. We're gonna be removing 15A NCAC 13B .0700, .1000, and .1300 from the report.

Hi Jennifer,

Thanks for checking in on these. I went back through our records, and I think the omission of .1500 was a typo on our end. Since the Commission didn't actually approve the removal of .1500, we'll just add it back in. Should be in there before the end of the week. We'll give it a separate entry as you've asked.

On the others, it does look like .0900 is not currently on the schedule (the entry jumps from .0100-.0800 to .1000-.1400). So no need to do anything there. I will recommend approval of your request to remove .0700, .1000, and .1300 from the schedule at next week's meeting.

Thanks,
Brian

Subject: Periodic Review Schedule

Hi Brian,

During the 2023 RRC's public comment period for its proposed rule amendments, DEQ submitted comments (attached). Specifically, our comment on 26 NCAC 05 .0211, we requested that the sections in 15A NCAC 13B which were split out with different deadlines be moved to all line up with the same deadline. The RRC did just that, thankfully, however it appears that 15A NCAC 13B .1500 was removed altogether and is no longer scheduled. We would like 13B .1500 be placed with the rest of the 13B rules which are due April 2027 but as a stand-alone item since these are under the Department's authority and not the EMC.

Also, please note that Sections .0700, .0900, .1000, and .1300 for 13B which appear on the schedule for April 2027 were repealed or expired several years ago.

Let me know if you have any questions.

Thanks.
