At this time we'd like to ask for a continuance for these rules. We would not be able to formulate a response in time to give the appropriate review time to everyone involved. Please let me know if there is anything else I need to do at this time, and I appreciate you being patient and so helpful as I've been tackling my first foray into managing rule-making communications!

Brian,

We would like to formally request an extension to review 09b .0501 prior to RRC so we can clean up the proposed language. There should be no interconnectivity issues with any other rules currently in the review process.
