Public Notice

Jordan Lake Water Supply Storage Allocations

Notice is hereby given in accordance with North Carolina Administrative Code T15A: 02G.0500 and N.C. General Statute 143-354(a)(11) that the North Carolina Environmental Management Commission intends to allocate water supply storage from B. Everett Jordan Lake.

The public hearing for this matter will be conducted at 5:00 p.m. on Monday, June 23, 1997 at the Archdale Building, Ground Floor Hearing Room, 512 N. Salisbury Street, Raleigh, NC.

Reason for Proposed Action: The State of North Carolina has contracted for the use of the water supply storage capacity of B. Everett Jordan Lake, and can assign this storage to any local government having a need for water supply storage. Initial allocations to six local governments were made in 1988, two of which have since given up their allocations. Eight local governments have now requested additional water supply storage allocations from Jordan Lake.

Jordan Lake is a U.S. Army Corps of Engineers multi-purpose reservoir located primarily in Chatham County in the Haw River Basin. One-third of Jordan Lake's storage capacity is designated for water supply, with the remaining two-thirds designated for water quality releases to supplement downstream flows during natural low flow conditions. Allocation of water supply storage does not reduce the amount of water available for water quality releases.

The water supply storage will supply an estimated 100 million gallons per day (MGD) during most of the severest droughts. Sixty-seven MGD is currently unallocated. Allocation recommendations are based on the State's evaluation of each applicant's average daily demands through the year 2015, compared with each applicant's current and viable future water supplies. The recommended allocations are:

Applicant	Current Allocation (MGD)	Requested Additional Allocation (MGD)	Recommended Additional Allocation (MGD)	Interbasin Transfer Certification Required
Chatham County	6.0	7.0	0.0	No
Durham	none	25.0	0.0	No
Fayetteville	none	20.0	0.0	No
Greensboro	none	25.0	0.0	No
Holly Springs	none	4.5	0.5	No
Cary/Apex	16.0	29.0	5.0	Yes
Morrisville	none	4.5	2.5	Yes
Wake County/ Research Triangle Park	none	3.5	1.5	Yes

The requested allocations were based on water demands in 2025, with some requests based on average daily demands and some based on maximum daily demands. The Division of Water Resources decided to base its recommendations on average daily demands in 2015, resulting in smaller allocations. Because long range projections are so uncertain, the Division believes that this more conservative incremental allocation process is the best way to manage this important regional resource. If allocations are made as recommended, 57.5 MGD of the total estimated yield of 100 MGD will be available for future allocations to local governments.

A final decision on those allocation requests requiring interbasin transfer certification under G.S. 143-215.221 (as indicated

in the summary table) will not be made until the transfer review is completed. At that time a decision will be made regarding both the allocation and the interbasin transfer certification, following an additional public hearing. The June 23, 1997 hearing will receive comments on all allocation requests and recommended allocations, regardless of whether interbasin transfer certification is required.

It is the intent of the Environmental Management Commission that the Towns of Cary and Apex be required to return all wastewater associated with an increase in their allocation to the Cape Fear River Basin. The additional allocation recommended by the Division of Water Resources for Cary and Apex includes this condition.

The water supply storage contracts between the State and the allocation holders will be modified to base the contract on the use of the storage allocated, rather than on a maximum rate of withdrawal. This change will allow water systems to more fully use their storage by allowing them to increase withdrawals to meet their peak demands as long as the annual average withdrawal rate does not exceed the safe yield of their allocation and their storage is not depleted. The contract will also require the allocation holder to develop a drought and water shortage response plan acceptable to both the State and the U.S. Army Corps of Engineers.

The Division of Water Resources' complete recommendations, along with background information, allocation criteria, and a detailed review of each application, are contained in the March 1997 report "Jordan Lake Water Supply Storage Allocation Recommendations." This report can be inspected during normal office hours at the Division of Water Resources, 512 N. Salisbury Street, Room 1106, Archdale Building, Raleigh, North Carolina. The report is also available on the Division's Internet homepage at <http://www.dwr.ehnr.state.nc.us/jordan/report.htm>.

Comment Procedures: All persons interested in this matter are invited to attend. Written statements of oral comments are requested. For more information contact: Thomas C. Fransen, Division of Water Resources, P.O. Box 27687, Raleigh NC 27611, telephone (919) 715-0381. If you are unable to attend, written comments can be mailed to this address until July 23, 1997.

Dear Mr. Holec:

This refers to 18 annexations (Ordinance Nos. 96-16, 96-17, 96-19, 96-20, 96-39, 96-40, 96-68 to 96-70, 96-84 to 96-87, 96-97 to 96-100, and 96-105), the designation of annexed areas to districts, and the 1997 redistricting plan for the City of Greenville in Pitt County, North Carolina, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act, 42 U.S.C. 1973c. A Notice of Rule-making Proceedings is a statement of subject matter of the agency's proposed rule making. The agency must publish a notice of the subject matter for public comment at least 60 days prior to publishing the proposed text of a rule. Publication of a temporary rule serves as a Notice of Rule-making Proceedings and can be found in the Register under the section heading of Temporary Rules. A Rule-making Agenda published by an agency serves as Rule-making Proceedings and can be found in the Register under the section heading of Rule-making Agendas. Statutory reference: G.S. 150B-21.2.

AND REVIEWING**

Notice of Rule-making Proceedings is hereby given by the Secretary of Human Resources in accordance with G.S. 150B-21.2. The agency shall subsequently publish in the Register the text of the rule(s) it proposes to adopt as a result of this notice of rule-making proceedings and any comments received on this notice.

Citation to Existing Rules Affected by this Rule-Making: 10 NCAC 14V .7101 - .7105 - Other rules may be proposed in the course of the rule-making process.

Authority for the rule-making: G.S. 108A, Article 6; 122C-112(a)(15); 122C-191; 130A-383; 130A-389; 130A-398

Statement of the Subject Matter: The Rules in this Section will set forth requirements for reporting and reviewing deaths of prospective and confirmed Thomas S. class members residing in non-State operated facilities. These Rules will apply to area mental health, developmental disability and substance abuse authorities and their contract agencies, but will not apply to prospective and confirmed Thomas S. class members residing in their own home or in the home of their family.

Reason for Proposed Action: G.S. 122C-(a)(15) requires the Secretary of Human Resources to adopt rules to implement the investigation of circumstances leading to the death of any prospective or confirmed Thomas S. class member not residing in a State facility listed in G.S. 122C-181.

Comment Procedures: Written comments should be submitted to Charlotte F. Hall, Rulemaking Coordinator, Division of Mental Health, Developmental Disabilities and Substance Abuse Services, 325 N. Salisbury Street,

TITLE 12 - DEPARTMENT OF JUSTICE

**CHAPTER 11 - NORTH CAROLINA
ALARM SYSTEMS LICENSING BOARD**

Notice of Rule-making Proceedings is hereby given by the North Carolina Alarm Systems Licensing Board in accordance with G.S. 150B-21.2. The agency shall subsequently publish in the Register the text of the rule(s) it proposes to adopt as a result of this notice of rule-making proceedings and any comments received on this notice.

Citation to Existing Rules Affected by this Rule-Making: 12 NCAC 11: The Board proposes adoption of a new rule; therefore, no existing rules will be affected. Other rules may be proposed in the course of the rule-making process.

Authority for the rule-making: G.S. 74D-5(a)(2)

Statement of the Subject Matter: The subject matter of the proposed rule-making proceeding will adopt guidelines and standards for continuing education for individuals licensed by the Board.

Reason for Proposed Action: Currently, no provisions for continuing education exist. Because of the rapid changes in technology within the burglar alarm industry, the Board believes that it is in the best interest of the public and the burglar alarm industry to require continuing education for those licensed by the Board.

Comment Procedures: Comments concerning this rule-making activity may be submitted within sixty (60) days of the date of this publication to W.A. Hoggard, III, Administrator, N.C. Alarm Systems Licensing Board, 3320 Old Garner Rd., Raleigh, NC 27626.

This Section contains the text of proposed rules. At least 60 days prior to the publication of text, the agency published a Notice of Rule-making Proceedings. The agency must accept comments on the proposed rule for at least 30 days from the publication date, or until the public hearing, or a later date if specified in the notice by the agency. The required comment period is 60 days for a rule that has a substantial economic impact of at least five million dollars (\$5,000,000). Statutory reference: G.S. 150B-21.2.

TITLE 10 - DEPARTMENT OF HUMAN RESOURCES

do not have a substantial economic impact of at least five million dollars (\$5,000,000) in a 12-month period.

Notice is hereby given in accordance with G.S. 150B-21.2 that the Social Services Commission intends to amend rules cited as 10 NCAC 35E .0101, .0105 - .0106, .0308; 42J .0001, .0004 - .0005. Notice of Rule-making Proceedings was published in the Register on November 15, 1996.

Proposed Effective Date: July 1, 1998

A Public Hearing will be conducted at 10:00 a.m. on July 17, 1997 at the Albemarle Building, Room 864, 325 North Salisbury Street, Raleigh, NC 27603.

Reason for Proposed Action: The budget bill (House Bill 53) ratified by the North Carolina General Assembly, on August 3, 1996, contains provisions to eliminate Social Services Block Grant (Title XX) funding line items for voluntary sterilization and the administrative support services necessary to contract with the Department of Environment, Health, and Natural Resources (DEHNR) for the processing of Title XX - funded voluntary sterilization claims. The elimination of these funds is effective July 1, 1996. As a result, the Division will no longer be able to reimburse or process claims for voluntary sterilization or abortion services funded through Social Services Block Grant (Title XX) funds. The proposed changes in the Rules listed above are necessary to eliminate federally funded voluntary sterilization and abortion as mandated Resource Items under Health Support Services, and to update various references to these components in the language of the Rules. In addition, the proposed changes are necessary to remove old language from the Rules allowing the use of Title XX to fund abortions, so as to comply with federal restriction on abortion funding.

Comment Procedures: Comments may be presented in writing anytime before or at the public hearing, or orally at the hearing. Time limits for oral remarks may be imposed by the Commission Chairman. Any person may request copies of these Rules by calling or writing to Sharnese Ransome, APA Coordinator, Social Services Commission, NC Division of Social Services, 325 North Salisbury Street, Raleigh, NC 27603. Phone: 919/733-3055.

Fiscal Note: These Rules do not affect the expenditures or revenues of state or local government funds. These Rules

SECTION .0300 - SERVICE DEFINITIONS

.0308 HEALTH SUPPORT SERVICES

(a) Primary Service. Health support services means helping individuals and families to recognize health needs including those related to alcohol and drug abuse; to cope with incapacities and limited functioning resulting from aging, disability, or handicap and to choose, obtain and use resources and mechanisms of support under Medicaid (including the early and periodic screening, diagnosis and treatment program), medicare, maternal and child health programs and from other public or private agencies or providers of health services; counseling and planning, as appropriate, with individuals, families, and health providers to help assure continuity of treatment and the carrying out of health recommendations; helping individuals to secure admission to medical institutions and children to secure admission to other health-related facilities as needed; and family planning services as described in ~~(2)~~ Paragraph (b) of this Rule. At county option, transportation, when not otherwise available, may be provided as necessary to access needed medical and health care resources.

(b) Components. Family planning services to enable individuals and families to voluntarily limit the family size or to space the children, and to prevent or reduce the incidence of births out of wedlock. Such services include educational activities, the provision of printed materials, counseling about family planning and genetics, and help in utilizing medical and educational services available in the community and state. Also included are educational services in human sexuality appropriate to an individual's emotional and social adjustment and physical development.

(c) Optional Resource Items.

(1) ~~Mandated Resources:~~ Medical Services:

(A) For individuals who are recipients of AFDC, SSI, or protective services or whose family income is less than 80 percent of the state's established income maximum for social services eligibility, payment for medical services for nontherapeutic sterilization, ~~sterilization and payment for abortion in cases where the mother's life would be endangered if the fetus were carried to term.~~

TITLE 15A - DEPARTMENT OF ENVIRONMENT, HEALTH, AND NATURAL RESOURCES

Notice is hereby given in accordance with G.S. 150B-21.2 that the EHNR - Environmental Management Commission intends to amend rules cited as 15A NCAC 2B .0101, .0202; and adopt rule cited as 15A NCAC 2B .0230. Notice of Rule-making Proceedings was published in the Register on March 14, 1997.

Proposed Effective Date: August 1, 1998

A Public Hearing will be conducted at 7:00 p.m. (You may sign up to speak beginning at 6:30 p.m.) on July 8, 1997 at the following locations:

Asheville-Buncombe Technical Community College
Laurel Auditorium
340 Victoria Road
Asheville, NC

Carteret Community College
Joslyn Hall
3505 Arendell Street
Morehead City, NC

Archdale Building
Ground Floor Hearing Room
512 North Salisbury Street
Raleigh, NC 27626

Reason for Proposed Action: The purpose of this rule-making procedure (including public hearings and the written comment period) is to receive comments on the proposed Use Restoration Waters (URW) supplemental water quality classification from interested people. The written comment period will be open until August 8, 1997. The EMC is interested in comments in favor of and opposed to the proposed rule.

Throughout North Carolina, there are waters which persistently have impaired designated uses because of pollution problems. Designated uses include swimming, aquatic life support, and commercial shellfish harvest. These waters are often very difficult to restore due to the multitude of nonpoint sources contributing pollutants to the waterbody. Point source dischargers may also be a source of the impairment. The Division of Water Quality (DWQ) is proposing a URW supplemental classification to restore designated uses in impaired waters. The URW supplemental classification would be applied to a waterbody in addition to the existing primary classification.

Goals of the URW supplemental classification are to improve water quality in small watersheds so that uses are restored, and to improve targeting and coordination of various funding and programmatic efforts toward selected waters. If approved, application of this supplemental classification could include voluntary, mandatory or conditional mandatory management strategies to control the specific parameters of concern in selected impaired watersheds. The actions required by the management strategies would include voluntary measures, pollution prevention, and source reduction strategies to the maximum extent practical. These watershed-specific management strategies would be developed in coordination with interested stakeholders and could include:

- watershed-specific best management practices for nonpoint sources,
- source reduction strategies such as education and site-planning considerations,

- ecosystem restoration efforts,
- wastewater treatment requirements, and
- other waste treatment management requirements.

It is important to note that this proposed rule making only will establish the supplemental classification for URW. Any watershed-specific strategies proposed for adoption will be required to go through separate, individual rule-making proceedings at a later date.

Comment Procedures: You may submit comments, statements, data and other information in writing prior to, during or after the hearing but no later than August 8, 1997. You may also present verbal comments at the hearing. The Hearing Officer may limit the length of time that you may speak so that all those who wish to speak may have an opportunity to do so. We encourage you to submit written comments.

The EMC may not adopt a rule that differs substantially from the text of the proposed rule published in the North Carolina Register unless the EMC publishes the text of the proposed different rule and accepts comments on the new text. (See 150B-21.2 (g)). All interested and potentially affected persons are strongly encouraged to read the entire announcement and supporting information and make comments on the proposal being noticed.

You may obtain further explanations and details of the proposed rule making by writing or calling Annette Lucas at the location listed below. In the case of inclement weather, please call the number listed below for a recording on whether the hearings will be held as scheduled.

CHAPTER 2 - ENVIRONMENTAL MANAGEMENT

SUBCHAPTER 2B - SURFACE WATER AND WETLAND STANDARDS

SECTION .0100 - PROCEDURES FOR ASSIGNMENT OF WATER QUALITY STANDARDS

.0101 GENERAL PROCEDURES

(a) The rules contained in Sections .0100, .0200 and .0300 of this Subchapter which pertain to the series of classifications and water quality standards shall be known as the "Classifications and Water Quality Standards

Applicable to the Surface Waters and Wetlands of North Carolina."

(b) The Environmental Management Commission, prior to classifying and assigning standards of water quality to any waters of the state, shall proceed as follows:

- (1) The Commission, or its designee, shall determine waters to be studied for the purpose of classification and assignment of water quality standards on the basis of user requests, petitions, or the identification of existing or attainable water uses, as defined by 15A NCAC 2B .0202, not presently included in the water classification.
- (2) After appropriate studies of the identified waters to obtain the data and information required for determining the proper classification of the waters or segments of water are completed, the Commission, or its designee, shall make a decision on whether to initiate proceedings to modify the classifications and water quality standards of identified waters. In the case of the Commission's designee deciding to initiate said proceedings, the designee shall inform the Commission of the decision prior to scheduling a public hearing.
- (3) In the case of a petition for classification and assignment of water quality standards according to the requirements of G.S. 150B-20, the Director shall make a preliminary recommendation on the appropriate classifications and water quality standards of the identified waters on the basis of the study findings or information included in the petition supporting the classification and standards changes.
- (4) The Commission shall make a decision on whether to grant or deny a petition in accordance with the provisions of G.S. 150B-20 based on the information included in the petition and the recommendation of the Director. The Commission may deny the petition and request that the Division study the appropriate classifications and water quality standards for the petitioned waters in accordance with Subparagraph (b)(2) of this Rule.
- (5) The Director shall give due notice of such hearing or hearings in accordance with the requirements of G.S. 143-214.1 and G.S. 150B, and shall appoint a hearing officer(s) in consultation with the chairman of the Commission.
- (6) The hearing officer(s) shall, as soon as practicable after the completion of the hearing, submit a complete report of the proceedings of the hearing to the Commission. The hearing officer(s) shall include in the report a transcript or summary of testimony presented at such public hearing, relevant exhibits, a summary of

relevant information from the stream studies conducted by the technical staff of the Commission, and final recommendations as to classification of the designated waters and the standards of water quality and best management practices which should be applied to the classifications recommended.

- (7) The Commission, after due consideration of the hearing records and the final recommendations of the hearing officer(s), shall adopt its final action with respect to the assignment of classifications, and any applicable standards or best management practices applicable to the waters under consideration. The Commission shall publish such action, together with the effective date for the application of the provisions of G.S. 143-215.1 and 143-215.2, as amended, as a part of the Commission's official rules.
- (8) The final action of the Commission with respect to the assignment of classification with its accompanying standards and best management practices shall contain the Commission's conclusions relative to the various factors given in G.S. 143-214.1(d), and shall specifically include the class or classes to which such specifically designated waters in the watershed or watersheds shall be assigned on the basis of best usage in the interest of the public.
- (c) Freshwater shall be assigned to one of the following classification:
 - (1) Class C: freshwaters protected for secondary recreation, fishing, aquatic life including propagation and survival, and wildlife. All freshwaters shall be classified to protect these uses at a minimum.
 - (2) Class B: freshwaters protected for primary recreation which includes swimming on a frequent or organized basis and all Class C uses.
 - (3) Class WS-I: waters protected as water supplies which are essentially in natural and undeveloped watersheds. Point source discharges of treated wastewater are permitted pursuant to Rules .0104 and .0211 of this Subchapter. Local programs to control nonpoint sources and stormwater discharges of pollution are required. Suitable for all Class C uses.
 - (4) Class WS-II: waters protected as water supplies which are generally in predominantly undeveloped watersheds. Point source discharges of treated wastewater are permitted pursuant to Rules .0104 and .0211 of this Subchapter. Local programs to control nonpoint sources and stormwater discharges of pollution shall be required. Suitable for all Class C uses.
 - (5) Class WS-III: waters protected as water supplies which are generally in low to moderately developed watersheds. Point source discharges

of treated wastewater are permitted pursuant to Rules .0104 and .0211 of this Subchapter. Local programs to control nonpoint sources and stormwater discharges of pollution shall be required. Suitable for all Class C uses.

- (6) Class WS-IV: waters protected as water supplies which are generally in moderately to highly developed watersheds. Point source discharges of treated wastewater are permitted pursuant to Rules .0104 and .0211 of this Subchapter. Local programs to control nonpoint sources and stormwater discharges of pollution shall be required; suitable for all Class C uses.
- (7) Class WS-V: waters protected as water supplies which are generally upstream of and draining to Class WS-IV waters. No categorical restrictions on watershed development or treated wastewater discharges shall be required. However, the Commission or its designee may apply appropriate management requirements as deemed necessary for the protection of downstream receiving waters (15A NCAC 2B .0203); suitable for all Class C uses.
- (8) Class WL: waters that meet the definition of wetlands found in 15A NCAC 2B .0202 except those designated as Class SWL.

- (2) Class SB: saltwaters protected for primary recreation which includes swimming on a frequent or organized basis and all Class SC uses.
- (3) Class SA: suitable for commercial shellfishing and all other tidal saltwater uses.
- (4) Class SWL: waters that meet the definition of coastal wetlands as defined by 15A NCAC 2H .0205, and which are landward of the mean high water line, and wetlands contiguous to estuarine waters as defined by 15A NCAC 2H .0206.

(e) The following are supplemental classifications:

- (1) Trout waters (Tr): freshwaters protected for natural trout propagation and survival of stocked trout.
- (2) Swamp waters (Sw): waters which have low velocities and other natural characteristics which are different from adjacent streams.
- (3) Nutrient Sensitive Waters (NSW): waters subject to growths of microscopic or macroscopic vegetation requiring limitations on nutrient inputs.
- (4) Outstanding Resource Waters (ORW): unique and special waters of exceptional state or

national recreational or ecological significance which require special protection to maintain existing uses.

- (5) High Quality Waters (HQW): waters which are rated as excellent based on biological and physical/chemical characteristics through Division monitoring or special studies, native and special native trout waters (and their tributaries) designated by the Wildlife Resources Commission, primary nursery areas (PNA) designated by the Marine Fisheries Commission and other functional nursery areas designated by the Marine Fisheries Commission, all water supply watersheds which are either classified as WS-I or WS-II or those for which a formal petition for reclassification as WS-I or WS-II has been received from the appropriate local government and accepted by the Division of Water Quality and all Class SA waters.
- (6) Future Water Supply (FWS): waters that have been requested by a local government and adopted by the Commission as a future source for drinking, culinary, or food-processing purposes. Local government(s) requesting this reclassification shall provide to the Division evidence of intent which may include one or a combination of the following: capitol improvement plans, a Water Supply Plan as described in G.S. 143-355(1), bond issuance for the water treatment plant or land acquisition records. Local governments shall provide a 1:24,000 scale USGS topographical map delineating the location of the intended water supply intake. Requirements for activities administered by the State of North Carolina, such as the issuance of permits for landfills, NPDES wastewater discharges, land application of residuals and road construction activities shall be effective upon reclassification for future water supply use. The requirements shall apply to the critical area and balance of the watershed or protected area as appropriate. Upon receipt of the final approval letter from the Division of Environmental Health for construction of the water treatment plant and water supply intake, the Commission shall initiate rule-making to modify the Future Water Supply supplemental classification. Local government implementation is not required until 270 days after the Commission has modified the Future Water Supply (FWS) supplemental classification through the rule-making process and notified the affected local government(s) that the appropriate local government land use requirements applicable for the water supply classifications are to be adopted, implemented and submitted to the Commission for approval. Local governments

may also adopt land use ordinances that meet or exceed the state's minimum requirements for water supply watershed protection prior to the end of the 270 day deadline. The requirements for FWS may also be applied to waters formerly used for drinking water supply use, and currently classified for water supply use, at the request of local government(s) desiring protection of the watershed for future water supply use.

- (7) Unique wetland (UWL): wetlands of exceptional state or national ecological significance which require special protection to maintain existing uses. These wetlands may include wetlands that have been documented to the satisfaction of the Commission as habitat essential for the conservation of state or federally listed threatened or endangered species.

- (8) Use Restoration Waters (URW): waters with a designated use which has been impaired to the extent that the use has been lost or impaired in a manner that is more than transitory, based on a water quality assessment using biological, physical, or chemical data, or a combination of water quality data.

(f) In determining the best usage of waters and assigning classifications of such waters, the Commission shall consider the criteria specified in G.S. 143-214.1(d) and all existing uses as defined by 15A NCAC 2B .0202. In determining whether to revise a designated best usage for waters through a revision to the classifications, the Commission shall follow the requirements of 40 CFR 131.10(b),(c),(d) and (g) which are hereby incorporated by reference including any subsequent amendments and editions. This material is available for inspection at the Department of Environment, Health, and Natural Resources, Division of Water Quality, Water Quality Section, 512 North Salisbury Street, Raleigh, North Carolina. Copies may be obtained from the U.S. Government Printing Office, Superintendent of Documents, Washington, DC 20402-9325 at a cost of thirteen dollars (\$13.00).

(g) When revising the classification of waters, the Division shall collect water quality data within the watershed for those substances which require more stringent control than required by the existing classification. However, such sampling may be limited to only those parameters which are of concern. If the revision to classifications involves the removal of a designated use, the Division shall conduct a use attainability study as required by the provisions of 40 CFR 131.10(j) which are hereby incorporated by reference including any subsequent amendments and editions. This material is available for inspection at the Department of Environment, Health, and Natural Resources, Division of Water Quality, Water Quality Section, 512 North Salisbury Street, Raleigh, North Carolina. Copies may be obtained from the U.S. Government Printing Office,

Superintendent of Documents, Washington, DC 20402-9325 at a cost of thirteen dollars (\$13.00).

Authority G.S. 143-214.1; 143-215.3(a)(1).

SECTION .0200 - CLASSIFICATIONS AND WATER QUALITY STANDARDS APPLICABLE TO SURFACE WATERS AND WETLANDS OF NORTH CAROLINA

.0202 DEFINITIONS

The definition of any word or phrase used in this Section shall be the same as given in G.S. 143, Article 21. The following words and phrases, which are not defined in this article, shall be interpreted as follows:

- (1) Acute toxicity to aquatic life means lethality or other harmful effects sustained by either resident aquatic populations or indicator species used as test organisms in a controlled toxicity test due to a short-term exposure (relative to the life cycle of the organism) to a specific chemical or mixture of chemicals (as in an effluent). Short-term exposure for acute tests is generally 96 hours or less. Acute toxicity shall be determined using the following procedures:
 - (a) for specific chemical constituents or compounds, acceptable levels shall be equivalent to a concentration of one-half or less of the Final Acute Value (FAV) as determined according to "Guidelines for Deriving Numerical Water Quality Criteria for the Protection of Aquatic Life and its Uses" published by the Environmental Protection Agency and referenced in the Federal Register (50 FR 30784, July 29, 1985) which is hereby incorporated by reference including any subsequent amendments.
 - (b) for specific chemical constituents or compounds for which values described under Sub-item (1)(a) of this Rule can not be determined, acceptable levels shall be equivalent to a concentration of one-third or less of the lowest available LC50 value.
 - (c) for effluents, acceptable levels are defined as no statistically measurable lethality (99 percent confidence level using Students t test) during a specified exposure period. Concentrations of exposure shall be determined on a case-by-case basis.
 - (d) in instances where detailed dose response data indicate that levels of acute toxicity are significantly different from those defined in this Rule, the Director may determine on a case-by-case basis an alternate acceptable level through

statistical analyses of the dose response curve.

- (2) Acute to Chronic Ratio (ACR) means the ratio of acute toxicity expressed as an LC50 for a specific toxicant or an effluent to the chronic value for the same toxicant or effluent.
- (3) Agricultural uses include the use of waters for stock watering, irrigation, and other farm purposes.
- (4) Approved treatment, as applied to water supplies, means treatment accepted as satisfactory by the Division of Environmental Health or Division of Water Quality.
- (5) Average (except bacterial) means arithmetical average and includes the analytical results of all samples taken during the specified period; all sampling shall be done as to obtain the most representative sample under prevailing conditions:
 - (a) Daily Average for dissolved oxygen, shall be of at least four samples;
 - (b) Weekly Average means the average of all daily composite samples obtained during the calendar week. If only one grab sample is taken each day, the weekly average is the average of all daily grab samples. A minimum of three daily grab samples is needed to calculate a weekly average.
 - (c) Monthly Average means the average of all daily composites (or grab samples if only one per day) obtained during the calendar month.

The definitions in this Paragraph do not affect the monitoring requirements for NPDES permits but rather shall be used by the Division along with other methodologies in determining violations of water quality standards. Arithmetical averages as defined by this Section, and not confidence limits nor other statistical descriptions, shall be used in all calculations of limitations which require the use of averages pursuant to this Section and 40 CFR 122.41(l)(4)(iii).

- (6) Best Management Practice (BMP) means a structural or nonstructural management-based practice used singularly or in combination to reduce nonpoint source inputs to receiving waters in order to achieve water quality protection goals.
- (7) Best usage of waters as specified for each class means those uses as determined by the Environmental Management Commission in accordance with the provisions of G.S. 143-214.1.
- (8) Bioaccumulation factor (BAF) is a unitless value that describes the degree to which substances are

taken up or accumulated into tissues of aquatic organisms from water directly and from food or other ingested materials containing the accumulated substances, and is usually measured as a ratio of a substance's concentration in tissue versus its concentration in water in situations where exposure to the substance is occurring from both water and the food chain.

- (9) Bioconcentration factor (BCF) is a unitless value that describes the degree to which substances are absorbed or concentrated into tissues of aquatic organisms from water directly and is usually measured as a ratio of substance's concentration in tissue versus its concentration in water in situations where exposure to the substance is occurring from water only.
- (10) Biological integrity means the ability of an aquatic ecosystem to support and maintain a balanced and indigenous community of organisms having species composition, diversity, population densities and functional organization similar to that of reference conditions.
- (11) Buffer means a natural or vegetated area through which stormwater runoff flows in a diffuse manner so that the runoff does not become channelized and which provides for infiltration of the runoff and filtering of pollutants. The buffer shall be measured landward from the normal pool elevation of impounded structures and from the bank of each side of streams or rivers.
- (12) Built-upon area means that portion of a development project that is covered by impervious or partially impervious cover including buildings, pavement, gravel areas (e.g. roads, parking lots, paths), recreation facilities (e.g. tennis courts), etc. (Note: Wooden slatted decks and the water area of a swimming pool are considered pervious.)
- (13) Chronic toxicity to aquatic life means any harmful effect sustained by either resident aquatic populations or indicator species used as test organisms in a controlled toxicity test due to long-term exposure (relative to the life cycle of the organism) or exposure during a substantial portion of the duration of a sensitive period of the life cycle to a specific chemical substance or mixture of chemicals (as in an effluent). In absence of extended periods of exposure, early life stage or reproductive toxicity tests may be used to define chronic impacts.
- (14) Chronic value for aquatic life means the geometric mean of two concentrations identified in a controlled toxicity test as the No Observable Effect Concentration (NOEC) and the Lowest Observable Effect Concentration (LOEC).

- (15) Cluster development means the grouping of buildings in order to conserve land resources and provide for innovation in the design of the project including minimizing stormwater runoff impacts. This term includes nonresidential development as well as single-family residential and multi-family developments. For the purpose of Sections .0100, .0200 and .0300 of this Subchapter, planned unit developments and mixed use development shall be considered as cluster development.
- (16) Concentrations are the mass of a substance per volume of water and for the purposes of this Section shall be expressed as milligrams per liter (mg/l), micrograms per liter (ug/l), or nanograms per liter (ng/l).
- (17) Contiguous refers to those wetlands landward of the mean high water line or normal water level and within 575 feet of classified surface waters which appear as solid blue lines on the most recently published versions of U.S.G.S. 1:24,000 (7.5 minute) scale topographic maps.
- (18) Critical area means the area adjacent to a water supply intake or reservoir where risk associated with pollution is greater than from the remaining portions of the watershed. The critical area is defined as extending either ½ mile from the normal pool elevation of the reservoir in which the intake is located or to the ridge line of the watershed (whichever comes first); or ½ mile upstream from and draining to the intake (or other appropriate downstream location associated with the water supply) located directly in the stream or river (run-of-the-river), or to the ridge line of the watershed (whichever comes first). Since WS-I watersheds are essentially undeveloped, establishment of a critical area is not required. Local governments may extend the critical area as needed. Major landmarks such as highways or property lines may be used to delineate the outer boundary of the critical area if these landmarks are immediately adjacent to the appropriate outer boundary of ½ mile. The Commission may adopt a different critical area size during the reclassification process.
- (19) Designated Nonpoint Source Agency means those agencies specified by the Governor in the North Carolina Nonpoint Source Management Program, as approved by the Environmental Protection Agency.
- (20) Development means any land disturbing activity which adds to or changes the amount of impervious or partially impervious cover on a land area or which otherwise decreases the infiltration of precipitation into the soil.
- (21) Director means the Director of the Division of Water Quality.
- (22) Discharge is the addition of any man-induced waste effluent either directly or indirectly to state surface waters.
- (23) Division means the Division of Water Quality or its successors.
- (24) Domestic wastewater discharge means the discharge of sewage, non-process industrial wastewater, other domestic wastewater or any combination of these items. Domestic wastewater includes, but is not limited to, liquid waste generated by domestic water using fixtures and appliances, from any residence, place of business, or place of public assembly even if it contains no sewage. Examples of domestic wastewater include once-through non-contact cooling water, seafood packing facility discharges and wastewater from restaurants.

Wetlands generally include swamps, marshes, bogs and similar areas. Wetlands classified as waters of the state are restricted to waters of the United States as defined by 33 CFR 328.3 and 40 CFR 230.3.

Authority G.S. 143-214.1; 143-215.3(a)(1).

.0230 USE RESTORATION WATERS

(a) In addition to existing classifications, the Commission may classify any surface waters of the state as Use Restoration Waters (URW) upon a finding that such waters have a designated best use which has been impaired to the extent that the use has been lost or impaired in a manner that is more than transitory or short-lived. Such finding must be based upon biological, physical or chemical data, or a combination of water quality data, which demonstrate to the maximum extent practical, and to the satisfaction of the Commission, that the causes of use impairment and the sources of the pollution causing the use impairment have been identified and are not transitory in nature.

(b) The Commission intends for the URW program to be applied to small watersheds, but URW may include any or all waters within a watershed as the Commission deems necessary to effectively control the causes and sources of use impairment.

(c) Descriptions of boundaries of waters classified as URW are included in separate rules of this Subchapter and in the Schedule of Classifications (15A NCAC 2B .0302

through .0317) as specified for the appropriate river basin. The Division of Water Quality shall also maintain maps which describe URW boundaries.

(d) Site-specific management strategies shall be developed in coordination with interested stakeholders during the proceedings to classify waters as URW and shall be specified in separate rules of this Subchapter. Stakeholder members shall be representative of land uses and interests in the watershed.

(e) Management strategies may include voluntary recommendations, mandatory requirements, conditional mandatory requirements, or a combination of strategies, deemed necessary by the Commission to restore the designated uses of waters. The actions required by management strategies developed to restore the uses of waters classified as URW shall include voluntary measures, pollution prevention, and source reduction strategies to the maximum extent practical and any other strategies within the powers of the Commission. When

considering the assignment of this classification, the Commission may specify as a parameter of concern any biological, physical or chemical parameter or combination of parameters which have been identified, to the satisfaction of the Commission, as a cause of use impairment. Management strategies shall control parameters of concern and may include site-specific voluntary or regulatory best management practices for nonpoint sources of pollution, wastewater treatment requirements and limitations for point source discharges, or other waste treatment management practices deemed necessary by the Commission to adequately control the causes and sources of water pollution in waters classified as URW. The Commission shall also consider local actions which have been taken to protect or restore a waterbody in determining the appropriate state restoration options.

**SUBCHAPTER 30G - STATE BUILDING
COMMISSION**

**PROCEDURES AND CRITERIA FOR
AUTHORIZATION TO USE AN ALTERNATIVE
CONTRACTING METHOD**

SECTION .0100 - GENERAL PROVISIONS

.0102 POLICY

Generally, it is the policy of the SBC that the public's interest is typically best served by the letting of public construction contracts pursuant to the regular statutory procedures, particularly the provisions of G.S. 143-128. Nevertheless, in addition to those situations when a project cannot be completed using the standard methods, the SBC will recognize certain extraordinary circumstances that are appropriate, in the public's interest, and will justify an

exemption from the methods of contracting authorized under G.S. 143-128. Such extraordinary circumstances must be created by some unusual or unforeseen occurrence or situation and includes those situations set forth in 1 NCAC 30G .0105(b); any request made for an exemption as a result of such extraordinary circumstance must demonstrate to the SBC that requisite justification exists to obtain the exemption.

*History Note: Authority G.S. 143-135.26(9)(b);
Temporary Adoption Eff. July 1, 1996;
Eff. August 1, 1998.*

.0104 GENERAL PROCEDURES

(a) Application Form - The SBC shall establish a form of application to be used by public owners requesting an exemption, which shall upon request be provided to public owners. A completed application shall contain all of the information necessary to enable the SBC to determine the appropriateness and merits of approving an exemption.

(b) Rules for Application - The SBC, upon request, shall provide public owners with a copy of the rules it adopts under the authority of G.S. 143-135.26(9).

(c) Review of Application:

(1) The public owner shall submit the application to the State Construction Office, Attention: Director, Department of Administration, New Education Building, Suite 450, 301 North Wilmington Street, Raleigh, North Carolina 27601-2827. The Director shall review the application upon its receipt. If the Director determines that the application is not complete, he shall return the application to the public owner along with a written notice of the reasons for the return. Despite the return of an application, a public owner may request in writing to the Director that the SBC consider the application as originally submitted, and the notice of return to the public owner shall so state this option. An application shall be considered abandoned if it is returned pursuant to this section, and no further action is taken by the public owner to satisfy the reasons for its return.

(2) Completed applications shall be considered within 60 days of receipt by the Director of the completed application. Once scheduled for consideration by the SBC, the public owner shall be given notice of the date, time and location of the SBC meeting at which the application shall be considered.

(3) The SBC shall only accept written applications. After due consideration of these applications, the SBC shall take one of the following actions:

- (A) Delay consideration of the application;
- (B) Deny the application; or
- (C) Approve the application.

Within five days of the SBC's action upon the application, notice of the same shall be sent to the public owner, and to the Director. Upon a delay of consideration pursuant to Paragraph (a) of this Rule, the SBC shall immediately request from the public owner or other person further information required in order to make a determination, or provide the public owner with notice of the reason for the delay.

(d) Approval of an Application - Approval of an application authorizes the public owner to utilize only the alternative contracting method as proposed by the public owner and no other method of contracting. Approval of an application shall be effective for a period to be determined by the SBC but not exceeding 12 months. Standards used by the SBC in determining the effective length of an approval shall include, but not be limited to, the request of the public owner, the experience of the public owner, the SBC and the Director with the approved method, the recommendation of the Director, and the nature of the project. The SBC may extend the effective

time period upon good cause shown by the public owner for no more than an additional 12 months. Good cause must be shown by serious reasons including, but not limited to, unforeseen acts or events that delay the project, acts of war or terrorism, unavoidable casualties or other causes beyond the public owner's control. The extension of an effective time period shall run from the last day of the prior effective time period. The effective time period shall run from the date the SBC approves the application.

(e) Conflicts of Interest - A member of the SBC is not qualified to vote upon any matter or influence any other member's vote upon any matter in which he has a conflict of interest. A conflict of interest, as related to members of the SBC having an interest in contracts authorized by the SBC, is defined in G.S. 143-135.28, and that definition applies to conflicts of SBC members having an interest in projects for which alternative contracting methods are authorized by the SBC.

(f) Public Records - The Director shall maintain a list of applications which states the name of the public owner, the name of the project, the project amount, a brief description of the category for which the exemption is sought, and a record of the SBC's action. Applications, and a record of the SBC's action upon those applications, shall be available for public inspection.

CHAPTER 26 - MEDICAL ASSISTANCE

SUBCHAPTER 26H - REIMBURSEMENT PLANS

SECTION .0100 - REIMBURSEMENT FOR NURSING FACILITY SERVICES

.0104 COST REPORTING: AUDITING AND SETTLEMENTS

(a) Each facility that receives payments from the North Carolina Medicaid Program must prepare and submit a report of its costs and other financial information, such as the working trial balance, related to reimbursement annually. The report must include costs from the fiscal period beginning on October 1 and ending on September 30 and must be submitted to the state on or before the December 31 that immediately follows the September 30 year end. A new provider must submit a report for the period beginning with the date of certification and ending on September 30. Hospital based nursing facilities with a fiscal year ending other than September 30 and State operated facilities with a June fiscal year ending must file their cost reports within 90 days after their fiscal year ends. Facilities that fail to file their cost reports by the due date are subject to payment suspension until the reports are filed. The Division of Medical Assistance may extend the deadline 30 days for filing the report if, in its view, good cause exists for the delay. A good cause is an action that is uncontrollable by the provider.

(b) Cost report format. The cost report must be submitted on forms provided by the Division of Medical Assistance. The account structure for the report is based on the chart of accounts published by the American Healthcare Association in 1979 but amended or modified to the extent necessary to meet the special reimbursement requirements of this plan. The Division of Medical Assistance shall make one copy of the cost report format available to each facility (combination facilities receive only one) on or before July 1 of the reporting year for which the report is to be filed.

(c) Cost finding and allocation. Costs must be reported in the cost report in accordance with the following rules and in the order of priority stated.

- (1) Costs must be reported in accordance with the specific provisions of this plan as set forth in this Rule.
- (2) Costs must be reported in conformance with the Medicare Provider Reimbursement Manual, HCFA 15.
- (3) Costs must be reported in conformance with Generally Accepted Accounting Principles.

(d) The specific cost reporting guidelines related to this plan are set forth in the following Paragraphs. The state shall publish guidelines, consistent with the provisions of this plan, concerning the proper accounting treatment for items described in this Rule as related operating expenses. A provider may request clarification in writing from the state if there is uncertainty about the proper cost center classification of any particular expense item.

- (1) Nursing Cost Center includes the cost of nursing staff, medical supplies, and related operating expenses needed to provide nursing care to patients, including medical records (including forms), utilization review, the Medical Director

and the Pharmacy Consultant. The amount of nursing time provided to each patient must be recorded in order to allocate nursing cost between skilled and intermediate nursing care. Effective October 1, 1996, Direct Patient Care Equipment shall be reported to the Nursing Cost Center and is defined as equipment which meets all of the following tests:

- (A) Its primary purpose is to enhance the quality, efficiency, or safety of the work of direct patient care personnel;
- (B) It enables direct patient care personnel to measure patients' physical characteristics or to implement the plans of care (including assistance with activities of daily living) of patients with physical impairments or to promote the safety of patients with cognitive impairments;
- (C) It is not office or bedroom furniture; and
- (D) It is not a communications device or computer hardware or software.

The Division of Medical Assistance shall make available a non-all-inclusive list of items which may be reported as direct patient care equipment, consistent with the provisions of this Rule. This list may be prospectively modified by the Division of Medical Assistance at any time, based on the preponderance of evidence. Items reported as direct patient care equipment which are not on this list are subject to a case by case review during any audit conducted under Paragraph (e) of this Rule. Providers must demonstrate by a preponderance of evidence that such items meet the definition of direct patient care equipment as stated in this Rule. Providers are required to exercise the prudent buyer principle as set out in HCFA 15 when procuring direct patient care equipment. This provision is applicable to lease or depreciation expense incurred on or after October 1, 1996 regardless of when the equipment was initially leased or acquired. Direct patient care equipment maintenance and repair costs shall be reported in the Operation of Plant and Maintenance Cost Center. All other costs associated with direct patient care equipment shall be reported in the cost centers that would be appropriate if the costs were associated with other equipment.

- (2) Dietary Cost Center includes the cost of staff, raw food, and supplies needed to prepare and deliver food to patients.
- (3) Laundry and Linen Cost Center includes the cost of staff, bed linens (replacement mattresses and related operating expenses needed to launder facility-provided items).

- (4) Housekeeping Cost Center includes the cost of staff and supplies needed to keep the facility clean.
- (5) Patient Activities Cost Center includes the cost of staff, supplies, and related operating expenses needed to provide appropriate diversionary activities for patients.
- (6) Social Services includes the cost of social workers and related operating expenses needed to provide necessary social services to patients.
- (7) Ancillary Cost Center includes the cost of all therapy services covered by the Medicaid program and billable medical supplies. Providers must bill Medicare Part B for those ancillary services covered under the Medicare Part B program. Ancillary cost centers include: Radiology, Laboratory, Physical Therapy, Occupational Therapy, Speech Therapy, Oxygen Therapy, Intravenous Fluids, Billable Medical Supplies, Parenteral/Enteral Therapy and life sustaining equipment, such as oxygen concentrators, respirators, and ventilators and other specifically approved equipment. Effective October 1, 1996, air fluidized beds (e.g. Clinitron beds), low air loss mattresses or beds and alternating pressure mattresses may be recorded in the life sustaining equipment cost center. This program is applicable to lease or depreciation expense incurred on or after October 1, 1996 regardless of when the equipment was initially leased or acquired. Effective October 1, 1994, a separate ancillary cost center shall be established to include costs associated with medically related transportation for facility residents. Medically related transportation costs include the costs of vehicles leased or owned by the facility, payroll costs associated with transporting residents and payments to third parties for providing these services.
- (8) Administrative and General Cost Center includes all costs needed to administer the facility including the staff costs for the administrator, assistants, billing and secretarial personnel, personnel director and pastoral expenses. It includes the costs of copy machines, dues and subscriptions, transportation, income taxes, legal and accounting fees, start-up, and other administrative costs as set forth in the Chart of Accounts. Interest expense other than that stemming from mortgages or loans to acquire physical plant items shall be reported here.
- (9) Property Ownership and Use:
 - (A) This cost center includes all allowable costs related to the use of the physical assets including building, fixed equipment and movable equipment, that are required to deliver patient care, except the special equipment, as specified in Subparagraphs (d)(1) or (d)(7) of this Rule. Except for the special equipment noted in Subparagraphs (d)(1) and (d)(7), it includes the following items:
 - (i) all equipment expense regardless of equipment nature,
 - (ii) lease expense for all physical assets,
 - (iii) depreciation of assets utilizing the straight line method,
 - (iv) interest expense of asset related liabilities, (e.g., mortgage expense),
 - (v) property taxes.
 - (B) For the purposes of computing allowable lease expense and for balance sheet presentation for Return on Equity computations (see Rule .0105 of this Section), leases shall not be capitalized.
 - (C) In establishing the allowable cost for depreciation and for interest on capital indebtedness, with respect to an asset which has undergone a change of ownership, the valuation of the asset shall be the lesser of allowable acquisition cost less accumulated depreciation to the first owner of record on or after July 18, 1984 or the acquisition cost to the new owner. Depreciation recapture shall not be performed at sale. The method for establishing the allowable related capital indebtedness shall be as follows:
 - (i) The allowable asset value shall be divided by the actual acquisition cost.
 - (ii) The product computed in step 1 shall be multiplied times the value of any related capital indebtedness.
 - (iii) The result shall be the liability amount upon which interest may be recorded at the rate set forth in the debt instrument or such lower rate as the state may prove is reasonable. The allowable asset and liability values established through the process in this Rule shall be those used in balance sheet presentations for return on equity computation (see Rule .0105 of this Section). These procedures are established to implement the provisions of PL 98-369 Section 2314.
- (10) Operation of Plant and Maintenance Cost Center includes all costs necessary to operate or maintain the functionality and appearance of the

plant. These include: maintenance staff, utilities, repairs and maintenance to all equipment.

- (11) **Equipment Expense.** Equipment is defined as an item with a useful life of more than two years and a value greater than five hundred dollars (\$500.00). Effective October 1, 1996, Direct Patient Care Equipment depreciation or lease expense incurred on or after October 1, 1996, shall be reported under the Nursing Cost Center, as noted under Subparagraph (d)(1) of this Rule. All other costs associated with direct patient care equipment shall be reported in the cost centers that would be appropriate if the costs were associated with other equipment. Other equipment ownership and use costs shall be reported in the Property Ownership and Use Cost Center. Other equipment maintenance and repair costs shall be reported in the Operation of Plant and Maintenance Cost Center. Other equipment shall not be reported elsewhere.

- (12) **Training Expense.** Training expense must be identified in the appropriate benefitting cost center. The costs of training nurse aides must be identified separately and may include the cost of purchasing programs and equipment that have been approved by the State for training or testing.

- (13) **Home Office Costs.** Home office costs are generally charged to the Administrative and General Cost Centers. However, personnel costs which are direct patient care oriented may be allocated to "direct" patient care cost centers if time records are maintained to document the performance of direct patient care services. No Home office overhead may be so allocated. The basis of this allocation among facilities participating in the North Carolina Medicaid program may be:

- (A) specific time records of work performed at each facility, or
- (B) patient days in each facility to which the costs apply relative to the total patient days in all the facilities to which the costs apply.

- (14) **Management Fees.** Management fees are charged to the Administrative and General Cost Center. However, a portion of a management fee may be allocated to a direct patient care cost center if time records are maintained to document the performance of direct patient care services. The amount so allocated may be equal only to the salary and fringe benefits of persons who are performing direct patient care services while employed by the management company. Records adequate to support these costs must be made available to staff of the Division of

Medical Assistance. The basis of this allocation among facilities participating in the North Carolina Medicaid program may be:

- (A) specific time records of work performed at each facility, or
- (B) patient days in each facility to which the costs apply relative to the total patient days in all the facilities to which the costs apply.

- (15) **Related Organization Costs.** A nursing facility shall demonstrate by convincing evidence to the satisfaction of the Division of Medical Assistance that the costs are reasonable. Reasonable costs of related organizations shall be identified in accordance with direct and indirect cost center categories as follows:

(A) **Direct Cost:**

- (i) Compensation of direct care staff such as nursing personnel (aides, orderlies, nurses), food service workers, housekeeping staff and other personnel who would normally be accounted for in a direct cost center.
- (ii) Supplies and services that would normally be accounted for in a direct cost center.
- (iii) Capital, rental, maintenance, supplies/repairs and utility costs (gas, water, fuel, electricity) for facilities that are not typically a part of a nursing facility. These facilities might include such items as warehouses, vehicles for delivery and offices which are totally dedicated or clearly exceed the number, size, or complexity required for a normal nursing facility, its home office, or management company.
- (iv) Compensation of all administrative staff who perform no duties which are related to the nursing facility or its home office and who are neither officers nor owners of the nursing facilities or its home office.

(B) **Indirect Cost:**

- (i) Capital, rental, maintenance, supplies/repairs, and utility costs which are normally or frequently a part of a nursing facility. This would include, for example, kitchen and laundry facilities.
- (ii) Except for salary and fringe benefits of Personnel, Accounting and Data Processing staff, home office costs which are allocated by methods

approved by the Division of Medical Assistance are direct costs when the work performed is specific to the related organization that provides a direct care service or product to the provider. In determining if an allocation method is appropriate, a case-by-case review shall be made based on the preponderance of evidence. A proposed allocation method shall be denied if the review supports a determination that the associated cost either exceeds the cost of comparable products or services that could be purchased elsewhere or was for services that were not related to direct patient care or services not covered by the North Carolina Medical Assistance program.

- (iii) Compensation of all administrative staff who perform any duties for the nursing facility or its home office.
- (iv) All compensation of all officers and owners of the nursing facility or its home office, or parent corporation.

A related organization must file a Medicaid Cost Statement (DMA-4083) identifying its costs, adjustments to costs, allocation of costs, equity capital, adjustments to equity capital, and allocations of equity capital along with the nursing facilities cost report. A home office, or parent company, shall be recognized as a related organization. Auditable records to support these costs must be made available to staff of the Division of Medical Assistance and its designated contract auditors. Undocumented costs shall be disallowed. A nursing facility shall demonstrate by convincing evidence to the satisfaction of the Division of Medical Assistance that the criteria in the Medicare Provider Reimbursement Manual, Section 1010, has been met in order to be recognized as an exception to the related organization principle. The related party principle is stated in the Medicare Provider Reimbursement Manual, Section 1010, as follows: Costs applicable to services, facilities, and supplies furnished to the provider by organizations related to the provider by common ownership or control are includable in the allowable cost of the provider at the cost to the related organization. However, such cost must not exceed the price of comparable services, facilities, or supplies that could be purchased elsewhere. The purpose of this principle is two-fold: to avoid the payment of a profit factor to the provider through the related organization (whether related by common ownership or control), and to avoid payment of artificially inflated costs which may be generated from less than arm's length bargaining. When a related organization is deemed an exception; reasonable charges by the related organization

to the nursing facility are recognized as allowable costs; receivable/payables from/to the nursing facility and related organization deemed an exception are not adjusted from the nursing facility's balance sheet in computing equity capital. The Medicare Provider Reimbursement Manual is often referred to as the HCFA Publication #15-1 and is hereby incorporated by reference including any subsequent amendments and editions. A copy is available for inspection at the Division of Medical Assistance, 1985 Umstead Drive, Raleigh, North Carolina. Copies may be obtained from the US Department of Commerce, National Technical Information Services, Subscription Department, 5285 Port Royal Road, Springfield, VA 22161 at a cost of one hundred forty seven dollars (\$147.00). Purchasing instructions may be received by calling (703) 487-4650. Updates are available for an additional fee.

(e) Auditing and Settlement. All filed cost reports must be desk audited and interim reimbursement settlements made in accordance with the provision of this plan. This settlement is issued within 180 days of the date the cost report was filed or within 180 days of December 31 of the fiscal year to which the report applies, whichever is later. The state may elect to perform field audits on any filed cost reports within three years of the date of filing and issue a final settlement on a time schedule that conforms to Federal law and regulation. If the state decides not to field audit a facility a final reimbursement notice may be issued based on the desk audited settlement. The state may reopen and field audit any cost report after the final settlement notice to comply with Federal law and regulation or to enforce laws and regulations prohibiting abuse of the Medicaid Program and particularly the provisions of this reimbursement plan.

(f) These changes to the Reimbursement for Nursing Facility Services shall become effective upon the Health Care Financing Administration approved effective date for amendment 96-05.

(a) The total number of license agents in the counties which contain or border on coastal fishing waters shall not exceed 43. The license agents authorized for each county as of October 1, 1983, shall be allowed to renew their agency authorization subject to the terms of this Rule. The number of license agents for coastal fishing waters counties is three agents for Carteret, Dare, New Hanover and Onslow counties; two agents for Beaufort, Brunswick and Craven counties; and one agent for the remaining counties.

(b) In the selection of license agents, the Secretary shall consider the following requirements:

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
