Dear Mr. Holec:

This refers to the annexation (Ordinance No. 97-57) and its designation to a district of the City of Greenville in Pitt County, North Carolina, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act, 42 U.S.C. 1973c. We received your submission on July 14, 1997.

The Attorney General does not interpose any objection to the specified changes. However, we note that Section 5 expressly provides that the failure of the Attorney General to object does not bar subsequent litigation to enjoin the enforcement of the changes. In addition, as authorized by Section 5, we reserve the right to reexamine this submission if additional information that would otherwise require an objection comes to our attention during the remainder of the sixty-day review period. See the Procedures for the Administration of Section 5 (28 C.F.R. 51.41 and 51.43).

CHAPTER 26 - MEDICAL ASSISTANCE

SUBCHAPTER 26H - REIMBURSEMENT FOR NURSING FACILITY SERVICES

SECTION .0200 - HOSPITAL INPATIENT REIMBURSEMENT PLAN

.0213 DISPROPORTIONATE SHARE HOSPITALS

(a) Hospitals that serve a disproportionate share of low-income patients and have a Medicaid inpatient utilization rate of not less than one percent are eligible to receive rate adjustments. The cost report data and financial information that is required in order to qualify as a disproportionate share hospital effective April 1, 1991 is based on the fiscal year ending in 1989 for each hospital, as submitted to the Division of Medical Assistance on or before April 1, 1991. The cost report data and financial information to qualify as a disproportionate share hospital effective July 1, 1991 is based on the fiscal year ending in 1990 for each hospital, as submitted to the Division of Medical Assistance on or before September 1, 1991. In subsequent years, qualifications effective July 1 of any particular year are based on each hospital's fiscal year ending in the preceding calendar year. The patient days, costs, revenues, or charges related to nursing facility services, swing-bed services, home health services, outpatient services, or any other service that is not a hospital inpatient service cannot be used to qualify for disproportionate share status. A hospital is deemed to be a disproportionate share hospital if:

- (1) The hospital has at least two obstetricians with staff privileges at the hospital who have agreed to provide obstetric services to individuals eligible for Medicaid. In the case of a hospital located in a rural area, the term obstetrician includes any physician with staff privileges at the hospital to perform non-emergency obstetric services as of

December 21, 1987 or to a hospital that predominantly serves individuals under 18 years of age; and

- (2) The hospital's Medicaid inpatient utilization rate, defined as the percentage resulting from dividing Medicaid patient days by total patient days, is at least one standard deviation above the mean Medicaid inpatient utilization rate for all hospitals that receive Medicaid payments in the state; or
- (3) The hospital's low income utilization rate exceeds 25 percent. The low-income utilization rate is the sum of:
 - (A) The ratio of the sum of Medicaid inpatient revenues plus cash subsidies received from the State and local governments, divided by the hospital's total patient revenues; and
 - (B) The ratio of the hospital's gross inpatient charges for charity care less the cash subsidies for inpatient care received from the State and local governments divided by the hospital's total inpatient charges; or
- (4) The sum of the hospital's Medicaid revenues, bad debts allowance net of recoveries, and charity care exceeds 20 percent of gross patient revenues; or
- (5) The hospital, in ranking of hospitals in the State, from most to least in number of Medicaid patient days provided, is among the top group that accounts for 50 percent of the total Medicaid patient days provided by all hospitals in the State; or
- (6) It is a Psychiatric hospital operated by the North Carolina Department of Human Resources, Division of Mental Health, Developmental Disabilities, Substance Abuse Services (DMH/DD/SAS) or UNC Hospitals operated by the University of North Carolina.
 - (b) The rate adjustment for a disproportionate share hospital is 2.5 percent plus one fourth of one percent for each percentage point that a hospital's Medicaid inpatient utilization rate exceeds one standard deviation of the mean Medicaid inpatient utilization rate in the State. The rate adjustment is applied to a hospital's payment rate exclusive of any previous disproportionate share adjustments:
 - (c) An additional one time payment for the 12-month period ending September 30, 1995, in an amount determined by the Director of the Division of Medical Assistance, may be paid to the Public hospitals that are the primary affiliated teaching hospitals for the University of North Carolina Medical Schools less payments made under authority of Paragraph (d) of this Rule. The payment limits of the Social Security Act, Title XIX, Section 1923(g)(1) applied to this payment require that when this payment is added to other Disproportionate Share Hospital payments, the additional disproportionate share payment will not exceed 100 percent of the total cost of providing inpatient and outpatient services to Medicaid and uninsured patients less all payments received for services provided to Medicaid and uninsured patients.

The total of all payments may not exceed the limits on DSH funding as set for the State by HCFA.

(d) Effective July 1, 1994, hospitals eligible under Subparagraph (a)(6) of this Rule shall be eligible for disproportionate share payments, in addition to other payments made under the North Carolina Medicaid Hospital reimbursement methodology, from a disproportionate share pool under the circumstances specified in Subparagraphs (1), (2) and (3) of this Paragraph.

- (1) An eligible hospital will receive a monthly disproportionate share payment based on the monthly bed days of services to low income persons of each hospital divided by the total monthly bed days of services to low income persons of all hospitals items allocated funds.
- (2) This payment shall be in addition to the disproportionate share payments made in accordance with Subparagraphs (a)(1) through (5) of this Rule. However, DMH/DD/SAS operated hospitals are not required to qualify under the requirements of Subparagraphs (a)(1) through (5) of this Rule.
- (3) The amount of allocated funds shall be determined by the Director of the Division of Medical Assistance, but not to exceed the quarterly grant award of funds (plus appropriate non-federal match) earmarked for disproportionate share hospital payments less payments made under Subparagraphs (a)(1) through (5) divided by three. In Subparagraph (d)(1) of this Rule, bed days of services to low income persons is defined as the number of bed days provided to individuals that have been determined by the hospital as patients that do not possess the financial resources to pay portions or all charges associated with care provided.

Low income persons include those persons that have been determined eligible for medical assistance. The count of bed days used to determine payment is based upon the month immediately prior to the month that payments are made.

Disproportionate share payments to hospitals are limited in accordance with The Social Security Act as amended, Title XIX section 1923 (g), limit on amount of payment to hospitals.

(e) Subject to the availability of funds, hospitals that qualify as disproportionate share hospitals under Subparagraphs (a)(1) through (5) of this Rule for the fiscal years ended September 30, 1995 and September 30, 1996; operate Medicare approved graduate medical education programs for the fiscal years ended September 30, 1995 and September 30, 1996; and incur for the 12-month period ending September 30, 1996 unreimbursed costs (calculated without regard to payments under either this Paragraph or Paragraph (f) of this Rule) for providing inpatient and outpatient services to uninsured patients in an amount in

excess of two million five hundred thousand dollars (\$2,500,000) shall be eligible for disproportionate share payments for such services from a disproportionate share pool under the circumstances specified in Subparagraphs (1) through (7) of this Paragraph.

- (1) Qualification for the 12 month period ending September 30, 1996 shall be based on cost report data and uninsured patient data certified to the Division by hospitals on or before September 23, 1996 for fiscal years ending in 1995, in connection with the disproportionate share hospital application process. Qualification for subsequent 12 month periods ending September 30 of each year shall be based on cost report data and uninsured patient data certified to the Division by hospitals on or before September 1 of each subsequent year, for the fiscal year ending in the preceding calendar year.
- (2) Any payments made pursuant to this Paragraph shall be calculated and paid no less frequently than annually, and prior to the calculation and payment of any disproportionate share payments pursuant to Paragraph (f) of this Rule.
- (3) For the 12 month period ending September 30, 1996 a payment shall be made to each qualified hospital in an amount determined by the Director of the Division of Medical Assistance based on a percentage (not to exceed a maximum of 23 percent) of the unreimbursed costs incurred by each qualified hospital for inpatient and outpatient services provided to uninsured patients.
- (4) In subsequent 12 month periods ending September 30th of each year, the percentage payment shall be ascertained and established by the Division by ascertaining funds available for payments pursuant to this Paragraph divided by the total unreimbursed costs of all hospitals that qualify for payments under this Paragraph for providing inpatient and outpatient services to uninsured patients.
- (5) The payment limits of the Social Security Act, Title XIX, section 1923(g)(1) applied to the payments authorized by this Paragraph require that when this payment is added to other disproportionate share hospital payments, the total disproportionate share payments shall not exceed 100 percent of the total costs of providing inpatient and outpatient services to Medicaid and uninsured patients for the fiscal year in which such payments are made, less all payments received for services to Medicaid and uninsured patients. The total of all disproportionate share hospital payments shall not exceed the limits on disproportionate share hospital funding as established for this State by HCFA.
- (6) To ensure that payments pursuant to Paragraph (e) do not exceed the State aggregate upper limits to such payments established by applicable federal law and regulation (42 C.F.R. 447.272), such payments shall be cost settled within 12 months of receipt of

the completed cost report covering the period for which such payments are made. If any hospital receives payments, pursuant to this Subparagraph in excess of the percentage established by the Director under Subparagraph (d)(3) of this Rule, ascertained without regard to other disproportionate share hospital payments that may have been received for services during the 12-month period ending September 30, 1996, such excess payments shall promptly be refunded to the Division. No additional payment shall be made to qualified hospitals in connection with the cost settlement.

(7) The payments authorized by Subparagraph (6) shall be effective in accordance with G.S. 108A-55(c).

(f) An additional one-time disproportionate share hospital payment during the 12-month period ending September 30, 1996 (subject to the availability of funds and to the payment limits specified in this Paragraph) shall be paid to qualified public hospitals. For purposes of this Paragraph, a qualified public hospital is a hospital that qualifies for disproportionate share hospital status under Subparagraphs (a)(1) through (5) of this Rule; does not qualify for disproportionate share hospital status under Subparagraph (a)(6) of this Rule; was owned or operated by a State (or by an instrumentality or a unit of government within a State) throughout the 12-month period ending September 30, 1996; verified its status as a public hospital by certifying state, local, hospital district or authority government control on the most recent version of Form HCFA-1514 filed with the Health Care Financing Administration, U.S. Department of Health and Human Services on or before September 23, 1996; files with the Division on or before September 23, 1996 by use of a form prescribed by the Division a certification of its unreimbursed charges for inpatient and outpatient services provided to uninsured patients during the fiscal year ending in 1995; and submits to the Division on or before September 23, 1996 by use of a form prescribed by the Division a certificate of public expenditures.

(1) The payment to qualified public hospitals pursuant to this Paragraph for the 12-month period ending September 30, 1996 shall be based on and shall not exceed the unreimbursed charges certified to the Division by each such hospital by use of a form prescribed by the Division for inpatient and outpatient services provided to uninsured patients for the fiscal year ending in 1995, to be converted by the Division to unreimbursed cost by multiplying unreimbursed charges times the cost-to-charge ratio established by the Division for each hospital for the fiscal year ending in 1995. Payments authorized by this Paragraph shall be made no less frequently than annually.

(2) Any payments pursuant to this Paragraph shall be ascertained and paid after any disproportionate share hospital payments that may have been or may be paid by the Division pursuant to Paragraph (d) of this Rule.

(3) The payment limits of the Social Security Act, Title XIX, Section 1923 (g)(1) applied to this payment require that when this payment is added to other disproportionate share hospital payments, the total disproportionate share hospital payments will not exceed 100 percent of the total costs of providing inpatient and outpatient services to Medicaid and uninsured patients for the fiscal year in which such payments are made, less all payments received for services to Medicaid and uninsured patients for that year. The total of all DSH payments by the Division may not exceed the limits on disproportionate share hospital funding as established for this State by HCFA for the fiscal year in which such payments are made.

(4) To ensure that estimated payments pursuant to Paragraph (f) do not exceed the State aggregate upper limits to such payments established by applicable federal law and regulation (42 C.F.R. 447.272), such payments shall be cost settled within 12 months of receipt of the completed cost report covering the 12 month period for which such payments are made. No additional payments shall be made in connection with the cost settlement.

(5) The payments authorized by Paragraph (f) of this Rule shall be effective in accordance with G.S. 108A-55(c).

(g) Effective with dates of payment beginning October 31, 1996, hospitals that provide services to clients of State Agencies are considered to be a Disproportionate Share Hospital (DSH) when the following conditions are met:

(1) The hospital has a Medicaid inpatient utilization rate not less than one percent and has met the requirements of Subparagraph (a)(1) of this Rule; and

(2) The State Agency has entered into a Memorandum of Understanding (MOU) with the Division of Medical Assistance (Division); and

(3) The inpatient and outpatient services are authorized by the State Agency for which the uninsured client meets the program requirements.

(A) For purposes of this Paragraph, uninsured patients are those clients of the State Agency that have no third parties responsible for any hospital services authorized by the State Agency.

(B) DSH payments are paid for services to qualified uninsured clients on the following basis:

(i) For inpatient services the amount of the DSH payment is determined by the State Agency in accordance with the applicable Medicaid inpatient payment methodology as stated in Rule .0211 of this Section.

(ii) For outpatient services the amount of the DSH payment is determined by the

State Agency in accordance with the applicable Medicaid outpatient payment methodology as stated in Section 24 of Chapter 18 of the 1996 General Assembly of North Carolina.

(iii) No federal funds are utilized as the non-federal share of authorized payments unless the federal funding is specifically authorized by the federal funding agency as eligible for use as the non-federal share of payments.

(C) Based upon this subsection DSH payments as submitted by the State Agency are to be paid monthly in an amount to be reviewed and approved by the Division of Medical Assistance. The total of all payments may not exceed the limits on Disproportionate Share Hospital funding as set forth for the state by HCFA.

TITLE 15A - DEPARTMENT OF ENVIRONMENT, HEALTH, AND NATURAL RESOURCES

Notice is hereby given in accordance with G.S. 150B-21.2 that the Environmental Management Commission intends to amend rule cited as 15A NCAC 2B .0315. Notice of Rule-making Proceedings was published in the Register on March 14, 1997.

Proposed Effective Date: August 1, 1998

A Public Hearing will be conducted at 7:00 p.m. on October 21, 1997 at the Archdale Building, Groundfloor Hearing Room, 512 North Salisbury Street, Raleigh, NC.

Reason for Proposed Action: The NC Department of Environment, Health, and Natural Resources on behalf of the Environmental Management Commission (EMC) will conduct a public hearing in order to receive public comments on the proposed revision of the Critical Area and Protected Area boundaries surrounding the Falls Lake water supply reservoir. These rule-making proceedings are being held in accordance with G.S. 143-214.1, 143-215.1, and 143-215.3(a)(1).

Falls Lake is the primary drinking water supply source for the City of Raleigh. The water supply is classified as WS-IV and encompasses parts of Durham, Franklin, Granville, and Wake Counties. In addition, the municipalities of Creedmoor, Durham, Raleigh, Butner, and Wake Forest have jurisdiction within the designated water supply area. Since this water supply is a WS-IV with an intake located in a reservoir, the Critical Area (CA) and Protected Area (PA) boundaries are based on the normal pool elevation of the

reservoir. The minimum CA size is defined in the Water Supply Watershed Protection Rules as ½ mile and draining to the reservoir, as measured from the normal pool elevation. The rules define the PA as five miles and draining to the normal pool elevation of the reservoir. Any changes to the normal pool elevation change the CA and PA boundaries which will in turn affect the amount of land subject to the rules.

Falls Lake was constructed as a multi-purpose reservoir by the U.S. Army Corps of Engineers in 1981, and started filling in 1983. One of the purposes was to provide water to the City of Raleigh with a guaranteed volume. However, due to a surveying error the actual storage capacity of the reservoir fell short of the contractual volume. The normal pool elevation was at 250.1 feet msl (mean sea level) at the completion of the reservoir. The United States Congress approved the Corps raising the dam approximately twelve inches in order to provide the agreed upon storage capacity for the City, and address water quality, flood control and sediment issues. Construction to raise the dam was completed in the fall of 1995. In changing the dam height, the normal pool elevation has risen to 251.5 feet msl. The result is a change in the Critical and Protected Areas surrounding the lake. Since the Schedule of Classifications for the Neuse River Basin (15A NCAC 2B .0315) references these areas, it is necessary to proceed to rulemaking in order to revise the outer boundaries of the CA and PA. The total affected area will increase from 173,156 acres to 187,741 acres (includes lake surface area), which is a 6 percent increase.

Each of the affected local governments would be required to modify their water supply watershed protection ordinance and associated maps within 180 days following adoption and notification from the Environmental Management Commission of the change.

Comment Procedures: The purpose of this announcement is to encourage those interested in this proposal to provide comments. You may either attend the public hearing and make relevant verbal comments or submit written comments, data or other relevant information by November 21, 1997. The Hearing Officer may limit the length of time that you may speak at the public hearing, if necessary, so that all those who wish to speak may have an opportunity to do so. We encourage you to submit written comments as well.

The EMC is very interested in all comments pertaining to the proposed reclassification. It is very important that all interested and potentially affected persons or parties make their views known to the EMC whether in favor of or opposed to any and all provisions of the proposed reclassification. The EMC may not adopt a rule that differs substantially from the text of the proposed rule published in the North Carolina Register unless the EMC publishes the text of the proposed different rule and accepts comments on the new text (see 150B-21.2(g)). All interested and potentially affected persons are strongly encouraged to read the entire announcement and supporting information, and make appropriate comments on

the proposal presented. The proposed effective date for the final rules pursuant to this hearing process is August 1, 1998. Written comments may be submitted by November 21, 1997 to:

- (1) No exemption under this Rule .1206 is available for the offer or sale of securities if the issuer or any other person or entity to which Rule .1206 applies is disqualified pursuant to Rule .1207 of this Section unless the administrator, upon application and a showing of good cause by the issuer, or such other person or entity, modifies or waives the disqualification.
- (2) No commission, discount, finder's fee or other similar remuneration or compensation shall be paid, directly or indirectly, to any person for soliciting any prospective purchaser of any security sold to a resident of this State in reliance upon the exemption provided by this Rule .1206 unless such person is either registered pursuant to G.S. 78A-36 or exempt from registration thereunder or the issuer reasonably believes that such person is so registered or exempt therefrom.
- (3) In all sales to those accredited investors defined in 17 C.F.R. 230.501(a)(5) who reside in this State (except sales to such accredited investors made by or through a dealer registered under G.S. 78A-36) and in all sales to nonaccredited investors who reside in this State the issuer and any person acting on its behalf shall have reasonable grounds to believe and after making reasonable inquiry shall believe that one of the following conditions is satisfied:
 - (A) The investment is suitable for the purchaser upon the basis of the facts, if any, disclosed by the purchaser as to his/her other security holdings and as to his/her financial situation

and needs. For the purpose of this condition only, it may be presumed that if the investment does not exceed 10 percent of the investor's net worth, it is suitable.

- (B) The purchaser, either alone or with his/her purchaser representative(s), has such knowledge and experience in financial and business matters that he/she is or they are capable of evaluating the merits and risks of the prospective investments.
- (4) In all sales of direct participation programs securities pursuant to the exemption provided by this Rule .1206, the provisions of Rule .1313 of this Chapter regarding registered offerings of direct participation program securities shall be applicable in addition to all other requirements of this Rule .1206.
- (5) Any prospectus or disclosure document used in this state in connection with an offer and sale of securities made in reliance upon the exemption provided by this Rule .1206 shall disclose conspicuously the legend(s) required by the provisions of Rule .1316 of this Chapter.
- (6) Nothing in the exemption provided by this Rule .1206 is intended to or should be construed as in any way relieving the issuer or any person acting on behalf of the issuer from providing disclosure to prospective investors adequate to satisfy the antifraud provisions of the Act.
- (7) Transactions which are exempt under this Rule may not be combined with offers and sales exempt under any other rule or section of this Act; however, nothing in this limitation shall act as an election. Should for any reason, an offer and sale of securities made in reliance upon the exemption provided by this Rule .1206 fail to comply with all of the conditions hereof, the issuer may claim the availability of any other applicable exemption.
- (8) A failure to comply with a term, condition or requirement of Subparagraphs (a)(2) and (a)(3) of this Rule will not result in loss of the exemption from the requirements of G.S. 78A-24 for any offer or sale to a particular individual or entity if the person relying on the exemption shows:
- (A) the failure to comply did not pertain to a term, condition or requirement directly intended to protect that particular individual or entity; and
- (B) the failure to comply was insignificant with respect to the offering as a whole; and
- (C) a good faith and reasonable attempt was made to comply with all applicable terms, conditions and requirements of Subparagraphs (a)(2) and (a)(3).

Where an exemption is established only through reliance upon this Subparagraph (8) of this Rule, the failure to comply shall nonetheless be actionable by the administrator under G.S.

78A-47.

- (9) In any proceeding involving this Rule .1206, the burden of proving the exemption or an exception from a definition or condition is upon the person claiming it.
- (10) In view of the objective of this Rule .1206 and the purpose and policies underlying the Act, this exemption is not available to any issuer with respect to any transaction which, although in technical compliance with this Rule .1206, is part of a plan or scheme to evade registration or the conditions or limitations explicitly stated in this Rule .1206 or Rules .1207 and .1208 of this Section.
- (11) The administrator may, by order, waive any condition of or limitation upon the availability of the exemption provided by this Rule .1206.
- (12) The exemption provided by this Rule .1206 shall be known and may be cited as the "North Carolina Limited Offering Exemption."
- (b) Pursuant to G.S. 78A-18, the administrator may by order deny or revoke the exemption provided by this Rule .1206 with respect to a specific security or security transaction.

.1212 NOTICE FILING PROCEDURES FOR OFFERINGS OF INVESTMENT COMPANY SECURITIES

(a) An investment company offering securities covered under Section 18(b)(2) of the Securities Act of 1933 may satisfy the notice filing requirement of G.S. 78A-31(a) by filing the fees required by that section, together with Form NF, Uniform Investment Company Notice Filing. This filing need not be made nor fees paid on any security issued by an investment company if such security is exempt pursuant to the provisions of G.S. 78A-16 or 78A-17. If permitted by the

Securities Division, Form NF may be filed electronically.

(b) By filing Form NF, an investment company thereby agrees that, upon receipt of a request from the Securities Division, the investment company will promptly provide to the Division a copy of its current prospectus and statement of additional information, if any, as filed with the Securities and Exchange Commission.

(c) By executing the Form NF, the investment company thereby agrees, that for purposes of complying with the laws of this State, such execution shall be deemed to be the consent of the investment company to have the Administrator irrevocably appointed as its agent in this State upon whom may be served any notice, process or pleading in any action or proceeding against it arising out of, or in connection with, the sale of securities covered by such Form NF or arising out of the violation of the securities laws of this State; and that any action or proceeding against the investment company may be commenced in any court of competent jurisdiction and proper venue within this State by service of process upon the Administrator with the same effect as if the investment company was organized or created under the laws of this State and had been served lawfully with process in this State. In the event any notice, process or pleading is served on the investment company through the Administrator, the Administrator shall promptly provide a copy of such notice, process, or pleading to the person indicated in Item 5 of Form NF.

(d) Upon filing Form NF and paying either the minimum or maximum fees required by G.S. 78A-31(a)(1), the securities of the investment company may be offered for sale and sold into, from, and within this State until the expiration of the notice filing period pursuant to G.S. 78A-31(a)(4). In order to offer or sell its securities after the expiration of its notice filing, the investment company must extend its notice filing as provided in Paragraph (f) of this Rule. In the event that the Securities Division requests that the investment company provide it with a copy of the investment company's prospectus or statement of additional information, such request shall not restrict the ability of the investment company to offer its securities for sale in this State provided that the Division has received the Form NF and fees as required by G.S. 78A-31(a).

(e) Any investment company that elects to pay a fee less than the maximum fee as provided in G.S. 78A-31(a) shall file a sales report on Form NF, with the Division, within two months after the expiration of the notice filing period.

(f) A notice filing may be renewed by the investment company by filing a current Form NF and paying such fees as are required by G.S. 78A-31(a) within two months after the expiration of the prior notice filing period. Each renewal of a notice filing shall expire on December 31.

(g) Amendments to the information contained on a Form NF may be made by the filing of another Form NF, together with the fees required by G.S. 78A-31(a).

TITLE 15A - DEPARTMENT OF ENVIRONMENT, HEALTH, AND NATURAL RESOURCES

CHAPTER 2 - ENVIRONMENTAL MANAGEMENT

**SUBCHAPTER 2H - PROCEDURES FOR PERMITS:
APPROVALS**

**SECTION .0200 - WASTE NOT DISCHARGED TO
SURFACE WATERS**

**.0225 CONDITIONS FOR ISSUING GENERAL
PERMITS**

(a) In accordance with the provisions of G.S. 143-215.1(b)(3) and (d), general permits may be developed by the Division and issued by the Director for categories of activities covered by this Rule. General permits may be written for categories of activities that involve the same or substantially similar operations, have similar treated waste characteristics, require the same limitations or operating conditions, and require the same or similar monitoring. In accordance with G.S. 143-215.10C, general permits may be issued for any category of animal operation, based on species, number of animals, and other relevant factors. Each of the general permits shall be issued under G.S. 143-215.1(d). After issuance of a general permit by the Director, persons operating facilities described by the general permit may request coverage under it, and the Director or his designee may grant appropriate certification. All individual operations which receive a "Certificate of Coverage" under a general permit are permitted under the specific general permit for which the coverage was issued. A Certificate of Coverage shall mean the approval given to facilities that meet the requirements of coverage under the general permit. Persons operating facilities covered under general permits developed in accordance with this Rule shall be subject to the same limits, conditions, management practices, enforcement authorities, and rights and privileges as specified in the general permit.

(b) Upon development of a draft general permit, the Director shall publicly notice under G.S. 143-215.4 (b)(1) and (2), at least 30 days prior to final action, an intent to issue the general permit. A one time publication of the notice in a newspaper having general circulation in the geographic areas affected by the proposed permit shall be required. The notice shall provide the name, address and phone number of the agency issuing the notice, a brief description of the intended action, and a brief description of the procedures for the formulation of final determinations, including a 30-day comment period and other means by which interested persons may comment upon the determinations.

(c) No provisions in any general permit issued under this Rule shall be interpreted as allowing the permittee to violate state surface water quality standards, groundwater quality standards outside a Compliance Boundary established in accordance with 15A NCAC 2L .0107 (b), (c), (e)(2)(A), (e)(2)(C), (f)(1), (f)(3), (h), (j) and (k), or other applicable environmental standards. Construction of new water supply wells for human consumption shall be prohibited within Compliance Boundaries for facilities covered under general permits issued under this Section. General permits issued pursuant to this Rule will be considered individual permits

for purposes of Compliance Boundaries established under 15A NCAC 2L .0107.

(d) To obtain an individual certificate of coverage, a Notice of Intent to be covered by the general permit must be given using forms provided by the Division. Coverage under the general permit shall be granted unless the Director makes a determination under Paragraph (h) of this Rule that an individual permit is required. If all requirements are not met, an individual permit application and full application review procedure shall be required.

(e) General permits shall be effective for a term not to exceed five years at the end of which the Division may renew them. The Division shall satisfy public notice requirements prior to renewal of general permits. If the Division chooses not to renew a general permit, all operations covered under that general permit shall be notified to submit applications for individual permits.

(f) Anyone engaged in activities covered by the general permit rules but not permitted in accordance with this Section shall be considered in violation of G.S. 143-215.1.

(g) Any individual covered or considering coverage under a general permit may choose to pursue an individual permit for any operation covered by this Rule.

(h) The Director may require any person, otherwise eligible for coverage under a general permit, to apply for an individual permit by notifying that person that an application is required. Notification shall consist of a written description of the reason(s) for the decision, appropriate permit application forms and application instructions, a statement establishing the required date for submission of the application, and a statement informing the person that coverage by the general permit shall automatically terminate upon issuance of the individual permit. Reasons for requiring application for an individual permit may include:

- (1) the operation is a significant contributor of pollutants to the waters of the state;
- (2) conditions at the permitted site change, altering the constituents or characteristics of the wastewater such that the operation no longer qualifies for coverage under a general permit;
- (3) noncompliance with the general permit;
- (4) noncompliance with Division Rules;
- (5) a change has occurred in the availability of demonstrated technology or practices for the control or abatement of pollutants applicable to the operation;
- (6) a determination that there has been or is the potential to have a direct discharge of wastewater, sludge or residuals to waters of the state;
- (7) the system has been allowed to deteriorate or leak such that it poses an immediate threat to the environment.

(i) General permits or individual certificate of coverages may be modified, terminated, or revoked and reissued in accordance with the authority and requirements of rules of this Section.

 AND FRANCHISES**

**SECTION .0200 - LEASES AND
 FRANCHISES**

**.0204 MARKING SHELLFISH LEASES AND
 FRANCHISES**

(a) All shellfish bottom leases, franchises, and water column leases shall be marked as follows:

(1) Shellfish bottom leases and franchises shall be marked by:

- (A) Stakes of wood or plastic material at least three inches in diameter at the water level and extending at least four feet above the high water mark. The stakes shall be firmly jettted or driven into the bottom at each corner.
- (B) Signs displaying the number of the lease or franchise and the name of the owner printed in letters at least three inches high must be firmly attached to each corner stake.
- (C) Supplementary stakes of wood or plastic material, not farther apart than 50 yards or closer together than 50 feet and extending at least four feet above the high water mark, must be placed along each boundary, except when such would interfere with the use of traditional navigation channels.

(2) Water column leases shall be marked by anchoring two yellow buoys, meeting the material and minimum size requirements specified in 15A NCAC 3J .0103(b) at each corner of the area or by larger buoys, posts and signs as identified and approved by the Secretary in the Management Plan.

(b) Stakes marking areas of management within shellfish bottom leases or franchises, as approved in the management plan, must conform to Subparagraph (a)(1)(C) of this Rule and may not exceed one for each 1,200 square feet. Marking at concentrations of stakes greater than one for each 1,200 square feet constitutes use of the water column and a water column lease is required in accordance with G.S. 113-202.1 or G.S. 113-202.2.

 FOR AREAS OF ENVIRONMENTAL CONCERN**

**SECTION .1200 - GENERAL PERMIT FOR
 CONSTRUCTION OF PIERS: DOCKS: AND BOAT
 HOUSES IN ESTUARINE AND PUBLIC
 TRUST WATERS**

.1202 APPROVAL PROCEDURES

(a) The applicant must contact the Division of Coastal Management and complete an application form requesting approval for development. The applicant shall provide information on site location, dimensions of the project area, and his name and address.

(b) The applicant must provide:

- (1) confirmation that a written statement has been obtained signed by the adjacent riparian property owners indicating that they have no objections to the proposed work; or
- (2) confirmation that the adjacent riparian property owners have been notified by certified mail of the proposed work. Such notice shall instruct adjacent property owners to provide any comments on the proposed development in writing for consideration by permitting officials to the Division of Coastal Management within 10 days of receipt of the notice, and, indicate that no response will be interpreted as no objection. DCM staff shall review all comments and determine, based on their relevance to the potential impacts of the proposed project, if the proposed project can be approved by a General Permit. If DCM staff finds that the comments are worthy of more in-depth review, the applicant shall be notified that he must submit an application for a major development permit.

(c) Approval of individual projects shall be acknowledged

in writing by the Division of Coastal Management and the applicant shall be provided a copy of this Section.

(d) Construction must be completed within 90 days of the approval of the permit or the permit expires.

(e) Any modification or addition to the approved project shall require prior approval from the Division of Coastal Management.

History Note: Authority G.S. 113A-107(a); 113A-107(b); 113A-113(b); 113A-118.1; 113A-124;

Eff. March 1, 1984;

Amended Eff. August 1, 1998; January 1, 1990.

.1205 SPECIFIC CONDITIONS

(a) Piers, docks, and boat houses may extend or be located up to a maximum of 400 feet from the normal high water line, or the normal water level, whichever is applicable.

(b) Piers, docks, and boat houses shall not extend beyond the established pier length along the same shoreline for similar use. This restriction shall not apply to piers 100 feet or less in length unless necessary to avoid unreasonable interference with navigation or other uses of the waters by the public. The length of piers shall be measured from the waterward edge of any wetlands that border the water body.

(c) Piers longer than 200 feet shall be permitted only if the proposed length gives access to deeper water at a rate of at least one foot at each 100 foot increment of pier length longer than 200 feet, or if the additional length is necessary to span some obstruction to navigation. Measurements to determine pier lengths shall be made from the waterward edge of any coastal wetland vegetation which borders the water body.

(d) Piers and docks shall be no wider than six feet and shall be elevated at least three feet above any coastal wetland substrate as measured from the bottom of the decking.

(e) Any portion of a pier (either fixed or floating) extending from the main structure and six feet or less in width shall be considered either a "T" or a finger pier.

(f) Any portion of a pier (either fixed or floating) greater than six feet wide shall be considered a platform or deck.

(g) "T"s, finger piers, platforms, and decks of piers on lots with shorelines 100 feet or greater in length shall not exceed a combined total area of 400 square feet. The combined total area for lots less than 100 feet shall not exceed four square feet per linear foot of shoreline.

(h) Platforms and decks shall have no more than six feet of any dimension extending over coastal wetlands.

(i) Boathouses shall not exceed 400 square feet and shall have sides extending no further than one-half the height of the walls and only covering the top half of the walls. Measurements of square footage shall be taken of the greatest exterior dimensions. Boathouses shall not be allowed on lots with less than 75 linear feet of shoreline.

(j) Areas enclosed by boat lifts shall not exceed 400 square feet.

(k) Piers, docks, decks, platforms and boat houses shall be single story. They may be roofed but shall not be designed to allow second story use.

(l) Pier alignments along federally maintained channels must also meet Corps of Engineers regulations for pier construction pursuant to Section 10 of the Rivers and Harbors Act.

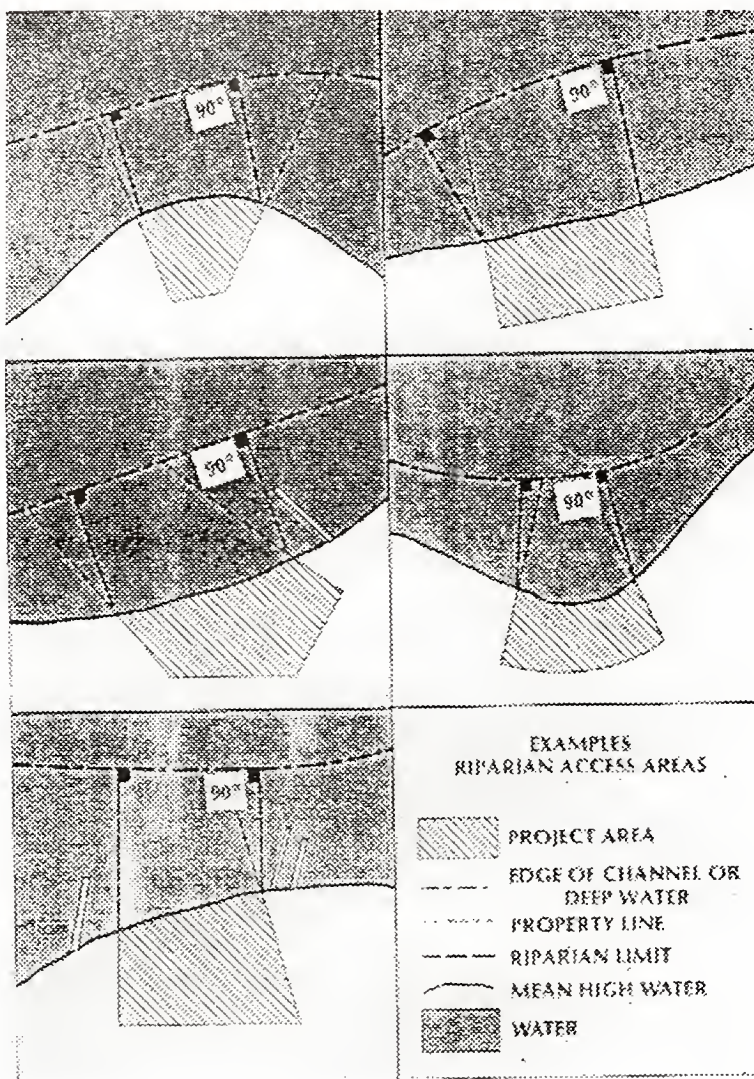

(m) Piers, docks, and boat houses shall in no case extend more than 1/4 the width of a natural water body, human-made canal or basin. Measurements to determine widths of the water body, human-made canals or basins shall be made from the waterward edge of any coastal wetland vegetation which borders the water body. The 1/4 length limitation shall not apply when the proposed pier is located between longer piers within 200 feet of the applicant's property. However, the proposed pier shall not be longer than the pier head line established by the adjacent piers, nor, longer than 1/3 the width of the water body.

(n) Piers, docks and boat houses shall not interfere with the access to any riparian property, and shall have a minimum setback of 15 feet between any part of the pier and the adjacent property lines extended into the water at the points that they intersect the shoreline. The minimum setbacks provided in the rule may be waived by the written agreement of the adjacent riparian owner(s), or when two adjoining riparian owners are co-applicants. Should the adjacent property be sold before construction of the pier commences, the applicant shall obtain a written agreement with the new owner waiving the minimum setback and submit it to the Division of Coastal Management prior to initiating any development of the pier, dock, or boat house. The line of division of areas of riparian access shall be established by drawing a line along the channel or deep water in front of the property, then drawing a line perpendicular to the line of the channel so that it intersects with the shore at the point the upland property line meets the water's edge. Application of this Rule may be aided by reference to the approved diagram in Paragraph (q) of this Rule illustrating the rule as applied to various shoreline configurations. Copies of the diagram may be obtained from the Division of Coastal Management. When shoreline configuration is such that a perpendicular alignment cannot be achieved, the pier shall be aligned to meet the intent of this Rule to the maximum extent practicable.

(o) Piers, and mooring facilities shall be designed to provide docking space for no more than two boats.

(p) Applicants for authorization to construct a dock or pier shall provide notice of the permit application to the owner of any part of a shellfish franchise or lease over which the proposed dock or pier would extend. The applicant shall allow the lease holder the opportunity to mark a navigation route from the pier to the edge of the lease.

(q) The diagram shown below illustrates the various shoreline configurations.

SUBCHAPTER 7K - ACTIVITIES IN AREAS OF ENVIRONMENTAL CONCERN WHICH DO NOT REQUIRE A COASTAL AREA MANAGEMENT ACT PERMIT

SECTION .0200 - CLASSES OF MINOR MAINTENANCE AND IMPROVEMENTS WHICH SHALL BE EXEMPTED FROM THE CAMA MAJOR DEVELOPMENT PERMIT REQUIREMENT

.0203 PRIVATE BULKHEADS; RIPRAP; AND PIERS EXEMPTED

(a) The N. C. Coastal Resources Commission hereby exempts from the Coastal Area Management Act permit requirement work in the estuarine shoreline and public trust waters areas of environmental concern necessary to maintain, repair, and construct private bulkheads with backfill, and to place riprap material along shorelines, and construct piers or mooring facilities in waters of North Carolina. This exemption is subject to the following conditions and limitations:

- (1) The activities exempted by this Rule shall be private, non-commercial activities conforming to the standards and conditions contained in this Rule. This exemption does not apply to development associated with multi-unit residential developments

larger than duplexes or to marinas, commercial harbors, community or neighborhood boat access, fish houses or similar commercial activities.

- (2) This exemption is applicable only along estuarine shorelines void of wetland vegetation types described in NCGS 113-229, or where all construction is to be accomplished landward of such vegetation, or where the pier is elevated above said wetlands.
 - (3) This exemption only applies to bulkheads, riprap, and piers in non-oceanfront areas.
 - (4) This exemption does not eliminate the need to obtain any other required federal, state, or local authorization.
 - (5) Before beginning any work under this exemption the Department of Environment, Health, and Natural Resources representative must be notified of the proposed activity to allow on-site review of the bulkhead, riprap material, or pier alignment. Notification can be by telephone, in person, or in writing. Notification must include:
 - (A) the name, address, and telephone number of landowner and location of work including county, nearest community, and water body;
 - (B) the dimensions of the proposed pier, bulkhead with backfill, or the area dimensions to be covered by placement of riprap material;
 - (C) confirmation that a written statement has been obtained, signed by the adjacent riparian property owners, indicating that they have no objections to the proposed work. (These statements do not have to be presented at the time of notification of intent to perform work, but the permittee must make it available to CRC agents at their request.)
 - (6) The landowner must agree to perform the work authorized in this Rule in a manner so as to conform with standards for development in the estuarine shoreline area of environmental concern.
- (b) Bulkheads and Riprap: Conditions
- (1) The permittee shall maintain structure of areas of riprap material authorized in this Rule in good condition.
 - (2) Bulkhead with backfill, and placement of riprap material exempted by this Rule shall be limited to a maximum shoreline length of 200 feet.
 - (3) The bulkhead backfill and riprap materials must be obtained from an upland source.
 - (4) No excavation is exempted under this Rule except that which may be required for installation of the bulkhead wall, deadmen, cables, piles, etc.
 - (5) The proposed bulkhead alignment or area for placement of riprap material must be staked or flagged by the landowner in consultation with, or approved by, a state or federal permit officer prior

to any construction activity. The bulkhead must be positioned so as not to extend more than an average distance of two feet waterward of the mean high water contour; in no place shall the bulkhead be more than five feet waterward of the mean high water contour. Construction activities must begin 90 days after approval of the alignment or area.

- (6) The bulkhead must be solid structure constructed of treated wood, concrete slabs, metal sheet piles, corrugated asbestos sheeting, or similar materials. A structure made of organic material, tires, car bodies, or similar materials is not considered a bulkhead.
 - (7) The bulkhead must be structurally tight so as to prevent seepage of backfill materials through the bulkhead. The bulkhead must be constructed prior to any backfilling activities.
 - (8) Riprap material must consist of clean rock or masonry materials such as marl, brick, or broken concrete. Materials such as tires, car bodies, scrap metal, paper products, tree limbs, wood debris, organic material or similar material are not considered riprap.
- (c) Piers: Conditions
- (1) Exemptions for pier construction along natural shorelines are available only for lots with shoreline lengths 75 feet or greater. Exemptions may be used on shorelines in human-made canals and basins regardless of shoreline length.
 - (2) Piers and mooring facilities must not exceed 100 feet in total length off-shore; must not be within 150 feet of the edge of a federally maintained channel; must not extend past the four foot mean low water contour line (four foot depth at mean low water) of the water body; must not exceed six feet in width; must not include an enclosed structure; and must not interfere with established navigation rights of other users of the water body and must have a minimum setback of 15 feet between any part of the pier and the adjacent property owners' areas of riparian access. The line of division of areas of riparian access shall be established by drawing a line along the channel or deep water in front of the properties, then drawing a line perpendicular to the line of the channel so that it intersects with the shore at the point the upland property line meets the water's edge. The four foot mean low water restriction shall not apply to piers constructed in canals and basins dredged from areas above normal high water (NHW) or normal water level (NWL).
 - (3) This exemption shall not apply to docks and piers being built within shellfish franchises or leases unless the applicant for authorization to construct can provide written confirmation of no objections to the proposal from the lessee.
 - (4) Piers authorized by this exemption shall be for the

exclusive use of the land owner, and shall not provide either leased or rented docking space or any other commercial services. Piers and mooring facilities designed to provide docking space for more than two boats shall, because of their greater potential for adverse impacts, be reviewed through the permitting process, and, therefore, are not authorized by this exemption.

- (5) Piers and docks shall in no case extend more than 1/4 the width of a natural water body, canal or basin. Measurements to determine widths of the water body, canals or basins shall be made from the waterward edge of any coastal wetland vegetation which borders the water body. The 1/4 length limitation shall not apply when the proposed pier is located between longer piers within 200 feet of the applicant's property. However, the proposed pier shall not be longer than the pier head line established by the adjacent piers, nor longer than 1/3 the width of the water body.
- (6) Any portion of a pier (either fixed or floating) extending from the main structure and six feet or less in width shall be considered either a "T" or a finger pier.
- (7) Any portion of a pier (either fixed or floating) greater than six feet wide shall be considered a platform or deck.
- (8) "T"s, finger piers, platforms, and decks of piers must not exceed a combined total area of 200 square feet.
- (9) Platforms and decks shall have no more than six feet of any dimension extending over coastal wetlands and shall be elevated at least three feet above any coastal wetland substrate as measured from the bottom of the decking.

**TITLE 19A - DEPARTMENT OF STATE
TRANSPORTATION**

CHAPTER 2 - DIVISION OF HIGHWAYS

SUBCHAPTER 2B - HIGHWAY PLANNING

SECTION .0100 - RIGHT OF WAY

.0164 USE OF RIGHT OF WAY CONSULTANTS

(a) Introduction and purpose. The North Carolina Department of Transportation maintains a staff capable of performing the normal workload for most of the functions required for the acquisition of rights of way for our highway system. However, it is recognized that situations arise and

certain specific needs exist which can best be met by the use of qualified consultants outside the Department.

This Rule is established for the preparation, execution and administration of contracts for right of way acquisition services by consultant firms that are over ten thousand dollars (\$10,000.00).

Due to the diversity of contract types, some portions of this Rule may not be fully applicable to all situations. The Right of Way Branch Manager shall determine when waivers from portions of this Rule are justified. Guidelines for determining if a waiver is justified shall include:

- (1) Emergency situation exists that affects the health and safety of the traveling public.
- (2) Availability of pre-qualified firms willing to perform specified work according to the Department's schedule.

(b) The following are incorporated by reference including any subsequent amendments or editions:

- (12) Right of Way Consultant Selection Committee - The Committee shall consist of the Branch Manager, Assistant Branch Manager, Unit Heads, and the Right of Way Consultant Coordinator or their designated representatives and shall be chaired by the Branch Manager. When Federal funds will be used as compensation for services to be solicited, a representative of the Federal Highway Administration shall sit with the Committee but shall not be a voting member.

(d) Application. This Rule shall apply to all contracts for right of way acquisition services which cost more than ten thousand dollars (\$10,000.00) and are obtained by the Department of Transportation pursuant to G.S. 136-28(f).

(e) Pre-qualification of firms. The Department shall advertise for firms interested in performing right of way acquisition services for the North Carolina Department of Transportation when necessitated by its projected workload. The advertisement shall be published in the North Carolina Purchase Directory, a bi-monthly publication of the N.C. Department of Administration. The advertisement shall indicate that interested firms must respond by letter to the Department indicating their interest within two weeks of the date of the advertisement. The response shall include the Federal Government's Government Accounting Office Forms 254 and 255, and copies of the firms latest brochures. Additional firms may be considered for pre-qualification at any time that the Department recognizes a need based on current projected workload for additional pre-qualified firms. Evaluation of the firms expressing interest shall be based on the following considerations:

- (1) Experience, education, reputation, and required certifications of staff in the fields of expertise required by the contract including negotiations, appraisals, and relocation assistance;
- (2) Number of staff available to perform the services required by the contract including negotiations, appraisals, and relocation assistance;

- (3) Financial ability to undertake the proposed work;
- (4) The firm's accounting system including ability to identify costs chargeable to the project;
- (5) Past performance by the firm on previous Right of Way acquisition contracts including meeting the time schedule for the work;
- (6) Equipment necessary to perform the required services.

A number of firms sufficient to perform the anticipated workload that meet the qualifications in Paragraphs (e)(1) through (e)(6) of this Rule shall be designated as pre-qualified to perform right of way acquisition services for the North Carolina Department of Transportation. The number of pre-qualified firms to be maintained on the Department's pre-qualified list shall be determined by the Manager of the Right of Way Branch.

(f) Register of pre-qualified firms. The Right of Way Consultant Coordinator shall maintain a "Register of Pre-Qualified Firms" from whom specific project proposals may be solicited to perform right of way acquisition services for the North Carolina Department of Transportation - Right of Way Branch.

(g) Request for approval to solicit specific project proposals. The Right of Way Consultant Selection Committee through the Manager of Right of Way shall determine when the need for right of way acquisition services exists. Upon determining that a need exists, the Committee shall request approval from the Branch Manager to solicit proposals for the work.

The request shall be in writing and shall include the type of work and specific justification for the work being performed by a consultant firm such as:

- (1) non-availability of manpower,
- (2) lack of expertise, or
- (3) other reasons.

(h) Solicitations of specific project proposals. Specific Project Proposals shall be solicited from all Pre-Qualified Firms. Solicitations shall be by direct mailing of plans and Specific Project Proposal.

The Right of Way Consultant Coordinator, upon the approval of the Manager of Right of Way, shall prepare the requests for proposals. The request shall contain plans and information describing the location of the project, types and scope of work required, and the time schedule for accomplishing the work.

The solicitation for a Specific Project Proposal shall require that all firms shall attend a Scoping Meeting on a specified date in order to qualify to submit a Specific Project Proposal for consideration. Any firm that does not wish to submit a Specific Project Proposal on a particular project shall advise, in writing, the Manager of Right of Way of their decision not to submit a Specific Project Proposal for that project.

(i) Selection of firm for specific project contract. The Right of Way Consultant Selection Committee shall review all responses received to the request for proposals and shall select three firms from those indicating interest (except when there are fewer than three responses). When several projects

are under consideration at the same time, a firm shall be selected for each project and two alternates may be selected from the entire group, at the discretion of the Selection Committee. These firms shall be listed in descending order of preference based on the Selection Committee's review and analysis of all responses. The Committee may elect to interview all or part of the firms responding to the request for proposal prior to establishing the order of preference. The Selection Committee's file shall be documented as to the reasons for the selection of a firm.

In the evaluation of the firms submitting Specific Project Proposals, the following factors shall be considered:

- (1) The monetary amount of the competitive proposal;
- (2) The firm personnel who are currently available to perform right of way acquisition services on the specific project and their qualifications; and
- (3) The ability of the firm to complete the work according to the Department's schedule.

Any firm selected to perform Right of Way Services for the North Carolina Department of Transportation shall be required to establish an office at the location of the project. This office shall be the location for maintaining all project records open for review by appropriate Department personnel.

After the authorization to proceed to negotiations is given by the Branch Manager, the Right of Way Consultant Coordinator shall notify the firm chosen by the Selection Committee.

(j) Negotiation of specific project contract. Prior to receiving a specific project proposal, the Right of Way Consultant Coordinator shall prepare an estimate of the cost of performing the work in-house. This estimate shall be used in evaluating the acceptability of the selected firm's cost proposal.

If considered necessary by the Right of Way Consultant Coordinator a meeting with the selected firm may be scheduled to discuss the scope of the proposed work. The discussions will vary depending upon the firm's familiarity with the Department's methods, policies, standards, etc. For firms unfamiliar with the Department's requirements, the discussions shall include:

- (1) Policies used by the Department for the type and scope of work involved;
- (2) A copy of a contract in draft form;
- (3) Methods of payment;
- (4) Procedures for invoicing;
- (5) Standard forms to be used;
- (6) Fiscal requirements;
- (7) Items and services to be provided by the Department.

A representative of the firm shall keep minutes of the meeting, have them typed and submit a copy to the Right of Way Consultant Coordinator. The minutes shall be reviewed for completeness, accuracy and confirmation of mutual understanding of the scope of work. The minutes shall be approved by the signature of the Right of Way Consultant Coordinator and an approved copy shall be returned to the

firm.

The firm's competitive cost proposal shall be supported by a breakdown of the manhours required to perform each of the services contained in the contract and the fixed billable rate for each of the classifications of personnel to be utilized. The fixed fee must be specifically broken out on the firm's specific project cost proposal. The firm's cost proposal must also include a detailed breakdown of all non-salary direct costs and any sub-contract or fee services.

Upon receipt of the selected firm's cost proposal, a review shall be made. The review shall include a comparison with the in-house estimate and is intended to determine both the reasonableness of the proposal and areas of substantial differences which may require further discussion and negotiation. When further negotiations are required, they shall be the responsibility of the Right of Way Consultant Coordinator.

The final negotiations shall satisfactorily conclude all remaining points of difference and shall consider any comments submitted by the External Audit Unit. The Right of Way Consultant Coordinator with the concurrence of the Manager of Right of Way shall approve the final fee.

If an acceptable contract cannot be negotiated, negotiations shall be terminated, the firm shall be notified in writing and the next listed firm shall be contacted to initiate negotiations for the work.

(k) Board of Transportation approval and execution of contract. After final negotiations are completed, the firm shall execute a minimum of two contract originals and submit them to the Consultant Coordinator.

The Consultant Coordinator shall submit the contract to the State Highway Administrator who may consult with the Advisory Budget Commission pursuant to G.S. 136-28.1(f). The Manager of Right of Way shall submit the proposed contract to the Board of Transportation for approval. After the Board of Transportation approves the contract, the Manager of Right of Way shall execute and return the contract to the Right of Way Consultant Coordinator.

The Right of Way Consultant Coordinator shall transmit one original contract to the contracting firm and shall retain one in the project file. The Consultant Coordinator shall provide each of the following with a copy of the contract: the Manager of DOT Program and Policy Branch; DOT Fiscal Section; and Federal Highway Administration when federal-aid funds are involved.

(l) Sub-contracting. A contracting firm may sublet portions of the work proposed in the contract only upon approval of the Right of Way Consultant Coordinator.

The responsibility for procuring a subcontractor and assuring the acceptable performance of the work lies with the prime contractor. Also, the prime contractor shall submit the proper supporting data to the Contract Administrator for all work that is proposed to be sublet.

(m) Methods of compensation:

- (1) Lump Sum - This method of compensation is suitable for contracts where the amount and character of required work or services can be

clearly defined and understood by both the Department and the contracting firm.

- (2) Cost Plus Fixed Fee - This method of compensation is suitable for contracts where the general magnitude of work is known but the scope of work or period of performance cannot be defined clearly and the Department needs more flexibility in expediting the work without excessive amendments to the contract.
- (3) Cost Per Unit of Work - This method of compensation is suitable for contracts where the magnitude of work is uncertain but the character of work is known and a cost of the work per unit can be determined accurately.
- (4) Cost Plus a Percentage of Cost - This method of compensation shall not be used.

(n) Administration of contract. The administration of the contract shall be the responsibility of the Right of Way Consultant Coordinator. This shall include the review of invoices and recommendation for payment to the Fiscal Section.

(o) Contract Amendments. Each contract shall contain procedures for contract modifications and define what changes can only be made by means of a contract amendment. Any change in the amount of compensation must be accomplished by contract amendment. For contracts which use federal funds as compensation for services, the contract amendment must be approved by the Federal Highway Administration.

(p) Monitoring of work. The responsibility for monitoring the work, the schedule and performing reviews at intermediate stages of the work shall rest with the Right of Way Consultant Coordinator.

(q) Final payment. When it is determined that the work is complete, the final invoice shall be approved by the Right of Way Consultant Coordinator and forwarded to the Fiscal Section with a recommendation for payment. When the contract is terminated by the Department, the final payment shall be for that portion of work performed.

(r) Termination of contracts. All contracts shall include a provision for the termination of the contract by the Department. Such termination by the Department shall be in writing and shall be effective upon receipt by the contracting firm.

TITLE 24 - INDEPENDENT AGENCIES

CHAPTER 1 - N.C. HOUSING FINANCE AGENCY

SUBCHAPTER 1P - FIRE PROTECTION FUND

SECTION .0100 - GENERAL INFORMATION

.0103 TYPES OF ASSISTANCE

(a) The North Carolina Housing Finance Agency shall use program funds to make loans. Loans for smoke detection systems shall have an interest rate of 3%-6% and a maximum term of 10 years. Loans for sprinkler systems shall have an interest rate of 3% and a maximum term of 20 years. The interest rate for smoke detection system loans shall be determined based on the Fund's selection criteria as outlined in Rule .0202 of this Subchapter.

(b) The maximum loan amounts shall be calculated as defined in G.S. 122A-5.13.

(c) Loans shall be amortizing. Loans to the same facility that in aggregate total twenty-five thousand dollars (\$25,000) or more shall be secured by a note and deed of trust. Loans to the same facility that in aggregate total less than twenty-five thousand dollars (\$25,000) shall be secured by a note, unless the North Carolina Housing Finance Agency determines that the borrower may be unable to repay the note. Upon such determination the North Carolina Housing Finance Agency may require a deed of trust or other security in addition to the note. These loan documents shall provide for the acceleration of the debt in the event that a facility becomes subject to a negative administrative action by the North Carolina Division of Facility Services or the United States Health Care Financing Administration that would cause revocation of licensure or, in the event that the borrower fails to make timely payments.

(d) The North Carolina Housing Finance Agency shall charge a loan origination fee and a servicing fee to reimburse actual costs. The servicing fee shall not exceed 3/8 of 1% of the loan balance.

PRELIMINARY STATEMENT

1. Zander and Linda Brody bring this action on behalf of their son, James. He was born June 2, 1982. He is now fifteen years old. He has dyslexia. Petitioners alleged that the Dare County Public Schools had failed to provide James with a free, appropriate education as required by the Individuals with Disabilities Education Act and the corresponding North Carolina Act, N.C.G.S. 115C-106 *et seq.*

2. James Brody is a youngster with a high IQ. In 1991, when he was in the third grade, he was identified as a child in need of special education services. From March, 1991 through June, 1996, James received special education services from Dare County Public Schools. As a child with dyslexia, James needed remediation in his areas of weakness, reading, writing and spelling.

3. Petitioners alleged that after James left elementary school and entered Cape Hatteras Middle School for the sixth grade, Dare County abandoned their efforts to remediate him. Instead, of providing him with remediation of his reading, writing and spelling skills deficits, Dare County focused on helping him "compensate" for his dyslexia. Instead of teaching James how to read, Dare County suggested providing him with books on tape. Instead of teaching James how to spell, Dare County provided a "spell check" program.

4. Petitioners also alleged that for the next three years, James did not receive remediation of his dyslexia. These language-related skill deficits required specialized education that would result in the acquisition of reading, writing, spelling and arithmetic skills. James did not receive the specialized services tailored to his unique needs as a child with dyslexia. Because he did not receive an appropriate education during these years, James' skills in reading, spelling and written language remained severely deficient. He fell further behind his peer group. Subsequent psychological testing by Dare County and two private sector experts demonstrated that James' IQ continued to fall steadily, while receiving a "special" education. Between 1991, 1994 to 1996, his Full Scale IQ declined from 127, to 114, and eventually down to 103.

5. By the seventh grade, his parents realized that time was running out. In the summer before he entered eighth grade, the parents sent him to an intensive summer program at Landmark School. At that school, he did receive the remediation that he needed. After James returned from Landmark, his skills in reading had improved substantially and his view of himself had begun to improve.

6. Although Dare County was provided with information about what worked for James at Landmark, they did make any changes to his educational program. He remained in the generic LD Resource program at the middle school with children who had a variety of problems. He did not receive any remediation. In desperation, his parents took him to two experts in the field of dyslexia and gifted children with learning disabilities. These experts, Dr. Rebecca Felton and Dr. Rick Ellis, evaluated James and concluded that he needed an intensive program of remediation.

7. In May and June, 1996, James' parents attended two IEP meetings with staff from Dare County Public Schools. They brought in the experts who had recently evaluated James. These experts shared their recommendations with the Dare County IEP team. The parents asked that their son receive intensive remediation before it was too late. If Dare County could not provide him with remediation, they asked that Dare County place James in Landmark School where he could receive remediation.

8. Dare County advised the experts and the parents that they could not provide James with remediation because their program was not set up to do this. They also refused to act on the parents' request to place James in Landmark School where he could receive an appropriate education.

9. In August, 1996, faced with a situation in which their son was about to enter high school without an appropriate IEP, the parents requested a Due Process Hearing. In September, 1996, they withdrew James from Dare County Public Schools and sent him to Landmark School. For three years, from 1994 through 1996, Petitioners alleged that the Dare County Schools developed a series of IEPs that were fatally flawed. The Respondents denied that any of the IEPs were defective. Moreover, the Respondent contended that James was provided a free and appropriate public education and that private school placement was not necessary.

Based upon the record proper and the evidence presented, the Court makes the following:

FINDINGS OF FACT

10. James Brody entered Kindergarten at Cape Hatteras School in September, 1987. He attended first and second

grade at The Island Academy, a small private school on Hatteras Island. (Pa. Ex. 58)

11. In September, 1990, James re-entered Cape Hatteras Elementary Schools for the third grade. He began to experience academic problems immediately. (Pa. Ex. 3, Pa. Ex. 58)

12. Dare County Public Schools was aware as early as 9/20/90 that James was having difficulties in reading and written expression, and concentration problems. Early signs of depression and self-esteem problems were first documented in the Exceptional Children's Referral Form when James was in the third grade. (Pa. Ex. 3, Pa. Ex. 4)

13. A Focus of Screening developed by Dare County dated 10/4/90 noted that "Attempts to modify and adjust the program for James began as early as 9-4-90. Despite multiple adjustments, James is still having problems. The parents have attempted changes/additional assistance with limited results." (Pa. Ex. 3)

14. An Exceptional Children's Referral dated 2/6/91 noted that James has "difficulty concentrating sometimes, deficient in comprehension, reads below grade level, frequent reversals of letters and numbers, achieves below grade level in other content areas, disorganized work habits, poor handwriting, and appears depressed when unable to do work." (Pa. Ex. 4) Under Communication Skills, school staff checked "difficulty with written expression." (Pa. Ex. 4, p. 2)

15. On February 13, 1991, Dare County Schools evaluated James for the presence of a learning disability. School psychologist Mitchell Bateman found that James' Full Scale IQ was in the Superior Range (Full Scale IQ = 127) In Reading and Writing, James was functioning at the beginning of the second grade level although he was in third grade. (Pa. Ex. 7)

16. On March 6, 1991, Dare County developed their first IEP for James. This IEP proposed that after one year of special education, James' reading level would increase from a 2.2 to a 3.1 grade level as measured by the Brigance Inventory. (Pa. Ex. 9)

17. On March 6, 1992 and June 4, 1992, a year later, new IEPs were developed for James. (Pa. Ex. 12, 17)

18. On June 4, 1993, Dare County developed another IEP for James' sixth grade year. This IEP failed to include objective information about his Present Levels of Performance in reading, spelling and written language. Although the IEP stated "His overall reading skills inhibits his ability to complete reading tasks," the IEP failed to include goals or objectives to improve his reading skills.

19. On February 7, 1994, James was re-evaluated by school psychologist Mitchell Bateman. According to this testing, between 1991 and 1994 James' Full Scale IQ dropped from 127 to 114. (Pa. Ex. 23).

20. According to Mr. Bateman's testing, on the Wechsler Intelligence Scale for Children, James' subtest scores ranged from the 98th percentile to the 5th percentile. On the Similarities subtest, which measures logical thinking and reasoning abilities, James earned a score of 16 (98th percentile). On the Coding subtest that measures visual-motor coordination, attentional skills, and short-term memory, James scored at the 5th percentile. (Pa. Ex. 23)

21. According to the testing by Dare County in 1994, James made little progress in reading. After three years of special education, he dropped from the 42nd to the 27th percentile in reading skills as measured by the Letter-Word Identification subtest. (Pa. Ex. 23)

22. According to Dare County's 1994 evaluation, James made little or no progress in spelling. After three years of special education, James dropped from the 42nd to the 8th percentile in spelling; he made two months of progress (from the 2.9 to the 3.1 grade level), as measured by the Dictation subtest. (Pa. Ex. 23)

23. According to Dare County's 1994 evaluation, James made little progress in written language skills. After three years of special education, James made 6 months of progress (from the 3.6 to the 4.2 grade level) as measured by the Broad Written Language composite. His score dropped from the 58 percent to the 16 percent level. (Pa. Ex. 23)

24. The Individuals with Disabilities Education Act (IDEA) and N.C.G.S. 115C-113(f) mandate that schools ensure parental participation as part of the IEP team. Goals and objectives must be developed before any placement determination is made.

25. At the Due Process Hearing, Linda Brody testified that only the Service Delivery Plans were completed at the IEP meetings. The school personnel completed all goals and objective sheets before the IEP meeting. The Service Delivery Plans state on the form itself that it is "[t]o be completed **after the IEP is developed.**" (Pa. Ex.'s. 12, 17, 21, 25, 27, 42, 53)
26. Appendix C of 34 CFR 300, Question 42 clarifies when placement decisions should be made.
- Question 42: When must IEP objectives be written -- before placement or after placement?
- IEP objectives must be written before placement. Once a child with a disability is placed in a special education program, the teacher might develop lesson plans or more detailed objectives based on the IEP; however, such plans and objectives are not required to be a part of the IEP itself.
27. On May 31, 1994, three months after the February evaluation, Dare County developed an IEP for James' seventh grade year. (Pa. Ex. 27)
28. The May 31, 1994 IEP developed did not include objective information from Bateman's recent evaluation in the "Present Levels of Functioning." The IEP did not include annual goals or short term objectives that addressed James' deficits in basic reading skills, writing skills or spelling skills. (Pa. Ex. 27)
29. The May 31, 1994 IEP did not provide James with remedial instruction in reading, spelling, or written language. (Pa. Ex. 27)
30. In August, 1994, Dr. Kathleen van Hover, a Clinical Psychologist in Washington, D.C., evaluated James. Based on her own testing and a review of the earlier testing by Dare County, Dr. van Hover diagnosed James with dyslexia. (Pa. Ex. 31, 32, 33)
31. Dr. van Hover found that James' basic reading skills were at the fourth grade level (25th percentile.) His ability to perform basic math calculations was at the third grade level (9th percentile.) His basic writing skills were at the second to third grade levels (between the 3rd and 9th percentiles.) (Pa. Ex. 31)
- At that time, James was thirteen years old, the average age for an eighth grader. Despite an above average IQ, and despite several years of special education, he was now functioning between the second and fourth grades. He was falling further and further behind his peer group.
32. In her evaluation, Dr. van Hover recommended that James receive remediation in the form of "language therapy" and/or a "phonics based approach to reading and spelling mastery." (Pa. Ex. 31)
33. The parents paid for Dr. van Hover's evaluation, which cost \$1,000.00. (T2-217)
34. James' parents provided Dr. van Hover's report and recommendations to Dare County Public Schools in September, 1994. (T2-214)
35. Although Dare County now had new information confirming the severity of James' dyslexia and need for specialized remediation, they did not convene an IEP meeting to make changes to his educational program. James did not receive any remediation of his dyslexia. (T2-215)
36. On May 31, 1995, Dare County Public Schools developed an IEP for James' eighth grade year. (Pa. Ex. 42)
37. The May 31, 1995 IEP did not include objective information about James' Present Levels of Functioning in reading, spelling or written language. It did not include goals or objectives to improve James' deficiencies in reading, spelling, written language, or math computation. It did not provide for James to receive any remediation or language therapy. (Pa. Ex. 42)
38. The May 1995 IEP placed James back into the same "LD Resource" program where he had been receiving special education services. (Pa. Ex. 42)

39. During the summer of 1995, between seventh and eighth grade, James' parents placed him in an educational remediation program at Landmark School. The parents paid for the remedial program, which cost approximately \$5,500.00. (T2-216-217)

40. Landmark School is a private special education school in Pride's Crossing, Massachusetts that provides intensive remediation to children like James who have learning disabilities like dyslexia.

41. When James entered Landmark School, his Reading skills ranged between the 3.4 to 5.0 grade levels, as measured by the Woodcock Reading Mastery Test and the Gray Oral Reading Test. After six weeks of intensive remediation at Landmark, his scores in reading had improved substantially.

42. James attended Cape Hatteras Middle School for the eighth grade. He received no direct instruction or remediation of his weaknesses in basic reading, spelling and written language skills.

43. On April 12, 1996, Dr. Rebecca Felton, a nationally known expert in the field of learning disabilities, evaluated James. Dr. Felton reviewed all of the testing and IEPs developed by Dare County. (Pa. Ex. 54, Pa. Ex. 55)

Based on these tests as well as the results of prior evaluations, I conclude that James is a student correctly identified as having specific reading and written language disabilities or dyslexia . . . These problems are due to a combination of weaknesses in the language processing skills of phonological awareness and naming. (Pa. Ex. 55)

44. After reviewing the IEPs developed for James, Dr. Felton concluded that Dare County had not provided James with remediation of his deficient skills:

School and test records indicate that James continued to demonstrate significant deficits particularly in basic reading and writing skills in spite of special services for over five years in the public schools. Analysis of the Individual Education Plans indicates that much of that time was spent on teaching James higher level skills without adequately preparing him in the basic skills (word identification, decoding, and spelling.) After a summer of intensive work at Landmark, James did show significant improvements in basic reading skills. However, these skills were not reinforced and subsequent testing indicates that James has not fully mastered these skills. (Pa. Ex. 54)

45. Dr. Felton reported that James required a specific program of remediation that she described in detail:

James *requires direct, remedial instruction in basic skills of reading and spelling . . .* This goal can only be accomplished through *direct instruction in reading and writing in reading and writing . . . remedial instruction must be on a regular basis (daily or several times weekly)* with James either individually or in a small group where the other students are working on the same level (so the teacher can provide the direct instruction necessary) . . . *in an overall language arts curriculum designed to meet the needs of students with specific language based learning disabilities. The teacher must be well trained in the linguistic aspects of reading and spelling as well as the specific methods being used.* (emphasis added) (Pa. Ex. 54)

46. On April 20 and July 25, 1996, Dr. Rick Ellis, Licensed Clinical Psychologist and Certified School Psychologist, evaluated James. (Pa. Ex. 56)

47. Dr. Ellis reported that:

James' Composite IQ falls within the superior range of intellectual development. This score is equal to a percentile rank of 92 (better than 92 percent of students his age) (Pa. Ex. 56)

48. Dr. Ellis found that James was functioning "significantly below the range that would be expected given his ability" in reading and math. He found that James' skills in Dictation were "severely delayed." After he administered the Test of Variables of Attention (TOVA), Dr. Ellis diagnosed James with an Attention Deficit Disorder. (Pa. Ex. 56)

49. On May 30, 1996, Dare County Public Schools held an IEP meeting to develop an IEP for James' ninth grade

year. Dr. Rick Ellis and Dr. Rebecca Felton attended this IEP meeting. They provided the IEP Team with the results of their testing and their recommendations about what James needed in his special education program.

50. Several employees of Dare County Public Schools attended the May 30, 1996 IEP meeting, including Arlene Ward (guidance counselor), Dr. Bruce Sheppard (principal), Mitchell Bateman (school psychologist), and Karen Folb (LD teacher) (Pa. Ex. 57)

51. During the May 30, 1996 IEP meeting, Dr. Felton and Dr. Ellis advised the IEP team that James needed to master basic skills in reading, spelling, and written language. He required direct instruction and remediation. The Dare County IEP staff told Dr. Felton, Dr. Ellis, and the parents that Dare County does not provide remediation to students beyond the eighth grade.

52. In a letter to the parents, Dr. Felton discussed the IEP meeting:

Providing remediation is clearly not a part of the school's philosophy and Ms. Folb appears to be unprepared to provide such remediation. Without proper materials and an adequately trained teacher, the provision of an extra period each day for remedial instruction would be useless. (Pa. Ex. 54)

53. On May 30, 1996, Mr. and Mrs. Brody asked that Dare County to place their son in Landmark School where he could receive remedial instruction. The IEP Committee adjourned the May 30 meeting, without preparing a new IEP or addressing the parents' request to place James at Landmark.

54. Appendix C, Question 55 of CFR Part 300 clarifies questions about the IEP.

Question: Is it permissible for an agency to have the IEP completed when the IEP meeting begins?

No. It is not permissible for an agency to present a completed IEP to the parents for their approval before there has been a full discussion with the parents of (1) the child's needs for special education and related services, and (2) what services the agency will provide to the child.

55. The June 11, 1996 IEP states that "Given individualized instruction by the except teacher in the TFS setting, James will . . ." Although Mr. and Mrs. Brody were requesting that James be placed in Landmark School, according to the Service Delivery Plan, the only settings ever considered were "regular" and "resource" (Pa. Ex. 53) and the school's "Teaching for Success" program.

56. On June 11, 1996, Dare County convened another IEP meeting. During this June 11, 1996 IEP meeting, the school staff presented the parents with a "draft" IEP. This "draft" IEP did not include James' "Present Levels of Functioning" in reading, spelling or written language. It did not include any of the information provided by Dr. Felton and Dr. Ellis at the May 30 meeting. This "draft" IEP failed to include any goals or objectives to address James' deficits in reading, spelling and written language. (Pa. Ex. 53)

57. The June 11, 1996 IEP did not provide for James to receive direct instruction or remediation in his deficient areas of reading, spelling or written language. The IEP **reduced** James' special education services by half, to five 52-minute periods, or less than five hours per week. (Pa. Ex. 53)

58. During the June 11, 1996 IEP meeting, the parents asked Dare County Public Schools to place James at Landmark School where he could receive the remediation that he needed. The IEP team did not directly address this request, made no changes to the IEP, and advised the parents that if they wanted to "challenge" any part of the IEP, they should do so in writing. (Pa. Ex. 57)

59. The parents "challenged" the IEP, and wrote on it that they "don't agree." (Pa. Ex. 53, page 2)

60. On August 6, 1996, Mr. and Mrs. Brody sent a letter to Terry Jones, Director of Exceptional Education for Dare County Public Schools. In their letter, the parents re-iterated their position that the proposed IEP did not provide James with an appropriate education and asked Mr. Jones to respond to their request to place James at Landmark. School for the 1996-1997 academic year. (Pa. Ex. 57) If Dare County was unwilling, then the letter was a request for a due process hearing.

61. In their August 6, 1996 letter, the parents wrote: ". . . if you are willing to grant our request, please let us know immediately so we can begin to make arrangements with Landmark." (Pa. Ex. 57)

62. On August 16, 1996, Mr. Jones responded that the school would reconvene an IEP committee and/or mediation as a means of attempting to reach agreement. He did not respond to their request about Landmark. (Pa. Ex. 58)

63. On September 11 1996, Mr. and Mrs. Brody wrote a letter to the principal of Cape Hatteras High School and explained why James was not returning. They stated that that they were withdrawing James from Dare County Public Schools and placing him into Landmark School. (Pa. Ex. 59)

64. The Petitioners filed a preliminary Motion for Summary Judgment. The School Board filed a Response with attached affidavits.

65. A Special Education Due Process Hearing was held in Buxton, North Carolina, The Honorable William A. Creech presiding. He heard testimony over a period of six days, April 29, April 30, May 1, May 5, May 6, and May 7, 1997.

66. At the onset of the Due Process Hearing, Judge Creech advised that he would take the Parents' Motion for Summary Judgment under advisement.

67. After opening statements on April 29, 1997, the first witness to testify at the Due Process Hearing was Dr. Rebecca Felton.

68. Dr. Felton has taught and/or diagnosed students with learning disabilities since graduating from Duke University in 1966. Between 1975 and 1995, she worked as a researcher and clinician at the Bowman Gray School of Medicine in Winston-Salem. She continues to work as a consultant at the Bowman Gray Schools of Medicine on research and clinical issues. Beginning in 1983, Dr. Felton participated in the extensive research on reading disabilities and attention deficit disorder sponsored by the National Institutes of Health. (T1-30)

69. Dr. Felton testified that she has been involved in developing hundreds of IEPs for students over the past 20 years. (T1-96) She has consulted with several school systems about teaching methods to use with children who have reading disabilities. (T1-96)

70. Dr. Felton described effective instructional practices to use with language based problems. She emphasized that with appropriate instruction, "the majority of individuals, even those with severe reading problems, make good progress in becoming proficient readers, spellers, and writers." (T1-36) She reported that although there is no real "cure" for dyslexia, "dyslexic readers can be remediated, can function as proficient readers and spellers and writers with appropriate instruction." (T1-37)

71. Dr. Felton testified about the "Matthew Effect":

And what that term means is that individuals who have difficulty learning to read, and whose reading problems are not remediated effectively early in their school career, often remain significantly behind their peers in reading skills . . . If an individual fails to learn well in first, second and third grade - and first and second grade are really the critical periods - then what happens is that these individuals don't read the amount of material that's necessary to continue to develop good reading skills. (T1-45-6)

72. Dr. Felton defined the use of "remediation" in a child's IEP:

Remediation simply means an area that a child is deficient in and needs instruction in to correct that deficiency, so, to me, that's the essence of what an individual education plan is all about. It's all about skills that individuals are deficient in and how we go about developing those skills to the point that those individuals can function independently. (T1-58)

73. Dr. Felton testified about her initial involvement with James Brody:

. . . I was first asked to . . . give an independent assessment of his strengths, weaknesses in

reading and writing and to make, if necessary, recommendations for instruction . . . I was first asked to review the records and determine if the type of testing that I do would be useful in formulating recommendations, which I did. And then I tested him and was asked by his parents to come to a meeting . . . it was May of '96 - at which my understanding was . . . an individual education plan was to be developed for him for the coming school year, which would be his ninth-grade year. (T1-59-60)

74. Dr. Felton described the recommendations she made to the staff at Dare County:

. . . the test results that I had obtained, as well as the test results in the past from many assessments, indicated the need to include in his individual education plan direct instruction that would address his basic skills weaknesses . . . I made that statement at the May '96 meeting, initially.

Q: What else did you tell them that James needed?

A: At that meeting?

Q: Uh-huh.

A: I told them that he would need practice in reading, in using materials that were appropriate for his reading level so that he could develop fluency; that would also need direct instruction in all aspects of writing, because that was clearly a very deficient area for him . . . it was a combination of direct remediation of skills he was still deficient in, as well as strategies, as well as modifications. (T1-60-61)

. . . .

Q: When you attended the IEP meeting in Dare County, you told them that James needed remediation; am I understanding that correctly?

A: That is correct.

Q: And what did they tell you about remediation?

A: The strong, often-repeated statements, both by Ms. Fold and by the school psychologist, were that the emphasis, the strong emphasis in high school is on giving a student the support the student needs to be successful in content classes and not on remediation. In fact, the statement was made by the school psychologist that one has to make a choice in high school. The choice has to be between giving the student the help they need to pass the content courses so they can graduate on time or trying to continue to remediate . . . (T1-62-63)

75. Dr. Felton was asked about LD Teacher Folb's assertions in her affidavit that she could provide James with remediation:

I did ask her at the meeting what - in three specific areas what she would do for remediation with James. These were the areas that I had identified that James needed continued remedial work in, word identification, word analysis, and spelling. Those were the things that I focused on particularly.

She - when I asked her what she would use to teach word analysis skills, she told me that she did not have any particular programs or methods in mind. She could name no methods or programs . . . I was asking Ms. Folb what kinds of things do you use to teach word analysis skills when you see a student who has difficulties in this area, and she simply was unable to give me any information about what she would do in that area. (T1-66)

(Later)

She did make a statement, my notes reflect, that she'd be happy to discuss with me any

specific recommendations. She was very gracious, and I think she meant that. (T1-67) . . .

In fact, after the meeting, on the way out of the building, Ms. Folb spoke to me very cordially, said she appreciated any information I could give her and I certainly had no hint at all that she experienced this as a negative situation. (T1-69)

76. Dr. Felton provided additional testimony about the May 30, 1996 meeting at Cape Hatteras School. She said she was advised that high school students were placed in content courses so they could learn the same material as regular education students and that the "resource" program, called "Teaching for Success" (TFS), was designed to support students, not remediate them. (T1-70) She was told that children like James who had spelling problems were not taught how to spell but were provided with a "spell check" program. Dr. Felton was of the opinion that with the Teaching for Success program, the LD teacher's job was to help children with organization and assignments, and that the TFS program was not designed to remediate basic skills. (T1-71)

It [remediation] was simply not a priority, nor did it appear to me that she knew how to or had the skills to teach the basic reading and spelling and writing skills that I felt and others felt James needed. (T1-72)

77. Dr. Felton testified that Guidance Counselor Ward suggested that James might be able to get a Certificate of Attendance, instead of a diploma.

I was frankly very stunned by this comment by Ms. Ward, who is the counselor. She was basically saying that one option is for James to leave high school with just a certificate of attendance rather than an actual high school diploma . . . I found it astounding that someone who had sat in the meeting and listened to what Dr. Ellis had presented about James' ability would make such a recommendation. (T1-72-73)

78. Dr. Felton testified that at the May 31, 1996 meeting, the principal and school psychologist insisted that James' "good grades" was evidence that the school had met his needs. She disagreed with this, and asserted that a student's grades are only one piece of information and that James' grades were lower than would be expected, given his ability. (T1-75-76) She testified that testing that measures the child's basic skills is also necessary:

And those tests certainly indicate that there remain some serious deficiencies that will impact James's ability, even with help, to function independently in high school, and certainly, beyond which, for a student of his ability, is a reasonable expectation. (T1-76)

79. In her written report (Pa. Ex. 55) and her testimony at the Due Process Hearing, Dr. Felton expressed serious concerns about James' very poor spelling skills and the impact these inadequate skills will have on him later in life:

James is a person who should go to college if he chooses to; intellectually, that's certainly within his realm of possibility. And the kids of spellings that he's producing are simply not acceptable for a person who is going to be functioning not only in college, but out in the working world.

In my opinion as a clinician, it is not acceptable to simply tell a student like James to rely on spell check . . . [it] raises a possibility of whether James would be able to tell what the correct spelling was . . . He still spells the word sure, which is a very high frequency word - he spells it S-H-O-R-E. He didn't know how to spell the word awful or the word nineteen. (T1-79)

80. Dr. Felton testified about the IEP developed by Dare County for School Year 1996-1997. (Pa. Ex. 53) She testified that IEPs must include a statement of "Present Levels of Educational Performance" that will provide teachers and parents with information about where the student is functioning, that this information "needs to be presented in a way that is easily understood and in a way that can be evaluated." (T1-88) She testified that IEPs usually include information from current testing including test scores. (T1-88)

81. In her report (Pa. Ex. 55) and at the Due Process Hearing, Dr. Felton stated that Dare County's IEP (Ex. 53)

did not represent an adequate program for him. (T1-94)

Q: What was actually needed in an IEP for James for it to be appropriate . . .

A: Direct instruction in reading and writing skills, including spelling, as outlined in my report. (T1-94)

Dr. Felton asserted that IEP goals should be measurable and should relate to the progress or skills the student will master during the academic year.

. . . [goals] would relate to what kind of progress he's expected to make in that particular area during the school year . . . could be expressed in terms of grade equivalents; it could be expressed in terms of a standard score; could be expressed in terms of percentile; could be expressed in terms of the particular content he would master. (T1-94)

82. Dr. Felton advised that in her professional opinion, Landmark School was an appropriate placement for James Brody. (T1-101) She based her opinion on her professional contacts over many years and her own personal observations of James at Landmark in November, 1996. (T1-102) She testified that the school emphasizes remediation of basic skills and has a very low teacher/student ratio. (T1-104)

. . . the emphasis at Landmark is on teaching students of average to above average ability, intellectual ability, like James, the actual reading, writing, math skills that one needs to be an independent student in an academically challenging environment. So their focus is strongly geared toward teaching students to be good spellers, to be good readers, to be good writers. (T1-104-105)

They purposefully and thoughtfully de-emphasize compensatory help . . . they still insist that students actually learn to write, even write by hand more than some education programs would consider important. (T1-105)

They certainly insist on correct punctuation, grammar, spelling. Writing skills are a big focus at Landmark, as are study skills . . . They've developed a manual that is a model for study skills instruction throughout the country. (T1-105)

83. Dr. Felton testified about the two programs in terms of educational benefit and appropriateness:

Q: In your opinion, the public school's proposed IEP, would James have received educational benefit from that?

A: I certainly think he would have received some educational benefit. I do not think it would have been appropriate to meet his needs.

Q: The program at Landmark, do you believe that he is receiving educational benefit from that?

A: Yes, I do.

Q: Taking it a standard higher, the program at Landmark, how close does that come to helping James reach his potential?

A: In my opinion . . . the program at Landmark is designed as - to be as effective as one possibly can in that regard. I think it is an appropriate combination of remedial help, utilizing an intensive one-on-one tutorial setting using materials and approaches that . . . certainly reflect current research in the field and, in addition, presenting him with content area material at his intellectual level. (T1-107-108)

84. Dr. Felton offered her opinion that James requires continued educational help:

. . . I do not think that James is finished . . . instruction in basic skills will need to continue in order for James to be able to function independently at his intellectual level. And I am, frankly, pleased in North Carolina that we have the expectation that students who are bright should be able to function at their intellectual level. (T1-110-111)

85. On cross-examination, Dr. Felton clarified her recommendations about direct instruction and the meaning and significance of the various skills, such as word attack skills, word analysis, decoding, spelling, and phonological awareness.(T1-115)

86. In response to questions by school board counsel, Dr. Felton explained that the passage comprehension subtest of the Woodcock Johnson is not an adequate measure of reading comprehension abilities. (T1-126) Dr. Felton testified that the North Carolina testing completed on eighth grade students is suspect.

. . . to my knowledge, and I have asked for this information from the Department of Public Instruction, but to my knowledge, no data exists concerning the relationship between what North Carolina calls eighth grade reading competency and any other standardized nationally-normed measures. (T1-130)

87. On cross examination, Dr. Felton testified that James' progress in Word Attack skills after attending the summer program at Landmark was "substantial progress" but "not that uncommon" in children who have been immersed in an intensive remediation program. (T1-141)

88. Counsel for Dare County asked Dr. Felton to elaborate on what skills needed to be remediated:

Q: What - what basic skills besides that - besides the ones identified have you - do you say that he needs work on? I'm sorry; I'm not sure I understand what your testimony was.

A: My testimony is that he needs to work on decoding skills . . . with the goal of being able to accurately read multi-syllable words at a level commensurate with James' intellectual level so that he can read text and material appropriate for him. That's one area. (T1-168)

89. Dr. Felton testified that teachers often abandon phonics programs with dyslexic children like James because they do not know to start with phonological awareness skills or how to do intensive sequential, decoding skills instruction. (T1-170) She testified that North Carolina certification does not require LD teachers to know how to teach these children to read, spell and write. (T1-174)

Q: So you think teacher training is a critical element of properly remediating the skills deficits in learning disabled students?

A: Definitely. Teacher training and appropriate, proper materials and proper setting in which to carry out instruction are all critical components. (T1-175)

90. On cross-examination, Dr. Felton testified that the initial training, in-service training sessions, and ongoing supervision that Landmark teachers receive seems adequate to enable them to teach effectively. (T1-183-184)

91. Dr. Felton clarified her views on regression and James' minimal progress while in Dare County special education -- that in spite of special education, the gap between him and his peers widened over time.

Q: It means that they're not progressing as fast as their peers; is that correct?

A: It doesn't mean simply that. It means they're getting - in relationship to their peers, they're further behind now in an area than they were at a previous point in time.

92. On cross-examination, Dr. Felton testified that there was no support for providing remediation to children with reading disabilities in an inclusion model. (T1-211)

93. On re-direct, Dr. Felton reiterated her position that based on her evaluation and review of his previous testing

and IEPs, Dare County Public Schools did not provide James Brody with an appropriate education. Based on his ongoing skill deficiencies, she concluded that "the level of instruction and focus of instruction had not been appropriate to meet his needs." (T1-217) She testified that "talking books" may be used as an aid or tool, but "not as a substitute for teaching the child to become an independent reader." (T1-217)

. . . it is my opinion that it is not sufficient for us to produce students who can pass social studies tests if tests are read to them . . . We want him to leave high school being able to read and function at college, and society is demanding higher levels of people when they leave college . . . so basic skill instruction has got to be part of what we provide students who get to high school without these skills. (T1-218-219)

94. Dr. Felton testified that when James entered Landmark School at age thirteen, his oral reading rate was below the first percentile, his reading accuracy was at the ninth percentile, and his oral reading was at the second percentile level. She testified that when he entered the intensive six-week summer program at Landmark, his skills were at the third, fourth to fifth grade levels in reading. After the Landmark summer program, James' reading skills improved by nearly a year. (T1-223-224)

95. The second witness to testify was Dr. Rick Ellis. Dr. Ellis is a clinical psychologist and certified school psychologist. He worked as a school psychologist for 15 years before entering private practice. He has evaluated between one thousand and fifteen hundred children for learning disabilities, emotional problems, mental retardation, and language problems. (T2-3) He consults with Chesapeake Schools and Old Dominion University. (T2-5) He has published articles on research on educational assessments, educational remediation, and educational programming. (T2-6)

96. On direct examination, Dr. Ellis testified that the "Matthew Effect" is a term that describes an apparent loss of intellectual abilities when a child does not receive an appropriate education:

. . . if a child is not presented with adequate educational opportunities or does not have requisite reading or math skills . . . there's a decline in those overall cognitive abilities, intellectual skills as time goes on. (T2-12)

Q: Then if I'm understanding you correctly, the Matthew Effect, the IQ score can go down over time?

A: Yes. IQ score or tests of cognitive abilities decline over time because they - the child is not provided with the skills and abilities to benefit from learning in different areas. (T2-13)

97. Dr. Ellis testified about the emotional toll on learning disabled children if the education they receive is not appropriate.

They often feel lost and frustrated, anxiety problems develop, depression-related difficulties develop, behavior problems. They become more difficult in the classroom; they turn off to the learning experience . . . Children often suffer from the emotional side effects of improper academic instruction, and it begins a downward spiral so they become less and less involved in the learning process, often resulting in dropping out of school, trouble with the law, because they aren't getting their needs met in the educational environment. (T2-15)

98. Dr. Ellis testified that on the Detroit Test of Learning Aptitude, James' score of 125 placed him at the 95th percentile. The 95th percentile placed James in the superior range on this test. (T2-23-24)

99. Dr. Ellis conducted two comprehensive psychological evaluations on James. He assessed James' intellectual ability, academic achievement, visual motor functioning, attention deficit disorder, behavioral and emotional functioning. (T2-31)

100. Dr. Ellis completed his first evaluation of James on April 20 and July 25, 1996. On the Stanford-Binet Intelligence Scale, James' Full Scale IQ was 122. In Verbal Reasoning, his composite score of 119 placed him in the upper end of the high average range. His abstract visual reasoning score of 123 placed him in the superior range. His Quantitative Reasoning or mathematical reasoning ability was at the 98th percentile (standard score of 134) which placed him in the very superior range. (T2-34-35)

101. Dr. Ellis testified that James has been tested on one of two forms of the Wechsler Intelligence Test for Children on four separate occasions. (T2-40) With each administration of the Wechsler, James' Full Scale IQ score dropped. In 1991, James' Full Scale IQ was measured at 127 (96th percentile) (Pa. Ex. 7) When Dr. Ellis evaluated him in 1996, his Full Scale IQ had dropped to 103. (T2-12)

102. Dr. Ellis testified that he administered the Woodcock Johnson test to James and found "significant gaps in his learning or his abilities." (T2-48)

In Broad Math, his standard score was 111, with a percentile of 76 . . . [in Broad Written Language] his standard score was 90, and his percentile rank was 25. [On the Dictation subtest] . . . Standard score was 80, percentile was nine. (T2-48-49)

103. In April, 1996, Dr. Ellis evaluated James' emotional status and found many areas of concern, including signs of anxiety, depression, and social problems. Many of James' scores were above the 90th percentile. (T2-53-54) When asked to summarize James' in terms of emotional issues, Dr. Ellis testified that:

That he had a lot of problems. He had moodiness. He had difficulties complying with requests at - by his parents. He was impulsive . . . negative self-statements, statements related to depression. (T2-57)

104. Dr. Ellis testified that he attended an IEP meeting in Dare County with James' parents. He presented his test results and a draft of his report to the IEP team. He testified that he and Dr. Felton made recommendations:

We recommended that James receive instruction and assistance in the areas in which he was deficient, particularly his reading and written language. (T2-58)

105. Dr. Ellis testified that books on tape might be used appropriately with some children with disabilities:

Well, predominantly, the blind children, and sometimes with children with severe, severe language or visual processing, or any handicap that would make the - it impossible or near impossible for them to benefit from the written text . . . For James, I feel that he is able to learn to read and books on tape would only give him a crutch . . . that there his more to be gained interpersonally, educationally from the actual reading experience, as opposed to a book on tape or an accommodation such as that. (T2-60)

106. Dr. Ellis tested James a few days before the Due Process Hearing. He found that James' skills, especially in Written Language, were variable. In Dictation, his standard score was 75 and percentile rank was 5. On Writing Samples, his standard score was 134 and percentile rank was 99. (T2-62)

107. Dr. Ellis was asked how James' skills have evolved since he entered Landmark School a few months earlier:

I think it's provided him with academic growth at a greater degree than he was provided before that time. I think his nonacademic factors are better. He appears more positive about school. He states that he likes it there. He doesn't like the amount of work and the structure, but I think he acknowledges that it's what he needs. (T2-66)

108. Dr. Ellis testified that Dare County's IEP that proposed continuing James in the "LD Resource" program was not appropriate. (T2-68-69) He explained why:

I don't think continued placement in the resource setting would have been appropriate for James, due to the extent of his reading and written language difficulties. (T2-68)

Q: Do you believe that Exhibit 53, Public School's Proposed IEP, is appropriate for James.

A: No, I don't. (T2-69)

109. Dr. Ellis testified that the IEPs were not properly drafted in that they did not have goals and objectives written in measurable terms. (T2-71)

110. On cross-examination, Dr. Ellis was asked about the "re-norming" of the Wechsler Intelligence Scale for Children.

Q: Okay. Isn't it true that when the test was renormed for the revision that all the test score of all the children dropped?

A: No.

Q: Okay. So you're not saying that there was an expected drop in IQ score between the two tests?

A: Some children's IQ's dropped and some didn't. (T2-76)

111. Dr. Ellis explained that the change was not predictable and that while some children's IQ scores went up, others dropped drastically. (T2-78) He testified that psychologists are debating the significance of these changes and that he usually does not use the Wechsler Intelligence Scale because he thinks it is a less reliable test for the children he sees in his practice. (T2-82) He also testified that the number of school psychologists who use the Wechsler is declining as better tests come out. (T2-83)

112. On cross-examination, Dr. Ellis testified that James' strong gain in skills while enrolled in the summer program at Landmark was not unusual if the child is involved in private tutoring or intensive remediation. (T2-116)

113. Dr. Ellis testified about the reasons why the Wechsler Intelligence Scale did not provide a valid estimate of James' intellectual ability. (T2-127) He also testified that James did not get a ceiling level on two of the Binet subtests, which suggests that his potential may be even higher than the Binet indicated. (T2-166)

114. On cross-examination, school board counsel advised Dr. Ellis that Dr. Felton favored using books on tape:

Q: are you aware that Dr. Felton testified yesterday she thought that [books on tape] would be a useful tool for James in the - for his regular classroom content courses?

A: No, I wasn't aware of that.

Q: Would you disagree?

Objection:

Q: If Dr. Felton --- did indeed testify that she thought books on tape would -would be helpful for James, would you disagree with that?

A: I think helpful would be a relative term. I think he really needs to develop those skills in reading. I think, you know, watching a video of something would be helpful to someone, but that's not going to give him the skills and abilities that he needs to be successful for the rest of his - his high school, an if he goes on beyond that . . . I don't see that as the answer for James.

Q: So to the extent that other professionals have recommended that, you disagree that that would be -

A: No, I said it would be helpful but - but I don't think in the long run it would be beneficial for his long-term career, or long-term educational program and career. (T2-144)

115. On cross-examination, Dr. Ellis testified that at this time, James needs to attend a residential school. (T2-145) He clarified his statement:

The statements from school staff at that meeting were that they were not able to provide him any remedial services in that setting, that - I believe --- hearing the words "we're not set up for that," that it was not part of the Hatteras School special education delivery model to include the necessary remediation services that would be appropriate for James. (T2-145)

116. Appendix C and Regs state who has to be at the IEP meeting - child's teacher!

117. School board counsel asked Dr. Ellis several questions about who attended the May 1996 IEP meeting:

Q: But none of his teachers who had taught him in the past were available, or were at that meeting, on the day that you went, isn't that true?

A: School board counsel asked Dr. Ellis about Dare County's proposed IEP:

Q: Have you determined, what, if any, instructional remedial - remediation strategies are contained within the IEPs?

A: I recall some organizational skills and support for his academic subjects.

Q: That's all?

A: Yes.

118. Dr. Ellis testified on cross that he has worked with three individuals who attended Landmark and disagreed with school board counsel's attempt to characterize Landmark School as a "methodology."

I think Landmark is an overall program, and peer culture even, if you would, where the emphasis is on creating positive educational outcomes. I've evaluated one child who subsequently went to Landmark. . . . he [went] to great lengths to attend Landmark College, and he described that experience as the best experience of his life . . . there's a lot more there to help him make up the lost ground, his areas of deficit, and it would provide him that opportunity. (T2-155-156)

119. On cross-examination, Dr. Ellis testified that he was involved in another Dare County special education case.

Q: Have you ever been to the Dare County Schools beyond that one IEP meeting that you went to?

A: Yes. A few years ago, I evaluated another Dare County child and conducted my evaluation and sat in on an IEP conference, took a tour of one of the schools, made a recommendation for an out-of-state placement for that child, and that recommendation was followed through with. (T2-157)

120. On re-direct, Dr. Ellis testified that there was no discussion about changing the IEP after the IEP team heard input from Dr. Felton and him. (T2-159) He was asked his thoughts about "mainstreaming" James into high school.

I think that at the time he had a very strong emotional component against going into the regular classes because of his continued difficulties, and that without feeling any progress or feeling like he was getting ahead of the game educationally . . . that was going to continue to be aversive to him . . . he had shared about the other kids making fun of him . . . it was a very frustrating experience for him to be in a regular classroom . . . there was an anxiety component, a depressive component. He wanted to give up often. (T2-159-160)

Q: Had James been mainstreamed, in your professional opinion, what would have happened to his emotional state?

A: It would have continued to deteriorate. (T2-160)

Q: Did you hear a proposal about not getting a high school degree and getting a

certificate instead?

A: Yes.

Objection.

Q: In your professional opinion, for a youngster who had an IQ that tested at 127, do you believe it's appropriate to spend another year in high school in order to be taught how to read, or to waive the right to a high school diploma?

A: No. Because in my experience, I've seen children with significant learning disabilities function at the top of their class, which is where James' expectations are, given his ability . . . (T2-161)

121. On re-direct, Dr. Ellis testified that, during the summer program at Landmark, James made ten months of gain in reading skills, as measured by the Gray Oral Reading Test. (T2-178) He characterized this gain as "typical for a child receiving intensive remediation in a structured setting by well-trained staff. It's common." (T2-178)

122. On re-direct, Dr. Ellis was asked again about the renorming of the Wechsler. He agreed that between 1991 and 1994, James' Full Scale IQ score dropped from 127 to 114.

Q: Now, he was given the WISC III again, though. He was given it by you in July of '96, and he went from 114 to what?

A: 103.

Q: And how much renorming of the WISC III to the WISC III was done during that period of time?

A: None

Q: Was that the same test?

A: Yes.

123. On re-cross, Dr. Ellis was asked about discrepancy formulas. He testified that using an IQ score of 103 for James when he had previously scored 127 was unprofessional.

124. Using a chart that had James with a Full Scale IQ of 103 and "an achievement score of minus four in reading," school board counsel attempted to "prove" that James no longer had a learning disability.

You know - the assumption of your chart and your discrepancy is that his IQ - that he's gotten -he's become a dumber child since 1991. I don't think James has gotten dumber at all since 1991 so using those numbers I think is totally inappropriate . . . so saying that James has gotten dumber and just because the IQ test score has gotten down and he doesn't need a learning disabilities program is ludicrous. (T2-191)

125. Dr. Ellis testified that psychologists should use "the best estimate" of the child's IQ and his ability. He testified that it is inappropriate to use a discrepancy model to deny services to children:

. . . You could give that test to a blind child, and there wouldn't be any discrepancy at all or a child with a hearing disability and it would be inappropriate. You know, my belief is that you try to find the best estimate of potential; you use that as your IQ. You don't get the lowest scores you can get and then use that to compute the difference. (T2-193)

126. The next witness to testify was Linda Brody, James' mother. Mrs. Brody testified about James' problems, beginning in Kindergarten with reversals and inability to learn his ABC's. She recalled that in Kindergarten, James "started to

avoid doing things because he was afraid of failing." (T2-202) Because of these problems, his parents placed him in the Island Academy for the next two years. By the end of second grade, they decided to return him to the public school program. (T2-202)

127. Mrs. Brody testified about her reaction to the psychological evaluation by Mr. Bateman in 1991:

I was very relieved. I knew that my son was very bright just by what he did at home and the building and stuff, and I was very relieved that he had a learning disability because it would make sense of why things weren't consistent or - or what was going on . . . So, I was - I was happy. I - you know, you've got a problem and you identify it, in my view, and you fix it . . . (T2-206)

128. Mrs. Brody testified that by fourth grade, James' classmates were making fun of him because he was "pulled out" of class.

He said some of his friends had told him he must be retarded since he was going to class with retards. And I told him, no, everybody needed help, but his friends insisted that it was a retarded class . . . kids being kids, you know, knew that there was a retarded child in the class and assumed that everybody was retarded . . .

129. Mrs. Brody testified about James' fifth grade year:

That was the worst year . . . things became more difficult. He began to feel real bad about himself, and he really felt something was wrong with himself . . . he wasn't believing that everything was all right. And there were many nights that - a lot of times he couldn't even finish the work in school, let alone his homework . . . he was ten years old, we'd be up like three or four hours and scribing and reading for him.

And at that time . . . I didn't do any of the work for him. I mean, I made him work, and he was just exhausted. I mean, he just dreaded it. He would go to his bedroom and cry, say he was dumb. He - he wanted to kill himself that year. It was one of the worst years I've ever gone through in my life. His teacher was horrible - his fifth grade teacher. She would make fun of him in front of other people, in front of the classmates. (T2-210-211)

130. Mrs. Brody testified about her attempts to get books on tape for her son:

The load was so hard at night with us reading for James and scribing for him. I thought that maybe if he could get books on tape that things would be just a little bit easier and he'd be a little more independent of me or his father . . . that's what you do when you get older is you get independent . . . when we got to the sixth grade, there were no books on tape. (T2-211)

131. Mrs. Brody also testified about her son's re-evaluation and learning that his scores were dropping.

When I went into that meeting, I was going in really excited because two of the teachers told me that great progress had been made . . . and when they told me that his IQ dropped 25 points . . . I just was shocked. I - everything --- I mean, it was just like my stomach fell out. I just couldn't imagine what happened to my son, what is going on here.

I felt desperate, scared, didn't know what to do. I thought we were fixing something . . . there's a problem, I can fix it, I was scared and shocked. And I asked Mr. Bateman why - why the - what the drop - why there was a drop . . . and I didn't get any real explanations as I'm getting today at that time.

I noticed that there was a difference in the WISC-R and the WISC-III, and I said are they different tests. And he said no, they're just re - renormed or - but he said something else - you know, redone test. (T2-212-213)

132. Mrs. Brody testified that after this, she had another evaluation done on her son from the Lab School in Washington DC. She shared the results of this evaluation with her son's LD teacher. (T2-213)

133. Mrs. Brody testified that in fifth grade, James became suicidal:

Q: . . . Had he ever - had your son ever admitted to you thoughts of killing himself? You can't—

. . .

A: To me, he wanted to die.

Q: You need to answer the question. Did your son discuss with you any thoughts of killing himself?

A: Yes . . . He would come home and he would go in a room and he was so very agitated, and he would just want to throw things around, and just wanted to be dead. He just wanted to be dead, what was the use of it all. And it scared the heck out of me. And I - at that time, I cried, I held him, I told him it would be all right, it would get better, we'd work together, I'd fix it . . . (T2-214-215)

134. Mrs. Brody testified that she provided this Lab School evaluation to Dare County. Dr. van Hover recommended that they get a Speech Language evaluation on James. The parents followed through with that. (T2-215)

135. As she continued to read about dyslexia, Mrs. Brody learned that dyslexic children needed to be taught differently. (T2-216) In her reading, she learned about Landmark School and decided she had to find a way to send James. She testified about the changes in her son after his summer at Landmark:

He was no longer hunched over. He was talking. He was laughing. The best thing was he called me two weeks after being there and said, hey, listen to this Mom and he said, Sunday, Monday, Tuesday, Wednesday, Thursday, Friday. The child could never say this ever . . . to hear him be so thrilled that he could say this and that he could learn . . . it was so wonderful. I - it was the best thing. It wasn't the scores; it was his self confidence and his just pure happiness. (T2-218)

136. Mrs. Brody testified about signing IEPs and her parental role:

Q: What was your understanding about the significance of signing the IEP?

A: It just meant that you were present.

Q: That was your understanding, it was you - present and accounted for?

A: Uh-huh. And they tell you that very - they'd say, well, just go ahead and sign this; it doesn't mean you agree, just that you were present. They - every IEP I've been to they've said that.

Q: I see . . . did they ever give you the rules, the North Carolina regulations.

A: In 1991.

Q: You remember getting a copy of the regulations?

Q: When was the last time you got a copy from the county?

A: In our IEP meeting with Terry Jones in June. I can't think of the date. June.

Q: And . . . what was the date on the inside of the book?

A: 1993.

Q: Is there any doubt in your mind it was the '93 and not the - 94 book.

A: It was a 93 because I've never seen a 94.

137. Mrs. Brody testified about the May 30, 1996 IEP meeting:

When I got there, I was not prepared that they were going to drop one - he had two pullouts all this time, and they dropped one for high school. I think the high school policy is not to put them - only one pull out class a day. TFS is all they give for LD. I think that's right. But I was shocked at the reduction. And I was scared because we were going to high school now . . .

138. Mrs. Brody testified about the changes in her son since he entered Landmark in September, 1996:

James --- James is entirely the real James now . . . he is a kid. He's easy to get along with. He likes interacting with people. He's not afraid to talk to people in case he says something wrong. He's sure of himself. He has interests. He has friends. He's learning. The first couple of months . . . he was pretty miserable, you know, truthfully. He missed home.

He was mad. He was mad that he could learn, and why couldn't he learn like that and stay home. He and he I mean he was happy that he could nod it - why can I learn here and I couldn't there. And - and we talked that out. They didn't have it here but we've dealt with that now.

Q: You asked for Due Process Hearing in August and your son was not in Landmark. What happened?

A: Financially, we couldn't do it. No. Zander got some information . . .but he also called his grandmother and his mother, and I called my sister and they all gave us - made loans. And they're not gifts, they're loans. Since then Zander and I have remortgaged the house. I've cashed in my retirement. I've cashed in Zander's life insurance. I've maxed out the credit cards. And I've taken loans out from my credit union. So we're we've gone all the way to get him there this year, to keep paying.

139. On May 1, 1997, James Brody was the next witness to testify.

140. He testified that attending Landmark has changed his attitude about school because he is being educated with other children who have similar problems - children like him. After a week at Landmark, James realized that he really was not stupid.

141. He described the summer program at Landmark, including his schedule and the things he studied in his one-on-one tutorial and language arts classes. He said that after he completed the Landmark summer program, he felt more sure of himself in language arts and pre-algebra. After Landmark, he finally understood that he was dyslexic but he could cope with it. He told his parents that he wanted to go back to Landmark.

142. When he returned to Dare County Public Schools for the eighth grade, nothing changed. He began to dread going to school. He testified about taking the North Carolina standardized testing and said that he did have modifications. He said that he took the competency test in Ms. Hinton's class. She helped him with the questions on the competency test and how to understand them.

143. James testified about his experience at Landmark during the past school year. He said, "Landmark was hard" because he did not have anyone to scribe for him as he had in the public school. He was required to do his own writing!

144. The staff at Landmark worked with him on reading and writing skills. In Language Arts, he is working on writing multi-paragraphs and compound sentences. In his tutorial, he is working on rules of sounds with vowels. He testified that he never had work on sounds before.

145. James testified that he spends about one and a half-hours a night on homework. No one helps him with his homework.

146. James also testified about his adjustment to Landmark. He said that the first month was tough because he was

homesick. When asked about mainstreaming issues, he did not agree that he needs to be back at public school with regular students. He said that Landmark is "tougher" and he has a lot more work but he still wants to return next year.

147. When asked about his future, James testified that he has a lot more possibilities. "I could be more than I was . . . I can write more." He said that he is more optimistic now and socializes better. He no longer feels like he an "outcast."

148. Dr. Wendy Levin was the next witness to testify.

149. She was the first witness to testify for Dare County Public Schools. She was not excluded as a witness.

150. She is associate director of a diagnostic teaching clinic that receives many referrals from school systems around the state. She does assessments and develops programs. She estimated that she does from 200 to 300 evaluations per year.

151. Before the hearing, Dr. Levin never met or talked with James, never tested him, and never attended any IEP meetings about him. Although she trained as a teacher, diagnostician, and school psychologist, she is not and never has been a teacher or a school psychologist. She has no background in research. She testified that she received her doctorate in May 1996. She became certified as a school psychologist in October, 1996.

152. Dr. Levin testified that she recommends programs that can be implemented in public schools. When she develops a program, she tries to balance the needs of the school and the needs of the child. She discussed a Challenge and Champions program for children who lack basic and applied skills. She testified that she uses a "mainstream/ inclusion model" that is not specifically geared for children who have learning disabilities. This model allows for maximum opportunities for integration. The Challenge program is a three-week program for children who have learning disabilities, ADHD, and/or gifted, but excludes emotionally disturbed children.

153. She was not asserting that James needed the "Challenge" program.

154. Dare County Public Schools does not have the "Challenge" program.

155. She testified that North Carolina uses the discrepancy model that appears to be simple and objective. She admitted that dyslexia is a neurological condition that does not go away. She testified that it is very common for children with learning disabilities like dyslexia to show a decline in scores over time.

156. Although she agreed that the IQ scores of children with learning disabilities often "decline over time," she does not "agree" with the Matthew Effect. She testified that she does not believe that the decline in a child's IQ scores correlates with a lack of appropriate instruction. She admitted that she has not done any research in this area.

157. She testified that the Stanford-Binet measures different abilities than the Wechsler. She testified that the Wechsler is well standardized and gives consistent scores over time. She thought that James' low scores on some of the Wechsler subtests were due to his disability which is "processing speed." She thought that the decline in James' IQ between 1991 and 1994 was because the test was renormed.

158. She was unable to explain the drop in scores before the test was renormed.

159. She was unable to explain the continuing drop in James' IQ scores between 1994 and 1996. Despite these unanswered questions, she believes that the July 1996 scores on the Wechsler are a valid measure of James' ability. She stated that some things in tests cannot be explained.

160. Dr. Levin testified that when she reviewed the test results by Dr. Ellis, James' reading was "stable." Despite elementary level scores, she asserted that he is progressing at the same rate as his peers.

161. He did not progress to his potential, the North Carolina standard.

162. She testified that James' scores in Writing Samples increased significantly between 1996 and 1997. She thought that these improved scores meant that his writing skills may have improved.

163. Dr. Levin reviewed the IEPs on James for the past five years. There were no objective measures in the IEPs. The Third Grade IEP (Pa. Ex. 9) did not have dates when James obtained the objectives. She testified that the IEP developed for the fourth grade (Pa. Ex. 17) lacked information about whether mastery was obtained. The fourth grade IEP was the standard course of study.

164. Dr. Levin testified that parents are entitled to have an annual review of the IEP goals and objectives.

165. When she reviewed the fifth grade IEP (Pa. Ex. 21), this IEP did not include evaluation schedules, and no mastery of objectives was obtained. The IEP described the standard course of study and did not include information about whether or when IEP objectives were reached.

166. Dr. Levin testified on direct exam that the seventh grade IEP goals were appropriate for James. She felt it was appropriate to add an IEP goal about map reading, even if James did not have a "deficit" in maps. She said that maps are part of the standard course of study in seventh grade. (Pa. Ex. 27) According to Dr. Levin, "direct instruction" does not mean one-to-one instruction.

167. Dr. Levin testified that in high school, children receive compensatory IEPs because ninth grade is a different environment. The IEP developed for James did not address all areas of deficiency. When asked why the school could not remediate James' basic skills, Levin testified that they had tried many times to remediate James but he had not made progress. She felt that James could not grasp the "firm acquisition of phonics and spelling skills."

168. She testified that James should not be considered for a residential placement because, in her belief, formally diagnosed emotional problems are the only justification for a residential placement. She did not testify to any familiarity with case law regarding entitlement to a residential placement such as Trident Academy, Oakland School, or Landmark School.

169. On May 5, 1997, Cindy Caruso was the next witness to testify for Dare County. Ms. Caruso's education focused on teaching visually impaired and blind children.

170. She began working with James in the Spring of 1991, when he was in third grade. She did some of the earlier testing of James. She described her approach as "remedial and phonics-based." She believed that James made steady progress during the 1991-1992 school year. She used the Brigance to measure progress.

171. Ms. Caruso testified about how she developed IEPs. Typically, she brought a draft IEP to the meeting. She testified that she could not write an IEP at the IEP meeting because it would take too long. She testified that her practice was to bring in the IEP and share it with the parents.

172. In early 1992, two different IEPs were written for James. The first IEP was written on March 6, 1992 (Pa. Ex. 12), the second IEP was written on June 4, 1992 (Pa. Ex. 17). Despite the fact that they were written just three months apart, the goals and objectives were quite different. Ms. Caruso testified that the differences were due to the "standard course of study," i.e. what happens in the regular classroom.

173. Ms. Caruso testified that she taught reading and spelling together. It became obvious to her that James needed to work on "written language" skills. She was concerned about his reading speed. She believed that James made progress. She did not complete the information about when he obtained mastery. There was no standardized testing completed on James in the Spring of 1993 to measure progress or lack of progress.

174. Ms. Caruso has not worked with James since fifth grade. She did not attend the May 1996 IEP meeting but was asked to attend the June, 1996 IEP meeting. She believes that the June 1996 IEP is appropriate, even though the services were reduced. She asserted that the IEP was appropriate because James is smart but needs help in mainstream classes.

175. On cross-examination, she acknowledged that the Brigance does not have any data normed to other children. Because you cannot compare children, this can lead to problems. She was asked about concerns of educators that the Brigance lends itself to teaching to the test and acknowledged that it could. James' IEP goals were based upon the Brigance.

176. Stephanie Hinton Gray was the next witness for Dare County. Ms. Gray was James' LD teacher in middle school. James' class included children who were mentally retarded, learning disabled, other health impaired, and behavior disordered. She testified that despite her heavy load of challenging children, she spent 80-90 percent of her time with James.

177. By the time James arrived in seventh grade, Ms. Gray testified that she was not allowed to deviate from the standard course of study for LD students. IEP Goals were the same for all seventh grade students. She felt that James made progress in the seventh grade. She used the Standard Course of Study to develop his IEP.

178. She testified that eighth grade students were to learn the Standard Course of Study. In her opinion, acquisition of basic skills, such as reading and using remediation is not appropriate in high school because of the high school curriculum. Ms. Gray testified that she did not attend the May 1996 IEP meeting but did attend the June 1996 IEP meeting. She discussed James' situation with Karen Folb, the high school teacher who would be working with James.

179. On cross-examination, Ms. Gray acknowledged that James had ongoing problems in spelling, punctuation, and organization. There were no present levels of performance in the IEP for spelling or penmanship. She admitted that James' grades were "modified." They did not reflect his true grades.

180. His assignments were also "modified." Despite being at the 3rd to 4th percentile in Spelling and Writing, she asserted that he had mastered basic skills of phonemic awareness and decoding.

181. Ms. Gray testified that the "Teaching for Success" (TFS) program is a "set aside" - part of the program in high school.

182. The next witness was Karen Folb, a special education teacher at Cape Hatteras High School.

183. She initially asserted on direct exam that Dr. Felton started "whamming" her about how she would address James' needs.

184. Ms. Folb testified that Ms. Gray advised her that James was ready to go on to high school. She testified that at the May, 1996 IEP meeting, she laid out a copy of the child's schedule of basic required freshman classes. She testified that they could add a second period of TFS but this would cause conflicts with graduation.

185. Ms. Folb felt James was ready to go into mainstream high school classes. She did not think James needed a program like Landmark or that it was necessary for James. She acknowledged that Dr. Felton and Dr. Ellis said James needed more remediation. An IEP was not drafted that day.

186. Ms. Folb testified that by the time most students get to high school, they have mastered basic skills. In her opinion, because James passed the reading competency test, he was ready for the high school mainstream.

187. Ms. Folb reviewed Dr. Felton's letter that stated James needed remediation. She took issue with the word "remediation." She opined that research shows that children lose motivation to work on phonics by the seventh grade, that they are "maxed out" in phonics instruction. She did not offer any "research" to support her opinion.

188. She felt that basic skills needs are different and that older children need to be able to take notes, develop study habits instead of learning how to read.

189. Ms. Folb was aware that James was having stress-related problems. She took the letter from Dr. Felton personally.

190. On cross-examination, she went through her schedule of classes. She teaches three TFS classes and co-teaches two inclusion classes. There are 40 children in the ninth grade. TFS is a class that focuses on helping children make it in high school. It is available to other children - not just special education students. There is a regular TFS credit course and an Exceptional Children's TFS course.

191. Ms. Folb testified on cross-examination about the May 30, 1996 IEP meeting. She reviewed evaluations on James. She remembered the van Hover evaluation but was not sure about the Scottish Rite or Landmark test results. She agreed that present levels of performance are to "close the gap" between the child's ability and achievement. She testified that special education should be "to the total education of the child."

192. Ms. Folb also testified about the June 11, 1996 IEP meeting. She recalls that Ms. Ward said that James could get a certificate or he could graduate a year late. She testified that Mrs. Brody thought his reading was below average but the

school thought he was doing all right. She testified and believes that "nobody can fix a disability." Remediation programs do entail more than regular classrooms. Her goal was to teach him ways to accommodate and compensate, not teach the acquisition of basic skills.

193. Ms. Folb admitted that the decision had been made to place James in the TFS program before the May 30, 1996 IEP meeting. She agreed that Ms. Hinton Gray moved on to compensation in middle school, rather than continuing to remediate. She admitted that even if James had failed the competency testing, they would not have changed the IEP recommendations.

194. Ms. Folb admitted that she had no specialized training in area of decoding. Last time she had a reading course was in the Spring of 1977.

195. Betsy Gwinn testified for Dare County. She taught Math at the middle school. She taught James for seventh and eighth grades Math and Pre-algebra. He made average grades in her class.

196. On May 7, 1997, Dr. Betty Levey was the next witness to testify for Dare County. She was not excluded as a witness and was present during the previous testimony.

197. Dr. Levey has a doctorate in Speech/Language and Mental Retardation. She was trained as a state review officer until 1995. She was hired by Dare County to act as a trial consultant. She never taught or met James Brody. She never tested him. She never participated in an IEP meeting about him. She reviewed the records in James' case. She testified that standardized test scores indicated that James made acceptable educational progress.

198. Dr. Levey advocates using the "Deshler method" for adolescents with learning disabilities. She believes it is inappropriate to use basic skills remediation with middle school and high school students. She believes that by middle school, you are looking for independent learning. She testified that books on tape "help give independence." She does not believe that the Landmark teachers are qualified to teach LD students.

199. On cross-examination, Dr. Levey disagreed with teaching decoding skills to LD students. She favored "adjustment of the curriculum, not adjustment of the student." She agreed that it is inappropriate and illegal to make placement decisions before developing the IEP goals and objectives.

200. Terry Jones was the last witness for Dare County Public Schools. Mr. Jones is the Exceptional Children's Director. His staff advised him that the parents were requesting intensive remediation for their son and a residential placement if James could not be remediated locally. He testified that after reviewing the file, he could not support an out of district placement.

201. Mr. Jones testified about the June 11, 1996 IEP meeting. He advised the parents that goals and objectives determine the level of service a child needs. He testified that the parents and school came to an agreement on the goals and objectives. He agreed that the disagreement revolved around the level or intensity of services James needed.

202. School board counsel asked Mr. Jones to look at the 1996-1997 IEP. He testified that there is no requirement to include test results or objective information and that the present levels of performance are whatever is agreed upon by the committee.

203. Mr. Jones felt that James was mastering the standard course of study. He made this decision based on James' grades, his passing the competency test, and his progress on individual testing. Mr. Jones admitted that in this individual testing, there had been declines.

204. Mr. Jones testified that after receiving the parents' August 6 letter, he called the school board attorney. After discussing the situation with the attorney, he wrote a letter to the parents offering an IEP meeting or mediation. Mr. Jones testified that James has a less challenging curriculum at Landmark than he would have had in Dare County. He objects to Landmark because it is not the least restrictive environment and it costs more than \$30,000.00 dollars a year.

205. Mr. Jones testified that books on tape are available through his office.

206. On cross-examination, Mr. Jones admitted that everyone on the IEP committee is responsible for providing

input into the IEP. He admitted that the only person who has tested James twice was Mitchell Batemen. Mitchell Bateman did not testify at the Due Process Hearing. Mr. Jones testified that there was no requirement for school staff to document consideration of private evaluations.

207. On cross-examination, Mr. Jones testified that before 1994, *Parent's Rights Handbooks* did not have a 60-day notice.

208. After Dare County rested, Linda Brody testified about the Handbook and Notice issues. She testified that she has never received a 1994 Handbook. At the Due Process Hearing, Mrs. Brody testified that she did not receive a *Parent's Rights Handbook* dated 1993 until after the IEP meeting on May 31, 1996, not a reasonable time before the meeting. (T2-221).

209. At the Due Process Hearing, Mrs. Brody testified that she had only received one other *Parents Rights Handbook*, which was dated 1991, before Dare County evaluated James for the first time. (T2-220).

210. The school system introduced a copy of *Parent's Rights Handbook* dated 1994 which Mrs. Brody testified she did not receive. (T2-221) Her testimony was uncontradicted.

211. James was the last witness. He testified that he wanted to return to Landmark School.

CONCLUSIONS OF LAW

1. The Individuals with Disabilities Education Act (IDEA), 20 U.S.C. Section 1400 *et seq.*, is the federal statute governing the education of students with disabilities. The federal regulations promulgated under the IDEA are codified at 34 C.F.R. Parts 300 and 301. A child is deprived of a free appropriate education (FAPE) under two conditions: first, if the school system violates the IDEA's procedural requirements in a way that detrimentally affects the child's education; and second, if the school system develops an IEP that is not reasonably calculated to enable the child to receive educational benefit.

2. The controlling state law for students with disabilities is North Carolina General Statute Chapter 115C Article 9 and the corresponding state regulations including the State Procedures Governing Programs and Services for Students with Special Needs, Sections, .1501-.1541 (1996).

3. The Office of Administrative Hearings has jurisdiction of this contested case pursuant to Chapters 150B and 115C of the North Carolina General Statutes and the Individuals with Disabilities Education Act and implementing regulations.

4. The Respondent is required under federal and state law to make available special education and related services to James Brody and offer him a free and appropriate public education as that term is defined under the IDEA and state law.

5. James Brody is a student with a disability for purposes of the IDEA and corresponding state law.

6. The public policy of the State of North Carolina regarding special education is:

The General Assembly of the State of North Carolina hereby declares that the policy of this State is to ensure every child a fair and full opportunity to reach his **full potential** and that no child as defined in this section and in G.S. 115C-122 shall be excluded from service or education for any reason whatsoever.

The policy of this State is to provide a free appropriate public supported education to every child with special needs. (emphasis added) G.S. 115C-106

7. North Carolina statutory and case law require that special education must ensure that "the child has an opportunity to reach [his] full potential." *Burke County Bd. of Educ. v. Denton*, 895 F.2d 973, 983 (4th Cir. 1990)

8. The Individuals with Disabilities Education Act (IDEA) creates only a federal minimum and States may structure educational programs, which exceed the federal floor. IDEA, 20 U.S.C.A. Secs. 1400-1485.

9. North Carolina chose to exceed the federal benchmark and measure each child "against his or her own expected performance." *In re Felton* Letter, 23 IDELR 714, 717. (OSEP 1995)

10. Under the Individuals with Disabilities Act, a handicapped child is deprived of FAPE if either (1) the school system violates the IDEA's procedural requirements and thereby detrimentally impacts the child's education; or (2) drafts an IEP that is not reasonably calculated to enable the child to receive educational benefits. *Board of Education v. Rowley*, 458 U.S. 176, 207, 102 S.Ct. 3034, 3051, 73 L.Ed. 2d 690 (1982); *Hudson v. Wilson*, 828 F.2d 1059, 1063 (4th Cir. 1987)

11. James is a student with superior intelligence and dyslexia. Dare County Public Schools failed to develop an appropriate 1996-97 IEP individualized for James Brody's "special needs."

12. According to the public policy of this State in relationship to Special Education as stated in N.C.G.S. Section 115C-106(b), one of the policies is to provide a system for identifying and evaluating the educational needs of all children with special needs. It is to assure that the rights of children with special needs and their parents or guardians are protected, as well as to insure that there be no inadequacies, inequities, and discrimination with respect to children with special needs. G.S. 115C-106.

13. James' needs resulting from his dyslexia were not identified or properly evaluated by school personnel.

14. James developed a negative self-concept with frustration that affected school and family relationships. The frustrations and pressures to succeed in school created secondary behavioral problems. He began missing school.

15. The mere facts that James received passing marks and was promoted from grade to grade is not dispositive in determining whether he received FAPE according to the United States Supreme Court. *Board of Education v. Rowley*, 458 U.S. 176, 203 at n. 25, 102 S.Ct. 3034, 3049 n. 25 (1982) ("We do not hold today that every handicapped child who is advancing from grade to grade in a regular public school is automatically receiving a 'free appropriate public education.'").

16. The Respondent failed its affirmative duty to provide Petitioners with **prior** written notice of their rights to independent educational evaluations and a free and appropriate public education (FAPE).

17. In compliance with the Individuals with Disabilities Education Act procedural requirements found in Chapter 33 of 20 U.S.C. Section 1415, the NCDPI established due process procedures for parents and children. *See North Carolina Department of Public Instruction's Procedures Governing Programs and Services for Children with Special Needs*, Section 1517 Due Process Procedures for Parent and Children (1993 and 1996 edition which contain identical requirements) Section 1517 (D) states that "written notice which meets the requirements of paragraph (E) of this rule must be given to the parents of a child with special needs before the local educational agency:

(a) proposes to initiate or **change** the identification, evaluation, or educational placement of the child or **the provision of a free appropriate public education to the child; or**

refuses to initiate or change the identification, evaluation, or educational placement of the child or **the provision of a free appropriate public education."** (Emphasis added)

18. From 1987 to June 1996, numerous requests were made by the Brodys regarding the Respondent's provision of a free appropriate public education which were never addressed by the Respondent. According to the NCDPI rules, the Brodys were entitled to notice of their rights for each of these numerous requests. The Respondent denied the Brody's an opportunity to be heard regarding their concerns about James' educational programming.

19. The Brody's never received specific explanations as to why the Respondent failed to consider their independent evaluations from their independent evaluators or why the Respondent failed to reimburse the Brody for these expenses, why Brody's academic progress worsened from year to year, and countless other inquires regarding the Respondent's failure to provide a FAPE to their child. NCDPI Rule 1517 (E) (1) (a-g).

20. The Respondent's failure to comply with the procedural requirements of the IDEA and corresponding state law resulted in a deprivation of services and harmed both James Brody and his parents. Had Dare County Public Schools informed the Brody's of their due process rights years ago, the parents could have asserted their rights at an earlier point in time. James would have received the services he needed to achieve academically in public school rather than having to resort to leaving home and attending Landmark School.

21. Petitioners are entitled to compensatory education because of Respondent's failure to provide James with a FAPE.

22. The North Carolina Administrative Procedure Act (NCAPA) requires that a petition for due process be filed within sixty (60) days of the contested action. N.C.G.S. Section 150B-23(b) NCAPA also states that the agency "shall inform the persons of the right, the procedure, and the time limit to file a contested case petition." *Id.*

23. Until the Petitioner receives appropriate notice of her due process right, the statute of limitations is tolled. Petitioner was not given prior written notice of her right to file due process within 60 days of any of the IEPs. It is uncontested testimony that the parents were never provided with notice of their rights. A parental rights book was proffered as an Exhibit by the School Board, however the evidence was that this version of the Handbook was not provided to the parents.

24. Before June 4, 1996, the parents were not provided a *Parent's Handbook* advising them of their due process rights.

25. Dare County Public Schools is charged with the affirmative duty of providing the parents with **written prior notice** of their due process rights. IDEA, 20 U.S.C. Ch. 33 Sect. 1415 (b) Despite extensive communication between the parties, no one from Dare County Schools gave the parents a *Parent's Rights Handbook* until Spring 1996 and that handbook was outdated.

26. The Respondent failed its affirmative duty to apprise Petitioners of their rights to independent educational evaluations and a free and appropriate public education (FAPE).

27. Petitioners have the right to an independent educational evaluation at public expense, if the parent disagrees with the Respondent's evaluation or the Respondent fails to conduct an evaluation. 34 C.F.R. 300.503(b).

28. Petitioners had James evaluated by Drs. Felton and Ellis at their own expense. Moreover, the results of Petitioners' privately obtained independent educational evaluations must be considered by the public agency in any decision made with respect to the provision of a free appropriate public education to the child. 34 C.F.R. 300.503(c)(1).

29. The Petitioners are entitled to reimbursement for either Dr. Felton or Dr. Ellis' educational evaluation.

30. The Dare County Public Schools' 1996-97 IEP was fatally flawed.

31. The Respondent's 1996-97 IEP failed to contain meaningful educational goals and objectives. Moreover, the criteria for measuring James' progress was inappropriate and violated Appendix C to Part 300 of the Code of Federal Regulations; *see e.g.*; *Raelee S. v. Susquenita School District*, ___ F. Supp. ___, (M.D. PA 1996) *affm'ed at Susquenita Sch. Dist. v. Raelee S. by Heidi S.*, 96 F.3d 78, 24 IDELR 839, (3rd Cir. 1996)(Judge McClure found that the School District's IEP "failed to include meaningful educational goals, to establish meaningful and quantifiable short-term objectives or criteria for measuring Raelee's progress, and failed to include examples of specific instruction methods useful for teaching Raelee." He stated that: "One of the goals imposed by federal regulations is an emphasis on closing the gap between the exceptional student's achievement and his or her ability levels. 34 C.F.R. 346, Appendix C.").

32. Closing the gap between James' ability and achievement level was a realistic and meaningful goal for him and an appropriate school objective under Appendix C of 34 C.F.R. 300. The 1996-97 IEP was not designed to close the gap between James' ability and achievement.

33. Subsequent testimony from witnesses on behalf of James Brody and even School Board witness Wendy Levin proved that the IEPs violated Appendix C.

34. Although in testimony, Dare County Public Schools implied that James would be better off in a larger public school rather than Landmark, for the 1996-97 school year Landmark was the least restrictive environment. The Fourth Circuit recognized, as does this court, that the mainstreaming preference of IDEA is secondary to educational benefit, i.e., learning how to read and write. The Respondent failed to comply with the requirements of the IDEA, and unilateral private school placement was the only option available to the Petitioners. *Carter v. Florence County School District Four*, 950 F. 2d 156, 18 IDELR 350, 352, (4th Cir. 1991).

35. Respondent's 1996-97 IEP did not propose any specific measurable gain. The U. S. Supreme Court clarified the meaning of educational benefit in the *Town of Burlington v. Department of Education for the Commonwealth of Massachusetts*, 471 U. S. 359, 105 S. Ct, 1996, 2002 (1985). The Court focused on tuition reimbursement for parents when the public school defaults. *Burlington* was a unanimous decision issued thirty-four days after argument. (Chief) Justice Rehnquist defined the IEP concept and process. He stated that the free appropriate education mandated by the Act is designed for the specific needs of the handicapped child through the Individualized Educational Program (IEP) which is "a comprehensive statement of the educational needs of a handicapped child and the specially designed instruction and related services to be employed to meet those needs." The instruction must be specially designed to meet the child's unique needs so that the child will learn. Failing that, if the child learns in another environment, the parents are entitled to be reimbursed for securing and paying for that other school environment that was able to teach the child to read and write.

36. James Brody is entitled to learn how to read, write, and spell. He is entitled to be exposed to and have access to instruction that will teach him those skills.

37. The Individuals with Disabilities Education Act, as interpreted by *Burlington*, imposes only two prerequisites to reimbursement: that the program proposed by the state failed to provide the child with a free appropriate public education, and that the private school in which the child is enrolled succeeded in providing an appropriate education, i.e., an education that is reasonably calculated to enable the child to receive educational benefits.

38. Dare County Public Schools has failed to teach James Brody basic reading, writing, and spelling skills and its recommendation that James should merely receive an attendance certificate completely contradicts the philosophy of the IDEA and the North Carolina "Creech Act."

39. Landmark School taught James Brody basic reading, writing, spelling and arithmetic skills, and he received an appropriate education at Landmark School.

40. Dare County Public Schools failed to develop an IEP according to the requirements of the Act, said failure results in the denial of a free and appropriate public education. *Hall v. Vance County Bd. of Education*, 774 F.2d 629, 635 (4th Cir. 1985).

41. Dare County Public Schools violated both the procedural and substantive requirements of the IDEA and corresponding state law resulting in harm to both James Brody and his parents.

42. Petitioners are entitled to reimbursement of the private school tuition for the 1996-97 school year.

ORDER

1. The Petitioners' Motion for Summary Judgment is denied.

2. The Respondent shall reimburse the Petitioners for one independent educational evaluation of James Brody.

3. The Respondent shall reimburse the Petitioners for the costs of the private school tuition at Landmark School and all related expenses for the 1996-97 school year.

4. Pursuant to the Interim Order signed August 13, 1997, an IEP meeting shall be convened immediately to provide the parties an opportunity to develop an IEP for the 1997-98 school year for James Brody which will appropriately serve his special needs in the least restrictive environment and offer as much mainstreaming in the regular classroom as is practical to remediate James' disability.

5. The 1997-98 IEP shall be consistent with the recommendations of Drs. Felton and Ellis concerning the remediation of James Brody's special needs in reading and written expression.

6. The Petitioners are prevailing parties for the purposes of award of attorneys fees and litigation costs.

7. This cause is retained for further orders as may be just and proper.

NORTH CAROLINA ADMINISTRATIVE CODE CLASSIFICATION SYSTEM

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
