# councils.

The North Carolina General Statutes provide that certain appointees to boards, commissions, and councils may be removed from office for misfeasance, malfeasance, or nonfeasance. The failure of any Public Official serving on a board, commission, or council to comply with this Order is hereby deemed to be misfeasance, malfeasance, or nonfeasance as used in the General Statutes. For gubernatorial appointees, the Governor shall determine whether to remove the Public Official. For all other appointees, the appointing authority shall exercise the discretion of whether to remove the offending Public Official.

# b. Public Officials serving as State employees.

Except for State employees brought under the terms of this Order pursuant to Section 9, the Governor shall make all final decisions on the manner in which offending Public Official State employees shall be disciplined. For State employees subject to this Order pursuant to Section 9, the elected or appointed head of the Agency in which the Public Official State employee works shalt determine whether and what disciplinary action shall be taken.

# d. Recommendations by the Board of Ethics.

If the Board of Ethics determines, after proper review and investigation, that such action is appropriate, the Board may recommend any action it deems necessary, including removal of the Public Official from his or her State position, to properly address and rectify any violation of this Order by a Public Official. The Board of Ethics shall make referrals to appropriate law enforcement agencies for investigation if possible criminal conduct is discovered. As it deems necessary and proper, the Board may make referrals to appropriate State officials for investigation of wrongful conduct by State

employees or appointees regardless of whether the individual is a Public Official under this Order.

REASON FOR ACTION:

These rules will replace rules which are currently in effect that have been targeted by the Rules Review Commission to be invalidated at it's February meeting. The proposals were originally adopted by the Commission for Health Services (November 14, 1997) and considered by the Rules Review Commission on January 15, 1998. The Rules Review Commission objected to all of the rules except .2305, .2306, and .2309 on the basis that the Commission for Health Services does not have the statutory authority to adopt rules governing the delegation of authority to enforce it's rules.

Because there must be a rational basis for granting or denying authorization for a local health department environmental health specialist to enforce the Commission's rules, the proposed rules must be adopted as temporary rules.

# SCOPE/NATURE/SUMMARY:

The proposed rules regulate the delegation of authority for local health department environmental health specialists to enforce rules of the Commission for Health Services as an agent of the State.

The proposed rules specifically set the requirements for the scope of delegated authority, set the eligibility requirements for delegations to be made, set the requirements regarding lapsed delegations, set the requirements for agents serving as contractors, set the conditions for denial suspension or revocations, set the requirements for re-authorization, and the appeals process.

**REASON FOR ACTION:** 

To revise the opacity standard in 15A NCAC 2D .1904, Air Curtain Burners, and to revise requirements for temporary air curtain burners.

### SCOPE/NATURE/SUMMARY:

Rule 15A NCAC 2D .1904 currently requires air curtain burners to meet a 5 percent opacity standard except during start-up. Recent experience with air curtain burners suggests that this opacity standard may be too low. Consideration is being given to raising it.

Other changes being considered for this rule deals with temporary air curtain burners. Consideration is being given to exempt temporary air curtain burners that do no require a permit and that comply with Subparagraph (b)(2) of 15A NCAC 2D .1903, Permissible Open Burning Without a Permit, from the opacity standards and the need to have a certified opacity reader. The rationale for this change is that such burning could be done without an air curtain burner. However, air curtain burners, even if they do not comply with the opacity standard of 15A NCAC 2D .1904, will usually burn material cleaner than open burning.

**REASON FOR ACTION:** 

To adopt an exclusionary rule for peak shaving generators so that they can avoid Title V permit procedures and requirements without having to take permit restrictions.

# SCOPE/NATURE/SUMMARY:

A new rule may be added to Section 15A NCAC 2Q .0800, Exclusionary Rules, to add an exclusionary rule for peak shaving generators. As an alternative, Rule 15A NCAC 2Q .0807, Emergency Generators, may be amended to incorporate peak shaving generators. The purpose of exclusionary rules is to define certain types of facilities as small based on throughput or usage. A facility that is below the level specified in an applicable exclusionary rule and complies with the requirements of the rule can avoid the Title V permitting process without having to take permit limits.

The level specified for peak shaving generators may be either in terms of energy production or fuel usage. If energy productions is used, the level would be set at about 6,500,000 kw-hr in any 12-month period. (Note: This number may change upon further evaluation.) If fuel consumption is used, the levels would be similar to those in 15A NCAC 2Q .0807.

REASON FOR ACTION:

To add a definition for sawmill to Rule 15A NCAC 2Q .0103, Definition.

# SCOPE/NATURE/SUMMARY:

Rule 15A NCAC 2Q .0102, Activities Exempted from Permit Requirements, exempts sawmills that saw no more than 2,000,000 board feet per year. A disagreement has arisen over what a sawmill is; the term is not currently defined in the rules.

The definition being considered would define a sawmill as a place or operation where logs are sawed into lumber and that consists of one or more of these activities: debarking, sawing, and sawdust handling. Activities that are not considered part of a sawmill include sanding, planing, routing, lathing, and drilling.

Debarking, sawing, and sawdust handling were the activities considered in developing the exemption level. Other activities were not considered. Therefore, these are the types of activities that should be exempted under the sawmill exemption. If the definition of sawmill is extended to cover other types of activities, the exemption level in 15A NCAC 2A .0102 may have to be reduced.

The Environmental Protection Agency promulgated a new ambient air quality standard for ozone in the July 18, 1997, Federal Register. The new standard is 0.08 parts per million (ppm), daily maximum eight-hour average. REASON FOR ACTION:

To adopt the new National Ambient Air Quality Standard for PM2.5, fine particulate matter, and to revise method for determining compliance with the ambient air quality standard for PM10, coarse particulate matter.

# SCOPE/NATURE/SUMMARY:

The Environmental Protection Agency promulgated new ambient air quality standards for particulate matter in the July 18, 1997, Federal Register. These new standards are for particulate matter with an aerodynamic diameter of 2.5 microns or less, which is generally referred to as PM2.5 or fine particulate matter. The new PM2.5 standards are 15 micrograms per cubic meter based on the three-year average of annual arithmetic average mean PM2.5 concentrations from single or multiple community-oriented monitors and 65 m/m3 based on the three-year average of the 98th percentile of 24-hour PM2.5 concentrations at each population-oriented monitor within an area.

Rule 15A NCAC 2D .0409, Particulate Matter, would be amended to change the way that compliance with the PM10 standards is determined. (PM10 is particulate matter with and aerodynamic diameter of 10 microns or less.) Compliance with the PM10 standard will be based on the 99th percentile of 24-hour PM10 concentration at each monitor.

Rule 15A NCAC 2D .0101, Definitions, may be amended to add definitions related with the new PM2.5 standards.

REASON FOR ACTION:

To add a definition to 15A NCAC 2Q .0103, Definitions, to define particulate matter as PM10.

SCOPE/NATURE/SUMMARY:

Rule 15A NCAC 2Q .0103 defines terms used in the permitting procedure rules. The particulate matter of concern under the permitting rules is PM10 because PM10 is the particulate used to determine Title V permitting applicability. The definition would not change the fact that the emission standards in Subchapter 15A NCAC 2D, Air Pollution Control Requirements, are and will continue to be in terms of total suspended particulates.

**REASON FOR ACTION:** 

To clarify and revise the permit exemption for perchloroethylene dry-cleaning and powder coating.

# SCOPE/NATURE/SUMMARY:

Rule 15A NCAC 2Q .0102, Activities Exempted from Permit Requirements, would be amended to clarify and revise the permit exemption for perchloroethylene dry-cleaning and powder coating.

The perchloroethylene dry-cleaning exemption would be changed to exempt dry-cleaners that emit less than 13,000 pounds per year of perchloroethylene instead of exempting dry-cleaners that consume 13,000 pounds per year of perchloroethylene. Data show that dry-cleaners consume more perchloroethylene than they emit. (Under the toxic air pollutant rules, a source may emit up to 13,000 pounds per year of perchloroethylene without a permit under the air toxic rules.) The equivalent gallonage would be deleted to eliminate possible confusion.

The permit exemption for electrostatic dry powder coating operations suggests that a curing oven must be part of the operation to qualify for this exemption. The change would clarify that a curing oven is not required for this exemption. However, if a curing oven is part of the operation, it must have a heat input of less than 10,000,000 Btu per hour for the coating operation to qualify for this exemption. (10,000,000 Btu per hour is the size in the current rule.)

REASON FOR ACTION:

To revise 15A NCAC 2D .0952, Petition for Alternative Controls, to make procedure contained in this Rule available to future ozone nonattainment areas without being amended each time a new area is declared nonattainment for ozone.

# SCOPE/NATURE/SUMMARY:

Rule 15A NCAC 2D .0952 provides procedures whereby a source may petition the Director of the Division of Air Quality to use a control technology that differs from that required by an applicable rule in Section 15A NCAC 2D .0900, Volatile Organic Compounds. This Rule is a revision of earlier rule written for the original ozone nonattainment areas in the late 1970's. The current rule was written for the ozone nonattainment areas of the early 1990's and for the current ozone maintenance areas. In anticipation of new ozone nonattainment areas, an amendment to this rule is being considered to make it available to future ozone nonattainment areas without having to be amended every time a new ozone nonattainment area comes into being.

**REASON FOR ACTION:** 

The current rule creates a situation where a well constructed after July 1, 1993 which meets the setback requirements for a single family residence found in 15A NCAC 2C .0100 "Well Construction Standards" does not comply with the current rule as it applies to the regulation of family foster homes and therapeutic foster homes. The proposed amendment will make the setback requirements consistent in the two sets of rules.

# SCOPE/NATURE/SUMMARY:

The proposed amendment will impact those wells drilled after July 1, 1993 which are located between 25 and 50 feet from a building foundation and are serving or proposed to serve a family foster home or therapeutic foster home.

The proposed amendment changes the requirement from 50 feet to 25 feet, making it consistent with other rules within DENR.

A Notice of Rule-making Proceedings is a statement of subject matter of the agency's proposed rule making. The agency must publish a notice of the subject matter for public comment at least 60 days prior to publishing the proposed text of a rule. Publication of a temporary rule serves as a Notice of Rule-making Proceedings and can be found in the Register under the section heading of Temporary Rules. ### CHAPTER 2 - ENVIRONMENTAL MANAGEMENT

Notice of Rule-making Proceedings is hereby given by the DENR - Environmental Management Commission in accordance with G.S. 150B-21.2. The agency shall subsequently publish in the Register the text of the rule it proposes to adopt as a result of this notice of rule-making proceedings and any comments received on this notice.

Citation to Existing Rules Affected by this Rule-Making: 15A NCAC 2B .0308. Other rules may be proposed in the course of the rule-making process.

Authority for the rule-making: G.S. 143-214.1; 143-215.1; 143-215.3(a)(1)

Statement of the Subject Matter: Proposed reclassification of Lookout Shoals Lake in Alexander, Catawba, and Iredell Counties from Class WS-V to Class WS-IV and WS-IV CA (Critical Area).

Reason for Proposed Action: The City of Statesville has requested that Lookout Shoals Lake in Alexander, Catawba, and Iredell Counties (Catawba River Basin) be reclassified to the appropriate water supply classification based on the location that has been chosen for a new water supply intake for Statesville. The selected intake site is just inside Iredell County, approximately two miles south of where Alexander, Catawba, and Iredell Counties share a common border. Lookout Shoals Lake currently carries the primary classifications WS (Water Supply) - V and WS-IV and the supplemental classification B (Primary Recreation). Division of Water Quality proposes to reclassify Lookout Shoals Lake to WS-IV and WS-IV CA (Critical Area; defined as the area ½ half mile and draining to a water supply intake). The supplemental B classification would not be affected. The City of Hickory and Alexander, Catawba, and Iredell Counties have land use jurisdiction within the affected area. The proposed reclassification to Classes WS-IV and WS-IV CA would require the affected local governments to revise their drinking water supply maps within 120 days after receiving notice by the State that the reclassification has become effective. reclassification becomes effective the state would apply the appropriate requirements that affect the permitting of landfills, residual application sites and wastewater discharges within the

adopted Critical and Protected Areas. The effective date of the reclassification is expected to be April 1, 1999.

Comment Procedures: The purpose of the announcement is to encourage those interested in this proposal to provide written comments. It is very important that all interested and potentially affected persons or parties make their views known to the Environmental Management Commission (EMC) whether in favor or opposed to any and all provisions of the proposal being noticed. Statement of the Subject Matter: Replacement of permitted sandbags and temporary erosion control for a large structure and multiple buildings on the same property.

Reason for Proposed Action: The proposed rules will allow replacement of sandbags within their permitted dimensions within the time period originally authorized by a CAMA permit, the incremental protection of a large structure and the protection of multiple buildings on the same property. This action is in response to a contested case hearing decision involving replacement of sandbags that were protecting several oceanfront structures.

# TITLE 21 - OCCUPATIONAL LICENSING BOARDS

# CHAPTER 50 - BOARD OF EXAMINERS OF PLUMBING, HEATING AND FIRE SPRINKLER CONTRACTORS

Notice is hereby given in accordance with G.S. 150B-21.2 that the State Board of Examiners of Plumbing, Heating and Fire Sprinkler intends to amend rules cited as 21 NCAC 50 .0301, .0306, .0404 - .0405, .0510, .1102, .1104; adopt .0511. Notice of Rule-making Proceedings was published in the Register on October 1, 1997.

Proposed Effective Date: June 11, 1998

A Public Hearing will be conducted at 8:30 a.m. on March 3, 1998 at the State Board of Examiners of Plumbing, Heating and Fire Sprinkler Contractors, 3801 Wake Forest Road, Suite 201, Raleigh, NC 27609.

# **Reason for Proposed Action:**

21 NCAC 50 .0301 - 1997 General Assembly created a new license category. This Rule is being rewritten to accommodate this change.

21 NCAC 50 .0306 - H.B. 408 and S.B. 996 required the provision of a different license classification for persons engaged in fuel piping to plumbing or heating equipment. Licenses are to be issued beginning April 15, 1998. This Rule specified the experience requirement for the fuel piping license, consistent with the existing rule for plumbing or heating license and reorganizes the text of the rule.

21 NCAC 50 .0404 - 1997 General Assembly created a new license classification. This change accommodates the legislation and simplifies the text without change of meaning.
21 NCAC 50 .0405 - Rule change clarifies without change in interpretation.

21 NCAC 50 .0510 - 1997 General Assembly created a different license category. This Rule is being rewritten to accommodate the change and simplify the text.

21 NCAC 50.0511 - The 1997 General Assembly, by HB 408 and SB 996 created a different license classification for fuel piping. This Rule defines the term fuel piping and the scope of the work included within this category so as to carry out the legislative mandate.

21 NCAC 50 .1102 - 1997 General Assembly created a new license category. This Rule is being rewritten to accommodate this change.

21 NCAC 50 .1104 - 1997 General Assembly amended G.S. 25-3-506 to change the allowable charge for returned checks. This

Rule is designed to rely upon the maximum set by the General Assembly, reducing future rule-making.

Comment Procedures: Written comments may be submitted to the Board on or before, March 18, 1998, at State Board of Examiners of Plumbing, Heating and Fire Sprinkler Contractors, 3801 Wake Forest Rd., Suite 201, Raleigh, NC 27609, Attn: T. L. Phillips, Executive Director. Persons who commented at or after the prior hearing on these rules on November 19, 1997, should understand the Board will consider those comments as well.

**Fiscal Note:** These Rules do not affect the expenditures or revenues of state or local government funds. These Rules do not have a substantial economic impact of at least five million dollars (\$5,000,000) in a 12-month period.

For the purpose of specifying minimum allowable surveying standards for boundary surveys, four general classifications of lands in North Carolina are established from the standpoint of their real value, tax value, or location. Each map shall contain a statement of the calculated ratio of precision before adjustments.
- (b) Local Control Network Surveys (Class AA). Local control network surveys are traverse networks utilizing permanent points for the purpose of establishing local horizontal control networks for future use of local surveyors. For Class AA boundary surveys in North Carolina, the angular error of closure shall not exceed ten seconds times the square root of the number of angles turned. The ratio of precision shall not exceed an error of closure of one foot per 20,000 feet of perimeter of the parcel of land (1:20,000).
- (c) Urban Land Surveys (Class A). Urban surveys include lands which normally lie within a town or city. For Class A boundary surveys in North Carolina, the angular error of closure shall not exceed 20 seconds times the square root of the number of angles turned. The ratio of precision shall not exceed an error of closure of one foot per 10,000 feet of perimeter of the parcel of land (1:10,000).
- (d) Suburban Land Surveys (Class B). Suburban surveys include lands in or surrounding the urban properties of a town or city. For Class B boundary surveys in North Carolina, the angular error of closure shall not exceed 25 seconds times the square root of the number of angles turned. The ratio of precision shall not exceed an error of closure of one foot per 7,500 feet of perimeter of the parcel of land (1:7,500).
- (e) Rural and Farmland Surveys (Class C). Rural and farmland surveys include lands located in rural areas of North Carolina and generally outside the suburban properties. For Class C boundary surveys in North Carolina, the angular error of closure shall not exceed 30 seconds times the square root of the number of angles turned. The ratio of precision shall not exceed an error of closure of one foot per 5,000 feet of perimeter of the parcel of land (1:5,000).

  - (4) Where a boundary is formed by a curved line, the following data must be given: actual survey data, or as a traverse of bearings and distances around the curve. If standard curve data is used the bearing and distance of the long chord (from point of curvature to point of tangency) must be shown on the face of the plat.

Applicants in the Community Revitalization category shall choose to apply for either a concentrated needs award, or an infrastructure award. or a scattered site award, but no more than one from the same HUD allocation.
- (b) No local government may receive more than a total of one million two hundred fifty thousand dollars (\$1,250,000) in CDBG funds in the period that the state distributes its annual HUD allocation of CDBG funds; except that local governments may also receive up to six hundred thousand dollars (\$600,000) for a project that addresses Urgent Needs and funds for one demonstration project in addition to other grants awarded during the same time period.
- (c) Community Revitalization basic category applicants may spend a portion of their total grant amount to finance local option activities. Up to 15 percent may be spent on eligible activities which do not need to be directly related to proposed projects except in the infrastructure subcategory. Alternatively, up to 25 percent may be spent on eligible activities that contribute to comprehensive development of the main project area in a Concentrated Needs grant. Job creation activities are not eligible local option activities unless they are part of the 25 percent alternative. Local option activities will not be

competitively rated by the Division, but may be limited to specific eligible activities. Each local option project must show that:

- (1) At least fifty-one percent of the CDBG funds proposed for each activity will benefit low- and moderate-income persons, except that CDBG funds may be used for acquisition, disposition, or clearance of vacant units to address the national objective of prevention or elimination of slums or blight; and

Notwithstanding Rule .0910 of this Subchapter, grantees may not increase their approved planning and administrative budgets without prior Division approval. In no case, may applicants budget and expend more than 18 percent of the sum of funds requested and program income for administrative and planning activities for each project, except that demonstration funds may be awarded for projects limited to planning activities only in which case all funds will be spent for planning and administration.
- (e) Applicants may spend CDBG funds in those areas in which the applicant has the legal authority to undertake project activities.
- (f) Grants to specific recipients will be provided in amounts commensurate with the size of the applicant's program. In determining appropriate grant amounts for each applicant, the Division may consider an applicant's need, proposed activities, all proposed administrative and planning costs, and ability to carry out the proposed activities.

- (h) The hospital shall be notified in writing of the State Emergency Medical Services Advisory Council's and OEMS' final recommendation within 30 days of the Advisory Council meeting.
- (i) The final decision regarding trauma center renewal shall be rendered by the Office of Emergency Medical Services.

Contingencies on the renewal, as well as required due dates and documentation, shall be specified at the time written notification is provided of the renewal. Satisfaction of contingencies may require an additional site visit.

#### **SECTION .2200 - ENFORCEMENT**

# .2201 DENIAL, PROBATION, VOLUNTARY WITHDRAWAL OR REVOCATION OF TRAUMA CENTER DESIGNATION

- (a) The Office of Emergency Medical Services may deny the designation of a trauma center for any of the following reasons:
  - (1) failure to substantially comply with the requirements of section .2100 of this subchapter;
  - (2) attempting to obtain a trauma center designation through fraud or misrepresentation; or
  - (3) a significant number or magnitude of deficiencies or weaknesses to suggest that patient care may be compromised.
- (b) The Office of Emergency Medical Services may amend any trauma center designation from a full designation to a probationary designation whenever the Office of Emergency Medical Services finds that:
  - (1) the trauma center has substantially failed to comply with the provisions of NC General Statute 131E-162 and the rules adopted under that article; or
  - (2) there is no reasonable probability the trauma center can remedy the deficiencies or weaknesses within a reasonable length of time; or
  - (3) the trauma center fails to meet contingencies placed upon it at the time of its initial designation or renewal; or
  - (4) there is no reasonable probability the trauma center shall be able to remain in compliance with the designation rules for the foreseeable future.
- (c) The Office of Emergency Medical Services shall give the trauma center written notice of the amendment to the designation. This notice shall be given personally or by certified mail and shall set forth:
  - (1) the length of the probationary designation (not to exceed one year);
  - (2) the factual allegations;
  - (3) the statutes or rules alleged to be violated; and
  - (4) notice of the hospital's right to a contested case hearing on the amendment of the designation.
- (d) The probationary designation shall be effective immediately upon its receipt by the trauma center and shall be posted in a prominent location at the primary business location of the trauma center, accessible to public view, in lieu of the full designation. The probationary designation shall remain in effect until:
  - (1) the Office of Emergency Medical Services restores the trauma center to full designation status; or
  - (2) the Office of Emergency Medical Services revokes

the designation.

- (e) The Office of Emergency Medical Services may revoke a trauma center designation whenever the Office of Emergency Medical Services finds that the trauma center has substantially failed to comply with the provisions of NC General Statute 131E-162 and the rules adopted under that article and:
  - (1) it is not reasonably probable that the trauma center can remedy the deficiencies within a reasonable length of time; or
  - (2) although the trauma center may be able to remedy the deficiencies within a reasonable period of time, it is not reasonably probable that the trauma center shall be able to remain in compliance with designation rules for the foreseeable future; or
  - (3) the trauma center fails to meet contingencies placed upon it at the time of its initial designation or renewal; or
  - (4) failure to comply endangers the health, safety or welfare of the patients cared for in the trauma center.
- (f) The Office of Emergency Medical Services may revoke a trauma center designation whenever it finds that the trauma center fails to resolve issues that resulted in a voluntary withdrawal of the designation.
- (g) The issuance of a probationary designation is not a procedural prerequisite to the revocation of a designation pursuant to Subparagraph (e) of this Rule.
- (h) With the Office of Emergency Medical Services' approval, a trauma center may voluntarily withdraw its designation for a maximum of one year by submitting a written request. This request shall include the reasons for withdrawal and a plan for resolution of the issues. To reactivate the designation, the facility shall provide written documentation of compliance that is acceptable to the Office of Emergency Medical Services. Voluntary withdrawal shall not affect the original expiration date of the trauma center's designation.
- (i) In the event of a revocation or voluntary withdrawal, the Office of Emergency Medical Services shall provide written notification to all hospitals and Emergency Medical Services providers within the regional trauma network. The Office of Emergency Medical Services shall provide written notification to same if, and when, the voluntary withdrawal reverts to full designation.

  - (i) Priority selection (for treatment and transport decisions) based upon anatomic, physiologic, and mechanism of injury factors; and
  - (ii) Guidelines to facilitate the rapid assessment and initial resuscitation of the severely injured patient including primary and secondary survey. Criteria addressing management during transport should include continued assessment and management of airway, cervical spine, breathing, circulation, neurologic and secondary parameters, communication and documentation.

- (E) diversion procedures which shall include delineation of specific factors such as hospital census and/or acuity, physician availability, staffing issues, disaster status, or transportation which would require routing of a patient to another trauma center. A plan to assist referring hospitals in locating care for the diverted patient shall be outlined and a system to track diversions shall be maintained.

## SUBCHAPTER 3R - CERTIFICATE OF NEED REGULATIONS

# SECTION .3000 - PLANNING POLICIES AND NEED DETERMINATIONS

## .3055 REALLOCATIONS AND ADJUSTMENTS

- (a) REALLOCATIONS.
  - (1) Reallocations shall be made only to the extent that need determinations in 10 NCAC 3R .3057 through .3079 indicate that need exists after the inventories are revised and the need determinations are recalculated.
  - (2) Beds or services which are reallocated once in accordance with this Rule shall not be reallocated again. Rather, the Medical Facilities Planning Section shall make any necessary changes in the next annual State Medical Facilities Plan.
  - (3) Dialysis stations that are withdrawn, relinquished, not applied for or decertified shall not be reallocated. Instead, any necessary redetermination of need shall be made in the next scheduled publication of the Semiannual Dialysis Report.
  - (4) Appeals of Certificate of Need Decisions on Applications. Need determinations of beds or services for which the CON Section decision has been appealed shall not be reallocated until the appeal is resolved.
    - (A) Appeals Resolved Prior to August 17: If an appeal is resolved in the calendar year prior to August 17, the beds or services shall not be reallocated by the CON Section; rather the Medical Facilities Planning Section shall make the necessary changes in the next annual State Medical Facilities Plan.
    - (B) Appeals Resolved on or After August 17: If the appeal is resolved on or after August 17 in the calendar year, the beds or services, except for dialysis stations, shall be made available for a review period to be determined by the CON Section, but beginning no earlier than 60 days from the date that the appeal is resolved. Notice shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 45 days prior to the due date for receipt of new applications.
  - (5) Withdrawals and Relinquishments. Except for dialysis stations, a need determination for which a certificate of need is issued, but is subsequently withdrawn or relinquished, is available for a review period to be determined by the Certificate of Need

Section, but beginning no earlier than 60 days from:

- (A) the last date on which an appeal of the notice of intent to withdraw the certificate could be filed if no appeal is filed,
- (B) the date on which an appeal of the withdrawal is finally resolved against the holder, or
- (C) the date that the Certificate of Need Section receives from the holder of the certificate of need notice that the certificate has been voluntarily relinquished.

Notice of the scheduled review period for the reallocated services or beds shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 45 days prior to the due date for submittal of the new applications.

- (6) Need Determinations for which No Applications are Received:
  - (A) Services or Beds with Scheduled Review in the Calendar Year on or Before September 1: The Certificate of Need Section shall not reallocate the services or beds in this category for which no applications were received, because the Medical Facilities Planning Section will have sufficient time to make any necessary changes in the determinations of need for these services or beds in the next annual State Medical Facilities Plan.
  - (B) Services or Beds with Scheduled Review in the Calendar Year After September 1: A need determination in this category for which no application has been received by the last due date for submittal of applications shall be available to be applied for in the second Category I review period in the next calendar year for the applicable HSA. Notice of the scheduled review period for the reallocated beds or services shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 45 days prior to the due date for submittal of new applications.
- (7) Need Determinations not Awarded because Application Disapproved.
  - (A) Disapproval in the Calendar Year prior to August 17: Need determinations or portions of such need determinations for which applications were submitted but disapproved by the Certificate of Need Section before August 17, shall not be reallocated by the Certificate of Need Section. Instead the Medical Facilities Planning Section shall make the necessary changes in the next annual State Medical Facilities Plan, if no appeal is filed.
  - (B) Disapproval in the Calendar Year on or After August 17: Need determinations or portions of such need determinations for which

applications were submitted but disapproved by the Certificate of Need Section on or after August 17, shall be reallocated by the Certificate of Need Section, except for dialysis stations. A need in this category shall be available for a review period to be determined by the Certificate of Need Section but beginning no earlier than 95 days from the date the application was disapproved, if no appeal is filed. Notice of the scheduled review period for the reallocation shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 80 days prior to the due date for submittal of the new applications.

- (8) Reallocation of Decertified ICF/MR Beds. If an ICF/MR facility's Medicaid certification is relinquished or revoked, the ICF/MR beds in the facility shall be reallocated by the Department of Human Resources, Division of Facility Services, Medical Facilities Planning Section pursuant to the provisions of the following Sub-parts. The reallocated beds shall only be used to convert five-bed ICF/MR facilities into six-bed facilities.
  - (A) If the number of five-bed ICF/MR facilities in the mental health planning region in which the beds are located equals or exceeds the number of reallocated beds, the beds shall be reallocated solely within the planning region after considering the recommendation of the Regional Team of Developmental Disabilities Services Directors.
  - (B) If the number of five-bed ICF/MR facilities in the mental health planning region in which the beds are located is less than the number of reallocated beds, the Medical Facilities Planning Section shall reallocate the excess beds to other planning regions after considering the recommendation of the Developmental Disabilities Section in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services. The Medical Facilities Planning Section shall then allocate the beds among the planning areas within those planning regions after considering the recommendation of the appropriate Regional Teams of Developmental Disabilities Services Directors.
  - (C) The Department of Human Resources, Division of Facility Services, Certificate of Need Section shall schedule reviews of applications for these beds pursuant to Subparagraph (a)(5) of this Rule.
- (b) CHANGES IN NEED DETERMINATIONS.
  - (1) The need determinations in 10 NCAC 3R .3057 through .3079 shall be revised continuously

throughout the calendar year to reflect all changes in the inventories of:

- (A) the health services listed at G.S. 131E-176(16)f;
- (B) health service facilities;
- (C) health service facility beds;
- (D) dialysis stations;
- (E) the equipment listed at G.S. 131E-176(16)f1;
- (F) mobile medical equipment;

as those changes are reported to the Medical Facilities Planning Section. However, need determinations in 10 NCAC 3R .3057 through .3079 shall not be reduced if the relevant inventory is adjusted upward 30 days or less prior to the first day of the applicable review period.

- (2) Inventories shall be updated to reflect:
  - (A) decertification of home health agencies or offices, intermediate care facilities for the mentally retarded, and dialysis stations;
  - (B) delicensure of health service facilities and health service facility beds;
  - (C) demolition, destruction, or decommissioning of equipment as listed at G.S. 131E-176(16)f1 and s:
  - (D) elimination or reduction of a health service as listed at G.S. 131E-176(16)f;
  - (E) psychiatric beds licensed pursuant to G.S. 131E-184(c);
  - (F) certificates of need awarded, relinquished, or withdrawn, subsequent to the preparation of the inventories in the State Medical Facilities Plan; and
  - (G) corrections of errors in the inventory as reported to the Medical Facilities Planning Section.
- (3) Any person who is interested in applying for a new institutional health service for which a need determination is made in 10 NCAC 3R .3056 through .3079 may obtain information about updated inventories and need determinations from the

Medical Facilities Planning Section.

(4) Need determinations resulting from changes in inventory shall be available for a review period to be determined by the Certificate of Need Section, but beginning no earlier than 60 days from the date of the action identified in Paragraph (b) of this Rule. Notice of the scheduled review period for the need determination shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 45 days prior to the due date for submittal of the new applications.

# .3060 OPEN HEART SURGERY SERVICES NEED DETERMINATIONS (REVIEW CATEGORY H)

It is determined that there is a need for additional open heart surgery services from any hospital which acquired a heart-lung bypass machine prior to March 18, 1993 and which, nevertheless, is unable to use such machine in the provision of open heart surgery services because the hospital does not have a certificate of need authorizing it to provide open heart surgery services. It is further determined that the citizens served by, and residing in the general service areas of, such hospitals have a need for such additional open heart surgery services. These needs exist despite the capacity to provide open heart surgery services of any other hospital or hospitals in the State. There is no other need for additional open heart surgery services.

[But see the Order for Preliminary Injunction (captioned and quoted in part below) issued by Superior Court Judge Howard E. Manning, Jr. on September 5, 1997 and the text of the temporary rule .3060 as published in the North Carolina Register, 12:06 NCR 483 - 485.] .3060 OPEN HEART SURGERY SERVICES NEED DETERMINATIONS (REVIEW CATEGORY H)

Because over 95% of all of the citizens of North Carolina live within 45 miles of one or more open heart surgery services; because the preponderance of clinical research on open heart surgery services indicates that there is a positive relationship between the number of procedures performed by a surgical operating team and the percent of good patient outcomes resulting from the surgery; and because the benefits of greater geographic access do not outweigh the adverse affects caused by the duplication of existing open heart surgery services and the resulting decrease in the number of procedures the surgical operating team of this service would perform, it is therefore determined that there is no need for additional open heart surgery services.

It is determined that there is a need for additional open heart surgery services from any hospital which acquired a heart-lung bypass machine prior to March 18, 1993 and which, nevertheless, is unable to use such machine in the provision of open heart surgery services because the hospital does not have a certificate of need authorizing it to provide open heart surgery services. It is further determined that the citizens served by, and residing in the general service areas of, such hospitals have a need for such additional open heart surgery services. These needs exist despite the capacity to provide open heart surgery services of any other hospital or hospitals in the State. For the reasons set out in the 1997 State Medical Facilities Plan, there is no other need for

additional open heart surgery services.

[The ordered portion is quoted below]

WHEREFORE, it is hereby ORDERED, ADJUDGED AND DECREED that:

- I. The effectiveness of the Governor's amendments to the State Medical Facilities Plan be and the same hereby is suspended and the Defendants Hunt, Bruton and the Department are hereby enjoined from applying, implementing, or taking any action whatsoever based upon the amendments or giving them any effect whatsoever, pending resolution of this case;
- 2. The amendments to the SMFP respecting the CON review schedules made by the Department and Governor be and the same hereby are suspended and the Defendants Hunt, Bruton and the Department are hereby enjoined from applying, implementing, or taking any action whatsoever based upon the amendments or giving them any effect whatsoever, pending the resolution of this case;
- 3. The pre-existing provisions of the 1997 SMFP setting forth the need determination regarding open heart surgery services be and the same are hereby reinstated, pending the resolution of this case;
- 4. The special review criteria in effect prior to the July 23, 1997 amendments shall remain in effect as if the memorandum and amendment from the Governor had not been issued, pending the resolution of this case;
- 5. As the Department was represented herein pursuant to G.S. 150B-21.1(c), any temporary rule, implementing the Governor's amendment, is hereby suspended and shall be given no effect and the pre-existing 1997 temporary rule shall remain in effect as written prior to the Governor's amendment, pending the resolution of this case.

The sole basis of my determination is my conclusion that the Governor has no authority, as matter of law, to amend the SMFP. I specifically do not reach the other factual and legal issues raised by the parties.

It is further ORDERED that no security is required of Frye during the pendency of this Order.

Further, pursuant to G.S. 1-277 and 7A-27 and Rule 54(b) of the Rules of Civil Procedure, because this action raises

issues of first impression and the conclusion of law reached by the court herein in effect determines the action, I hereby certify this Order for immediate appeal by the Defendants to the North Carolina Court of Appeals because there is no just reason for delay and substantial rights of all parties are affected.

Finally, the Governor's Memorandum purports to provide Catawba with a window of opportunity to file a certificate of need application for open heart surgery services in 1997. If this Order is overturned on appeal, and it is ultimately found that the Governor properly amended the SMFP, the effect of this Order would be to deny Catawba the opportunity to have the Department consider its certificate of need application because of the passage of time during the pendency of the appeal. In order to afford Catawba that opportunity, it is further ORDERED, pursuant to Rule 62(c) of the North Carolina Rules of Civil Procedure, that the effect of this preliminary injunction be suspended during the pendency of Defendants' appeal of the Order. However, if this Court's conclusion of law as to the Governor's lack of authority is upheld, any such application will continue to be subject to the provisions of the SMFP in effect prior to the Governor's amendment. In the event that Defendants do not elect to appeal this preliminary injunction, this suspension shall be lifted, and the preliminary injunction shall remain in effect during the pendency of this action. The parties do not object to this Order being entered out of term, out of county or out of district.

SO ORDERED this 5th day of September, 1997.

Superior Court Judge Presiding at Raleigh, Wake County

# .3079 INTERMEDIATE CARE BEDS FOR THE MENTALLY RETARDED NEED DETERMINATION (REVIEW CATEGORY C)

Intermediate Care Beds for the Mentally Retarded. It is determined that the mental health planning areas listed in the following table need additional Intermediate Care Beds for the Mentally Retarded ("ICF/MR beds"). The table identifies the number of new child and adult ICF/MR beds needed by each of the listed planning areas. These new ICF/MR beds shall only be used to convert existing five-bed ICF/MR beds into six-bed facilities. The addition of the sixth bed must result in the reduction of "per client costs." There is no need for new ICF/MR facilities or for any additional ICF/MR beds in any other mental health planning areas, except as provided in Rule 10 NCAC 3R .3055(a)(8).

First responders at operations plus level are individuals who respond to hydrocarbon fuel tank leaks where the leaking tanks contain a hydrocarbon fuel which is used to propel the vehicle on which the tank is located. Only those vehicles designed for highway use or those used for industrial, agricultural or construction purposes are covered. First responders at the operations plus level shall have received at least training equal to first responder operations level and, in addition, shall receive training or have had sufficient experience to objectively demonstrate competency in the following areas and the employer shall so certify:
  - (A) Know how to select and use proper specialized personal protective equipment provided to the first responder at operations plus level;
  - (B) Understand basic hazardous materials terms as they pertain to hydrocarbon fuels;
  - (C) Understand hazard and risk assessment techniques that pertain to gasoline, diesel fuel, propane and other hydrocarbon fuels;
  - (D) Be able to perform control, containment, or confinement operations for gasoline, diesel fuel, propane and other hydrocarbon fuels within the capabilities of the available resources and personal protective equipment; and
  - (E) Understand and know how to implement decontamination procedures for hydrocarbon fuels."
  - (2) Subpart I -- Personal Protective Equipment -- 29 CFR 1910.132, General requirements, is amended at 29 CFR 1910.132(b) to read:
    - "(b) Equipment. (1) Employer-provided equipment. It is the responsibility of the employer to provide, at no cost to the employee, all personal protective equipment which the employee does not wear off the jobsite for use off the job.
    - (2) Employee-owned equipment. Where employees provide their own protective equipment, the employer shall be responsible to assure its adequacy, including proper maintenance, and sanitation of such equipment."
  - (3) Subpart R -- Special Industries -- incorporation by reference of final rule for 29 CFR 1910.269, Electric Power Generation, Transmission, and Distribution, including Appendices A through E, published in 59 FR (January 31, 1994) pages 4437 4475, all typographical and grammatical corrections to 1910.269 as published in 59 FR (June 30, 1994) pages 33660 33664, and the amendment to 1910.269(g)(2)(i) as published in 59 FR (August 9, 1994) page 40729, except that 29 CFR 1910.269(g)(2)(v) is amended to read:
    - "(v) Fall arrest equipment, work positioning equipment, or travel restricting equipment shall be used by employees working at elevated locations more than 4 feet (1.2 m) above the ground on poles, towers or similar structures if other fall protection has not been provided. A fall protection system as defined in 29 CFR 1926, Subpart M Fall Protection, is required to be used by all employees when ascending, descending or changing locations on poles, towers or similar structures. However, the use of non-locking snap hooks with any fall protection system is prohibited as of July 1, 1995. Qualified employees may free climb wood poles if the employer can ensure (1) that the employee is able to comfortably and safely grip the pole with both hands while climbing, (2) that the pole is free from attachments or any configurations of attachments that will materially impair the ability of a qualified

employee to safely free climb the pole, (3) that the pole is otherwise free from impediments, contaminants or conditions of any type, including but not limited to ice, high winds or chemical treatments which materially impair the ability of a qualified employee to safely free climb the pole, and (4) that the employee is able to climb such structures without material physical impairments including over-exertion, lack of sleep or other physical stresses." 29 CFR 1910.269 as amended above is effective January 1, 1995, except that employers have until July 1, 1995, to implement the use of locking snap hooks, and employers have until January 1, 1996, to design and implement a system of fall protection for use by employees while ascending, descending or changing locations on towers. Also, 29 CFR 1910.269(a)(2) *Training* is effective January 31, 1995, and 29 CFR 1910.269(v)(11)(xii) is effective February 1, 1996.

- (4) Subpart Z -- Toxic and Hazardous Substances:
  - (a) 29 CFR 1910.1000 Air Contaminants:
    - (i) The equation in 29 CFR 1910.1000(d)(1)(i) is clarified to read as follows:  $E = (C_a T_a + C_b T_b + \dots C_n T_n)/8$
    - (ii) The equation in 29 CFR 1910.1000(d)(2)(i) is clarified to read as follows:  $E_m = (C_1/L_1) + (C_2/L_2) + \dots + (C_n/L_n)$
    - (iii) The permissible exposure limits as originally published in 54 FR (January 19, 1989) pages 2331-2983 are incorporated except as otherwise specified or noted in this Rule.
    - (iv) Employee exposure to the toxic and hazardous substances listed in the following tables shall be limited to the specified values.

#### PERMISSIBLE EXPOSURE LIMITS FOR AIR CONTAMINANTS

Footnote (1) Regarding Styrene Only: OSHNC recognizes that the permissible exposure limits for styrene may not be achievable solely through engineering and work practice controls for boat-building and operations comparable to boat building. Comparable operations are those that (1) employ the manual layup and sprayup process, (2) the manufactured items that utilize the same equipment and technology as that found in boat building, and (3) the same considerations of large part size, configuration interfering with air-flow control techniques, and resin usage apply. Examples of operations comparable to boat building would include the manufacture of large above-ground or below-ground storage tanks, large parts for recreational vehicles, and large duct work. Because it is impossible to define in advance every manual layup and sprayup process for which compliance may not be feasible solely through engineering and work practice controls, some guidelines concerning part size and configuration issues are necessary. The primary question for manual layup and sprayup operations is whether the part's size and configuration interfere with normal air-flow techniques. For operations making parts (such as tubs and vanities) that do not meet the guidelines described, beginning April 1, 1996, the hierarchy of controls specified in 29 CFR 1910.1000(e) shall apply to reduce styrene exposures to the new 50 ppm TWA and 100 ppm STEL. In consequence, the burden of proof shall be on the employer to show that engineering and work practice controls are not feasible for specific operations. However, with respect to boat-building operations the burden of proof shall be on OSHNC to prove that the level could be attained solely through engineering and work practice controls.

**Footnote (2)** Regarding Acrylamide, Carbon Dioxide and Silica only: The federal standards at 29 CFR 1910.1000 are adopted. **Footnote (3)** Regarding Subtilisins only: PELs for this substance are not adopted.

# TITLE 15A - DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES

**CHAPTER 7 - COASTAL MANAGEMENT** 

## SUBCHAPTER 7H - STATE GUIDELINES FOR AREAS OF ENVIRONMENTAL CONCERN

#### SECTION .0400 - PUBLIC WATER SUPPLIES

## .0406 PUBLIC WATER SUPPLY WELL FIELDS

- (a) Description. Public water supply well fields are areas of well-drained sands that extend downward from the surface into the shallow ground water table which supplies the public with potable water. These surficial well fields are confined to a readily definable geographic area as identified by the North Carolina Department of Environment and Natural Resources with assistance and support from affected local governments.
- (b) Use Standards. Development within these AEC's shall be consistent with the following minimum standards:
  - No ground absorption sewage disposal or subsurface pollution injection systems shall be placed within the designated AEC boundary except to replace systems existing as of July 24, 1987;
  - (2) Development shall not significantly limit the quality or quantity of the public water supply or the amount of rechargeable water;
  - (3) The development shall not cause salt water intrusion or result in the discharge of toxic or soluble contaminants into standing or groundwater; and
  - (4) Groundwater absorption sewage treatment systems may also be used within the AEC boundary if each of the following provisions are met:
    - (A) the system is serving development on a lot that was platted of record as of July 24, 1987;
    - (B) there is no other economically viable method of waste treatment for the permittable development of such lot;
    - (C) there is no space outside the boundaries of the AEC on the lot upon which the treatment system could be located; and
    - (D) the Division of Environmental Health, Department of Environment and Natural Resources, prior to the CAMA permit decision, reviews and approves the proposed system as complying with existing rules.
- (c) Designated public water supply well field. The CRC has designated the following as a public water supply well field which shall be subject to the use standards as set out in Paragraph (b) of this Rule:
  - 1) Cape Hatteras Well Field. The County of Dare is supplied with raw water from a well field located south of N.C. 12 on Hatteras Island between Frisco and Buxton. The area of environmental concern is bounded by a line located 1,000 feet from the centerlines of three tracts. The first tract is identified as "well field" on maps entitled "Cape Hatteras Wellfield Area of Environmental Concern" approved by the Coastal Resources Commission on July 24, 1987, and extends approximately 12,000 feet west from Water Association Road. The second tract is conterminous with the first tract, is identified as

"future well field" on said maps and extends approximately 8,000 feet to the east of Water Association Road. The third tract is identified as "future well field" on said maps and extends approximately 6,200 feet along the National Park Service boundary east of Water Association Road. The aquifer beneath the tracts serves as the sole source of drinking water for the communities of Avon, Buxton, Frisco, and Hatteras as well as the national seashore recreation area. The wetlands, swales, and surface waters adjacent to the well field provide a large source of recharge and are a potential vehicle for contaminants. Due to these facts contamination of the water supply could have an adverse effect on people other than the local residents of Hatteras Island. Water-borne disease organisms could be easily transported to other areas of the state or the east coast by tourists who are attracted to the area daily.

## SUBCHAPTER 7M - GENERAL POLICY GUIDELINES FOR THE COASTAL AREA

## SECTION .0300 - SHOREFRONT ACCESS POLICIES

## .0301 DECLARATION OF GENERAL POLICY

- (a) The public has traditionally and customarily had access to enjoy and freely use the ocean beaches and estuarine and public trust waters of the coastal region for recreational purposes and the State has a responsibility to provide continuous access to these resources. It is the policy of the State to foster, improve, enhance and ensure optimum access to the public beaches and waters of the 20 county coastal region. Access shall be consistent with rights of private property owners and the concurrent need to protect important coastal natural resources such as sand dunes and coastal marsh vegetation.
- (b) The State has created an access program for the purpose of acquiring, improving and maintaining waterfront recreational property at frequent intervals throughout the coastal region for pedestrian access to these important public resources.
- (c) In addition, some properties, due to their location, are subject to severe erosion so that development here is not possible or feasible. In these cases, a valid public purpose may be served by the donation, acquisition and improvement of these properties for public access.

# .0306 LOCAL GOVERNMENT AND STATE INVOLVEMENT IN ACCESS

- (a) Coastal Waterfront access in the 20-county coastal area is a concern of local, state, regional and national importance. As such, the NCCMP can provide some guidance as to location of facilities that are of multi-regional and regional significance. The local government, however, has the primary responsibility for identifying local, neighborhood and regional accessways through its land use plan policies and local access plan.
  - (1) A local policy in a land use plan sets the community objectives for access; a local government may determine that public access is not a pressing issue and thus develop a policy of private sector access provision and no public involvement. Similarly local governments may:
    - (i) identify numerous access needs and develop local policy to pursue access funding;
    - (ii) develop a local access plan; and
    - (iii) solicit access sites through corporate assistance.
  - (2) A local access plan shall identify needs and opportunities, determine access and facility requirements, establish local standards, and develop specific project design plans or guidelines by appropriate site. A local plan shall consider both financial resource availability (such as grants, impact fees or hotel/motel tax revenues) and construction timing. It shall establish local priorities and devise a system for annual evaluation of the plan.
  - (3) Local governments may also include provisions in local subdivision ordinances that require access for waterfront developments or require payment in lieu of access for non-water dependent subdivisions. The principle here is that, as land is subdivided and more people become residents, access and other recreation demands will follow.
  - (4) Dedicated street stub outs may be acceptable for accessways.
- (b) The NCCMP has primary responsibility for administering the coastal access program. Annually, the Division of Coastal Management (DCM) will solicit for preapplication proposals from local governments and will select competitive projects for full application submittal. A group of these final applications will be selected for funding based on guidelines in Rule 7M .0305 of this Section and anticipated fund availability.
- (c) DCM will ensure all projects funded through the annual grant program are making reasonable progress throughout project implementation and ensure that completed projects are operated and maintained for access purposes.

.0309 COMPLIANCE WITH THE NORTH CAROLINA ENVIRONMENTAL POLICY

#### ACT

The public access program shall comply with the requirements of the North Carolina Environmental Policy Act (NCEPA) and rules adopted by the Department of Environment and Natural Resources concerning NCEPA implementation as set out in 15A NCAC 1C .0201 - .0504. Future amendments by the Department shall be deemed to be incorporated into this Rule pursuant to G.S. 150B-14(c).

Pumping and hauling wastewater effluent shall be performed by a septage management firm permitted in accordance with G.S. 130A-291.1.
- (c) Incinerating, composting, vault privies, and mechanical toilets shall be approved by the state agency or local health department only when all of the wastewater is handled by a system approved under this Section.
- (d) Sewage recycling systems which discharge treated waste-water meeting the state drinking water standards may be used only for toilet flushing and recycled sewage shall not be used for body contact or human consumption. Such systems must be approved by the state or local health department.
- (e) Chemical or portable toilets for human waste may be approved in accordance with G.S. 130A-335. Chemical or portable toilets shall have a watertight waste receptacle constructed of nonabsorbent, acid resistant, noncorrosive material.

#### SECTION .0400 - SPECIFIC INDUSTRIES

#### .0404 ELECTRIC POWER COMPANIES

- (a) Sales of the following items of tangible personal property to firms engaged in generating, producing or processing electric power to be distributed to consumers are subject to the one percent sales or use tax with a maximum tax of eighty dollars (\$80.00) per article:
  - (1) all production machinery and accessories thereto; all machinery controls located within a power plant or a plant substation; and control gates and control valves located at the dam site for regulating flow of water to turbines:
  - (2) control panel boards located within the powerhouse and their connecting wiring;
  - (3) bus bars conducting electric current from generator to powerhouse substation transformer;
  - (4) powerhouse pumping equipment for drainage;
  - (5) all pumping equipment for transferring transformer oil from storage tank to powerhouse transformers, or fuel oil to emergency generator motors;
  - (6) electric traveling cranes built into powerhouse structures for handling turbines, generators and transformers in making installations or repairs;
  - (7) distribution and power transformers; capacitors; induction feeder voltage and constant current regulators; de-ion gaps and expulsion type cutouts for transformers; relays; oil switches; sectionalizing switches; lightning arresters; arcing horns and gaps; watt-hour and panel control meters but not testing or laboratory equipment and meters; Current and potential transformers used in metering equipment are also included as machinery and accessories.
- (b) Sales of the following items of tangible personal property to electric power companies are subject to the four percent state tax and any applicable local sales or use tax:

  - (5) all tools and maintenance equipment used separate and apart from those items classified as production machinery and equipment.
- (c) The gross receipts derived by a utility from the sale of electricity are subject to State sales tax. The rate that applies depends on the person to whom the electricity is sold and the

purpose for which the electricity is used. Gross receipts derived from sales of electricity to farmers, manufacturers, laundries, and dry cleaners for one of the purposes described in G.S. 105-164.4(a)(1f) are subject to State sales tax at the rate of 2.83 percent. All other gross receipts from sales of electricity are subject to State sales tax at the rate of 3 percent.

The gross receipts upon which the tax is due is the total amount for which electricity is sold, including any charges for services that go into the production or delivery of the electricity and that are a part of the sale valued in money, whether paid in money or otherwise, and including any amount for which credit is given to the purchaser by the seller without any deduction on account of the cost of the electricity sold, the cost of materials used, labor or service costs, interest charged, losses, or any other expenses whatsoever. Therefore, all charges for tangible personal property and services provided in the production and delivery of electricity to customers are a part of the gross receipts from the sale of electricity upon which the tax is due notwithstanding that some charges may be billed separately to the customers from the charge for the metered service.

The following list describes specific charges and states whether the charges are taxable gross receipts:

- (1) Electric service meter charges are a part of gross receipts subject to sales tax.
- (2) The basic service charges to the customer, whether or not the customer uses metered service, are a part of the gross receipts from the sale of electricity subject to sales tax.
- (3) Security deposit interest paid to customers on deposits are not subject to sales tax.
- (4) Conservation discounts on electric service metered charges are exempt from sales tax when the discounts reduce the amount the customer is billed for the charges.
- (5) Service charges made to customers when the company first supplies electricity under any applicable metered rate schedule are a part of gross receipts from sales of electricity subject to sales tax.
- (6) Construction charges to new customers for extending a utility's facilities to these customers are a part of the gross receipts from sales of electricity subject to sales tax.
- (7) Underground service charges to residential, commercial, and industrial customers who are served by underground facilities are a part of the gross receipts from sales of electricity subject to sales tax.
- (8) Temporary service charges for installing and removing a service of a temporary nature are a part of gross receipts from the sale of electricity subject to sales tax.
- (9) Advance payments for temporary service that are collected prior to meter installation and customer account establishment are a part of gross receipts from the sale of electricity subject to sales tax. If the amount charged to the customer is in excess of the amount due by the customer for this service it shall be refunded to the customer, including the sales tax.

- (10) Charges for providing customers additional facilities to furnish service are a part of gross receipts from the sale of electricity subject to sales tax notwithstanding that the facilities are requested by the customers.
- (11) Charges for transformers that constitute charges for additional equipment furnished as a part of the electric service are subject to sales tax.
- (12) Charges for transformers under bona fide rental agreements are subject to the four percent state tax and any applicable local sales or use tax and the tax on the rentals must be reported monthly on Sales and Use Tax Report Form, E-500.
- (13) Area lighting charges for area lighting service that is available to customers for the purpose of lighting private streets, private driveways, and other outdoor areas by the means of mercury vapor or sodium vapor units constitute receipts from the sale of electricity subject to sales tax.
- (14) Residential subdivision street lighting charges for services supplied in the lighting of residential dedicated public streets by means of mercury vapor and sodium vapor lighting units are a part of gross receipts from sales of electricity subject to sales tax.
- (15) The amounts actually charged to customers for electricity consumed for the billing period are the amounts on which the sales tax is due and tax is to be charged notwithstanding that the customers may be under equal pay agreements.
- (16) Charges for reconnecting service to customers after service has been terminated for nonpayment are a part of gross receipts from sales of electricity subject to sales tax.
- (17) Sales of electricity to manufacturing industries and plants, laundries, dry cleaning plants, and farmers are subject to sales tax.
- (18) A utility must report receipts from sales of electricity on an accrual basis. The receipts are to be reflected on the Utilities and Municipalities Sales Tax Report, Form E-500E.
- (19) Load control discounts on electric service metered charges for residential customers that reduce the amount by which the customer is billed are not a part of the sale of electricity on which sales tax is due.
- (20) Charges to customers for supplying information through energy or time pulses are not a part of the sale of electricity subject to sales tax if the customer already has the facilities for electric service in place.
- (21) Demand profile charges or pulse data charges for demand information as requested by a customer are not a part of gross receipts from the sale of electricity subject to sales tax.
- (22) Energy audit amounts charged to customers for a comprehensive energy audit provided by a utility are not a part of gross receipts from sales of electricity subject to sales tax.
- (23) Late payment charges billed on a balance that was not paid on the previous month's bill are not a part

- of gross receipts of sales of electricity subject to sales tax.
- (24) Return check charges for checks received by a utility in payment of an account and returned by the bank because of insufficient funds are not a part of gross receipts from the sale of electricity subject to sales tax.
- (25) Home energy loan amounts that represent the amount due under The Help Loan Program are not a part of gross receipts from the sale of electricity.
- (26) Loan late payment charges for an amount due under the loan program that is not paid in accordance with the loan agreement are not gross receipts from the sale of electricity subject to sales tax.
- (27) Sales of electricity directly to the United States Government or any agency thereof are not subject to sales or use tax. In order to be a sale to the United States Government, the government or agency involved must make the purchase of electricity and pay directly to the vendor the purchase price of the electricity. While a utility's sales directly to the United States Government or an agency thereof are exempt from sales tax, a utility must obtain a purchase requisition from each agency for its records.
- (28) Sales of electricity directly to the North Carolina Department of Transportation or any division thereof are not subject to sales or use tax. In order to be a sale to the North Carolina Department of Transportation, the Division involved must make the purchase of electricity and pay directly to the vendor the purchase price of the electricity. While a utility's sales directly to the North Carolina Department of Transportation or a division thereof are exempt from sales tax, a utility must obtain a purchase requisition from each division for its records.
- (29) Sales of electricity to registered electric membership cooperatives and to registered municipalities for resale are exempt from sales tax when the sales are supported by properly completed Certificates of Resale, Form E-590. Electric membership cooperatives and municipalities selling electricity must add and collect sales tax on their gross receipts from the sale of electricity. When paying the sales tax imposed on electricity, a utility may take the deduction allowed under G.S. 105-164.21A.
- (30) Accounts of purchasers representing taxable sales on which sales tax has been paid that are found to be worthless and are actually charged off for income tax purposes may, at corresponding periods, be deducted from gross sales. Any amount that is deducted and subsequently collected must be added to gross sales.
- (31) Local sales taxes do not apply to gross receipts derived by a utility from sales of electricity. Local sales taxes apply to receipts from sales and leases of tangible personal property that are subject to the four percent state rate of tax.

#### SECTION .1100 - SALES OF BULK TOBACCO BARNS: FARM MACHINES AND MACHINERY

# .1123 CERTAIN SALES TO COMMERCIAL ANIMAL FARMERS

For the purpose of this Rule, the word "animal" means swine, cattle, horses, mules, sheep, chickens, turkeys, fish, and other similar domestic animals held or produced for commercial purposes. The word "commercial" means held or produced for income or profit does not include the production of animals for one's personal use or consumption and not for sale. Commercial animal farmers, contractors performing contracts with commercial animal farmers, and subcontractors performing contracts with general contractors who contract with commercial animal farmers may obtain a Commercial Animal Farmer's Certificate, Form E-599S, from the Office Services Division, Taxpayer Assistance Section, of the North Carolina Department of Revenue, to be executed by them and furnished to their vendors to establish the vendors' authority to exempt purchases by them from sales and use taxes. If a Form E-599S is properly executed, a vendor is relieved of liability for any additional tax found to be due with reference to a sale for which the vendor did not charge sales tax in reliance on the certificate. By executing the certificate, the purchaser assumes liability for any sales tax subsequently determined to be due. The vendor is not protected in this manner without the certificate. Vendors that do not choose to use the Commercial Animal Farmer's Certificate must maintain other written evidence adequate to support the conclusion that a sale is exempt from tax in accordance with the provisions of G.S. 105-164.13(4c).

SECTION .2100 - ELECTRICITY: PIPED NATURAL GAS: BOTTLED GAS: COAL: COKE: BUEL OIL: OXYGEN: ACETYLENE: HYDROGEN: LIQUEFIED PETROLEUM GAS AND OTHER COMBUSTIBLES

## .2101 ELECTRICITY, PIPED NATURAL GAS, AND OTHER FUEL

(a) Sales of bottled gas, coal, coke, fuel oil, oxygen, acetylene, hydrogen, liquefied petroleum gas, or other combustibles to users or consumers are subject to the four percent state tax and any applicable local rate of sales or use tax except those sales exempt from tax under G.S. 105-164.13 and those sales subject to a lower rate of tax under G.S. 105-164.4. The gross receipts derived by a utility from sales of electricity and piped natural gas to users are subject to State tax. The tax rate depends on the person to whom the electricity or piped natural gas is sold and the purpose for which it will be used. Gross receipts derived from sales of electricity or piped natural gas to farmers, manufacturers, laundries, and dry cleaners for one of the purposes described in G.S. 105-164.4(a)(1f) are subject to State sales tax at the rate of 2.83 percent. All other gross receipts from sales of electricity are subject to State sales tax at the rate of 3 percent. The gross receipts derived by a utility from sales of electricity and piped natural gas are not subject to the local sales or use tax. The gross receipts derived from the sale of electricity by a municipality whose only wholesale supplier of electric power is a federal agency and who is required by contract with that federal agency to make payments in lieu of taxes are not subject to tax. Sales to a small power production facility of fuel for use by the facility to generate electricity are exempt from sales or use tax.

(b) The gross receipts derived by a utility from sales of piped natural gas are subject to tax at the applicable rate. The tax is to be added as a separate item to the charges for piped natural gas. Gross receipts upon which the tax is due is the total amount for which the piped natural gas is sold, including any charges for services that go into the production or delivery of the gas and that are a part of the sale valued in money, whether paid in money or otherwise, and including any amount for which credit is given to the purchaser by the seller without any deduction on account of the cost of gas sold, the cost of materials used, labor or service costs, interest charged, losses, or any other expense whatsoever. Therefore, all charges for tangible personal property and services provided in the production and delivery of gas to the purchaser are a part of the sale of piped natural gas upon which the tax is due notwithstanding that some charges may be billed separately to

the customer for the metered service.

The following list describes specific charges for piped natural gas and states whether the charges are taxable gross receipts:

- (1) A utility must report receipts from sales of piped natural gas on an accrual basis. The applicable tax must be separately stated on the bill to each customer. A sale by a utility of piped natural gas is considered to accrue when the utility bills the customer for the sale. The applicable tax is due on gross receipts derived from the sale of piped natural gas without any deduction for any franchise tax that is due. The receipts must be reflected on the Utilities and Municipalities Sales Tax Report, Form E-500E, which is to be filed monthly on or before the date set in G.S. 105-164.16(c).
- (2) Service charges to customers when the company first supplies gas under any applicable rate schedule are a part of gross receipts from sales of gas subject to tax.
- (3) The amounts actually charged to customers for piped natural gas consumed for the billing period are the amounts on which the tax is due and tax is to be charged notwithstanding that the customers may be under equal pay agreements.
- (4) Charges for reconnecting service to customers after service has been terminated for nonpayment are a part of gross receipts from sales of piped natural gas subject to sales tax.
- (5) Sales of piped natural gas to a manufacturer that enters into or becomes an ingredient or component part of the manufactured product are exempt from sales tax.
- (6) Sales of piped natural gas directly to the United States Government or any agency thereof are not subject to sales tax. In order to be a sale to the United States Government, the Government or agency involved must make the purchase of piped natural gas and pay directly to the vendor the purchase price of the piped natural gas. While a utility's sales directly to the United States Government or an agency thereof are exempt from sales tax, a utility must obtain a purchase requisition one time from each agency for its records.
- (7) Sales of piped natural gas to registered utility companies for resale are exempt from sales tax when the sales are supported by properly completed Certificates of Resale, Form E-590.
- (8) Energy audit amounts charged to customers for a comprehensive energy audit provided by a utility are not a part of gross receipts from sales of piped natural gas subject to sales tax.
- (9) Late payment charges billed on a balance that was not paid on the previous month's bill are not a part of gross receipts of sales of piped natural gas subject to sales tax.
- (10) Return check charges for checks received by a utility in payment of an account and returned by the bank because of insufficient funds are not a part of gross

receipts from the sale of piped natural gas subject to sales tax.

- (11) Accounts of purchasers representing taxable sales on which the sales tax has been paid that are found to be worthless and are actually charged off for income tax purposes may, at corresponding periods, be deducted from gross sales. Any amount that is deducted and subsequently collected must be added to gross sales.
- (12) Local sales taxes do not apply to gross receipts derived by a utility from sales of electricity. Local sales taxes apply to receipts from sales and leases of tangible personal property that are subject to the four percent state rate of tax.
- (c) Sales of fuel, other than electricity and piped natural gas, for residential heating purposes are subject to the four percent state tax and any applicable local sales or use tax. Sales of coal in its original state are exempt from tax when the sales are made by the producer, or the producer's agent, in the capacity of a producer and the coal is delivered to the purchaser directly from the mine.

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
