TITLE 10A – DEPARTMENT OF HEALTH AND HUMAN SERVICES

Rule-making Agency: Commission for Health Services

Rule Citation: 10A NCAC 41A .0201

Effective Date: January 24, 2005

Findings Reviewed and Approved by the Codifier: January

13, 2005

Reason for Action: The period of high influenza activity in North Carolina normally occurs each year during the January – March. Consequently, available vaccines should be utilized without delay if they are to be of any use. Adherence to notice and hearing requirements of temporary or permanent rulemaking would delay the effective date of this change to the point that the period of heavy influenza activity would be past before the expanded vaccinations would be authorized.

CHAPTER 41 – HEALTH: EPIDEMIOLOGY

SUBCHAPTER 41A – COMMUNICABLE DISEASE CONTROL

SECTION .0200 - CONTROL MEASURES FOR COMMUNICABLE DISEASES

10A NCAC 41A .0201 CONTROL MEASURES – GENERAL

Except as provided in Rules of this Section, the recommendations and guidelines for testing, diagnosis, treatment, follow-up, and prevention of transmission for each disease and condition specified by the American Public Health Association in its publication, Control of Communicable Diseases Manual shall be the required control measures. Control of Communicable Diseases Manual is hereby incorporated by reference including subsequent amendments and editions. Guidelines and recommended actions published by the Centers for Disease Control and Prevention shall supercede those contained in the Control of Communicable Disease Manual and are likewise incorporated by reference, including subsequent amendments and editions. Copies of the Control of Communicable Diseases Manual may be purchased from the American Public Health Association, Publication Sales Department, Post Office Box 753, Waldora, MD 20604 for a cost of twenty-two dollars (\$22.00) each plus five dollars (\$5.00) shipping and handling. Copies of Centers for Disease Control and Prevention guidelines contained in the Morbidity and

Mortality Weekly Report may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 for a total cost of three dollars and fifty cents (\$3.50) each. Copies of both publications are available for inspection in the Division of Public Health, 1915 Mail Service Center, Raleigh, North Carolina 27699-1915.

- (b) In interpreting and implementing the specific control measures adopted in Paragraph (a) of this Rule, and in devising control measures for outbreaks designated by the State Health Director and for communicable diseases and conditions for which a specific control measure is not provided by this Rule, the following principles shall be used:
 - (1) control measures shall be those which can reasonably be expected to decrease the risk of transmission and which are consistent with recent scientific and public health information;
 - (2) for diseases or conditions transmitted by the airborne route, the control measures shall require physical isolation for the duration of infectivity;
 - (3) for diseases or conditions transmitted by the fecal-oral route, the control measures shall require exclusions from situations in which transmission can be reasonably expected to occur, such as work as a paid or voluntary food handler or attendance or work in a day care center for the duration of infectivity;
 - (4) for diseases or conditions transmitted by sexual or the blood-borne route, control measures shall require prohibition of donation of blood, tissue, organs, or semen, needle-sharing, and sexual contact in a manner likely to result in transmission for the duration of infectivity.
- (c) Persons with congenital rubella syndrome, tuberculosis, and carriers of Salmonella typhi and hepatitis B who change residence to a different local health department jurisdiction shall notify the local health director in both jurisdictions.
- (d) Isolation and quarantine orders for communicable diseases and communicable conditions for which control measures have been established shall require compliance with applicable control measures and shall state penalties for failure to comply. These isolation and quarantine orders may be no more restrictive than the applicable control measures.
- (e) An individual enrolled in an epidemiologic or clinical study shall not be required to meet the provisions of 10A NCAC 41A .0201 .0209 which conflict with the study protocol if:
 - (1) the protocol is approved for this purpose by the State Health Director because of the

- scientific and public health value of the study, and
- (2) the individual fully participates in and completes the study.
- (f) A determination of significant risk of transmission under this Subchapter shall be made only after consideration of the following factors, if known:
 - (1) The type of body fluid or tissue;
 - (2) The volume of body fluid or tissue;
 - (3) The concentration of pathogen;
 - (4) The virulence of the pathogen; and
 - (5) The type of exposure, ranging from intact skin to non-intact skin, or mucous membrane.
- (g) The term "household contacts" as used in this Subchapter means any person residing in the same domicile as the infected person.
- (h) Notwithstanding the provisions of Paragraph (a) of this Rule, Influenza Vaccination Recommendations for the 2004–05

<u>Influenza Season published by the Centers for Disease Control and Prevention are not incorporated by reference as required control measures.</u>

COMMISSION PROCEDURES AND OTHER BUSINESS

Mr. DeLuca updated the Commission with information concerning the Environmental Management Commission law suit. An April 11, 2005 court date has been scheduled with a tentative deadline of February 25, 2005 for motions and supporting briefs and a March 25, 2005 deadline for response briefs.

Mr. DeLuca mentioned that we have received several letters in response to 15A NCAC 2L .0202, a rule that has not been filed with the Commission (and which could not have even been adopted by the agency at the time the letters were written). He suggested that the Commission return these letters. He also asked the Commission for general guidance on receiving this type of letter of objection and a request for legislative review on rules we have not yet received. Chairman Hayman asked Mr. DeLuca to respond to the persons who sent the letters in writing and instruct them on what they should do. Mr. DeLuca indicated he would also prepare draft rules on how the Commission should handle this situation in the future.

Commissioner Simpson asked whether any hearing date has been scheduled in the Pharmacy Board lawsuit. Neither Mr. DeLuca nor Denise Stanford, attorney for the Pharmacy Board, had any information to report.

The meeting adjourned at 10:49 a.m.

The next meeting of the Commission is Thursday, February 17, 2005 at 10:00 a.m.

Respectfully submitted, Lisa Johnson

PROPOSED DECISION

This matter was initiated by a Request for Administrative Hearing filed by Petitioner EDS Information Services, LLC ("EDS") with the Office of Information Technology Services ("ITS") on June 10, 2004. EDS protests the contract award by the North Carolina Department of Health and Human Services ("DHHS"), as approved by ITS, of the North Carolina Medicaid Management Information System ("NCMMIS+") pursuant to Request for Proposal No. 30-DHHS-736-04 (the "RFP"). At the request of ITS pursuant to N.C. Gen. Stat. § 150B-40(e), an agency governed by Article 3A of the Administrative Procedure Act ("Act"), the undersigned was assigned to preside in this case. ACS State Healthcare, LLC ("ACS") ("Intervenor"), the putative awardee of the contract, has been permitted to intervene.

This matter came on for decision before the undersigned on the motion of EDS for summary judgment. The motion was supported by exhibits and deposition transcripts, and responses were filed by ITS/DHHS (the "State" or "Respondents") and ACS, including exhibits and affidavits. A hearing on EDS' motion for summary judgment was held before the undersigned on December 29, 2004. J. Mitchell Armbruster and B. Davis Horne, Jr. appeared on behalf of Petitioner; James Wellons appeared on behalf of the Respondents; and Renee Montgomery appeared on behalf of the Intervenor. Based on the pleadings, the materials presented in favor and in opposition to EDS' motion, the arguments of counsel and memoranda submitted, and all other relevant material, the undersigned PROPOSES that summary judgment be granted in favor of Petitioner for the following reasons:

- 1. Through a series of contracts over the past twenty-seven (27) years, the State of North Carolina has contracted the Fiscal Agent duties of the State's Medicaid Program, including the operation of its federally certified Medicaid Management Information System (MMIS), to an outside entity.
- 2. On September 5, 2003, DHHS issued an RFP soliciting proposals for "replacement of the certified NCMMIS+, with the provision for ongoing maintenance and modification of a certified system with newer technology that emphasizes more efficient and effective processing." NCMMIS+ Initiative Selection Committee Summary Report and Recommendation for Award ("Recommendation for Award") at 3. The procurement was required to be a "best value" procurement under North Carolina law. N.C. Gen. Stat. § 147.3395(b)(1) (2004) (stating that ITS procurements are governed by best value standards); 09 NCAC 06B.0301 (same).
- 3. On December 10, 2003, DHHS received proposals from three bidders: EDS, ACS, and Unisys Corporation (Unisys).
- 4. Section 4.1 of the RFP required that proposed solutions conform to North Carolina Statewide Technical Architecture ("STA"):

The State requires a new, technologically advanced system and operational solution that supports the State's requirements detailed throughout RFP Section 4. The solution shall conform to North Carolina's Statewide Technical Architecture Standards as identified on http://ets.state.nc.us/NCSTA/ets_index.html, the Web site for the State's Enterprise Technology Strategies, formerly known as Information Resource Management.

5. Immediately following the requirement that the operational solution "shall conform to North Carolina's Statewide Technical Architecture Standards", RFP Section 4.1 also specifically stated that:

The NCMMIS+ Replacement System shall support the following NCMMIS+ multi-payer functions:

Recipient Subsystem, Eligibility Verification Subsystem (EVS), Automated Voice Response Subsystem (AVRS), Provider Subsystem. Reference Subsystem, Prior Approval Function, Claims Processing Subsystem, Managed Care Subsystem, Health Check Subsystem, Drug Rebate Subsystem, Third-Party Liability Subsystem, Management and Administrative Reporting Subsystem (MARS), and Financial Management and Accounting Subsystem. Information Systems and Services **Integrated Test Facilities** NCMMIS+ Interfaces

- 6. Compliance with the Statewide Technical Architecture was a mandatory requirement of the RFP. No exceptions to this requirement are identified by the RFP. Moreover, State agencies are required to adhere to the Statewide Technical Architecture "when designing, purchasing, upgrading, or enhancing information technology." STA, Roles and Responsibilities, at 5. All information technology ("IT") projects in State Government must obtain the approval of ITS, [Sligh Aff. ¶ 11], and IT procurements are conducted under the auspices of ITS.
- 7. Standard 2.01.02 of the Statewide Technical Architecture requires new applications acquired by the State to be "3-tier" "3-tier" application architecture means the logical separation of the user interface, business rules, and data access code of an application. [Griffith Aff. ¶ 23.] This division "allows for simple, straightforward additions to each of the three tiers without undue impacts on the others." Standard 2.01.02, Rationale. Thus, "all new agency applications should be developed using 3-tier or N-tier architecture in order to maximize flexibility and scalability."
- 8. A "draft" position paper issued by ITS staff on or about March 1, 2004, is consistent with the plain text of Standard 2.01.02: "[T]he proper separation of an application's presentation logic, business logic, and data is a fundamental principle that <u>must</u> be followed. . . . Separation of these applications components is <u>required</u> by the current principles, practices, and standards specified in the North Carolina Statewide Technical Architecture." (emphasis added). No position papers contrary to this statement have been introduced by the State.
- 9. A vendor question was asked prior to the deadline for submitting proposals regarding whether the State's current and older COBOL language-based MMIS system complied with the Statewide Technical Architecture. The State's answer was "no."
- 10. The RFP did not have any exceptions to the requirement that proposals "shall conform" to the Statewide Technical Architecture. In other RFPs, the State at times has limited the mandatory application of the Statewide Technical Architecture. In early 2004, DHHS let an RFP for a statewide Immunization Registry which states that the project "does not fully conform to the STA. For bug fixes and basic maintenance, the current programming language and approach can remain the same. For other changes and enhancements the Vendor must be in conformance to the STA. . . . "RFP No. 30-DIRM-170-04, at 31 (emphasis added).
- 11. In a draft report evaluating the technical architecture of the ACS proposal, dated February 11, 2004, the State's own reviewers reiterated that "the Statewide Technical Architecture (Standard 2.01.02) requires that applications be developed using a 3-tier or N-tier architecture." The report further stated that "the following application systems do not satisfy the STA architecture standard," citing three components of the ACS solution: DRAMS, OmniTrack, and the Claims Adjudication System ("CAS").

- 12. As to DRAMS and OmniTrack, the February 11 report concluded that these components of the ACS proposal were "2-tier" systems and that "[t]he business rules, in this configuration, must reside in the presentation and/or data tiers, both of which are not consistent with the North Carolina STA." As to CAS, the report concluded that this system had mainframe applications with a "monolithic design" which "typically possesses intertwined presentation, business, and data access logic."
- 13. The DRAMS component of the ACS proposal was intended to provide the drug rebate functionality required by the RFP. Because the federal government, through Medicaid, is a large purchaser of prescription drugs, it is able to negotiate substantial discounts with pharmaceutical manufacturers. These discounts take the form of rebates, and are administered by each individual state Medicaid Program. Between 1998 and 2002, North Carolina recovered over \$700 million through its drug rebate program. Section 4.1 of the RFP specifically identified the functionality of the "Drug Rebate Subsystem" as part of the new NCMMIS system.
- 14. The OmniTrack component of the ACS proposal was intended to track all interactions and correspondence between service providers (*e.g.*, doctors, hospitals, *etc.*) and the NCMMIS system. ACS's proposal described OmniTrack as "the centerpiece of the provider Customer Service Center." ACS Proposal § G.6 (Provider Subsystem), at p.11. Section 4.1 of the RFP specifically identified the functionality of the "Provider Subsystem" as part of the new NCMMIS system.
- 15. Each of the bidders gave an oral presentation to the State regarding the technical architecture of its proposed solution. ACS's oral presentation was on February 16, 2004.
- 16. Section 1.6 of the RFP ("Oral Presentation") stated that in the event oral presentations were held, the "presentation proceedings shall be tape recorded." The purpose of the presentations was "to provide an opportunity for the Offeror to clarify its Proposal. Original submissions shall not be supplemented, changed, or corrected in any way." The oral presentations made by EDS, ACS, and Unisys were not tape recorded by the State.
- 17. The Proposal Evaluation Plan ("PEP") developed by the State for the evaluation of Proposals required that if oral presentations were conducted, a written report be made substantiating what occurred at such proceedings. No written reports were created regarding the oral presentations made by EDS, ACS, and Unisys.
- 18. ITS Procurement Regulation 4.0 requires that all clarifications made by vendors during a procurement be memorialized in writing. There is no written substantiation of any clarifications ACS may or may not have made at its oral presentation to the State. One of the reviewer's handwritten notes from the ACS oral presentation indicates that ACS did make a "CHG FROM PROPOSAL," though the specifics of that change were not noted.
- 19. The final report reviewing the technical architecture of the ACS proposal was completed on March 3, 2004.
- 20. This final report concluded that the DRAMS and OmniTrack components of the ACS proposed solution, as well as the Pharmacy POS system, were of "2 tier design" and were "not consistent with the NCSTA." The State concedes that the DRAMS and OmniTrack components are 2-tier subsystems.
- 21. The final report concluded that the CAS component of the ACS proposed solution was "n tier" in conformance with the Statewide Technical Architecture. This is a change from the February 11 draft report. The State claims that the architecture review team changed its conclusion from the prior draft based on information provided by ACS during its oral presentation. There was no report created describing that information.
- 22. The Recommendation for Award, which incorporated the findings of the technical architecture reviewers, concluded that the EDS and Unisys proposals had "the essential characteristics of an N-tier design" without exception. In contrast, the report found that only the "core solution" of the ACS proposal "has an n-tier design," and that the 3 subsystems identified above (DRAMS, Omnitrack, and PharmacyPOS) "have a 2-tier design." Recommendation for Award at 18. The RFP does not define any particular part of the vendor's solutions as the "core solution."
- 23. Neither Unisys nor EDS were informed of the possibility or given an opportunity by reviewers to amend their proposals to offer components that did not comply with the 3-tier requirement of the Statewide Technical Architecture.
- 24. Based on the point scoring evaluation scheme developed by the State for evaluating proposals, ACS received the most points out of any of the bidders. EDS received the second highest total of points, followed by Unisys.

CONCLUSIONS OF LAW

- 1. This proceeding is governed by Article 3A of the Administrative Procedure Act. <u>Homoly v. State Bd. of Dental Examiners</u>, 121 N.C. App. 695, 699, 468 S.E.2d 481, 484 ("[T]he contested case provisions of Article 3 do not apply to Article 3A agencies and the same is true conversely."), <u>review denied</u>, 343 N.C. 306, 471 S.E.2d 71 (1996).
- 2. To withstand the scrutiny of judicial review, the decision of an agency cannot be supported "if the substantial rights of the petitioners may have been prejudiced because the agency's findings, inferences, conclusions, or decisions are:
 - (1) In violation of constitutional provisions;
 - (2) In excess of the statutory authority or jurisdiction of the agency;
 - (3) Made upon unlawful procedure;
 - (4) Affected by other error of law;
 - (5) Unsupported by substantial evidence admissible under G.S. 150B-29(a), 150B-30, or 150B-31 in view of the entire record as submitted; or
 - (6) Arbitrary, capricious, or an abuse of discretion."

N.C. Gen. Stat. § 150B-51(b); cf. N.C. Gen. Stat. § 150B-23(a) (pleading requirements for Article 3 proceedings).

- 3. Summary judgment is appropriate when "the pleadings, depositions, answers to interrogatories and admissions on file, together with affidavits, if any, show that there is no genuine issue as to any material fact and that any party is entitled to judgment as a matter of law." N.C. R. Civ. P. 56(c); see also 09 NCAC 06B .1015 (granting the undersigned authority to recommend summary dispositions in this proceeding). In opposing a motion for summary judgment, the non-moving party may not rely on conclusory allegations unsupported by facts. Lowe v. Bradford, 305 N.C. 366, 369-70, 289 S.E.2d 363, 366 (1982). Rather, the non-moving party "must set forth specific facts showing that there is a genuine issue for trial." Id.
- 4. Under ITS regulations and the general precepts requiring fair competition in bidding, the State is not permitted to award a contract to a non-responsive bidder. 9 NCAC 06B.0302(1)(h). "Indeed, it is the duty of the public authorities to reject all bids that do not comply substantially with the terms of the proposal, for any other rule would destroy free competition." 64 Am Jur. 2d Public Works and Contracts § 57 (2001). A disappointed bidder is prejudiced by the failure to reject a non-responsive bid if there was a substantial chance it would have received the contract award. See, e.g., Alfa Laval Separation, Inc. v. United States, 175 F.3d 1365, 1367 (Fed. Cir. 1999); see also Professional Food Services Mgmt., Inc. v. N.C. Dep't of Admin., 109 N.C. App. 265, 270, 426 S.E.2d 447, 451 (1993) (bidder found to be prejudiced by improper rejection of conforming bid).
- 5. Section 4.1 of the RFP required that the bidders' proposed solutions shall conform to the Statewide Technical Architecture. The ACS solution did not comply with the 3-tier requirement of the Statewide Technical Architecture. It is undisputed that DRAMS and OmniTrack are 2-tier subsystems and simply do not comply.
- 6. The State chose not to make any exceptions in the RFP to its own requirement that solutions shall conform to the Statewide Technical Architecture. Even if the RFP required construction on this point, it would be construed against the State as the drafter. WellPath Select, Inc. v. N.C. Teachers' and State Employees' Comprehensive Major Medical Plan, 2001 WL 34055817 (OAH 2001); Novacare Orthotics & Prosthetics East, Inc. v. Speelman, 137 N.C. App. 471, 528 S.E.2d 918 (2000) ("when an ambiguity is present in a written instrument, the court is to construe the ambiguity against the drafter—the party responsible for choosing the questionable language.").
- 7. The State was permitted to exercise substantial discretion in the development of the RFP. But the State cannot, as it suggests, exercise "professional judgment" <u>after proposals</u> are submitted to determine whether parts of the Statewide Technical Architecture do not need to be followed. [Fenton Aff. ¶ 8.] In order to preserve the requirement of fair competition, bidders need to be informed prior to bid submission if their entire solution does not need to conform to RFP specifications. Otherwise, a level playing field cannot be maintained and the right of bidders to a fair competition is prejudiced. Here, for example, Section 4.1 of the RFP specifically listed the "Drug Rebate System" and "Provider Subsystem" as a part of the requested NCMMIS solution, and required a "solution" that "shall conform" to the Statewide Technical Architecture.

- 8. EDS was prejudiced under N.C. Gen. Stat. § 150B-51(b) because, as the highest rated proposal among the remaining two bidders, there was a substantial chance it would have received the contract award but for the failure of the State to disqualify the ACS proposal.
- 9. The State violated the RFP by failing to tape the vendor oral presentations pursuant to RFP § 1.6.
- 10. The State violated the PEP by failing to create a written report substantiating what occurred at the oral presentations.
- 11. The State violated ITP Procurement Regulation 4.0 to the extent the State claims that ACS made any clarifications at its oral presentation upon which it relies, because those clarifications were not memorialized in writing.
- 12. The failure to preserve an adequate record of the oral presentations in violation of the procedures set forth in the RFP, PEP, and ITS regulations also prejudiced the rights of EDS. The State asserts that it concluded the CAS component of the ACS solution was found to comply with the 3-tier requirement of the Statewide Technical Architecture based on the ACS oral presentation. The ability of the public, including EDS, to investigate what occurred at the oral presentations, as well as the State's ability to introduce a record of what occurred without resorting to post-award litigation affidavits, are destroyed by the failure to abide by these requirements. As noted by the Court of Appeals in Watkins v. Board of Dental Examiners, 358 N.C. 190, 198, 593 S.E.2d 764, 768 (2004), "the preservation of a record for judicial review [is] a cornerstone of the Administrative Procedure Act in that it enables a reviewing court to determine whether an agency . . . has engaged in a reasoned evaluation and analysis of [the] evidence presented." If agencies were permitted to violate their own rules for preservation of the record with impunity, and thus impede the ability of citizens to question decisions, agencies would undermine this "cornerstone" of the Act.

PROPOSED DECISION

Based on the foregoing, it is HEREBY PROPOSED that:

- 1. EDS's motion for summary judgment be GRANTED on the grounds that the State erred by failing to find ACS's bid nonresponsive to the RFP's mandatory requirement of compliance with the Statewide Technical Architecture because it is undisputed that the DRAMS and OmniTrack components of the ACS proposal did not comply with the 3-tier requirement of the Statewide Technical Architecture.
- 2. DHHS officials shall disqualify the ACS bid, cancel this procurement, issue a new RFP with any exceptions noted about fully complying with the STA, seek new proposals for award, and record all oral presentations made by offerors prior to making a decision on awarding a new contract for the North Carolina Medicaid Management Information System.

NOTICE

The agency making the final decision in this proceeding is required to give each party an opportunity to file exceptions and proposals and to present oral and written arguments to it before the decision is made. The Final Agency Decision is to be made by the State Chief Information Officer, Office of Information Technology Services. N.C. Gen. Stat. § 150B-40(e).
