TITLE 21 – OCCUPATIONAL LICENSING BOARDS

CHAPTER 50 - BOARD OF EXAMINERS OF PLUMBING, HEATING AND FIRE SPRINKLER CONTRACTORS

Rule-making Agency: Board of Examiners of Plumbing, Heating and Fire Sprinkler Contractors

Rule Citation: 21 NCAC 50 .0301

Effective Date: December 5, 2005

Findings Reviewed and Approved by the Codifier:

November 22, 2005

Reason for Action: The Board proposes to delay until July 1, 2006, (now December 31, 2005) the requirement that all holders of Limited Fire Sprinkler Inspection Technician license obtain NICET Level II Certification, so as to allow the Board to continue to renew such license. The reason for the proposed change is that 80% of the holders of Fire Sprinkler Inspection Technician license have been unable to obtain and pass the NICET Level II certification. Failure to allow renewal would eliminate 80% of the available technicians rendering the required annual inspection of all fire sprinkler systems under NFPA 25 a practical impossibility, resulting in serious and unforeseen danger to the public, particularly occupants of health care facilities, industrial plants, offices and university system buildings with fire sprinkler systems.

Under current rules, the licenses of nearly all fire sprinkler system inspector technicians will expire December 31, 2005, and not be renewable. Inasmuch as annual inspection of such systems in mandated by the State Fire Marshall, non-inspection will create a public health crisis. In order to prevent a gap in licensing, adoption of the rule effective December 1, 2005 is necessary so industry can process renewal applications in December 2005.

This risk was not foreseen because the Board reasonably relied upon industry representatives that NICET, the national examining body, could and would provide adequate numbers of examinations and reexaminations over the past two years to meet its need. NICET has unfortunately capped the number of seats and failed to provide adequate numbers of test days.

The Board intends to solve the problem through permanent rules allowing an alternate test, designed and administered directly by the Board in Spring 2006.
