From the Codifier

Notice of Text submitted by the Department of Labor/Boiler Safety Bureau and published by the Office of Administrative Hearings in the NC Register on March 15, 2006, Volume 20, Issue 18, contained a format typographical error in the text of Rule 13 NCAC 13 .0101.

The agency's submission proposed to delete the entire note as shown below. The strikeout format was inadvertently removed during the publication process from the words "boiler or pressure vessel without".

TITLE 15A – DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES

Notice is hereby given in accordance with G.S. 150B-21.2 that the Department of Environment and Natural Resources intends to amend the rules cited as 15A NCAC 010 .0101, .0105.

Proposed Effective Date: August 1, 2006

Public Hearing: Date: May 18, 2006 Time: 3:00 p.m.

Location: Room 1A201, Parker Lincoln Building, 2728 Capital

Blvd., Raleigh, NC

Reason for Proposed Action: The proposed rule change will allow Registered environmental health specialist to be authorized to work for the North Carolina Alliance of Public Health Agencies (Alliance), providing solutions to staffing dilemmas in local environmental health programs. Ratified Senate Bill 622 of the 2005 Session enacted the new biennial State budget. The Joint Conference Committee Report on the Continuation, Expansion and Capital Budget - Reflecting all Legislation Enacted and Ratified in the 2005 Session, September 8, 2005, contains the following language in the DHHS Section 114 "Public Health Incubators" – Provides funding for public health incubators, \$1,000,000 Recurring. Of the \$1,000,000 for Public Health Incubators, \$90,000 is earmarked for FY 2005-2006 for The Alliance to establish a state-wide Environmental health temporary staffing agency. \$30,000 in recurring funds is budgeted for Fiscal year beginning 2006-2007. It is expected that the staffing agency will be self-supporting once it is operational. The Alliance currently provides temporary staffing to local health departments for clinical services provided.

In order to utilize this money, the delegation of authority rules 15A NCAC 01O .0101 and .0105 must be amended. These amendments will allow employees hired by the Alliance to be authorized as agents of the state in enforcing the provisions of Chapter 120A and the rules of the Commission for Health Services. Current rules only allow an employee of a local health department to be delegated this authority. These rules are needed so that the Alliance can recruit and train employees, which will provide necessary environmental health services to local communities.

In the summer of 2005 an "On-site Wastewater Backlog" survey was conducted by the Division of Environmental Health. Responses from ninety-nine of 100 counties showed that it took fifty-one counties greater than 14 working days for their environmental health staff to make the initial site visit to conduct a site evaluation, once an application was received. Twenty counties indicated that it took greater than 28 days. On-site wastewater permits are required before building permits can be issued. These backlogs have generated a great deal of interest in trying to reduce the amount of time it takes for sites to be evaluated. The longer a developer or builder has to wait for sites to be evaluated, the more money is spent without return.

Temporary rules were initiated by the Department of Environment and Natural Resources, and approved by the Rules Review Commission on March 16, 2006. These permanent rules are to replace the temporary rules. Amending the rules will allow individuals who are employees of a local health department or the North Carolina Alliance of Public Health Agencies to serve as an agent of the state. This will provide a solution to staffing dilemmas in local environment health programs.

Procedure by which a person can object to the agency on a proposed rule: Public comments will be accepted at the public hearing; or you may submit comments by email to: Connie.Pixley@ncmail.net, or in writing to: Connie J. Pixley, OSWW Section 1642 Mail Service Center, Raleigh, NC 27699-1642.

Comments may be submitted to: Connie J. Pixley, DEH OSWW, 1642 Mail Service Center, Raleigh, NC 27699-1642, phone (919) 715-3273, fax (919) 715-3227, email Connie.Pixley@ncmail.net

Comment period ends: June 16, 2006

Procedure for Subjecting a Proposed Rule to Legislative Review: If an objection is not resolved prior to the adoption of the rule, a person may also submit written objections to the Rules Review Commission. If the Rules Review Commission receives written and signed objections in accordance with G.S. 150B-21.3(b2) from 10 or more persons clearly requesting review by the legislature and the Rules Review Commission approves the rule, the rule will become effective as provided in G.S. 150B-21.3(b1). Public Hearing: Date: May 24, 2006 Time: 2:00 p.m.

Location: Parker-Lincoln Building, 2728 Capital Blvd.,

Raleigh, NC (Room 1A224)

Reason for Proposed Action: North Carolina's Rules Governing Public Water Systems (15A NCAC 18C) require a public water system to sample for certain contaminants that may occur in the drinking water distribution system. Distribution samples may be taken from taps located on private property which is not owned or controlled by the supplier of water. The Rules specify the number of water samples required, sample location criteria and sampling frequency. For many contaminants, multiple water samples must be collected from within the distribution system during a specified timeframe, and system compliance with water quality standards is based on the analytical results of these multiple samples. Therefore, a public water system may comply with standards even if an individual water sample exceeds an established action level, maximum contaminant level [MCL] or maximum residual disinfectant level [MRDL]. 15A NCAC 18C .1523 requires a public water system to provide public notice to its consumers if the system exceeds an established action level, MCL or MRDL, but a system is not required to notify a consumer if an individual water sample from the consumer's private property exceeds an action level, MCL or MRDL.
