You may call our office to inquire concerning the staff recommendation.

In reviewing this Rule, the staff recommends the following technical changes be made:

So that I'm clear – this Rule is only governing State and local government agencies, and not covered entities? Will covered entities not produce the kits?

On line 6, how will they know if the kits are “compatible with the System”? Or is this to address G.S. 143B-1201(d), which states:

(d) The Secretary, in consultation with the Director of the State Crime Laboratory, shall require that all sexual assault evidence collection kits purchased or distributed on or after October 1, 2018, are compatible with the Statewide Sexual Assault Evidence Collection Kit Tracking System established under [G.S. 114-65](#).

So that I'm clear – the intent of the language on lines 6 and 7 is to require the contract to have a clause mandating the vendor complies with this requirement?
