COMMENT:

The agency submitted the above referenced Rules for RRC review at its April 2019 meeting. Staff requested extensive technical changes, including ones to address issues of ambiguity. At the April meeting, the RRC granted an extension of the period of review pursuant to G.S. 150B-21.10(3). G.S. 150B-21.13 states that when the RRC grants this extension, it is required to take an action or approve or object to the Rule within 70 days. At this time, despite diligent work from the agency, we have not received revised rules to address the technical change requests.

As the technical change requests address issues concerning ambiguity and clarity, staff is recommending objection to the above referenced Rules for ambiguity, as more specifically noted in the individual Requests for Technical Changes.
