Explain:

On March 10, 2020, the Governor of North Carolina, by issuing Executive Order No. 116, declared a state of emergency to coordinate a response and enact protective measures to help prevent the spread of COVID-19. The COVID-19 is a respiratory disease that can result in serious illness or death. The COVID-19, previously unidentified in humans, spreads easily from person to person. Once an outbreak of the COVID-19 begins, it is difficult to contain. The World Health Organization, the Center for Disease Control and Prevention, and the United States Department of Health and Human Services have declared COVID-19 a public health threat and emergency. On March 12, 2020, the Governor of North Carolina and the NC Department of Health and Human Services recommended high risk persons stay at home, that schools implement plans for distance or e-learning, that employers and employees use teleworking technologies, and that mass gatherings should cancel, postpone, and modify these events or offer online streaming services. On March 14, 2020, the Governor of North Carolina issued Executive Order No. 117 that prohibited mass gatherings, closed schools, and urged social distancing. On April 23, 2020 the Governor extended the effective date on these various Executive Orders through at least May 8, 2020. This rule amendment will extend the continuing education deadline for license renewal since most course offerings would not be in compliance with the Governor's Executive Orders.

7. Why is adherence to notice and hearing requirements contrary to the public interest and the immediate adoption of the rule is required?

COVID-19 is a respiratory disease that can result in serious illness or death. The COVID-19 virus, previously unidentified in humans, spreads easily from person to person. Once an outbreak of the COVID-19 begins, it is difficult to contain. The World Health Organization, the Center for Disease Control and Prevention, and the United States Department of Health and Human Services have declared COVID-19 a public health threat and emergency. Since mass gatherings are being restricted during this worldwide pandemic, those applying to the Board for license renewal, will be unable to comply in many instances.

Executive Order No. 116, declared a state of emergency to coordinate a response and enact protective measures to help prevent the spread of COVID-19. In subsequent Orders, the Governor of North Carolina and the NC Department of Health and Human Services recommended high risk persons stay at home, that schools implement plans for distance or e-learning, that employers and employees use teleworking technologies, and that mass gatherings should cancel, postpone, and modify these events or offer online streaming services, then prohibited mass gatherings, closed schools, and urged social distancing. This rule amendment allows an extension of time to complete continuing education requirements.
