Cite Session Law:

☐ Petition for rule-making☐ Other:

9B. Explain: The Commission voted in April 2018 to repeal all existing wildlife captivity and rehabilitation rules, effective January 1, 2020. This proposed rule and the other proposed rules for 15A NCAC 10H .1400 will replace them. Overall, these rules split rehabilitation and long-term captivity requirements, incorporate necessary definitions and provisions to be used throughout the section, detail enforcement actions, and specify reporting requirements and form contents.

15A NCAC 10H .1403 establishes requirements for captivity licenses for holding, including guidance on the animals that can be held captive under this license for education, exhibition, or scientific purposes.

9B. Explain: Child care centers serve young children who are especially vulnerable to the negative effects of lead exposure. Currently, there is no requirement for child care centers served by public water systems to investigate the presence of lead in their water at the point of use. The proposed rule amendment requires that child care centers periodically test for lead in water from outlets used for drinking and food preparation and mitigate if testing reveals lead concentrations above the lead hazard level.
