| 9A. What prompted this action? Check all that apply: <input checked="" type="checkbox"/> Agency <input type="checkbox"/> Court order / cite: <input type="checkbox"/> Federal statute / cite: <input type="checkbox"/> Federal regulation / cite: <input type="checkbox"/> Legislation enacted by the General Assembly Cite Session Law: SL 2015-286 <input type="checkbox"/> Petition for rule-making <input type="checkbox"/> Other: | |
| 9B. Explain: The on-site wastewater treatment system rules (15A NCAC 18A .1900) have not been updated as a complete package since 1990. In the intervening 27 years, the industry has seen many technological advances, terminology has been standardized and practical knowledge has been enhanced. The proposed rules incorporate current rule interpretations and existing knowledge of advanced technologies, include previously excluded products, updated and simplified terminology, and reflect significant improvement in consistency and clarity. The majority of changes in the proposed rules are a re-organization of the current code and clarification of current language as part of an effort to simplify and streamline the current rules. | |

In the intervening 27 years, the industry has seen many technological advances, terminology has been standardized and practical knowledge has been enhanced. The proposed rules incorporate current rule interpretations and existing knowledge of advanced technologies, include previously excluded products, updated and simplified terminology, and reflect significant improvement in consistency and clarity. The majority of changes in the proposed rules are a re-organization of the current code and clarification of current language as part of an effort to simplify and streamline the current rules. | |

| 9B. Explain: The on-site wastewater treatment system rules (15A NCAC 18A .1900) have not been updated as a complete package since 1990. In the intervening 27 years, the industry has seen many technological advances, terminology has been standardized and practical knowledge has been enhanced. The proposed rules incorporate current rule interpretations and existing knowledge of advanced technologies, include previously excluded products, updated and simplified terminology, and reflect significant improvement in consistency and clarity. The majority of changes in the proposed rules are a re-organization of the current code and clarification of current language as part of an effort to simplify and streamline the current rules. | |
