Explain: Biltmore Lake Association has requested that Enka Lake, which is portion of Bill Moore Creek in Buncombe County (French Broad River Basin), be reclassified from Class C to Class B. The purpose of this rule change is to protect the existing waters' primary recreation uses. The waters proposed to be reclassified meet Class B standards according to 2017 Division of Water Resources studies. If these waters are reclassified, new National Pollutant Discharge Elimination System (NPDES) wastewater discharges to these waters that contain fecal coliform will be required to have a coliform limit. There are no permitted or planned NPDES wastewater discharges to these waters that would be impacted by the proposal.

9B. Explain: G.S. 150B-21.3(A) requires state agencies to review existing rules every 10 years. 15A NCAC 13B .0834 Permit Fees is readopted with amendments for updating Department and Division information, for technical or clarifying changes, and for removal of unnecessary or redundant language. The rule was also revised to remove the requirement that a "Technical Specialist" prepare nutrient management plans for these facilities. The Agency replaced technical specialist with the requirement that an environmental professional prepare the plan, and defined that term in the rule. This rule will be transferred to 15A NCAC 13B .0840 after RRC approval.

Explain: Session Law 2014-41 resulted in changes to GS 130A-320. This legislative mandate requires all public water systems that obtain their water from a surface source(s) to develop a source water protection plan. Completion of the requirements of 15A NCAC 18C .1305 serves the public interest by helping to protect public health. The proposed rule sets minimum standards for suppliers of water to assess threats and to identify mitigation strategies in response to contamination and/or emergency events.
