**Subject:** Re: 2021.12 - EMC 02L Request for Technical Changes

*Dear Ms. May,*

*We are respectfully requesting the RRC to extend the period of review for 15A NCAC 02L .0202 - Groundwater Quality Standards in order for staff to continue addressing the Requests for Technical Changes. We have made progress, but need additional time due to ongoing discussions with the Division of Waste Management and the DHHS Division of Public Health for their input on a number of questions.*

*Thank you. Please let us know if you need additional information with respect to this request.*

*Jennifer*
