Subject: Readoption of 15A NCAC 01E

Hi Ms. May,

The Department of Environmental Quality (DEQ) would like the RRC to approve our proposed readoption date of November 30, 2022 for 15A NCAC 01E - Oil Refining Facility Permits. This rulemaking effort requires collaboration across multiple enforcement divisions within DEQ. Rule drafting will be extensive, and our plan is to work on the language this year. The fiscal note will most likely be very complex and we intend to have OSBM approval in the spring. Our goal is to proceed to public notice in the summer of 2022 followed by development of the hearing officer's report. This entire package with recommendations will be submitted to the Secretary for adoption no later than November 30, 2022.

Thank you. Let us know if you have any questions.

Jennifer
