Attachment to Submission of Permanent Rule Form for Rule 04 NCAC 10J .0101

9B. Explain:

The Industrial Commission proposes to amend this rule in conjunction with the adoption of two other rules to fulfill its statutory duty to periodically review the schedule of fees charged for medical treatment in workers' compensation cases and to make revisions if necessary. The revisions reflected in this proposed rule in conjunction with the adoption of proposed Rules 04 NCAC 10J .0102 and .0103 are intended to ensure that injured workers are provided the standard of services and care intended by the Workers' Compensation Act, that health care providers receive reasonable reimbursement for services, and that medical costs are adequately contained. The Industrial Commission was directed in S.L. 2013-410, s.33.(a) to base its physician and hospital fee schedules on "the applicable Medicare payment methodologies." The package of proposed rules, including this rule, is intended to carry out this legislative mandate.

Explain: This rule was amended via final agency decision on 11/14/2014, and subsequent approval by the Rules Review Commission on 12/17/2014. On 12/18 a typographical error was found that was inadvertently missed prior to final approval. In Paragraph (i)(4) the language was revised to read, “four or more crimes or unlawful acts defined as Class A Misdemeanors, regardless of the date of conviction.” This language should have remained as “...Class B Misdemeanors...” in order to be consistent with 12 NCAC 09B .0111(1)(d). Class B Misdemeanors carry stiffer penalties, and this change would allow the admission of trainees with convictions which would not permit their certification. Hence the need to remedy this typographical error.

Reason for Action

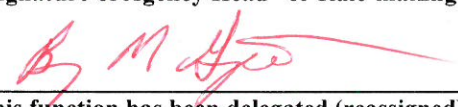

Elevator and Amusement Device Bureau

13 NCAC 15 .0307-- The North Carolina Department of Labor's Elevator and Amusement Device Division inspects approximately 24,000 elevators and escalators per year. Of that total, a significant number are cited for non-compliance issues that have no bearing on or do not compromise the safety of the general public. The current rule requiring re-inspection is an inefficient use of Elevator and Amusement Device bureau personnel and resources. The proposed rule amendment eliminates the requirement for re-inspection of devices that are cited for non-compliance issues that have no bearing on or do not compromise the safety of the general public. It establishes a process for the owner of a regulated device to notify the Elevator and Amusement Device bureau that non-compliance has been corrected. The change also establishes payment of a follow-up inspection fee if the owner fails to provide notice of abatement and a follow-up inspection is required to determine status of abatement.
