9B. Explain: Currently, all cervidae, susceptible to CWD, that die in NC Captive Cervid facilities at six months of age, or older, must be tested for CWD. In 2014, the General Assembly passed legislation requiring Wildlife Resources Commission to adopt by reference the US Dept. of Agriculture Chronic Wasting Disease Program Standards, May 2014 edition and any subsequent Program Standards. Therefore, to comply with USDA Program Standards, NCDA&CS must amend its CWD standards to require that all cervidae, susceptible to CWD, that die in NC Captive Cervid facilities at 12 months of age, or older, must be tested for CWD.

Explain: The Industrial Commission has adopted a comprehensive electronic filing rule, 04 NCAC 10A .0108, for two primary reasons. First, the rule will assist the Industrial Commission's regulated public by centralizing all information regarding how to file documents in one rule. Second, the rule will mandate electronic filing, with exceptions for filers without electronic filing capabilities, and prohibit duplicate filings, both of which will significantly improve the accuracy and efficiency of document intake and processing by the Industrial Commission.

9B. Explain: The Health Care Personnel Education and Credentialing Section approves all Nurse Aide I training programs in the state and maintains the NC Nurse Aide I Registry (Registry), listing all individuals completing the Nurse Aide I competency exam. Federal regulations require a person to complete a training program and a competency exam or complete a competency exam to be listed on the Registry. This rule is being proposed in accordance with federal regulation because currently, there is no requirement for those listed on the Registry to have completed a NC DHHS approved training program prior to completing a competency exam. The rule lists the option to complete only a competency exam if equivalency criteria is met. The public's expectation is for all those listed on the Registry to meet minimal training requirements by attending DHHS approved training programs. The goal is the provision of safe care to NC citizens.

Explain: The Environmental Management Commission has received a petition for rulemaking and the Division of Waste Management has taken comments from stakeholders who maintain it is inconsistent to require risk-based remediation for only petroleum contamination from petroleum underground storage tanks (USTs). This change can be protective of human health and the environment and will reduce costs to some stakeholders.
