Explain: Lower Cape Fear River Program staff requested that a section of the Cape Fear River in Brunswick and New Hanover Counties be reclassified. The subject waters are proposed to be reclassified from Class SC to Class SC Sw with a water quality management plan (WQMP). The proposed Sw reclassification would allow, if caused by natural conditions, the pH of the subject waters to reach as low as 4.3 (compared to the currently required 6.8-8.5 range) and the dissolved oxygen to be lower than the currently required 5 mg/l. The proposed WQMP would help implement the current permitting strategy for new individual NPDES wastewater discharges and expansions of existing individual NPDES wastewater discharges to the subject waters. The overall proposal provides a path forward for these discharges & local communities for future planning purposes.

9B. Explain: 1) Changes the name of the Department; 2) Allows the Parks & Recreation Authority to set the due date for grant applications to a day between January 31 and April 30; and 3) Requires an Authority meeting to select grant recipients within 180 days of the application deadline. The name of the department has been changed by the General Assembly to the Department of Natural and Cultural Resources. Funding for the Parks and Recreation Trust Fund (PARTF) has decreased and increased significantly in recent years because the source of funds for PARTF has changed from a stream of revenue from the excise tax on real estate transfers to annual appropriation. This effects when funds are available. The rule change would allow the Parks and Recreation Authority to adjust the application deadline and grant selection meeting dates to correspond with when the funds will be available.
