Subject: Early review

I have no objection to an early review. The North Carolina BOP takes care of pharmacists and promulgates rules that allow pharmacists to use their clinical judgment to take care of patients. I recently moved back to South Carolina, and practicing pharmacy now always seems to threaten a prison sentence based on ever changing subjective interpretations of law. Keep taking care of the profession!

Subject: Earlier decision

I believe an earlier decision would be better for all. Patricia A Pannone RPh
