My Comment Text: The property tax exemption for recycling equipment for recycling facilities is a great program that encourages entrepreneurship that helps create jobs in a way that supports our environment. When I decided to start my recycling company I lived in another state. The pro recycling climate of NC is one of the main reasons I decided to locate my business here. My business is a case study of how programs like this ultimately bring in more revenue for the State and Municipalities.

Agency response: The comments will be considered during the readoption process.
