Explain: The repeal of 29 rules in Subchapter 10A NCAC 13B, Licensing of Hospitals, is in response to Session Law 2017-174, Senate Bill 42, Section 1.(b) effective July 21, 2017. The provisions in this act require the Hospital Facilities Rules to be repealed, as the law specifies for additional temporary and permanent rulemaking (temporary rulemaking began 9/20/17 with submission to OAH) replacing the rules with requirements of the Facilities Guidelines Institute (FGI), Guidelines for the Design and Construction of Hospitals so that licensed hospitals in North Carolina are designed and constructed in compliance with a national standard that is more up-to-date than the existing rules to be repealed. Rule 10A NCAC 13B .6208 Obstetrical Department Services, is repealed due to the law's list of rules numbering error and the title being the substance of the rule that is specified in the law.

As a result of the periodic review of subchapter 10A NCAC 13J, The Licensing of Home Care Agencies, this rule was determined as "Necessary With Substantive Public Interest," thus necessitating readoption. With input from stakeholders, substantive changes have been made to this definitions rule. Five definitions were deleted due to ambiguity, redundancy and lack of authority for defining; 13 definitions were revised to reference definitions in the General Statute; and two were added to remain contemporary with industry standards.

As a result of the periodic review of subchapter 10A NCAC 13J, The Licensing of Home Care Agencies, this rule was determined as "Necessary With Substantive Public Interest," thus necessitating readoption. With input from stakeholders, substantive revisions have been made to this rule. The revisions include technical changes and removing ambiguity in the rule by the addition of the requirement for the agency's governing body or designee to ensure a quarterly evaluation of the client's record was completed. In addition, text was deleted to satisfy a historical RRC objection to the rule.

The standards are required to be at least as effective as the standards established by the Insurance Services Office, Inc. To that end, over the years the rules contained in Title 11, Subchapter 05A, Section .0500 have been utilized by the Department's Office of the State Fire Marshall (OSFM) to conduct inspections to assign a public protection classification rating to fire departments across the state. The rules in Section .0500 are outdated, and in need of updating. In order to clarify and streamline the departmental rules regarding inspections of fire departments for purposes of public protection classification ratings, the Department is proposing to repeal the remaining rules in Section .0500, and to enact 12 new rules in a new section – Section .0900.

9B. Explain: Pursuant to the North Carolina General Statutes, the Commissioner of Insurance is directed to establish and modify from time to time insurance public protective districts for all rural areas of the State and for cities with populations of 100,000 or fewer. The standards are required to be at least as effective as the standards established by the Insurance Services Office, Inc. To that end, over the years the rules contained in Title 11, Subchapter 05A, Section .0500 have been utilized by the Department's Office of the State Fire Marshall (OSFM) to conduct inspections to assign a public protection classification rating to fire departments across the state. The rules in Section .0500 are outdated, and in need of updating. In order to clarify and streamline the departmental rules regarding inspections of fire departments for purposes of public protection classification ratings, the Department is proposing to repeal the remaining rules in Section .0500, and to enact 12 new rules in a new section – Section .0900.

<b>9B. Explain:</b> Pursuant to the North Carolina General Statutes, the Commissioner of Insurance is directed to establish and modify from time to time insurance public protective districts for all rural areas of the State and for cities with populations of 100,000 or fewer. The standards are required to be at least as effective as the standards established by the Insurance Services Office, Inc. To that end, over the years the rules contained in Title 11, Subchapter 05A, Section .0500 have been utilized by the Department's Office of the State Fire Marshall (OSFM) to conduct inspections to assign a public protection classification rating to fire departments across the state. The rules in Section .0500 are outdated, and in need of updating. In order to clarify and streamline the departmental rules regarding inspections of fire departments for purposes of public protection classification ratings, the Department is proposing to repeal the remaining rules in Section .0500, and to enact 12 new rules in a new section – Section .0900.

<b>9B. Explain:</b> Pursuant to the North Carolina General Statutes, the Commissioner of Insurance is directed to establish and modify from time to time insurance public protective districts for all rural areas of the State and for cities with populations of 100,000 or fewer. The standards are required to be at least as effective as the standards established by the Insurance Services Office, Inc. To that end, over the years the rules contained in Title 11, Subchapter 05A, Section .0500 have been utilized by the Department's Office of the State Fire Marshall (OSFM) to conduct inspections to assign a public protection classification rating to fire departments across the state. The rules in Section .0500 are outdated, and in need of updating. In order to clarify and streamline the departmental rules regarding inspections of fire departments for purposes of public protection classification ratings, the Department is proposing to repeal the remaining rules in Section .0500, and to enact 12 new rules in a new section – Section .0900.

Amendments to the rules are a result of stakeholder input indicating that, for closure of a soil remediation permitted facility, having a closure/cleanup standard based on a non-detection level of soil contamination is unreasonable. The Environmental Management Commission has determined it is scientifically and technically correct to use risk based levels that are protective of groundwater quality, human health, and the environment. The amendments in 15A NCAC 02T .1506 are not substantive and are grammatical in nature.
