12	Certification Section, 2711 Mail Service Center, Raleigh, NC 27699 2711 at a cost of three dollars					
13	<del>(\$3.00).</del>					
14	(a) A new facility or any addition or alteration to an existing facility whose construction documents were approved					
15	by the Construction Section on or after April 1, 2019 shall comply with the requirements provided in the codes,					
16	regulations, rules, and standards incorporated by reference in Items (1) through (3) of Rule .6101 of this Section. An					
17	existing facility whose construction documents were approved by the Construction Section prior to April 1, 2019 shall					
18	comply with the [eodes] codes, regulations, rules, and standards incorporated by reference in Items (1) through (3) of					
19	this Rule that were in effect at the time construction documents were approved by the Construction Section.					
20	(b) The facility shall develop and maintain an emergency preparedness program as required by 42 CFR Part 482.15					
21	Condition of Participation: Emergency Preparedness. The emergency preparedness program shall be developed with					
22	input from the local fire department and local emergency management agency. Documentation required to be					
23	maintained by 42 CFR Part 482.15 shall be maintained at the facility for at least three years and shall be made available					
24	to the Division during an inspection upon request.					
25	(c) The facility shall comply with the "Rules Governing the Sanitation of Hospitals, Nursing Homes, Adult Care					
26	Homes, and Other Institutions," 15A NCAC 18A .1300 of the North Carolina Division of Public Health.

1	10A NCAC 13B .6103 is rea	dopted with changes as published in 33:05 NCR 493-498 as follows:
2		
3	10A NCAC 13B .6103 A	<del>PPLICATION OF PHYSICAL PLANT REQUIREMENTS</del> <u>EQUIVALENCY AND</u>
4	<u>C</u>	ONFLICTS WITH REQUIREMENTS
5	The physical plant requirement	ents for each facility shall be applied as follows:
6	(1) New const	ruction shall comply with the requirements of Section .6000 of this Subchapter;
7	(2) Existing bu	tildings shall meet licensure and code requirements in effect at the time of construction,
8	alteration,	or modification;
9	(3) New addit	ions, alterations, modifications, and repairs shall meet the technical requirements of
10	Section .60	000 of this Subchapter, however, where strict conformance with current requirements
11	would be in	mpractical, the authority having jurisdiction may approve alternative measures where the
12	facility can	demonstrate to the Division's satisfaction that the alternative measures do not reduce the
13	safety or o	perating effectiveness of the facility;
14	(4) Rules cont	ained in Section .6000 of this Subchapter are minimum requirements and not intended to
15	<del>prohibit b</del> u	ildings, systems or operational conditions that exceed minimum requirements;
16	(5) Equivalence	ey: Alternate methods, procedures, design criteria, and functional variations from the
17	physical p	lant requirements, because of extraordinary circumstances, new programs, or unusual
18	conditions,	may be approved by the authority having jurisdiction when the facility can effectively
19	demonstrat	te to the Division's satisfaction, that the intent of the physical plant requirements are met
20	and that the	e variation does not reduce the safety or operational effectiveness of the facility; and
21	(6) Where rule	es, codes, or standards have any conflict, the most stringent requirement shall apply.
22	(a) The Division may grant a	an equivalency to allow an alternate design or functional variation from the requirements
23	in Rule .3102 and the Rules	contained in Sections .6000 through .6200 of this Subchapter. The equivalency may be
24	granted by the Division if a	governing body submits a written equivalency request to the Division that [indicates]
25	states the following:	
26	(1) the rule cit	ation and the rule requirement that will not be met;
27	(2) the justification	ation for the equivalency; and
28	(3) how the p	roposed equivalency meets the intent of the corresponding rule [requirement; and]
29	<u>requiremer</u>	u <mark>t.</mark>
30	[ <del>(4) a statemen</del>	t by the governing body that the
31	In determining whether to g	rant an equivalency request the Division shall consider whether the request will [not]
32	reduce the safety and operati	onal effectiveness of the facility design and layout. The governing body shall maintain a
33	copy of the approved equival	ence issued by the Division.
34	(b) If the rules, codes, or star	ndards contained in this Subchapter conflict, the most restrictive requirement shall apply.
35		
36	History Note: Authority C	G.S. 131E-79;
37	Eff. Januar	y 1, <del>1996.</del> <u>1996;</u>

Readopted Eff. April 1, 2019.
