Seth,

I am working on these technical corrections. In number 2, you mention that highlighting should only be used for amendments. Do you mean when an existing rule is being amended, or when an adopted rule has changes that turn into amendments?

Seth,

I have finished going through the petition rules that appear to need updates. There are the three rules that had changes, and I've removed the highlighting in those. In the eleven rules that were adopted without changes, I have underlined the text and effective date so they follow the same formatting as the example on the RRC's website. If this does not remedy the technical issues or if anything else is needed for the petition rules, please let me know.

08 NCAC 22 .0201 is adopted as published in 39:18 NCR 1209-1210 as follows:

SECTION .0200 – VERIFICATION OF PETITIONS

**08 NCAC 22 .0201 PETITION SIGNATURE VERIFICATION BY COUNTY BOARDS OF
ELECTIONS**

(a) A county board of elections official shall conduct signature verification of completed original signature sheets in accordance with this Rule. For the purposes of this Section, an official includes the county board chair, or the county director of elections or other county board staff member delegated the duty to conduct signature verification.

(b) A petition signer's signature on a signature sheet shall count towards the petition's signature requirement if the official conducting signature verification determines that the petition signer's signature bears a reasonable resemblance to a signature in the official registration record of an identifiable registered voter in the county whose corresponding information in the registration record (including signatures) matches that provided on the signature sheet, and the voter is qualified by law to sign the petition. If a signer's date of birth listed on a signature sheet does not align with that of a corresponding registered voter, that signature shall not constitute a match. An official shall not omit a petition signer from signature verification solely due to the petition signer's use of initials, printed text, or a mark for their signature.

(c) A reasonable resemblance in signatures is a similarity in appearance such that an ordinary person would conclude that the signature on the signature sheet is more likely than not the signature of a registered voter. The official shall make this determination based on a review of the following characteristics of the signatures:

- (1) the style of the signatures, including the use of cursive or print;
- (2) spacing and proportions of letters in the signatures;
- (3) spelling and punctuation used in the signatures, including the use of initials;
- (4) size, curves, and loops of individual letters in the signatures; and
- (5) beginning and ending strokes in the signatures.

The official shall bear in mind that a person's signature can change over time, that a person does not sign their name the same exact way each time, and that signatures in voter registration records can be created through digital methods which may appear different than physical signatures created with a pen. If the signature on the signature sheet does not bear a reasonable resemblance to the most recent signature in the voter's registration record, the official shall review at least one other signature in the voter's registration record, if available, before making a final reasonable resemblance determination for that petition signer. If the petition signer has signed the signature sheet with their initials, printed name, or a mark, the official shall determine whether the petition signer's initials, printed name, or mark on the signature sheet bears a reasonable resemblance to a signature, initials, or mark in the matched voter's registration record.

(d) The official shall determine whether the petition signer is qualified by law to sign the petition as of the date the signature sheet is reviewed by the official. If the type of petition requires residency within a specific county or

1 district, the official shall not determine that the petition signer is qualified to sign the petition unless the address on
2 the signature sheet and the address in the voter's registration record are both within the required county or district.

(1) “New party petition” means a petition to be recognized as a political party pursuant to G.S. 163-96.

(2) “Prospective party” means a political party, including its officers and organizers, seeking recognition as a political party in the State through a new party petition.

08 NCAC 22 .0302 PROSPECTIVE PARTY NAME

(a) Within one business day of the filing of a petition request form for a new party petition, State Board staff shall compare the name of the prospective party against the names of the existing political parties recognized in the State and proceed as follows:

(1) If staff determines that the name of the prospective party contains any word that appears in the name of an existing political party, staff shall inform the petitioner in writing that the prospective party must choose a different name in accordance with G.S. 163-96(b).

(2) If staff determines that the name of the prospective party does not contain any word that appears in the name of an existing political party, staff shall refer the matter to the Executive Director. The Executive Director shall determine whether the prospective party's name is so similar to that of an existing political party recognized in the State that voters will be confused or misled in an election.

(b) When the Executive Director makes the determination required under Subparagraph (a)(2) of this Rule, the determination shall be transmitted in writing to the State Board. The State Board will then act on the determination as follows:

(1) If, after two calendar days following the transmission of the determination, no State Board member has raised an oral or written objection to the Executive Director's determination, the determination shall become effective.

(2) If a State Board member raises an oral or written objection to the Executive Director's determination within two calendar days following the transmission of the determination, the State Board shall decide the matter at a public meeting.

(c) If the name of a prospective party is approved because it has been determined that the name is not too similar to that of an existing political party recognized in the State, State Board staff shall inform the petitioner of that determination in writing and proceed under Rule .0104 of this Chapter.

(d) If the name of a prospective party is rejected because it has been determined that the name is too similar to that of an existing political party recognized in the State, State Board staff shall inform the petitioner of that determination in writing and that the prospective party must choose a different name in accordance with G.S. 163-96(b).

08 NCAC 22 .0306 is adopted with changes as published in 39:18 NCR 1213 as follows:

08 NCAC 22 .0306 SUFFICIENCY OF NEW PARTY PETITIONS

~~(a) The petitioner shall submit the prospective party's original verified signature sheets and signature certificates to the State Board no later than one month 30 days after receiving the verified signature sheets and certificates from a county board of elections. This requirement shall not act to extend the applicable statutory deadline for filing new party petitions with the State Board.~~

~~(b)~~ (a) After submitting verified signature sheets and signature certificates to the State Board, the petitioner shall notify the State Board of the prospective party's desire for the State Board to proceed with determining the sufficiency of its new party petition by submitting a written notice by mail or email to the State Board. ~~The notice shall include the number of verified signatures that the prospective party's records show it has submitted to the State Board and shall be accompanied by affidavits signed by each of the prospective party's petition circulators affirming that they informed the petition signers of the general intent and purpose of the prospective party before the petition signers signed the signature sheets.~~ The petitioner may submit any additional documentation that the prospective party believes will aid the State Board in its determination of the sufficiency of the new party petition.

~~(c)~~ (b) Within five business days of receiving the notice made pursuant to Paragraph ~~(b)~~ (a) of this Rule, State Board staff shall begin reviewing the signature sheets, signature certificates, and documentation that has been submitted by the prospective party for completeness and compliance with this Chapter and Chapter 163 of the General Statutes. As part of this review, State Board staff shall review a random sample of signature sheets using the same standards required of county boards in Rule .0201 of this Chapter. The random sample shall be of 1,000 verified signatures selected from all signature sheets that were reviewed by county boards. State Board staff shall thereafter prepare a report summarizing staff's findings regarding the new party petition and provide the completed report to the State Board. The report shall include an analysis of whether the results of the review of the random sample of signatures, when extrapolated to all verified signatures for the petition, would impact whether the petitioner has met the signature threshold requirement. This Paragraph shall not prevent State Board staff from initiating this review prior to receiving the notice from the petitioner.

~~(d)~~ (c) The State Board shall take the following into account when determining the sufficiency of a new party petition:

- (1) Whether the number of timely submitted, verified signatures is sufficient to meet the signature threshold requirement and congressional district signature requirement in G.S. 163-96(a)(2).
- (2) Whether the new party petition complied with the general requirements for the conduct of petitions in Section .0100 of this Chapter.
- (3) Whether the new party petition complied with the specific requirements for the conduct of new party petitions in this Section.
- (4) State Board staff's report prepared pursuant to Paragraph ~~(e)~~ (b) of this Rule.

1 ~~(d)~~ The State Board, ~~in making its determination, when determining the sufficiency of a new party petition,~~ shall
2 require that the petitioner provide additional documentation regarding the conduct of the petition when the chair or
3 two members of the State Board conclude that the documentation is likely to provide information that is both
4 relevant and material to the new party petition's compliance with the requirements of G.S. 163-96 and this Chapter,

Paul, et al.

The codifier and publication staff have identified several technical issues with your rules that will need to be resolved. Ideally this would be done before the RRC approves the rules.

Those issues are:

1. Any rule that has had changes from publication (including based on my requests) should say so in the intro statement. For example the intro statement to 08 NCAC 22 .0304 should be "08 NCAC 22 .0304 is adopted with changes as published in 39:18 NCR 1212 as follows:"
2. Permanent adoptions with changes should not have highlighting. The format requirements are spelled out here: <https://www.oah.nc.gov/rule-format-examples#RuleFormatExamplesforPublicationintheNCAdministrativeCode-6063> under the requirements for publication in code. But most relevant, a permanent adoption with no changes from publication should have the entirety of the text underlined. A permanent adoption with changes should have the text that is unchanged from publication without underlining, and any post-publication changes underlined. Highlighting only comes into play for amendments. I may have steered you wrong on this earlier.
3. The hyperlink in 21 .0106 on line 33 should be removed. Meaning the text of the email as formatted should be there, but it should not be a link.
4. As mentioned in 2) any adoptions with no changes from publication should have the entirety of the text underlined.

Please go through your rules and update to resolve these issues and send any updated rules to me as soon as possible.

Good afternoon,

I have reviewed your updated submissions, and at this point anticipate recommending approval of the final revised version of these rules.

I did draft a brief staff opinion on the local funds issue, attached. Let me know if you have any questions. Note, I agree that .0306 solely involves state board procedures, and that I was mistaken to raise the local funds issue on that rule.

Let me know if you have any questions.

RRC STAFF OPINION

PLEASE NOTE: THIS COMMUNICATION IS EITHER 1) ONLY THE RECOMMENDATION OF AN RRC STAFF ATTORNEY AS TO ACTION THAT THE ATTORNEY BELIEVES THE COMMISSION SHOULD TAKE ON THE CITED RULE AT ITS NEXT MEETING, OR 2) AN OPINION OF THAT ATTORNEY AS TO SOME MATTER CONCERNING THAT RULE. THE AGENCY AND MEMBERS OF THE PUBLIC ARE INVITED TO SUBMIT THEIR OWN COMMENTS AND RECOMMENDATIONS (ACCORDING TO RRC RULES) TO THE COMMISSION.

AGENCY: State Board of Elections

RULE CITATION: 08 NCAC 22 .0103, .0201, .0202

RECOMMENDATION DATE: July 25, 2025

RECOMMENDED ACTION:

- X Approve, but note staff's comment
- Object, based on:
- Lack of statutory authority
 - Unclear or ambiguous
 - Unnecessary
 - Failure to comply with the APA
- Extend the period of review

COMMENT:

These three rules lay out the procedures for local officials to handle and examine various election petitions. In each case, these were adoptions for procedures that did not have clear analogs in existing rules. Because these processes have the potential to require staff time to complete, I asked the agency for information as to how they determined local funds would not be impacted, pursuant to G.S. 150B-21.4(b).

The agency provided individualized responses for each rule, included in their response to my questions. However, three points were consistent across their responses:

- 1. These rules are about how county boards meet existing statutory obligations, not new obligations.*
- 2. The procedures that are described by the rules are equivalent to procedures that are currently being implemented through training, guidance, and software.*
- 3. These procedures will not require additional staff time compared to prior election cycles.*

Absent conflicting information, I am persuaded that these rules do not impact local funds such that a fiscal note was required.

08 NCAC 22 .0306 is adopted with changes as published in 39:18 NCR 1213 as follows:

08 NCAC 22 .0306 SUFFICIENCY OF NEW PARTY PETITIONS

~~(a) The petitioner shall submit the prospective party's original verified signature sheets and signature certificates to the State Board no later than one month 30 days after receiving the verified signature sheets and certificates from a county board of elections. This requirement shall not act to extend the applicable statutory deadline for filing new party petitions with the State Board.~~

~~(b)~~ (a) After submitting verified signature sheets and signature certificates to the State Board, the petitioner shall notify the State Board of the prospective party's desire for the State Board to proceed with determining the sufficiency of its new party petition by submitting a written notice by mail or email to the State Board. ~~The notice shall include the number of verified signatures that the prospective party's records show it has submitted to the State Board and shall be accompanied by affidavits signed by each of the prospective party's petition circulators affirming that they informed the petition signers of the general intent and purpose of the prospective party before the petition signers signed the signature sheets.~~ The petitioner may submit any additional documentation that the prospective party believes will aid the State Board in its determination of the sufficiency of the new party petition.

~~(c)~~ (b) Within five business days of receiving the notice made pursuant to Paragraph ~~(b)~~ (a) of this Rule, State Board staff shall begin reviewing the signature sheets, signature certificates, and documentation that has been submitted by the prospective party for completeness and compliance with this Chapter and Chapter 163 of the General Statutes. As part of this review, State Board staff shall review a random sample of signature sheets using the same standards required of county boards in Rule .0201 of this Chapter. The random sample shall be of 1,000 verified signatures selected from all signature sheets that were reviewed by county boards. State Board staff shall thereafter prepare a report summarizing staff's findings regarding the new party petition and provide the completed report to the State Board. The report shall include an analysis of whether the results of the review of the random sample of signatures, when extrapolated to all verified signatures for the petition, would impact whether the petitioner has met the signature threshold requirement. This Paragraph shall not prevent State Board staff from initiating this review prior to receiving the notice from the petitioner.

~~(d)~~ (c) The State Board shall take the following into account when determining the sufficiency of a new party petition:

- (1) Whether the number of timely submitted, verified signatures is sufficient to meet the signature threshold requirement and congressional district signature requirement in G.S. 163-96(a)(2).
- (2) Whether the new party petition complied with the general requirements for the conduct of petitions in Section .0100 of this Chapter.
- (3) Whether the new party petition complied with the specific requirements for the conduct of new party petitions in this Section.
- (4) State Board staff's report prepared pursuant to Paragraph ~~(e)~~ (b) of this Rule.

1 (d) The State Board, ~~in making its determination,~~ when determining the sufficiency of a new party petition, shall
2 require that the petitioner provide additional documentation regarding the conduct of the petition when the chair or
3 two members of the State Board conclude that the documentation is likely to provide information that is both
4 relevant and material to the new party petition's compliance with the requirements of G.S. 163-96 and this Chapter,
5 the information sought is not unnecessarily duplicative of documentation already submitted by the petitioner, and the
6 request is not likely to subject the petitioner to undue burden, expense, or delay in the consideration of their petition.
7 The State Board shall inform the petitioner of the requirement to provide additional documentation in writing and
8 shall serve the petitioner in the same manner as allowed for service of subpoenas in the North Carolina Rules of
9 Civil Procedure.

10 ~~(e)~~ ~~(d)~~ (e) The State Board's decision whether to recognize the prospective party as a political party in North
11 Carolina shall be made in an open meeting by a majority vote of the State Board members. The State Board shall
12 recognize the prospective party as a political party in North Carolina only if the State Board has determined the
13 petition is sufficient in accordance with G.S. 163-96 and this Rule.

Updates have been made to both Form 0400 and the intro statement to the rule.

On lines 15 through 17, what determines if receipts, debts, or expenditures are not required to be reported while inactive?

Rule 08 NCAC 21 .0204(d) states that bank fees and postage shall not prohibit a committee from qualifying for inactive status under paragraph (a). Since the committee is qualified for inactive status even when these expenditures occur, there is no obligation to resume filing reports and to disclose these expenditures while inactive. However, the Rule will require that these expenditures be disclosed on the report described in paragraph (c) when the committee exits inactive status based on receiving contributions or making *other* expenditures. If these expenditures are not disclosed upon exiting inactive status, reports and report balances will not accurately reflect committee the committee's financial status.

Other receipts, such as interest income, do not meet the definition of a contribution under G.S. 163-278.6(13). Since the committee is qualified for inactive status even when these receipts occur, there is no obligation to resume filing reports and to disclose these receipts while inactive. However, receipts would have been disclosed on an earlier report but for the committee's inactive status. If these receipts are not disclosed upon existing inactive status, reports and report balances will not accurately reflect the committee's financial status.

This rule, particularly paragraph (c) and (d), require particular actions on the part of the local board of elections in response to petitions. How are local boards handling this currently?

These paragraphs of this rule codify what is already the county board of elections standard processes when receiving a petition request form, and is what State Board staff have trained those officials to do when receiving a petition request form.

The current petition request form can be found on the State Board of Elections website at https://s3.amazonaws.com/dl.ncsbe.gov/Candidate%20Filing/Petitions/NC_Petition_Request_Fillable.pdf. Note the gray section at the bottom for board of elections use only, which explains that the official receiving the form will notate the pertinent information on the form and then provide the petitioner with a copy of the form. It is also a standard operating procedure for those officials to provide information about the requirements to a petitioner by referring them to the pertinent statute or resources on the State Board's website.

To the extent this rule places new or different requirements on local boards of elections, how did you determine that local funds would not be affected for your fiscal impact statement on the form?

The requirements in this rule are the same as what county boards of elections are already instructed to do.

The Rules Review Commission staff has completed its review of this Rule prior to the Commission's next meeting. The Commission has not yet reviewed this Rule and therefore there has not been a determination as to whether the Rule will be approved. You may email the reviewing attorney to inquire concerning the staff recommendation.

In reviewing this Rule, the staff recommends the following changes be made:

Form is missing adoption date.

The corrected form has been submitted.

This rule requires particular actions on the part of the local board of elections in response to petitions. How are local boards handling this currently?

This rule codifies what is already the county board of elections processes for conducting signature verification on a petition and is what State Board staff have trained those officials to do when conducting signature verification. The statutes that govern the types of petitions subject to these petition rules all require the county board of elections to verify the petition. See G.S. §§ 163-96, -107.1, -122, -123, -213.5, and -296. This means, as is typically described in the statutes, that the county board of elections must “examine the signatures on the petition” and compare them to the registration records of that county to determine if the signer of the petition is a registered voter in the county who is qualified to sign the petition. This process entails comparing the information and signature listed on the petition signature sheet with the information and signature in a record of a matched registered voter. The requirements and standards in this rule codify past guidance on how to go about comparing the information and signatures on petition signature sheets with the information and signatures on file in the county boards of elections registration records.

To the extent this rule places new or different requirements on local boards of elections, how did you determine that local funds would not be affected for your fiscal impact statement on the form?

The requirements in this rule are the same as what county boards of elections are already instructed to do.

AGENCY: Board of Elections

RULE CITATION: 08 NCAC 22 .0202

DEADLINE FOR RECEIPT: Monday, August 18, 2025

PLEASE NOTE: This request may extend to several pages. Please be sure you have reached the end of the document.

The Rules Review Commission staff has completed its review of this Rule prior to the Commission's next meeting. The Commission has not yet reviewed this Rule and therefore there has not been a determination as to whether the Rule will be approved. You may email the reviewing attorney to inquire concerning the staff recommendation.

In reviewing this Rule, the staff recommends the following changes be made:

Form is missing adoption date.

The corrected form has been submitted.

This rule requires particular actions on the part of the local board of elections in response to petitions. How are local boards handling this currently?

This rule codifies what is already the county board of elections processes for recording signature verification decisions on the physical signature sheet and in the petition module, maintaining copies for county board records, and issuing certificates required by statute identifying the number of verified signatures. This is also what State Board staff have trained those officials to do when carrying out those tasks. The petition statutes usually specify that the county board of elections is to mark on the signature sheet whether each signature has been verified (i.e., the signer is a qualified and registered voter), and then to issue a certificate stating that verification has resulted in a certain number of signatures being counted for the petition. *See e.g.*, G.S. §§ 163-96(c)(1) and (2), -122(a)(2), and -123(c)(1). This rule ensures uniformity in the manner of indicating a signature verification decision on the physical signature sheets (i.e., a checkmark or X). The county boards of elections have also been given regular guidance to make copies of the signature sheets for their own records in case there are any later disputes about the petition. That is particularly so when the originals must be returned to the petitioner to then file with the State Board of Elections. The rule codifies that best practice.

Finally, the petition module is the software currently used by county boards of elections officials to input the petition signers' information and then check that information against the registration records for the county to locate a possibly-matched voter. The module ties directly into the State Elections Information System (SEIMS) so that the reviewing official can compare the information on file and view an image of the matched voter's signature to complete the signature verification. This

Date submitted to agency: August 4, 2025

rule codifies the various codes already used to note the official's decision in the module, which occurs automatically in some instances as noted in the rule.

To the extent this rule places new or different requirements on local boards of elections, how did you determine that local funds would not be affected for your fiscal impact statement on the form?

The requirements in this rule are the same as what county boards of elections are already instructed to do.

Please retype the rule accordingly and resubmit it to our office at 1711 New Hope Church Road, Raleigh, North Carolina 27609.

Is the effect of item (e) that a new political party rejected for having a similar name will have to recollect signatures for a new party name?

Under G.S. § 163-96(b), “[t]he State Board of Elections shall reject petitions for the formation of a new party if the name chosen contains any word that appears in the name of any existing political party recognized in this State or if, in the State Board's opinion, the name is so similar to that of an existing political party recognized in this State as to confuse or mislead the voters at an election.” This statute does not specify when the rejection of the petition by the State Board occurs, meaning it could occur when the petition form is submitted, when the first signature sheet is submitted (i.e., the physical petition), or when the State Board eventually exercises its authority in G.S. § 163-96(a)(2) to “determine the sufficiency of [the] petitions filed with it.” This rule is establishing an official process for the name review to occur at the outset of the petition process to avoid the possibility that a party could start collecting signatures only to have the name rejected at some point during or at the end of the process.

I find the sentence on lines 11 and 12 somewhat confusing. What signatures wouldn't count?

Using this current election cycle of 2025-2028 as an example, if a prospective party starts petitioning in 2025 with an aim to be recognized before the 2026 general election, as noted on its petition request form, it may not collect enough signatures to meet the June 1, 2026, deadline under G.S. § 163-96(a)(2). In that scenario, the rule would permit them to continue to collect signatures towards recognition before the 2028 general election despite having originally aimed for recognition in a midterm election, because the 2028 general election is the next election in which the governor is elected.

For an example of when signatures would not count, if a prospective party begins petitioning in 2027 with an aim to be recognized before the 2028 general election, yet does not collect enough signatures before the statutory deadline of June 1, 2028, then the rule would not permit those already-collected signatures to be counted if the prospective party attempts again to be recognized in a new election cycle (i.e., after the 2028 election for governor).

The election for governor as the defining marker of the start and end of an election cycle for new party petitions is based on G.S. § 163-96(a)(2) requiring the petitioner to file petitions with a certain number of signatures based on “the most recent general election for Governor,” and for the petition to be filed before “the first general State election in which the new political party desires to participate.” As such, the prospective party is required by the statute to identify the statewide general election in which it desires to participate, which is defined as the “target election” in the adopted rule 08 NCAC 22 .0301. When completing the petition request form at the

Seth Ascher

Commission Counsel

Date submitted to agency: August 4, 2025

outset of the petition process, the petitioner must identify that target election, which is then used to identify the submission deadline on the State Board's petition tracker (listed as the expiration date). *See e.g.*, the North Carolina Forward Party's [petition tracker page](#). That information identifies for the public when the petition is expected to conclude, before the first election in which the petitioner is seeking to have candidates for the party listed on that election's ballot.

It may help to specify some of the nouns, i.e. on line 11 "pertaining to the original petition".

The agency would propose the following edits to the sentence in question on lines 11-12 to clarify which signatures are being referenced:

Only those verified signatures that were gathered during the election cycle ~~pertaining to~~
~~for~~ the petition may ~~continue to~~ be counted for the petition under its new target election.

On p. 2, line 1, did you intend this to be the beginning of a new paragraph? If not, you may want to consider it for readability. You would then also need to reletter current paragraph (d), starting on line 9.

The intent was for this to be in paragraph (c) with the list of information and materials to be taken into consideration by the State Board in its decision; however, the agency agrees with this suggestion and has made the following change for readability on lines 1 and 10 of page 2:

1 (d) The State Board, ~~in making its determination,~~ when determining the sufficiency of a new party petition, shall

...

10 ~~(e)~~ ~~(d)~~ (e) The State Board's decision whether to recognize the prospective party as a political party in North

This rule requires particular actions on the part of the state board of elections in response to petitions. How are local boards handling this currently?

Although this question asks how the county boards of elections are handling this currently, the agency believes the question is about State Board processes only since the rule does not speak to county board actions.

This rule largely codifies what is already the State Board processes for reviewing new party petitions that are filed with the agency. State Board staff have a standard practice of reviewing every single signature sheet that is submitted to the State Board to do quality control checks, including confirming that signature sheets have the

Seth Ascher
Commission Counsel

Date submitted to agency: August 4, 2025

required information and signatures necessary for the county board to have completed its signature verification, confirming that the sheets have been notated with the county boards' signature verification results and that those notations appear accurate, and examining the sheets for signs of fraudulent activity. Staff also run reports to confirm that the number of verified signatures matches what is in the petition tracker on the State Board's website, which reflects the numbers of signatures that the county boards have noted as verified in the petition module, as well as another report to ensure the requirement in G.S. § 163-96(a)(2) has been met to have at least 200 verified signatures in three different congressional districts. Staff also review each certificate included with the petitions to confirm the amount stated on the certificate matches what has been submitted. And in the event any potential issues are identified throughout this review, State Board staff contact the county boards or the petitioner, depending on the issue. This review typically begins fairly soon after the petition tracker shows a prospective party has reached the signature threshold for the petition and the prospective party has delivered the original sheets to the State Board offices for staff's review. The review may also begin earlier depending on the workload at that point in the election calendar.

Once that review is complete, the standard procedure is for State Board staff to prepare a report for the State Board summarizing the results of staff's review of the petition, along with any other pertinent information provided by the county boards, the prospective party, or any third-parties who provided information about the petition. Staff then present the report and information to the State Board in an open meeting, and answer any questions the State Board may have as it considers the petition. These are all current procedures of State Board staff that would be codified by the rule.

Paragraph (b) of the rule includes a requirement for staff to review a random sample of the signatures, in essentially what amounts to an audit of the county boards' review of the signature sheets, using the same standards that those county boards used for signature verification. Conducting signature verification in this way at the State Board would only be a slight variation on the processes already taken to review every single signature on new party petitions, as discussed above. And conducting a more thorough review of signatures has been done in the past when the need has arisen to assist the State Board in determining the sufficiency of a new party petition.

To the extent this rule places new or different requirements on the state board of elections, how did you determine that state funds would not be affected for your fiscal impact statement on the form?

The staff member who would conduct the random sample review discussed above, which is the only new or different requirement established by this rule, is the State Board's petition specialist. This is a current, permanent position where the staff member is already tasked with handling all petition-related matters, including review of the new party petitions that are filed at the State Board. In other words, it would be another part of their regular job duties, as opposed to requiring the hiring of a new staff member, temporary employee, or contractor.

Brian,

I'll let the Commission know you were present and wanted to speak in answer to their question but were unable due to technical issues. I don't foresee any need to revisit the issue at the next meeting and that should address any lingering concerns.

For future reference, if a similar situation arises due to technical issues, you can email one of the staff counsel during the meeting. We purposely monitor our emails during the meeting just in case there is such an issue (which there usually isn't).

Thanks, Paul.

Seth, please include me in the webex invite. As Paul noted, I attempted to appear by Webex at the last meeting, and there was apparently some issue with my comments not appearing in the chat when I offered to answer questions for the agency. We will attempt to always attend meetings in person, but would also like to be included in the webex forum in case something comes up and we are forced to appear before RRC in that manner.

Thanks again,

BPL

Thanks for your work on these, Seth. We'll work through these comments and get back soon. The adoption date was definitely an oversight on the forms. These were all adopted by the State Board on [June 24, 2025](#). We'll submit updated forms.

Our chief of staff Brian LiVecchi attended the last RRC meeting on Webex and was attempting to chat and speak on behalf of the State Board but was unable to via the Webex. I'll let him chime in to provide any further info on that.

Paul

Subject: Board of Elections RFC- August 2025

Good afternoon,

I'm the attorney who reviewed the Rules submitted by the Board of Elections for the August 2025 RRC meeting. The RRC will formally review these Rules at its meeting on Thursday, August 28, 2025, at 10:00 a.m. The meeting will be a hybrid of in-person and WebEx attendance, and an evite should be sent to you as we get close to the meeting. If there are any other representatives from your agency who want to attend virtually, let me know prior to the meeting, and we will get evites out to them as well.

Attached is the Request for Changes Pursuant to G.S. 150B-21.10. Please submit your responses, the revised Rules, and forms to me via email, no later than 5 p.m. on August 18, 2025.

Two notes:

1. You've consistently left the "adoption by agency" date blank on the forms. This will need to be updated and you will need to send in new versions of all the forms.
2. Across multiple rules, I have asked a similar question about the current way of handling petitions and why specifying procedures won't impact local or state funds (due to staffing etc.) It may be that the answer to all these questions is the same or similar, and if so feel free to just answer once.

Please let me know if you have any questions of concerns.
