Explain: The proposed rule adoption would delegate proclamation authority to the Fisheries Director to issue a proclamation to manage the false albacore fishery if landings exceed a predetermined threshold, with prior consent by the Marine Fisheries Commission (MFC). False albacore (<i>Euthynnus alletteratus</i>), also known as "little tunny", is not managed at the state nor federal level in North Carolina nor in any Atlantic waters on the east coast of the United States. North Carolina does not currently have any means to manage this fishery and the MFC is seeking the ability to do so to be prepared if the fishery continues to expand. The need for potential management was identified when there was concern expressed by the recreational fishing industry and the MFC that commercial and recreational landings have increased annually over the last 10 years and that the pressure could continue to increase over time with no tool available to implement management. The proposed rule adoption could be the first regulation for the false albacore fishery implemented in Atlantic waters.

9. REASON FOR ACTION 9A. What prompted this action? Check all that apply: <input type="checkbox"/> Agency <input type="checkbox"/> Court order / cite: <input type="checkbox"/> Federal statute / cite: <input type="checkbox"/> Federal regulation / cite: <input checked="" type="checkbox"/> Legislation enacted by the General Assembly Cite Session Law: G.S. § 113-300.7 <input type="checkbox"/> Petition for rule-making <input type="checkbox"/> Other: 9B. Explain: The proposed adoption of these six rules would comply with the Wildlife Violator Compact Act (WVC). The N.C. General Assembly enacted the WVC in statute (Article 22B) via Senate Bill 175 in 2008. The bill was signed into law on July 14, 2008, and became effective on October 1, 2008. In 2009, House Bill 105 added the N.C. Marine Fisheries Commission (MFC) and the N.C. Division of Marine Fisheries (DMF) to the WVC and all species of animals they protect or regulate to the definition of "wildlife". This act became effective on October 1, 2009. Article 22B includes G.S. § 113-300.7, which requires the N.C. Wildlife Resources Commission (WRC) and the MFC to adopt rules necessary to carry out the purpose of Article 22B. The legislation requires the WRC to adopt its rules first, which it did, effective August 1, 2017. The WVC would have two primary benefits pertaining to the wildlife resources under the authority of the MFC and the DMF: 1) reciprocal recognition of license suspensions with WVC participating states; and 2) enhanced flexibility for fair and impartial treatment of non-resident violators. North Carolina's participation in the WVC gives N.C. agencies a mechanism to increase accountability on wildlife violators who have been suspended in other jurisdictions. The adoption of MFC rules would allow DMF to hold those wildlife violators accountable and would result in the N.C. Marine Patrol being able to treat all wildlife violators equally, regardless of their state residency. By providing a mechanism to suspend licenses in outside jurisdictions there is a consequence for those charged should they fail to appear in court or fail to comply, thus serving as a deterrent for wildlife violators from outside jurisdictions.
