9B. Explain: Pursuant to GS 150B-21.3A, Periodic Review and Expiration of Existing Rules, all rules are reviewed at least every 10 years, or they shall expire. As a result of the periodic review of Chapter 10A NCAC 15, Radiation Protection, this rule was determined as "Necessary With Substantive Public Interest," requiring readoption. With input from a stakeholder workgroup, substantial revisions have been made to this Rule for readoption to remove the requirement to comply with the provisions of Rule .0309 for the manufacturing, installation, and servicing of certain devices from the Rule, incorporate the federal regulations found in 10 CFR 70 by reference, and to reorganize the Rule into paragraphs with subdivisions where appropriate to improve readability.

9B. Explain: The Radiation Protection Commission (RPC) is working on rules for readoption resulting from the Periodic Review and Expiration of Existing Rules for Chapter 10A NCAC 15, Radiation Protection. With input from the Industrial Radiography Workgroup of the RPC, these rules are repealed due to rule requirement redundancy with another rule in this Chapter. Amendments being made in Rule 10A NCAC 15 .0501 refer to the CFR with the same requirements addressed in these rules; therefore, these rules are not necessary.

9B. Explain: <small>REASON: Community school buildings are the most important facilities in our local communities. Current required manual fire alarm systems do not provide adequate notification when the building isn't occupied. Due to the increase of introducing kitchen appliances in these buildings, there are documented fires that have happened, and this instance was discovered by a motion detector burglar alarm. If fires occur in these occupancies without prompt notification to responding agencies, we have the potential to lose a valuable community structure. Risk reduction is driving this code change. It is imperative we maintain a healthy community by providing early detection in these facilities where we have a chance for responding firefighters to act in earlier stages of fire development.</small> The delayed effective date of this Rule is January 1, 2025. The Statutory authority for Rule-making is G. S. 143-136; 143-138.

9B. Explain: The purpose of this amendment is to clarify that an alteration level 2 can be performed without requiring an automatic sprinkler system for Group R-3 occupancy classifications when the building contains a maximum of two dwelling units in a low rise building and is not otherwise required to be sprinklered. This is consistent with the sprinkler requirements for a change use as addressed in NCEBC Section 1011.2.1.2 and Table 1011.2.1 for Group R-3 as well as Section 904. The delayed effective date of this Rule is January 1, 2025. The Statutory authority for Rule-making is G. S. 143-136; 143-138.

9B. Explain: This proposal adds a new referenced standard: ACI CODE 440.11-22: Structural Concrete Buildings Reinforced Internally with Fiber Reinforced Polymer (FRP) Bars – Code Requirements. The addition of this new standard allows the design and construction of cast-inplace reinforced concrete using non-metallic reinforcement bars. The design and construction requirements contained in the standard are limited to use in structures assigned to Seismic Design Category A, B or C where fire resistance ratings are not required (Section 4.11.1). It further clarifies that GFRP bars shall not be permitted for structure elements assigned to Seismic Design Category B and C where part of seismic force-resisting systems (Section 4.4.6.5). The delayed effective date of this Rule is January 1, 2025. The Statutory authority for Rule-making is G. S. 143-136; 143-138.

9B. Explain: <small>REASON: As a typical model home has an office in the garage, the business occupancy is not intended to be permanent. The residential areas are outside that business area. Allowing the use of water for the residential area is reasonable, if there is a temporary ADA accessible portable toilet placed and serviced outside the model home during the time that the sales office is operating. The business staff and the general public should know and/or be directed to the portable ADA accessible toilet. A simple sign stating, "This is not an accessible toilet" on the door and/or a directional sign outside to the portable ADA accessible toilet seems logical. If a staff member or the general public choose to use a non-ADA accessible room in the residential area of the building, then that is their choice. Providing a clean and sanitary finished area inside model homes is important to the health of the staff and general public.</small> The delayed effective date of this Rule is January 1, 2025. The Statutory authority for Rule-making is G. S. 143-136; 143-138.

9B. Explain: This amendment is proposed to protect the public by requiring sheathing inspections where the sheathing is a major structural component for the lateral force resisting system. NC General Assembly Session Law 108, which became law on 8/16/23, limits permanent rules regarding sheathing inspections to regions in NC where the ultimate wind speed is 140 miles per hour or higher. A previous version of the bill prohibited the requirement of sheathing inspections in its entirety however, concessions were made to address public concerns.
