The existing rule addresses patient history information requirements, drug utilization reviews, offers to counsel and counseling in a non-chronological and circuitous fashion. The amended rule would address these topics in a sequential work-flow order. It further would clarify how the rule operates, and may differ, in different practice settings. Substantively, the amendment would provide for initial general counseling to take place through recorded technological means, in cases where that is appropriate. There were no written or verbal comments about the amendments. Note that, although the amendments were agency-driven, the Omnibus Budget and Reconciliation Act of 1990, P.L. 101-508, requires states to have patient counseling rules such as .2504 in order to receive federal Medicaid funding.</p>
