9B. Explain: The amendments to this rule will align it with statute and provide clarity pertaining to the staff/child ratios and multi-age group allowance. The amendments include two additional options for a child care center to choose--one that would permit a center to group four-year-old children up to age six together and the other for six-year-old children through age 12 to be grouped together. Other amendments make this rule inclusive of all age groups served by licensed child care by adding in appropriate multi-age ratios for school-age children.

9B. Explain: The adoption of this rule clarifies a 2020 statute change to N.C.G.S. § 110-86(2)(i) that exempted cooperative arrangements for “instructional needs” from child care licensure requirements. The rule defines “cooperative arrangements for instructional needs” to clarify that cooperative arrangements that are for the purpose of facilitating school-aged children’s education, instruction would not be subject to licensure.

9B. Explain: This amendment corrects a conflict with another rule regarding outdoor space requirements in child care facilities. The amendment alters the way the space is calculated--changing it from a percentage of the capacity to the number of children using it, which is how outdoor space is calculated in the minimum standards section. This amendment is an approach to understanding the space requirements and for those interested in a two through five star rated license, building from minimum to enhanced standards. The amendment increases the square footage to 100 square feet of the outside learning environment for each child.

9B. Explain: <i>Session Law 2021-3, Section 2.9.(a), permits "immunizing pharmacists" (as defined by statute) to administer long-acting injectable medications to adults pursuant to prescription. The law became effective on October 1, 2021, and the Board of Pharmacy adopted a temporary rule (21 NCAC 46 .2514) to implement the section, as permitted by the statute. Because of the placement of the long-acting injectable authority in the "immunizing pharmacist" statute (90-85.15B), a permanent rule governing the administration of these drugs was required to be approved by both the Board of Pharmacy and the Medical Board. The Board of Pharmacy proposed adoption of a permanent version of Rule .2514. The proposed rule put appropriate standards in place for training, recordkeeping and other requirements needed to ensure that the drugs are administered with adequate protection of the public health, safety, and welfare (NC Register, Volume 36, Issue 16, pages 1393). After successfully completing the rulemaking process, amended rule 21 NCAC 46 .2507 and permanent rule 21 NCAC 46 .2514 became effective July 1, 2022. The Board of Nursing Administrative Code 21 NCAC 36 .0221 (e) reads: "Pharmacists may administer drugs in accordance with 21 NCAC 46 .2507." Based on adoption of permanent rule 21 NCAC 46 .2514, the Board of Nursing rule needs to be amended to include the new reference.</i>

9B. Explain: The Rule describes circumstances when an employee may be separated from state employment by their employing agency and a detailed notice process to do so. The changes to subdivision (a)(3) of the Rule match agencies' current practice to allow separation when an employee is working with restrictions due to a work-related injury and is unable to return to all of the position's essential duties. This will clarify procedures for Human Resources staff. See Rule for all the applicable conditions. The changes to subsection (c) of the Rule update it to match the burden of proof listed in the third sentence of G.S. 126-34.02(b)(3).
