9B. Explain: The Board is amending 11 NCAC 08 .0602 to eliminate a provision that allows an applicant to obtain a probationary Level III code enforcement certificate solely by passing a community college course examination, without first meeting progressive experience and examination requirements. The existing language permits individuals without sufficient demonstrated competency to exercise the statutory powers of a code enforcement official and perform inspections of complex and high-risk structures. The amendment restores the Board's intended qualification framework and protects the public health, safety, and welfare by ensuring that Level III certificate holders meet appropriate experience and competency standards.
