| 9B. Explain: The State Board of Elections is authorized by G.S. 163-82.14 to conduct list maintenance and remove the names of ineligible voters from the voter rolls, and the State Board is authorized by G.S. 163-82.26 to adopt rules regarding list maintenance. The State Board proposed and adopted a series of four rules that direct the county boards of elections on carrying out procedures for conducting list maintenance based on a registered voter's possible ineligibility due to not being a citizen of the United States. These rules direct the county boards to follow procedures already in statute for conducting voter registration challenges while providing structure to the process. This rule is a definitions rule. | |

| 9B. Explain: This set of rules was repealed by the NC Child Care Commission in response to the adoption of Child Care Rule 10A NCAC 09 Section .3200, following Session Laws 2023-40 and 2024-34 regarding the modernization of the state's quality rating improvement system (QRIS). QRIS is based on a star-rating licensing system that applies to child care centers and family child care homes that meet all minimum child care requirements which include but are not limited to health and safety standards and those who voluntarily choose to meet higher standards. The repeal of 10A NCAC 09 Section .2800 removes former QRIS requirements which are no longer applicable to licensed child care facilities in North Carolina with the adoption of Section .3200 which became effective July 1, 2025. | |

| 9B. Explain: This set of rules was repealed by the NC Child Care Commission in response to the adoption of Child Care Rule 10A NCAC 09 Section .3200, following Session Laws 2023-40 and 2024-34 regarding the modernization of the state's quality rating improvement system (QRIS). QRIS is based on a star-rating licensing system that applies to child care centers and family child care homes that meet all minimum child care requirements which include but are not limited to health and safety standards and those who voluntarily choose to meet higher standards. The repeal of 10A NCAC 09 Section .2800 removes former QRIS requirements which are no longer applicable to licensed child care facilities in North Carolina with the adoption of Section .3200 which became effective July 1, 2025. | |

Explain: This set of rules was repealed by the NC Child Care Commission in response to the adoption of Child Care Rule 10A NCAC 09 Section .3200, following Session Laws 2023-40 and 2024-34 regarding the modernization of the state's quality rating improvement system (QRIS). QRIS is based on a star-rating licensing system that applies to child care centers and family child care homes that meet all minimum child care requirements which include but are not limited to health and safety standards and those who voluntarily choose to meet higher standards. The repeal of 10A NCAC 09 Section .2800 removes former QRIS requirements which are no longer applicable to licensed child care facilities in North Carolina with the adoption of Section .3200 which became effective July 1, 2025. | |

| 9B. Explain: The amendment to 11 NCAC 05A .0902 updates the purpose statement for the Section to reflect current inspection responsibilities and clarify how public protection classifications are assigned. The revisions modernize terminology, specify OSFM's role in inspecting eligible fire districts, and align the rule with the North Carolina Fire Suppression Rating Schedule. These updates improve clarity, ensure consistency with current practices, and support more accurate and transparent application of public protection classifications statewide. | |

| 9B. Explain: The amendment to 11 NCAC 05A .0905 updates and clarifies apparatus and equipment requirements to align with current NFPA standards and modern firefighting practices. The revisions refine engine and tanker specifications, incorporate contemporary testing and certification requirements, and update protective clothing provisions. The rule also adds requirements for apparatus registration and insurance and modernizes NFPA incorporations by reference. These changes strengthen safety, ensure consistency with national standards, and support more accurate and uniform application of equipment expectations during 9S inspections. | |

| 9B. Explain: The amendment to 11 NCAC 05A .0907 updates training requirements to reflect current practices and improve clarity regarding annual training expectations for firefighters and fire chiefs. The revisions standardize the 36-hour annual training period, clarify permissible EMS training hours, reaffirm the 48-hour departmental training requirement, and update training course expectations for fire chiefs. The rule also cross-references the updated recordkeeping rule. These changes promote consistency, support adequate preparedness, and align training standards with the broader 9S inspection framework. | |

| 9B. Explain: The amendment to 11 NCAC 05A .0909 updates structural fire response requirements to reflect current operational needs and ensure minimum staffing and water flow capabilities during emergency responses. The revisions clarify required firefighter response levels, including for departments with fewer than 15 eligible firefighters, reaffirm minimum engine response, and add a new requirement for maintaining incident reports for five years. These changes promote operational readiness, improve documentation standards, and support consistent evaluation of fire department performance during 9S inspections. | |

| 9B. Explain: Section 115C-105.37B of the General Statutes directs the State Board of Education to adopt rules to allow local boards of education to request authorization to implement school reform model in low-performing schools under their jurisdiction. Pursuant to that authority, on January 1, 2025, the State Board adopted 16 NCAC 06G .0317, which codifies existing State Board policies governing implementation of these school reform models. The rule governs the content of a local board’s request for authorization to adopt a school reform model, the State Board initial authorization, continuation, or removal of authority to implement that school reform model, and local board reporting requirements while operating under the approved school reform model. If the school is not realizing the desired results, the State Board can remove the local board’s authority to operate the school under the school reform model and require the local board to return to “normal” school operations. If a local board has improved student performance in a school operating under a Restart Model and requests to continue operating the school under the Restart Model, the State Board may continue the authorization for another five-year cycle unless the State Board determines that continuing to operate the school under the Restart Model is likely to result in lower indication of growth or achievement scores. The State Board has adopted amendments the rule to more accurately outline the requirements for the Restart Model, which to date is the only model for which any local board has requested authorization. To provide clarity and avoid one overly cumbersome rule, the State Board broken up Rule 06G .0317 into four smaller rules. The State Board has also readopted Rule 06G .0303 but replace its outdated content with a definitions rule governing the entire Section. | |

| 9B. Explain: Section 115C-105.37B of the General Statutes directs the State Board of Education to adopt rules to allow local boards of education to request authorization to implement school reform model in low-performing schools under their jurisdiction. Pursuant to that authority, on January 1, 2025, the State Board adopted 16 NCAC 06G .0317, which codifies existing State Board policies governing implementation of these school reform models. The rule governs the content of a local board’s request for authorization to adopt a school reform model, the State Board initial authorization, continuation, or removal of authority to implement that school reform model, and local board reporting requirements while operating under the approved school reform model. If the school is not realizing the desired results, the State Board can remove the local board’s authority to operate the school under the school reform model and require the local board to return to “normal” school operations. If a local board has improved student performance in a school operating under a Restart Model and requests to continue operating the school under the Restart Model, the State Board may continue the authorization for another five-year cycle unless the State Board determines that continuing to operate the school under the Restart Model is likely to result in lower indication of growth or achievement scores. | |
| <p>The State Board has adopted amendments the rule to more accurately outline the requirements for the Restart Model, which to date is the only model for which any local board has requested authorization. To provide clarity and avoid one overly cumbersome rule, the State Board broken up Rule 06G .0317 into four smaller rules. The State Board has also readopted Rule 06G .0303 but replace its outdated content with a definitions rule governing the entire Section.</p> | |

SUBMISSION FOR PERMANENT RULE

10. Rulemaking Coordinator: Ryan M. Collins
Phone: 984-236-2255
E-Mail: ryan.collins@dpi.nc.gov

Additional agency contact, if any: Michael Taranto
Phone: 984-236-2128
E-mail: michael.taranto@dpi.nc.gov

11. Signature of Agency Head* or Rule-making Coordinator:

***If this function has been delegated (reassigned) pursuant to G.S. 143B-10(a), submit a copy of the delegation with this form.**

Typed Name: Ryan M. Collins
Title: Deputy General Counsel

RRC AND OAH USE ONLY

Action taken:

- RRC extended period of review:
- RRC determined substantial changes:
- Withdrawn by agency
- Subject to Legislative Review

Rule 21 NCAC 50.0301 is being proposed for amendment to list a new category of limited license, Limited Plumbing Water Heater Replacement, which is the subject of rule 21 NCAC 50.0521 that is proposed for adoption. The Limited Plumbing Water Heater Replacement classification will enable this classification of license to replace water heaters only in detached residential settings and only where the water heater remains in the same area and no more than 10 lineal feet water piping is installed as part of the replacement. The purpose of this rule is to allow regulatory flexibility while ensuring public safety by confirming the individuals have demonstrated the skill and knowledge to perform this task safely and to code with no threat to the potable water supply. The amendment also cites to a proposed amendment to 21 NCAC 50.0306 as to the experience requirements to obtain this classification and that applicants must satisfy testing requirements set forth in this rule, as amended. Another amendment to this rule allows for a second path to demonstrated sufficient experience for Fire Inspection Contractors and Technicians by accepting certification criteria from Academy Certification Exams as well as the existing path through the National Institute for Certification in Engineering Technologies. The Board has compared those 2 pathways and determined them to be equivalent and believes the alternative path will open licensure as an option for more applicants.

| 9B. Explain: Rule 21 NCAC 50.0521 is proposed for adoption to establish a Limited Plumbing Water Heater Replacement classification. This classification of license will be allowed to replace water heaters in detached residential settings where the water heater remains in the same area and no more than 10 lineal feet water piping is installed as part of the replacement. The qualification of this classification are set forth in the proposed amendment to Rule 21 NCAC 50 .0306. The purpose of this rule is to allow regulatory flexibility to allow contractors that hold heating or fuel piping contractor or technician licenses for a minimum of 2 years, remain in good standing and have completed a 6-hour course to install replacement water heater in limited circumstances which would otherwise require the installation to be performed by a licensed plumber. These already licensed individuals have demonstrated the skill and knowledge to perform this task safely and to code. | |
