Proposed amendments to this rule align ratios and capacity for centers located in a residence with those already allowed in nonresidential child care centers for children ages 3 years and older. Specifically, proposed staff/child ratios for centers located in a residence are increased from 1/12 to 1/15 for children ages three and older. This aligns with existing staff/child ratios for child care centers who do not operate in a residential setting. This change applies only to centers located in a residence that have a licensed capacity of 13 to 15 children.</p>

The existing rule requires separate permits when drugs are dispensed from "separate locations" operated by a health care facility. This has caused confusion for entities -- such as larger hospitals -- that have multiple dispensing areas in the same hospital building or in attached or contiguous campus buildings. The amendment makes clear that separate dispensing areas for inpatient populations may operate under one permit, so long as they are in the same building or in a building on property contiguous to the principal permitted location. The amendment further removes unnecessary provisions covered by other statutes or rules. The rule amendment was recommended by a committee made up of Board members, pharmacists from hospitals of differing sizes, and pharmacists from other health care facility settings.</p>

The existing rule permits an ED to dispense a 24-hour supply of drugs to patients being discharged from the ED. Regulated entities approached the Board with concerns that limitation to a 24-hour supply poses problems with respect to (a) patients who may have difficulty getting additional prescriptions filled before the 24-hour supply expires (such as patients being discharged on weekends in rural areas) and (b) continuity of care for drugs that require longer courses of treatment and may create adverse effects in the case that they are interrupted. The amendment increases that limit to seven days. The rule amendment was recommended by a committee made up of Board members, pharmacists from hospitals of differing sizes, and pharmacists from other health care facility settings.</p>

9B. Explain: NC OSFM Code and Interpretations staff has repeatedly heard from stakeholders in the built environment that the code adoption process takes too much time as it seems that petitions sit for long periods of time between NCBCC meetings without any action on them. This petition aims to make the code adoption process more efficient to meet the demands of all stakeholders by speeding up the code adoption time by 90 days without adding additional NCBCC quarterly meetings. The delayed effective date of this Rule is January 1, 2025. The Statutory authority for Rule-making is G. S. 143-136; 143-138.
