9B. Explain: The purpose of these amendments is to add clarity to these rules by moving comments made by the Nuclear Regulatory Commission (NRC) during the public comment periods of the readoption phases for these rules from a single rule in Section .0100 to the rules that those comments pertain to in the other Sections of the Chapter. In addition, Rule .0307 is being amended to reduce the regulatory burden of the rule on the regulated community. These amendments do not change the intent of the current rules.

9B. Explain: 10A NCAC 41C Section .1000 implements Session Law 2021-180, Section 9G.8, which directs the Commission for Public Health to adopt rules as necessary to implement requirements for the testing and remediation of lead in drinking water in public schools and the inspection for and abatement of asbestos and lead-based paint hazards in public schools and licensed child care facilities. The proposed amendments extend the deadline for public schools and licensed child care facilities to complete required tests and inspections from May 1, 2024 to June 30, 2027. This is expected to increase the number of facilities eligible for the funding mechanisms outlined in 10A NCAC 41C .1002. Under Session Law 2025-97, Section 6.9 the time period for associated funds to remain available was extended until June 30, 2027.
