10H .0101	District 3	Online	Regulation Comment	As a hunter, I find it despicable that you would allow controlled hunting in any form. That is not hunting, that is CRUELTY IN THE EXTREME. What kind of wussy would think that is hunting, I don't know, but I'd like to put him in the same situation so he could relate to the cruelty.	Thank you.	Wake	Smith, William L
10H .0101	District 5	Online	Regulation Comment	All rules allowing for the licensing or creation of barbaric "controlled hunting reserves" to be REVOKED.	Thank you.	Guilford	Barber, Andrew

10H .0101	District 2	Online	Regulation Comment	I am strongly opposed to the conduct of fox hunting utilizing live captive fox. The sport could be conducted using scent oils and dummy simulated fox at the end of the course. Please take action to stop the use of live fox.	Thank you.	New Hanover	Varley, Ronald

10H .0101	District 7	Online	Regulation Comment	PLEASE...I BEG...for mercy on animals that can not speak for themselves. 10H .0101	District 6	Online	Regulation Comment	Please refuse this license to kill any animal especially foxes. What kind of people are we to be so cruel and heartless. Please revoke this license and let us protect all life, human and animal.	Thank you for your repsonse.	Mecklenburg	Jones, Cheryl A
10H .0101	District 8	Online	Regulation Comment	I am requesting all rules allowing for the licensing or creation of barbaric "controlled hunting reserves" to be REVOKED. This is nothing but animal abuse --- which has been directly linked to domestic violence and beyond --- and sends a horrible message to the communities here and to the country and the world about any kind of ethical, moral, humane, or family values in this state!	Thank you for your repsonse.	McDowell	East, Jen
10H .0101	District 5	Online	Regulation Comment	Please do not allow these controlled hunting preserves. It is not good sportsmanship and promotes cruelty. I give to non-American wildlife from our tax refund, and my husband, M.C. Russell has a lifetime hunting permit. Now, if you can do something about deer overpopulation in our suburban areas, that would be good. The meat could help feed people who can't afford to belong to preserves, and it would help preserve our native understory.	Thank you.	Orange	Stenross, Barbara
10H .0101	District 1	Online	Regulation Comment	please do not allow controlled hunting preserves. these are inhumane.	Thank you.	Currituck	Ladd, Kate h

10H .0101	District 9	Online	Regulation Comment	Removing foxes or any wildlife out of the natural environment in order to be destroyed by a pack of dogs is inhumane. There is no "sport" in trapping an innocent animal in a confined space where escaping is not an option. Tormenting animals on such a level can lead to behavioral problems in the future such as violence to fellow humans including murder. Taxidermists often are asked to sell antlers to collectors and should be allowed. Many deer skins waste which could be tanned and sold for useful purpose. Antlers could be used in knife handles and sold. Even shed antlers can not be bought and sold at present which makes no sense to most people. We have dominion over animals and it is our responsibility to treat them well. This rule allows people to kill these animals any way they like, it doesn't say which specific methods are humane and which are not. Humane treatment should include life and death. 10H .1201	District 2	Online	Regulation Comment	Controlled fox hunting preserves are a NC tradition that I hope to see put to rest. As a practicing and licensed Veterinary professional, I see a huge potential for disease transmission and spread. Fox are vectors for rabies and distemper. Moving them from county to county and purposefully exposing dogs is dangerous to our wildlife and humans. Fox moved into pens are confined in unsanitary conditions during transport and possibility of disease transmission is inevitable. 10H .1201	District 4	Online	Regulation Comment	As a NC licensed wildlife rehabilitator it is obvious to me that this practice is purely animal cruelty. Note that NC wildlife rehabilitators are not legally permitted to handle provide rehabilitative care and release foxes back to the wild, nor can the public keep them as pets nor can they be kept captive as educational animals, primarily because they are rabies vector species. Keeping a fox in captivity should not be permitted, especially for the purpose of torture and cruelty under the guise of hunting. This is in no way humane hunting practice. 10H .1201	District 3	Online	Regulation Comment	Please modify this section to eliminate controlled fox hunts. NC does not need to be known for yet another form of animal abuse and torture. We're already known as a puppy mill state and as a state with some of the worst animal shelters in the country. Why encourage even more bad publicity, particularly when there are alternatives to live fox hunts. As far as regulation goes, knowing how poorly puppy mills and shelters are regulated in the state, how laughably minimal the standards are, that the wildlife commission, which, as I understand, has very limited inspectors, will not have a hope of regulating these "preserves" and requiring humane care. The standards are so low as to encourage abuse. Just look at the regulations! Minimal standards of housing and care. Please re-write the laws to eliminate this "sport". Let's encourage the rest of the country and world to enjoy our natural resources and to enjoy foxes in their natural environment, not as a product to be mauled and dismembered	Thank you for your repsonse. 10H .1201	District 2	Online	Regulation Comment	I am very much against this proposed rule. It is inhumane, unethical, and totally unfair to pen a fox and allow hunting dogs to maul it to death. 10H .1201	District 6	Online	Regulation Comment	"Fox penning" is a horrific blood sport that entails ripping foxes away from their wild homes and families, then dumping them into fenced-in enclosures where they are chased down by packs of frantic dogs, cornered, and often mauled. Please stop this cruelty.	Thank you for your repsonse.	Union	Johnson, Midori T
10H .1201	District 5	Online	Regulation Comment	Please revoke all rules allowing for licensing or creation of "controlled hunting reserves." This is not sport - it is providing land for animals to procreate for the express purpose of humans' being allowed to kill them. This seems to promote unnecessary destruction of living creatures. It seems extremely cruel to give animals a place to live and procreate only to have them killed for sport.	Thank you for your repsonse.	Guilford	Farlow, Joy I

It is torturous and wrong. I value the wildlife in this state and will be a voice to stand up for the rights of the animals being treated inhumanely, I believe that hunting, particularly controlled hunting, incites violence, not only toward animals but also to society. Anyone who could take pleasure in seeing a corned, frightened animal be mauled and tortured, has got to have psychological issues, and this form of "sport" is perpetuating violence. 10H .1201	District 5	Online	Regulation Comment	I request that all rules allowing for the licensing or creation of barbaric "controlled hunting reserves" to be revoked. The practice of removing animals from the wild, chased down by packs of frantic dogs, cornered, and often mauled is not "sport" - it is animal cruelty, and should be recognized as such. 10H .1201	District 1	Online	Regulation Comment	I am writing to ask that all rules pertaining to controlled fox and coyote hunting preserves be revoked. Animals kept on these "preserves" are kept against their will for the sole purpose of hunting for entertainment. There is nothing ethical or humane about this enterprise. This is nothing but canned hunting and is as barbaric as dog fighting, cock fighting, bear baiting or bull baiting. It caters to nothing but the baser instincts of the human participants and only encourages them to disrespect life and victimize animals. It speaks poorly of the people of North Carolina that terrorizing animals for fun is a legal activity. Please remedy this by revoking all licenses for fox and coyote hunting preserves. 10H .1201	District 6	Online	Regulation Comment	Having lived for too many years next to a "neighbor's" fox pens (at one time he had 3) which bordered on 3 sides of our property, I take this opportunity to share from the point of view of a witness. Dead foxes and dead dogs (summarily shot by owners for not performing properly) were tossed over the pen fences onto our land. The dogs were run day and night, frigid weather and parched. Due to the noise, we were never able to open our windows or enjoy our deck. When foxes became hard to procure, the "neighbor" (he actually lived miles away), imported coyotes for the dogs to run. The pens' owner received complaints for other neighbors, including members of a nearby church whose services were interrupted by the noise. This owner's standard reply was to threaten to shut down the pens and install chicken houses. The pens are shut down now because this princely man passed on. Forgive me for not citing your "Regulation" but hopefully, my words will still be read and digested. Thank you.	Thank you for your repsonse.	Richmond	Curtis, Lynne

10H .1201	District 6	Online	Regulation Comment	Fox hunting is a cruel sport. It shouldn't even be called a sport because there is nothing sporting about it. Trapping a fox in a fenced area where he has nowhere to run and then setting lose a pack of dogs to tear it apart is inhumane and cruel. Please stop this cruel practice.	Thank you for your repsonse. 10H .1201	District 3	Online	Regulation Comment	As an NC WRC card holder and active outdoorsman, I am quite frankly appaled at the notion of fox penning. No decent hunter would consider this a fair game. The fact that this rule is being considered is shocking. I hope that the NC WRC will make the responsible, ecological decision to put a stop to this cruel "sport". Part of our duties as fishermen and hunters is to preserve wildife for future generations and to play an active role in the natural world. Releasing hounds into a pen to chase down an animal, with no real means of escape is a coward's game, and sullies the reputation of true hunters and fishermen. Thank you for your consideration in the matter.	Thank you for your repsonse.	Wake	ANDERSON, BRIAN E

10H .1201	District 5	Online	Regulation Comment	I find this to be an appalling and barbaric practice, and it shocks me that in 2016 this is still a legal practice in North Carolina. No being, human or animal, should be subjected to this kind of senseless pain and suffering. 10H .1201	District 9	Online	Regulation Comment	I would like to comment on the Controlled Fox Hunting Preserves. I can see no societal good in this type of activity. The foxes or coyotes are not necessarily native to the penned area - and would only be brought into the pen so that they can be killed. They are purchased from breeders, it sounds like. It isn't the same situation as deer hunting (incredibly barbaric regardless), where it can be argued that not controlling the population will lead to negative impacts on local residents. This particular "sport" is no different than setting up a dog fighting ring - a criminal activity which should be punished more severely than it is today. Please don't encourage this savagery. Please stop being overly selfish and greedy in this, yes, barbaric and unintelligent transaction. In the end, this results into nothing positive for the animals and our human-"kind". 10H .1201	District 9	Online	Regulation Comment	This is absolutely inhumane and disgusting that anyone would think this is sport or entertainment. This is a blight on the humanity of North Carolinians. That Chief Hicks was appointed to the NC Wildlife Commission reeks of cronyism. This is not controlled hunting, a play on words. This is wild animal abuse and torture. If you can watch one of these videos and think this is ok you have lost your humanity. These are God's creatures. These poor fox don't even have a chance. I am a person who practices non-harming of all living beings. 10H .1201	District 3	Online	Regulation Comment	Although I have concerns about a number of these rules, controlled fox "hunting" preserves are by far my biggest concern. This is not hunting, this is a bloodsport. An escape every 35 acres, is no escape. This is an outdated, backwards rule that needs to be removed. Hunters should be appaled by this rule. While many hunters consider themselves an integral part of wildlife management and ecology, this ruins the reputation for all hunters.	Thank you.	Wake	Lane, Taylor K
10H .1201	District 9	Online	Regulation Comment	This is an outdated practice as many traditions now are which cause pain and suffering to people and animals (and the environment). No one needs to kill a fox, there is no viable gain from it. I've never heard of people surviving on fox meat. This if not superficial, is a perverse need to inflict one's need to harm upon another. It needs to stop. Most of us are teaching our kids to respect nature, not harm it and certainly not torture it. This controlled fox hunting is inhumane and egocentric. I guarantee you not one of the people seeking to continue the practice can hold an intelligent conversation of merit or integrity. Enough! Grow a backbone and listen to your heart, stop cruel practices which teach our kids the wrong message about humanity.	Thank you.	Haywood	Chambliss, Ashley

10H .1201	District 6	Online	Regulation Comment	This practice is cruel, and should not be allowed. The public is becoming more agreeable to measures that protect wildlife. 10H .1201	District 6	Online	Regulation Comment	Begging that this rule is not enforced - the idea of taking wild animals from their natural habitat and placing them inside an enclosed hunting area where they could not escape even if they wanted to is disgusting and horrible. While I don't support hunting, I understand why it's done but this is not hunting. There is a difference between hunting - even on a preserve reserved for such - and removing these animals from their habitats and placing them in an inescapable arena to be torn apart by dogs. Foxes are as much of an animal as are dogs and I would hope this legislature would not subject their precious lives to such a grueling and inevitable death. It makes me sick to my stomach to think our legislature would back such a regulation. Please consider the reality of this decision. Thank you.	Thank you.	Mecklenburg	Pepper, Jessica M

10H .1201	District 8	Online	Regulation Comment	I am concerned because-even with the best efforts of NC Wildlife Officers to prevent abuse- regulation will not stop the practice commonly called 'fox penning'. While officers strive to establish and maintain control by regulating cage sizes, length of captivity, means of capture and type of predator who may be taken, it is commonly known that the technical legality to hunt foxes is misused under the guise of "dog training" to inflict cruelty in the form of a "blood sport" where injured and/or weakened wild life are torn apart by domestic hunting dogs. The date, times, and location of such events can be, and are, secretly communicated between 'enthusiasts' without detection by wildlife services. The larger the preserve area- which should benefit captive wildlife- the more difficult it is for the limited resources of officials to monitor a preserves operations. Further, a species limitation may be more difficult to enforce since coyotes, foxes, bobcats and others may be taken in the s	Thank you.	Yancey	Furman, Cecelia

Taking a frightened, wild animal (and one closely related to a dog), dropping it into an enclosed area to be mauled by other dogs is akin to dog fighting - which is universally despised/illegal. Simply allowing something to persist because it "has always been legal" is not a justification. Foxes and wolves are 2 animals who live very difficult and dangerous lives just to stay alive fighting mother nature. Penning an animal, only to release it so other animals (dogs) can chase and corner it, so someone can shoot it is animal cruelty at it's worst. If someone was to do this with a domesticated animal or livestock, local animal control would arresting the people involved. What is the difference. 10H .1201	District 6	Online	Regulation Comment	All rules allowing for the licensing or creation of barbaric controlled hunting reserves should be revoked. This is a disgusting practice that often involves dumping defenseless foxes into pens where they are mercilessly chased down packs of dogs. That is the opposite of the definition of "sport", and it's totally dishonorable and frankly deplorable that we even allow such practice in the US. In particular under no circumstances should dogs be allowed to hunt and attack caged foxes or any other animal.. Isn't it time that North Carolinians want to not be the seen as the redneck careless and heartless people that are often portrayed in the media. Puppy mills, inadequate laws to allow or law enforcement to protect abused and neglected animals to the degree that they are too far gone to save are just a few examples of NC recent press. Thankfully, that is not representative of all NC citizens and i hope you will take this opportunity to relook at your responsibility to NC wildlife and to this state before making an extremely inhumane decision for which the suffering will be your direct responsibility. 10H .1206	District 6	Online	Regulation Comment	I am opposed to Fox Penning for live bait training which results in the immoral and gruesome deaths of foxes, and should not be encouraged as a part of the hunting tradition. Standard Best Practices for hunting must preserve the ethical treatment of game animals using approved methods within Fox Preserves. Pens create a loophole promoting the otherwise illegal trafficking of wild animals.	Thank you.	Mecklenburg	Markie, Kevin N
10H .1206	District 3	Online	Regulation Comment	I would like all rules allowing for the licensing or creation of Controlled Fox Hunting Preserves to be REVOKED Thank you very much	Thank you.	Wake	Hagan, Brian
10H .1206	District 9	Online	Regulation Comment	This is an outdated practice as many traditions now are which cause pain and suffering to people and animals (and the environment). No one needs to kill a fox, there is no viable gain from it. I've never heard of people surviving on fox meat. This if not superficial, is a perverse need to inflict one's need to harm upon another. It needs to stop. Most of us are teaching our kids to respect nature, not harm it and certainly not torture it. This controlled fox hunting is inhumane and egocentric. I guarantee you not one of the people seeking to continue the practice can hold an intelligent conversation of merit or integrity. Enough! Grow a backbone and listen to your heart, stop cruel practices which teach our kids the wrong message about humanity.	Thank you.	Haywood	Chambliss, Ashley

10H .1206	District 3	Online	Regulation Comment	Would it be possible to add a provision regarding humane treatment of animals, similar to that of 10H.1106? 10H .1206		Online	Regulation Comment	Escape enclosures for a fox/coyote should be a minimum of 1 escape per 10 acres in smaller enclosures, 100 acres or less. Escape enclosures for Preserves larger than 100 acres, should have a requirement of 1 escape per 20 acres. The 1 per 20 acres works well in the Preserves in Virginia. And most preserve owners EXCEED the requirement, in order to provide adequate relief for the fox/coyote being chased.	Thank you. Agency will consider your comment.		BISHOP, ALLAN L

10H .1206	District 5	Online	Regulation Comment	If fair chase is the objection that a dog-pooof escape den should be in each 5 acres. Wild animals will be very hard to acclimate to escape mechanism and probably impossible. All animals (dogs, Foxes and Coyotes) should have rabies shots given the number of wild animals found in NC with rabies.	Thank you for your repsonse. Agency will consider your comment. 10H .1206	District 8	Online	Regulation Comment	Controlled hunting "preserves" are inhumane & barbaric. If hunters have need to kill, require them to actually HUNT, not slaughter animals that have been removed from their natural habitats. Our fox populations are diminishing due to human encroachment &, more savagely, those who hunt & kill for pleasure. BAN this cruel & unnecessary "sport".	Thank you.	Gaston	Moose, Cindy
10H .1206	District 5	Online	Regulation Comment	I am sorry to come off as a pacifist, but I believe this situation sounds too much like the blood sports of old. It is merely entertainment for the ones holding the guns, to watch their prized pooches tear these smaller, outnumbered animals into pieces. There is no need for this kind of brutal sport to be legal. It is no different from cock fighting, dog fighting, etc. Please, it is embarrassing to be a resident in a state that would be seen as so I unenlightened. If they truly want to emulate a natural hunting environment, first and foremost they must take the guns away from the humans, and then they should take the pre-trained dogs out of it because a normal dog would not have an instinct to behave this way. Perhaps it would chase it away from it's yard, but this is just humans pulling the strings of animals and making them do horrible things to one another that none of them would ever do if not for us!!! This practice is no different than dog fighting, and if Michael Vick had been p	Thank you.	Orange	Keys, Kristen L

Additional escape dens are necessary to prevent exhaustion, injury and cruel deaths caused by dogs. (b) Adequate food, clean water, cover, rabies and other vaccines, medication and medical care as prescribed by the Wildlife Commission, shall be provided to maintain a viable population of foxes within the controlled fox hunting preserve. (c) Since the intent of these rules is to promote a fair chase situation involving a resident population of foxes, the operator -shall-make provisions to acclimate newly introduced fox es to the escape mechanisms located within the pen follow Wildlife Commission requirements for time allowed for acclimation prior to pursuing the foxes with dogs. 10H .1207	District 3	Online	Regulation Comment	Please revoke all licenses for controlled fox hunting effective immediately. There is no sportsmanship involve in killing a trapped, terrified animal - especially an intelligent canine who by nature is accustomed to running, playing, mating and surviving over large areas of wildlands. There is no reason for killing it at all, unless the hunter enjoys watching a sensitive animal suffer and die. Lets not glorify senseless cruelty. Lets put a stop to this vicious practice by not licensing any form of "controlled" fox hunting. Thank you for your time	Thank you.	Wake	Worrell, R
