Commission for MH/DD/SAS	10A NCAC 27G .2202	Staff	Other Statement	<p>The rule states 'Each center shall have a designated program director who has experience in developmental disabilities, and holds a baccalaureate degree with specialization in administration, education, social work, nursing, psychology or a related field or have comparable experience and education'. Some have read this to mean that they do not have to have a degree/education to be a program director. Can this be clarified? The way it is written it statesor have comparable experience and education but does this mean they have to have a degree or just experience in the field?</p>	<p>The rule permits the individual to have comparable experience and education.</p>
