Re: Objection to, and Request for Legislative Review of, [15A NCAC 10D .0240], re Jordan Gameland Camping

Members of the Commission:

This letter is an objection to the approval of 15A NCAC 10D .0240. We request that the above rule be reviewed in the upcoming legislative session as set out in N.C.G.S. 150B-21.3. We further request that the rule be subject to a delayed effective date as set out in that same provision.

This Wildlife Resources Commission rule is insufficiently specific regarding location of hunter camping areas in Jordan Gameland. Unlike some other NC gamelands, Jordan Gameland adjoins rapidly-suburbanizing zones, with high-traffic, mixed-use areas such as residential neighborhoods and parking lots that deserve safe distancing from hunter campgrounds. WRC hunter campgrounds elsewhere in the Piedmont concentrate human waste, trash, and deer carcasses, encourage illegal target shooting, and increase woodland fire risk. We would withdraw our objections if the text of the rule were amended to specify that campgrounds shall be located at least 350 yards from the nearest habitation, parking lot, or boat ramp.

This rule is also not necessary for WRC to designate a camping area on Jordan Gameland; WRC Deputy Dir of Operations communicated to us that WRC already has authority under existing rules [15A NCAC 10D .0102 (i)] to designate year-round camping areas on its property; he indicated that the new rule is intended simply to restrict the period during which camping will be permitted (i.e., hunting seasons only). A new rule designed primarily to offer restrictions can offer locational/safety as well as timing specifications for camping.

Thank you for your consideration.

Sincerely,

Gordon and Corinna Herbert

Re: 15A NCAC 10D .0240 -- Jordan Gameland Camping: Objection and Request for Legislative Review

Members of the Commission:

This letter is a statement of my objection to the approval of 15A NCAC 10D .0240. I request that the above rule be reviewed in the upcoming legislative session as set out in N.C.G.S. 150B-21.3. I further request that the rule(s) be subject to a delayed effective date as set out in that same provision.

The proposed Jordan Gameland would be in very close proximity to my neighborhood of The Downs (formerly known as Kingswood East) which is situated just a few hundred feet from a planned hunter camping ground. Generally speaking, I see no plausible way that any enforcement could take place consistently to ensure noise levels, hygiene, and other risk factors are mitigated due to the fact that, by the very nature of what a camping ground constitutes, there is no 24x7 monitoring by WRC personnel. While I understand WRC would visit the site periodically to ensure compliance of those who use it, it creates a needless opportunity for incidents to occur in the interim, possibly including but not limited to, altercations between neighbors of the community and campers who are likely armed with munitions.

I am therefore requesting that WRC find some alternate use for this tract of land that would have minimal impact to the community and that, more specifically, that use would not include any of the following: Disposal of human waste, disposal of animal carcasses, or any activity that would increase the proclivity for users to have firearms on their person.

Thank you.

Joe Murphy
